Independent Auditor's Report

October 11, 2026

To the Participants and Plan Administrator of the
Deployed Resources LLC 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Deployed Resources LLC 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or Federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the **Auditor's Responsibilities for the Audits of the Financial Statements** section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the **Auditor's Responsibilities for the Audits of the Financial Statements** section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the **Scope and Nature of the ERISA Section 103(a)(3)(C) Audit** section of our report, our objectives are to obtain reasonable assurance about whether the financial statements, as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control related matters that we identified during the audits.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Deployed Resources LLC 401(k) Plan

Notes to Financial Statements

Note 1 - Description of Plan

The following description of the Deployed Resources LLC (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a qualified defined-contribution plan under Section 401(a) of the Internal Revenue Code, with a Section 401(k) salary deferral provision covering all employees of the Company that have reached age eighteen and have completed two months of service. All assets acquired under the Plan are the result of employee and employer contributions thereto, and all income and other additions thereto are administered, distributed, forfeited or otherwise governed by the provisions of the Plan and the Employee Retirement Income Security Act of 1974 (ERISA).

Plan amendments - Effective January 1, 2024, the Plan was amended to change the vesting schedule for discretionary profit-sharing contributions to make participants 25% vested after one year of service, 50% vested after two years of service and 100% vested after three years of service. Additionally, effective January 1, 2024, the Plan was amended to allow for in-plan Roth rollovers, the definition of compensation was modified for certain fringe benefits and a provision was added to recognize service with certain affiliated employers for eligibility and vesting purposes.

Plan provisions - The Plan has implemented certain required provisions of the Setting Every Community Up for Retirement Enhancement (SECURE) Act of 2019 and the SECURE Act 2.0 of 2022. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and Internal Revenue Service guidance.

Contributions - Participants are allowed to make pre-tax or Roth elective salary deferral contributions up to 90% of covered compensation. Participants, who meet certain age requirements, are allowed to make catch-up elective deferrals. Participants are allowed to make rollover contributions to the Plan.

The Company will make annual Safe Harbor matching contributions to the Plan equal to 100% of the first 3% of participant deferrals and will match 50% of the next 2% of participant deferrals for a maximum Safe Harbor matching contribution of 4%. Safe Harbor contributions were $1,367,790 and $1,918,958 for the years ended December 31, 2025 and 2024, respectively, of which $65,708 and $130,502 remained receivable by the Plan as of December 31, 2025 and 2024, respectively. In addition, the Company may make additional discretionary profit-sharing contributions to the Plan, as determined annually by the management of the Company. There were no discretionary profit-sharing contributions for the years ended December 31, 2025 and 2024.

Participant accounts - Each participant's account is credited with the participant elective deferral contribution, the Company's contributions, plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined by the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants can access their account information online where they have the ability to change their elective deferrals and investment options, as well as apply for participant notes receivable and request distributions.

Investment options - Upon enrollment in the Plan, a participant may direct contributions in any of the investment options offered by the Plan. Participants may change their investment options online daily as discussed above.

Vesting - Participants are immediately vested in their elective salary deferrals and the Company's Safe Harbor contributions plus actual earnings thereon. Vesting in the remainder of their account is based on years of continuous service. As described above, the Plan was amended effective January 1, 2024, to revise vesting provisions for the remainder of participant accounts to be 25% vested after one year of service, 50% vested after two years of service and 100% vested after three years of service. Prior to January 1, 2024, participants became 20% vested in the remainder of their account after two years of service, which was increased by 20% for each successive year of service. Participants were previously 100% vested after six years of credited service.

Forfeited accounts - Forfeited non-vested accounts may be used to reduce employer contributions or reduce administrative expenses of the Plan. Forfeited non-vested accounts were insignificant as of December 31, 2025 and 2024.

Payment of benefits - Upon termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount or installment payments equal to the vested value of his or her account. Participants may also elect to rollover funds into another qualified plan or individual retirement account. Additionally, participants are permitted to make in-service withdrawals of account balances from the Plan. To qualify for this type of withdrawal, the participant must have attained the age of fifty-nine and one-half or must meet certain criteria for a hardship withdrawal, as outlined in the plan document; see below. Required minimum distributions are made once a participant reaches age seventy-two, as required by the Internal Revenue Code. Plan balances of $7,000 or less upon termination may be automatically distributed.

Notes receivable from participants - Participants may borrow a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their account balance from their accounts. The notes bear interest at a rate based on prevailing interest rates charged by financial institutions under similar terms at the date of issuance; however, the rate can be changed at the discretion of the plan administrator. The interest rate for loans ranged from 5.25% to 10.50% as of December 31, 2025. Principal and interest are paid ratably through payroll deductions. The term of the repayment period cannot exceed five years, except if the loan is used to acquire a residence, then the repayment period may be extended beyond five years. The notes are secured by the vested balance in the participant's account. According to requirements of the participant note

program, the plan administrator will treat a note in default if any scheduled payment remains unpaid beyond ninety days.

Deemed distributions - Deemed distributions represent the amount of unpaid principal on notes receivable from participants who are actively participating in the Plan and have not continued to make payments on their outstanding notes as required under the plan document. There were $2,611 and $2,364 of deemed distributions for the years ended December 31, 2025 and 2024, respectively.

Hardship withdrawals - A participant may apply for a hardship withdrawal to assist in the payment of several types of personal hardships, as defined by the plan agreement. Any hardship distribution is limited to the amount necessary to meet the financial need.

Plan termination and partial termination - Although it has not expressed any intent to do so, the Company has the right, under the plan agreement, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

In 2025, the Plan experienced a reduction in its participant count of greater than 20% due to a reduction in the Company's workforce that is considered a partial plan termination as defined by the Internal Revenue Service. Under a partial plan termination, all employees that terminated service during the year become 100% vested. However, all participants were 100% vested in the employer contribution portion of their accounts upon the partial plan termination, therefore the partial plan termination event did not require a revision to participant vesting.

Note 2 - Summary of accounting policies

Method of accounting - The Plan maintains its accounting records and financial statements on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of plan income and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Risks and uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit and overall market risk. Market risks include domestic and global events which could impact the value of investment securities. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Investment valuation and income recognition - Investments are stated at fair value (see Note 5), with the exception of a fully benefit-responsive investment contract which is valued at contract value (see Note 3). All investment values have been determined and certified by Transamerica Trust Company and Transamerica Financial Life Insurance Company, the Trustees of the Plan for 2025, and Reliance Trust Company, the Trustee of the Plan for 2024 (see Note 4). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Management individually reviews all notes receivable balances that exceed ninety days from the date of the most recent payment and based on the assessment of credit worthiness, estimates the portion, if any, of the balances that will not be collected. Currently, there is no valuation allowance recorded; however, management will record an allowance if and when potentially uncollectible notes receivable from participants becomes material. If a participant defaults on a note receivable and distribution from the participant's account has been made during the plan year because the participant has left the Plan, the defaulted note receivable will be reported as benefits paid to participants on the statements of changes in net assets available for benefits and deducted from the receivable balance.

Economic dependency and concentration of credit risk - Investments held by American Funds represent approximately 81% and 79% of the Plan's investments as of December 31, 2025 and 2024, respectively. Accordingly, the Plan is dependent upon the financial condition of this company.

Payment of benefits - Benefits are recorded when paid.

Administrative costs - Administrative costs, including maintaining participant accounts, legal costs, and accounting costs, are the obligation of the Plan; however, the plan sponsor may pay for such expenses or reimburse the Plan for any payment of these expenses. Costs of managing the investments are paid directly out of the Plan's assets (see Note 6).

Subsequent events - Effective January 1, 2026, the Plan was amended to allow discretionary employer prevailing wage contributions. Plan management has evaluated subsequent events through October 11, 2026, the date that the financial statements were available for issue.

Note 3 - Fully benefit-responsive investment contract

The Plan holds an investment in Transamerica Stable Value Core Account, a fully benefit-responsive investment contract, that is stated in accordance with the Financial Accounting Standards Board's authoritative guidance regarding accounting for fully benefit-responsive investment contracts held by certain investment companies, which states

that contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. Investments measured at contract value are not required to be classified in the fair value hierarchy.

The crediting interest rates of the contract are based on agreed-upon formulas with the issuer, as defined in the contract agreements. Such interest rates are reviewed on a semi-annual basis for resetting. The key factors that influence future interest crediting rates could include the following: the level of market interest rates, the amount and timing of participant contributions; transfers and withdrawals into/out of the contract and the duration of the underlying investments backing the contract.

Certain events limit the ability of the Plan to transact at contract value with the issuer, such as discontinuance, full or partial termination of the contract or a significant decline in the credit. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the sponsor or other sponsor event (e.g., divestures or spin-offs of a subsidiary) that causes a significant withdrawal from the Plan; (iv) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA; or (v) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (i) an uncured violation of the Plan's investment guidelines; (ii) a breach of material obligation under the contract; (iii) a material misrepresentation; and (iv) a material amendment to the agreement without the consent of the issuer.

Note 4 - Information certified by the Trustee of the Plan

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2025 and 2024, and net appreciation in fair value of investments, interest and dividend income, and interest income on notes receivable from participants for the years ended December 31, 2025 and 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by the Plan's Trustees. The qualified institution

certifying the completeness and accuracy of the Plan's information described above changed in 2025, from Reliance Trust Company, the Trustee of the Plan, as of December 31, 2024, and for the year then ended, to Transamerica Trust Company and Transamerica Financial Life Insurance Company, the Trustees of the Plan as of December 31, 2025, and for the year then ended. Furthermore, the Plan's independent accountants did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and ERISA-required supplemental schedule.

Note 5 - Fair value measurement

The Financial Accounting Standards Board has published authoritative guidance on fair value measurement, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that a plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for the Plan's assets measured at fair value.

Registered Investment Companies (i.e., Mutual Funds) - The investment portfolios consist of mutual funds, which are valued at the closing price reported on the active market on which the individual security is traded (Level 1).

The preceding methodology may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used as of December 31, 2025 and 2024.

The following tables set forth, by Level within the fair value hierarchy, the Plan's assets at fair value as of:

	December 31, 2025			
	Level 1	Level 2	Level 3	Total
Registered Investment companies	$ 18,021,638	$ -	$ -	$ 18,021,638

	December 31, 2024			
	Level 1	Level 2	Level 3	Total
Registered Investment companies	$ 18,218,808	$ -	$ -	$ 18,218,808

Note 6 - Related party transactions

Plan investments are managed by Transamerica. These transactions qualify as party-in-interest transactions. Certain investment fees paid for these services are included in net appreciation of investments in the accompanying statements of changes in net assets available for benefits.

Transamerica also provides recordkeeping and third-party administrative services, and Northwestern Mutual Investment Services and MMA Securities LLC provide investment advisory services for the Plan. These services qualify as party-in-interest transactions and are included in administrative expenses in the accompanying statements of changes in net assets available for benefits. Fees paid out of plan assets for recordkeeping and third-party administrative services were $71,548 and $46,257 for the years ended December 31, 2025 and 2024, respectively. Fees paid out of plan assets for investment advisory services were $74,459 and $59,493 for the years ended December 31, 2025 and 2024, respectively.

Note 7 - Tax status of the Plan

The Plan has adopted the Transamerica Retirement Solutions Corporation Defined Contribution Volume Submitter Plan. The Internal Revenue Service has ruled that the standardized volume submitter plan is acceptable under Section 401(a) of the Internal Revenue Code, and a separate determination letter has not been obtained for the Plan. The Plan has been amended since receiving the determination letter; however, the management of the Company and the plan administrator are not aware of any matters that would disqualify the Plan. Accordingly, the Plan has been accounted for as a tax-exempt plan.

The Plan has reviewed its operations for uncertain tax positions and believes there are no significant exposures. The Plan will include penalties and interest on income tax liabilities in administrative expenses if such amounts arise. The Plan did not incur any penalties or interest for the years ended December 31, 2025 or 2024. The Plan is no longer subject to regulatory examinations by tax authorities for the closed years before 2022.

Note 8 - Reconciliation of the financial statements to Form 5500

Participant and employer contributions are reflected in the financial statements when receivable by the Plan using the accrual method of accounting, as described above; however, Form 5500 has been prepared using the cash method of accounting to record contributions in the year received by the Plan. Accordingly, there are reconciling items between amounts reported in the financial statements and Form 5500; see below. Furthermore, Form 5500 has certain asset balances, income and expense items that differ from amounts shown on the accompanying financial statements. These differences relate to classification and rounding only and have no effect on the net assets available for benefits nor changes in net assets available for benefits as of December 31, 2025 and 2024, and for the years then ended.

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	December 31,	
	2025	2024
Net assets available for benefits per the financial statements	$ 18,708,268	$ 19,391,966
Less - Employer contributions receivable	(65,708)	(130,502)
Net assets available for benefits per Form 5500, Schedule H, Part I, Line 1l	$ 18,642,560	$ 19,261,464

The following is a reconciliation of net increase in net assets available for benefits per the financial statements to net income per Form 5500:

	December 31,	
	2025	2024
Net Increase (decrease) per the financial statements	$ (683,698)	$ 7,088,058
Change in employer contributions receivable	64,794	(1,936)
Net income (loss) per Form 5500, Schedule H Part II, Line 2k	$ (618,904)	$ 7,086,122
