INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Investment Committee of
Oxbow Affiliated Companies Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Oxbow Affiliated Companies Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Oxbow Affiliated Companies Retirement Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Oxbow Affiliated Companies Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters – Supplemental Schedule Required by ERISA

The supplemental Schedule H, line 4i—Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 – Description of Plan

The following description of the Oxbow Affiliated Companies Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all eligible employees of a controlled group of companies consisting of Oxbow Carbon LLC and certain of its wholly-owned subsidiaries as well as certain affiliated entities (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by the Investment Committee, which is the Plan Administrator and is comprised of Company employees.

Through December 5, 2025, Matrix Trust Company ("Matrix") acted as trustee and custodian of the Plan, and OneAmerica Retirement Services LLC ("OneAmerica") acted as recordkeeper. In January 2025, Voya Financial, Inc. acquired the retirement plan business of OneAmerica Financial, including OneAmerica. OneAmerica continued as recordkeeper until December 5, 2025, when the Plan converted to the Voya platform (the "Conversion"). Voya Institutional Trust Company ("Voya") became trustee and custodian, and Voya Retirement Insurance and Annuity Company ("VRIAC") became recordkeeper. Matrix continues to act as trustee and custodian of the Plan's self-directed brokerage accounts. Matrix, OneAmerica, Voya and VRIAC are each a party in interest to the Plan.

The Plan was amended effective January 1, 2020 in order to provide for automatic elective contributions for participants with less than a 10% elective deferral. Deferrals will increase by 1% of compensation annually on July 1 until a 10% elective deferral is attained. Participants will receive written notice concerning the increased deferral and be given the right to discontinue or elect to not defer into the Plan.

In 2024, the Plan adopted certain provisions of the Setting Every Community Up for Retirement Enhancement Act of 2022 ("SECURE 2.0 Act"), which among other changes increased the age for required minimum distributions to 73 and expanded eligibility for long-term, part-time employees. The Plan is evaluating additional optional provisions under the SECURE 2.0 Act for potential future implementation.

The Plan was amended in July 2025 to clarify eligibility of certain employment classifications and termination of eligibility.

Eligibility – An employee of the Company (including participating affiliates) becomes eligible to participate in the Plan on the first day of the month following the completion of 1 hour of service from the employment commencement date.

Contributions – Each year, participants may contribute elective contributions (pre-tax), Roth 401(k) contributions (post-tax) and voluntary contributions (post-tax) ("Participant Contributions") up to 100% of their pre-tax annual compensation, as defined by the Plan ("Eligible Compensation"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans ("Rollover Contributions"). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of Eligible Compensation and their contributions invested in a designated balanced fund until changed by the participant.

The Company makes a matching contribution equal to 50% of the first 10% of Eligible Compensation that a participant contributes to the Plan. The Company makes a non-elective employer contribution of 2.5% of the participant's Eligible Compensation, regardless of whether or not the participants made elective contributions, Roth 401(k) contributions or voluntary contributions. Participants are eligible to share in the matching and non-elective employer contribution if they are actively employed on the last day of the Plan year or are terminated during the Plan year as a result of death, disability or attainment of the Plan's normal retirement age. Each participating affiliate, at the discretion of its Board of Directors, may make qualified non-elective contributions. For the year ended December 31, 2025, the Company made matching contributions, non-elective employer contributions and qualified non-elective contributions totaling $3,235,240 ("Employer Contributions").

Participants direct the investment of all Participant Contributions, Employer Contributions, and Rollover Contributions into various investment options offered by the Plan. All Participant Contributions and Employer Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts – Each participant's account is credited with the Participant's Contributions as well as allocations of the Employer Contributions (if eligible) and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, participant account balances or specific participant transaction as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately 100% vested in their Participant Contributions, Rollover Contributions and current Company contributions, plus earnings thereon. Certain Company contributions made in prior years under predecessor plan provisions are subject to a vesting schedule, and non-vested portions of those accounts are forfeited upon termination of employment.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at the prevailing rate determined at the loan's origination. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits – On termination of service due to death, disability, retirement, other reasons, or qualifying under certain "hardship" rules, as prescribed by the IRS, a participant is eligible to receive distributions from the Plan. All distributions are made in the form of a lump sum payment.

Forfeitures – Forfeited non-vested accounts are retained in the Plan and are used to reduce future Company contributions or to pay the Plan's administrative expenses. Remaining forfeitures not used for these purposes are subsequently allocated to the accounts of remaining participants. At December 31, 2025 and 2024, forfeited non-vested accounts totaled approximately $0 and $5,000, respectively. During the year ended December 31, 2025, forfeitures of approximately $10,000 were used to reduce Company contributions.

Administrative Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to administration of notes receivable from participants and trustee fees for terminated employees are charged directly to the participant's account and are included in administrative expenses. Administrative expenses amounted to $8,332 during the year ended December 31, 2025.

Note 2 – Summary of Accounting Policies

The following accounting policies, which conform to accounting principles generally accepted in the United States of America ("GAAP"), have been used consistently in the preparation of the Plan's financial statements.

Basis of Accounting – The Plan's financial statements are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and investments. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2025 or 2024. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

Payment of Benefits – Benefits are recorded when paid.

Plan Termination – Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Risks and Uncertainties – The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events – The Plan has evaluated subsequent events through October 13, 2026, the date the financial statements were available to be issued.

Note 3 – Information Certified by Matrix and Voya

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2025 and 2024.

Matrix, the Plan's trustee prior to the Conversion, has certified to the completeness and accuracy of the investments and notes receivable from participants reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2024, the related investment activity reported in the accompanying Statement of Changes in Net Assets Available for Benefits for the period January 1, 2025 through the Conversion, and the self-directed brokerage accounts held by Matrix as of December 31, 2025.

Voya, the Plan's trustee following the Conversion, has certified to the completeness and accuracy of all other investments and notes receivable from participants reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2025, and the supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the period from the Conversion through December 31, 2025.

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024:

Mutual Funds – Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. These assets are classified within Level 1 of the valuation hierarchy.

Collective Trust Fund – The Franklin Stable Value Fund 25 invests in conventional and synthetic investment contracts issued by life insurance companies, banks, and other financial institutions, with the objective of maintaining safety of principal while generating a level of current income generally exceeding that of a money market fund. The fair values of participation units in the funds are based upon the daily net asset values of such funds. The net asset value ("NAV") is used as a practical expedient to estimate fair value. The fund maintains cash, internal cash flow and a maturity ladder of investments to offset cash withdrawals. The fund provides for daily redemptions by the Plan at reported net asset value per share, with no notification requirements. The fund's manager may limit withdrawals in order to maintain sufficient liquidity.

Money Market Fund – Valued at amortized cost, which approximates current market value. These assets are classified within Level 1 of the valuation hierarchy.

Self-directed Brokerage Accounts – These accounts hold common stock, exchange-traded funds and cash equivalents. Common stock and exchange-traded funds are valued at the closing price reported on the active market on which they are traded, and cash equivalents at cost, which approximates fair value. These assets are classified within Level 1 of the valuation hierarchy.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	Fair Value Measurements at December 31, 2025			
	Level 1	**Level 2**	**Level 3**	**Total**

Investments measured at NAV(a)				13,881,135
Total Investments, at fair value				$ 172,440,040

(a) In accordance with ASC Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are

intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

Note 5 – Transfers from Other Defined Contribution Plan

During the year ended December 31, 2025, $3,397,945 were transferred into the Plan from the Oxbow Calcining LLC Employees' Retirement and Savings Plan, a plan sponsored by an affiliate of the Company.

Note 6 – Related Party and Party-in-Interest Transactions

Certain Plan investments are held in accounts with Matrix and Voya, the trustees of the Plan, and recordkeeping services were provided by OneAmerica and VRIAC. Fees paid by the Plan to these entities for trustee, custodial and recordkeeping services, which totaled $8,332 for the year ended December 31, 2025, qualify as party-in-interest transactions.

Certain administrative expenses of the Plan are paid directly by the Company, which is also a party-in-interest.

Notes receivable from participants also qualify as party-in-interest transactions.

Note 7 – Tax Status

The IRS has determined and informed the Company by a letter dated April 9, 2014 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC and therefore believe that the Plan is qualified and tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

In June 2026, the Plan Administrator identified that, during the transition of the Plan's recordkeeping to Voya, certain loan repayments for participants with multiple outstanding loans were not properly applied by the recordkeeper, including repayments allocated to the incorrect loan or in amounts that differed from the payroll deductions remitted. Upon identification, the Plan Administrator, with the assistance of ERISA counsel and the recordkeeper, reviewed participant loan activity and corrected the affected loans in 2026, including bringing loans current and, where appropriate, re-amortizing outstanding balances, in accordance with the Employee Plans Compliance Resolution System. The Plan Administrator believes the corrective actions resolved the matter and that it does not affect the qualified status of the Plan.

Note 8 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2025 and 2024, to the Form 5500:

	2025	2024
