INDEPENDENT AUDITOR'S REPORT

The Plan Administrator,
International-Matex Tank Terminals Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of International-Matex Tank Terminals Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years ended December 31, 2025 and 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

P.O. BOX 60600 • NEW ORLEANS, LA 70160-0600 • 504.831.4949 • BOURGEOISBENNETT.COM
P.O. BOX 2168 • HOUMA, LA 70361-2168 • 985.868.0139

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and

other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS

International-Matex Tank Terminals Pension Plan

December 31, 2025 and 2024

Note 1 - DESCRIPTION OF PLAN

The following description of the International-Matex Tank Terminals Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

a. General

The Plan is a defined benefit pension plan that was adopted effective January 1, 1976 and was amended and restated in its entirety effective January 1, 2016. The Plan provides for retirement, death, and disability benefits for employees and former employees, as defined in the plan agreement, of International-Matex Tank Terminals LLC (the "Company" or "Plan Sponsor") and its participating affiliates (IMTT-Bayonne LLC, IMTT-Virginia LLC, IMTT-Richmond-CA, IMTT-Illinois LLC, IMTT-Geismar, and IMTT-Pipeline LLC, and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by a plan administrator who is appointed by the Board of Directors of the Company. The Plan's trustee is U.S. Bank National Association ("U.S. Bank"). Aon Consulting, Inc. ("Aon") provides actuarial and investment services.

The Plan is closed to new participants hired on or after January 1, 2017. Non-union participants were given the choice at December 31, 2016 to continue to accrue benefits under the Plan or to have their benefits frozen as of December 31, 2016 and receive additional retirement benefits under the International-Matex Tank Terminals Retirement Investment Plan. Union participants were given the choice at December 31, 2017 to continue to accrue benefits under the Plan or to have their benefits frozen as of December 31, 2017 and receive additional retirement benefits under the International-Matex Tank Terminals Retirement Investment Plan.

b. Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The Company's contributions to the Plan are based upon recommendations of the Plan's consulting actuary and meet the minimum funding requirements of ERISA for 2025 and 2024. The Plan is funded entirely by employer contributions. The Company made contributions of $22,639,000 for the 2025 plan year and $7,769,000 for the 2024 plan

Note 1 - DESCRIPTION OF PLAN (Continued)

b. Funding Policy (Continued)

year. As a result of the 2025 contributions made in excess of the minimum funding requirement, effective October 1, 2026, partial lump sum benefit restrictions were lifted.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

c. Pension Benefits

Participants in the Plan are entitled to annual pension benefits beginning at the normal retirement age of 65. Normal retirement monthly pension benefits are computed as the greater of a) $150 multiplied by an adjustment factor, as defined or b) an amount equal to one-twelfth of the sum of 1.2% of average annual earnings up to covered compensation, as defined, multiplied by years of service, up to 25 years, plus 1.79% of average annual earnings in excess of covered compensation, as defined, multiplied by years of service, up to 25 years. Average annual earnings are defined as the highest average annual earnings earned by a participant for five consecutive years out of the latest ten years prior to normal retirement. The Plan contains provisions for early and late retirement benefits; however, participants must be vested to receive early retirement benefits. The Plan also provides death and disability benefits as defined in the plan agreement.

d. Vesting

A participant vests 100% upon the completion of five years of vesting service. Active participants are automatically vested 100% upon reaching their normal retirement date, regardless of years of service.

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

a. Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as promulgated by the Financial Accounting Standards Board (FASB).

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b. Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results may differ from those estimates.

c. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The IMTT Retirement Benefits Committee determines the Plan's valuation policies utilizing information provided by its investment advisers and the trustee. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

d. Payment of Benefits

Benefit payments to participants are recorded upon distribution.

e. Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan agreement. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment-related expenses are included in net appreciation (depreciation) in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

f. Subsequent Events

The Plan has evaluated subsequent events through October 08, 2026, the date the financial statements were available to be issued.

Note 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employees' average compensation earned during the highest five consecutive years out of the latest ten years prior to normal retirement. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits as of January 1, 2025 and 2024 were determined by actuaries from Aon and are those amounts which result from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

As of January 1, 2025 and 2024, the actuarial present values of accumulated plan benefits were as follows:

	2025	2024
Vested benefits:		
Participants currently receiving benefits	$ 22,202,365	$ 21,952,591
Other participants	68,072,218	65,824,180
	90,274,583	87,776,771
Nonvested benefits	1,056,304	1,206,723
Total actuarial present value of accumulated plan benefits	$ 91,330,887	$ 88,983,494

Note 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

For the annual periods ended January 1, 2025 and 2024, the changes in the actuarial present value of accumulated plan benefits were as follows:

	2025	2024
Actuarial present value of accumulated plan benefits as of January 1, 2024 and 2023	$88,983,494	$ 99,295,395
Increase (decrease) attributable to:		
Benefits accumulated and other [1]	2,767,678	4,113,707
Interest	4,985,880	4,908,230
Benefits paid	(3,066,311)	(13,549,492)
Assumption changes [2]	(2,339,854)	(5,784,346)
Net increase (decrease)	2,347,393	(10,311,901)
Actuarial present value of accumulated plan benefits as of January 1, 2025 and 2024	$91,330,887	$ 88,983,494

[1] *Represents the normal operation of the pension plan. It consists primarily of the increase due to ongoing benefit accruals (if any) and those items of plan experience that are not associated with plan asset performance.*

[2] *Change in interest rate assumption, mortality assumption, trust expenses included in the target normal costs, and expected long-term rate of return.*

The significant actuarial assumptions used in the valuations were as follows:

Interest rate - 6.10% for the January 1, 2025 valuation and 5.70% for the January 1, 2024 valuation.

Mortality rates - Base table: Amounts-weighted aggregate rates from the Pri-2012 mortality study for healthy and disabled participants and contingent survivor rates from the Pri-2012 mortality study.
Projection: Mortality rates are projected generationally from 2012 using Scale MP-2021.

Retirement age - Historical experience of the Plan for active participants and age 63 for terminated vested participants.

Note 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The valuation as of January 1, 2025 reflects the following assumption changes from the valuation as of January 1, 2024:

- A change in the discount rate from 5.70% to 6.10%.
- A change in the interest rates used to value lump sums.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2025 and 2024. Had the valuations been performed as of December 31, for each respective period, there would be no material differences.

Note 4 - PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
2) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
3) All other vested benefits (that is, vested benefits not insured by the PBGC).
4) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Note 5 - CERTIFIED INVESTMENTS

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments at fair value and plan interest in IMTT Master Trust held as of December 31, 2025 and 2024, and net appreciation (depreciation) in fair value of investments, interest, dividends, and other investment income, and change in plan interest in IMTT Master Trust for the years ended December 31, 2025 and 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by U.S. Bank, the trustee of the Plan.

Note 6 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 6 - FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2025 and 2024.

- *Private equity fund*: The Plan is a limited partner in a private equity fund. The fair value of the fund is provided by the general partner in accordance with FASB guidelines on fair value measurements. Plan management has chosen to value the Plan's investment in the limited partnership using the same valuation methodologies used by the limited partnership to value its underlying investments. The limited partnership's investments consist of loan securities, common and preferred equity securities, and warrants. Substantially all of the limited partnership's investments have been classified within Level 3 as the related fair value measurements have been made using primarily unobservable inputs. These investments trade infrequently or not at all. When observable prices are not available for these securities, the general partner uses one or more valuation approaches for which sufficient and reliable data is available. The valuation approaches used to determine fair value include the market approach, income approach, and cost approach.

  The fair value of loans to small to medium sized business concerns are considered to be amounts which could be realized in the normal course of business which assumes, among other factors, the partnership holding the loan securities to maturity and realizing the face value of those securities. The fair value of the loan securities normally corresponds to their face value unless adverse or other factors lead to a determination of value at a lower or greater amount. In such instances, the partnership records any change in unrealized depreciation/appreciation of investments to such loan securities to their appropriate fair value as determined by the general partner.

  Equity securities of privately held entities are valued at the estimated fair value as determined in good faith by the general partner. Warrants are valued at the excess of the value of the underlying security over the exercise price. Fair value is determined in good faith by the general partner after consideration of all pertinent information, including factors such as history of cash flows from operations, the market for comparable publicly traded companies (discounted for illiquidity) and other pertinent factors. The values assigned to these securities are based upon available information and do not necessarily represent amounts which might ultimately be realized, since such amounts depend on future circumstances and cannot reasonably be determined until the individual positions are liquidated.

Note 6 - FAIR VALUE MEASUREMENTS (Continued)

- *Private equity fund valued at NAV*: The net asset value (NAV) is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liability. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Because of the inherent uncertainty of valuations, the estimated fair values may differ from the fair values that would have been used had a ready market for these investments existed, and the differences could be material.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while plan management believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024. The following tables do not include the Plan's interest in the IMTT Master Trust because that information is presented in separate tables in Note 7.

Changes in Fair Value of Level 3 Asset

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

There were no purchases, issuances, or significant transfers in and/or out of Level 3 investments during the years ended December 31, 2025 and 2024.

Note 6 - FAIR VALUE MEASUREMENTS (Continued)

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 investment, the valuation techniques used to measure the fair value of the investment as of December 31, 2025 and 2024, respectively, and the significant unobservable inputs and the ranges of values for those inputs:

			December 31, 2025 and 2024			
Level 3 Investment	Fair Value December 31, 2025	Fair Value December 31, 2024	Principal Valuation Techniques	Significant Unobservable Inputs	Ranges of Inputs	Weighted Average
Private Equity Fund	$568,377	$988,526	Market Approach	EBITDA Multiple[(a)]	5.5 - 6.5	5.5 - 5.9
				Gross Margin	N/A	3.5

[(a)] EBITDA means Earnings Before Interest, Taxes, Depreciation and Amortization.

At each valuation date, the key inputs and assumptions are updated to reflect changes in the market, the performance of the asset and expectation of a market participant. Because of the inherent uncertainties of valuation, the values reflected may materially differ from the value determined upon the sale of those investments.

Fair Value of Investments that Calculate Net Asset Value

The following tables summarize the investment measured at fair value based on NAV per share as of December 31, 2025 and 2024, respectively:

Note 6 - FAIR VALUE MEASUREMENTS (Continued)

(b) *The primary purpose of the private equity fund is to generate returns for its partners, principally through long-term capital appreciation, by investing in a diversified portfolio of private equity investments, primarily in secondary market investments. The fund's strategy is designed to generate early distributions that are expected to limit the investors' cash at risk. The investment is a closed-end fund with a term of 12 years, beginning July 1, 2016. While investors are expected to hold their interests through the term, the investment may be sold on the secondary market with the approval of the general partner.*

Note 7 - INTEREST IN IMTT MASTER TRUST

A portion of the Plan's investments are in the IMTT Master Trust, which was established for the investment of assets of the Plan and one other Company-sponsored retirement plan. Each participating retirement plan has an undivided interest in the IMTT Master Trust. The assets of the IMTT Master Trust are held by U.S. Bank, the trustee.

The value of the Plan's interest in the IMTT Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. As of December 31, 2025 and 2024, the Plan's interest in the net assets of the IMTT Master Trust was approximately 89%. Total investment income (including net appreciation (depreciation) in the fair value of investments) of the IMTT Master Trust is allocated to the individual plans based on average monthly balances invested by each plan.

The following tables present the investments and other assets of the IMTT Master Trust as of December 31, 2025 and 2024:

	2025		2024

Note 7 - INTEREST IN IMTT MASTER TRUST (Continued)

The following are net appreciation in the fair value of investments and investment income for the IMTT Master Trust for the years ended December 31, 2025 and 2024.

	2025	2024
Net appreciation in fair value of investments	$10,322,657	$3,954,880
Investment income	93,543	116,603
Totals	$10,416,200	$4,071,483

Following is a description of the valuation methodologies used for assets measured at fair value held in the IMTT Master Trust. There have been no changes in the methodologies used as of December 31, 2025 and 2024.

- *Money market fund*: Valued at the daily closing price as reported by the fund. The money market fund is an open-end mutual fund that is registered with the Securities and Exchange Commission. This fund is required to publish its daily NAV and to transact at that price. The money market fund is deemed to be actively traded.

- *Common collective trust funds*: Valued at fair value based on the NAV of units of the collective trust, as provided by the trustee based on the fair value of the underlying investments held by the fund less its liabilities and are considered Level 2 fair value measurements.

- *Alternative investment funds (Return Enhancing Alternative Fund, Private Credit Alternative Fund and Private Global Infrastructure Fund)*: Valued at fair value as determined in good faith by the investment manager of the funds in accordance with U.S. GAAP. The funds use the NAV as reported by the underlying investment funds, as a practical expedient, to determine the fair value of all investments in the underlying investment funds which (a) do not have a readily determinable fair value and (b) either have the attributes of an investment company or prepare their financial statements consistent with the measurement principles of an investment company.

Note 7 - INTEREST IN IMTT MASTER TRUST (Continued)

- *Real estate funds*: Valued at NAV of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The value of the underlying net assets of the real estate funds do not represent the net cash proceeds that would be realized by the funds upon liquidation and settlement of liabilities. Determination of fair value of these interests involves subjective judgment because the actual fair value of the underlying net assets of the real estate funds can be determined only by negotiation between two parties in a sales transaction. The real estate funds do not have the ability to redeem the real estate investments at their discretion.

The following tables set forth by level, within the fair value hierarchy, the IMTT Master Trust's assets at fair value as of December 31, 2025 and 2024:

	IMTT Master Trust Assets at Fair Value as of December 31, 2025

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

Note 7 - INTEREST IN IMTT MASTER TRUST (Continued)

The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

(c) *The primary purpose and objectives of the real estate funds are to identify, acquire, hold, manage, and dispose of investments in real estate private equity funds for income and capital appreciation. The investments are real estate private equity funds and will continue until all investments are sold, liquidated, or disposed of, or upon the occurrence of earlier events as defined in the limited partnership agreements. The investments are not considered redeemable because the limited partnership does not have the ability to redeem the investments at its discretion.*

(d) *The return enhancing alternative fund's investment objectives are to generate attractive returns over a full market cycle by investing in a range of alternative investment opportunities with sources of return that have a low correlation to the broader financial markets, while also seeking to preserve capital under the direction of Aon Investments USA, Inc. Shares of the fund are not redeemable during an initial "Lock-Up" period that shall be the first twelve-month period that such shares are held by the shareholder. Following the "Lock-Up" period, upon ninety-five days' prior written notice to the administrator of the fund, shares may be redeemed semi-annually, as of the last business day of June or December of any year, at their net asset value as of the close of business on the relevant redemption date, subject to reduction for any accrued expenses as of such date and any other expenses associated with a redemption including wire transfer fees and any transaction costs.*

Note 7 - INTEREST IN IMTT MASTER TRUST (Continued)

(e) *The private credit alternative fund's investment objectives are to invest in pooled investment vehicles ("Underlying Funds") primarily focused on private credit, real estate lending, and specialty finance. The fund may also make investments through other structures, including separate account vehicles or other arrangements. Investments in the fund are not considered redeemable because the fund is a closed end fund that has a term of eight years from the initial closing of November 2022, with two one-year extensions (at the discretion of the general partner). Investors are expected to hold their interests throughout the term absent of any secondary sale of their interests on a secondary market pursued by the investor.*

(f) *The private global infrastructure fund's investment objective is to seek to invest primarily in core and core plus infrastructure in OECD member countries, with the goal of providing stable returns through a diversified portfolio, while taking into consideration the overall market environment. The fund seeks to achieve its investment objective by investing primarily in open-ended and closed-ended core and core plus infrastructure private commingled fund vehicles in developed markets. The fund may also (i) make investments through other structures, including exchange traded funds, separate account vehicles, listed vehicles, debt instruments, and other infrastructure-related investments, co-investments and direct investments, (ii) purchase existing investments in the secondary market, and (iii) engage in joint ventures in core and core plus infrastructure projects.*

Limited partners may request withdrawals as of the last day of each fiscal quarter, subject to at least 100 days' prior written notice and a one-year lock-up period from the due date of each capital contribution, unless waived or modified by the general partner in its sole discretion. Withdrawal proceeds are generally funded from available liquid assets and/or distributions received from underlying investments; however, the fund is not obligated to sell or otherwise dispose of investments to meet redemption requests. The ability to satisfy redemptions is dependent on the timing and availability of liquidity from underlying investments, and redemption requests or payments may be suspended or delayed if liquidity is insufficient or if underlying investments restrict or delay withdrawals.

Note 8 - RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

The Plan holds an interest in the IMTT Master Trust that has investments in the Aon Trust Company LLC. Aon Consulting, Inc., provides actuarial and Aon Investments USA, Inc. provides investment services to the Plan and are related companies of Aon Trust Company, LLC and, therefore, fund transactions associated with Aon Trust Company LLC are considered party-in-interest transactions. As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are party-in-interest transactions under ERISA.

Note 8 - RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS (Continued)

For years ended December 31, 2025 and 2024, fees paid to parties in interest included $606,743 and $508,091, respectively, paid to Aon Consulting, Inc. and Aon Investments USA, Inc. (combined) for actuarial and investment services. These fees are included in administrative expenses in the statements of changes in net assets available for benefits.

Note 9 - TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated April 5, 2018, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities both individually and through its investment in the IMTT Master Trust. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Mortality Rates	
Healthy and Disabled	2012 base mortality rates for annuitants and non-annuitants per §1.430(h)(3)-1(d), projected generationally for years beyond 2012 using IRS-prescribed mortality improvement rates per §1.430(h)(3)-1(b)(1)(iii)
Withdrawal Rates	See Table 3
Disability Rates	See Table 4
Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)
Surviving Spouse Benefit	It is assumed that 67% of males and 60% of females have an eligible spouse, and that males are two years older than their spouses.
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of $280,000 and the IRC section 401(a)(17) compensation limit of $350,000.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets

Schedule SB, line 4 — Additional Information for Plans in At-Risk Status

The at-risk assumption for payment form was set on a participant-by-participant basis to the optional payment form that resulted in the highest present value using the following conversion assumptions:

- Annuity forms of payment were converted from the plan's normal form using a 4.54% interest rate and the mortality table prescribed in Revenue Ruling 2001-62.
- Lump sum forms of payment were converted from the plan's normal form using the funding interest rates for the 2025 minimum required contribution and the 417(e) mortality table for the 2025 plan year.

Eligibility	Totally and permanently disabled after age 45 and completion of 10 years of vesting service, to the extent the participant did not make a one-time election to opt-out of the plan.
Benefit	Accrued benefit taking into account accrual service and average annual earnings during disability and payable as early as age 55 for the lifetime of the participant with reduction for early retirement.

Vested Termination

Eligibility	Five years of vesting service.
Benefit	Accrued benefit based on accrual service and average annual earnings at date of termination, with payments deferred until normal retirement date. Benefits may commence prior to normal retirement and as early as age 55, with reduction for early retirement based on early retirement factors.

Preretirement Spouse

Eligibility	Married with five years of vesting service.
Benefit	50% of the participant's accrued benefit under the automatic 50% joint and survivor option had the participant elected to receive a reduced retirement benefit on the date the participant's benefit commences. Benefits may commence on the first of the month coincident with or next following the later of date of death or when the participant would have attained age 55.

Definitions

Accrual Service	A year of accrual service is earned for each plan year that an employee works 1,000 or more hours. Accrual service frozen at December 31, 2016 for non-union participants who opted-out of the plan and at December 31, 2017 for union participants who opted-out of the plan.
Vesting Service	A year of vesting service is earned for each plan year that an employee works 1,000 or more hours.
Earnings	Annual compensation for the calendar year is the total amount of wages, salaries, fees for professional service and all other amounts received for personal services rendered during the course of employment.

Average Annual Earnings	Highest average annual earnings for the five consecutive calendar years of compensation within the last 10 calendar years. Average annual earnings frozen at December 31, 2016 for non-union participants who opted-out of the plan and at December 31, 2017 for union participants who opted-out of the plan.
Covered Compensation	35-year average of Social Security wage bases ending with the year in which the employee attains Social Security retirement age. Social Security wage bases after 2016 assumed to equal the 2016 wage base for non-union participants who opted-out of the plan. Social Security wage bases after 2017 assumed to equal the 2017 wage base for union participants who opted-out of the plan.
Normal Form of Benefit	10-year certain and life annuity for unmarried participants and an actuarially equivalent 50% joint and survivor annuity for married participants. Other optional forms of payment are actuarially equivalent to the 10-year certain and life annuity.
Optional Forms of Benefit	Single life annuity, 100% joint and survivor, 75% joint and survivor, 66⅔% joint and survivor, 5-year certain and life, 15-year certain and life, lump sum, partial lump sum.
Actuarial Equivalence	Actuarial equivalence is determined using the prescribed table described in Code section 807(d)(5)(A) (published by the IRS in Revenue Ruling 2001-62) and interest rates based on 30-year Treasury securities for the second calendar month preceding the plan year. The lump sum calculations are based on IRC section 417(e) mortality table and segment rates.
Plan Year	January 1 to December 31.
2017 Retirement Benefit Enhancement	A special termination benefit was provided to participants age 55 or older with 10 or more years of service who were involuntarily terminated during 2017 as part of IMTT's transition of responsibilities to MIC Global Services. The special termination benefit was a lump sum payable from the IMTT Pension Plan equal to 2 weeks of base pay for each year of service, limited to 52 weeks of base pay. To the extent the participant did not elect to receive the lump sum at termination, the lump sum is credited with interest at 5% per year.

2022 Retirement Benefit Enhancement	A special termination benefit was provided to a small group of participants who were involuntarily terminated during 2022. The special termination benefit was a lump sum payable from the IMTT Pension Plan equal to 2 weeks of base pay for each year of service, limited to 52 weeks of base pay. All participants took the benefit as a lump sum in 2022.

Schedule SB, line 24 — Change in Actuarial Assumptions

The funding valuation reflects the following assumption change:

- A change in the expected long-term rate of return on plan assets from 7.30 percent to 7.70 percent.

This change was made to better reflect the anticipated plan experience. The funding assumption change did not reduce the funding shortfall more than the thresholds stated in the Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.
