INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of Northrop Grumman Corporation Group Benefits Plan:

Opinion

We have audited the financial statements of Northrop Grumman Corporation Group Benefits Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits and of benefit obligations as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits and of changes in benefit obligations for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and benefit obligations of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits and changes in its benefit obligations for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

NORTHROP GRUMMAN CORPORATION GROUP BENEFITS PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Northrop Grumman Corporation Group Benefits Plan (the "Plan") provides only general information. Participants should refer to the summary plan description for more complete information.

General

The Plan is a contributory defined benefit health and welfare plan sponsored by Northrop Grumman Corporation (the "Company") and funded through a voluntary employees' beneficiary association ("VEBA"). The Plan provides primarily health benefits (medical including pharmacy, dental, vision and mental health), life insurance, accidental death and dismemberment, short-term disability, long-term disability, flexible health care and dependent care spending account programs and group legal. The Plan's Benefit Plans Administrative and Investment Committees control and manage the operation of the Plan. State Street Bank and Trust Company (the "Trustee") serves as the Trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan and the Northrop Grumman Corporation Retiree Welfare Benefits Plan (the "Retiree Plan") assets are held in the Northrop Grumman Corporation VEBA Master Trust I (the "VEBA Master Trust").

Eligibility

Substantially all active employees of specified participating Company entities, and employees who are covered by certain collective bargaining agreements, are eligible to participate in the Plan at the date of hire. Dependent coverage is also available to eligible employees.

Contributions

Benefits under the Plan are generally funded by Company and participant contributions. Benefits for basic life insurance, basic accidental death and dismemberment, basic long-term disability, and short-term disability are generally funded by Company contributions alone.

Use of Specialists

The Plan utilizes two independent enrolled actuaries, Mercer and Willis Towers Watson. Contribution rates for self-funded medical and dental coverages are determined annually by Mercer. Additionally, Mercer calculates the liability for claims incurred but not reported ("IBNR") and annual valuations of certain postemployment benefit obligations. Willis Towers Watson performs annual valuations of certain other postemployment benefit obligations for the Plan. It is the Company's policy to require the use of actuarial cost methods and assumptions acceptable under U.S. government regulations.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities and changes therein, as well as the actuarial present value of the expected postemployment benefit obligation and IBNR. Actual results could materially differ from those estimates.

Risks and Uncertainties

The Plan holds an interest in the VEBA Master Trust which invests in various investment securities (Note 3). Investment securities are exposed to various risks, including interest rate and credit risk, overall market volatility, market risks including global events such as pandemics or international conflicts, and risks related to U.S. and foreign government stability. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities may occur in the near term and could materially affect the amounts reported in the financial statements. One fixed-income fund accounted for 41 percent and 25 percent of the VEBA Master Trust net assets as of December 31, 2025 and 2024, respectively.

The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates and employee demographics, which are subject to change. Due to uncertainties inherent in the assumptions and

overall estimation process, it is reasonably possible that changes in assumptions and estimates may occur in the near term and could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition

Investments held by the VEBA Master Trust are reported at fair value as determined by the Trustee, pursuant to the VEBA Master Trust agreement, and as directed and overseen by Plan management. The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The VEBA Master Trust investments are valued as described below. See Note 5 for the VEBA Master Trust's derivative financial instrument disclosures.

VEBA Master Trust investments in U.S. and international equities include common stocks and real estate investment funds. Investment in corporate debt is an exchange-traded fund with a fixed income strategy valued based on a quoted market price. U.S. and international equities are valued based on a quoted market price in the active market on which such investments are traded on the last business day of the Plan year. The short-term investment fund is a money market mutual fund valued at a quoted market price, which represents the net asset value ("NAV") of shares held by the VEBA Master Trust at year end. Cash equivalents consist of interest-bearing foreign cash that is valued at cost.

The VEBA Master Trust also invests in index futures contracts. Such contracts are exchange-traded derivatives and are valued based on quoted market price in the active market on which they trade.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on an accrual basis and dividends are recorded on the ex-dividend date. Broker commissions, transfer taxes, investment manager fees and other charges and expenses incurred in connection with the purchase, sale, or disposition of investments are added to the cost of such investments, or are deducted from the proceeds of the sale or disposition thereof. Currency gains and losses from international equity sales and foreign exchange settlements are reflected in investment income.

In performing valuations or calculations required of the Trustee, the Trustee relies on prices provided by pricing sources, investment managers and/or Plan management for certification as to the value.

The VEBA Master Trust allocates investment income, realized gains and losses and unrealized appreciation (depreciation) on the underlying securities to the participating plans based upon the market value of each participating plan's investment. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as held during the year.

Fair Value of Financial Instruments

The VEBA Master Trust measures the fair value of its financial instruments using observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect internal market assumptions. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

These two types of inputs create the following fair value hierarchy:

Level 1 — Quoted prices for identical instruments in active markets.

Level 2 — Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 — Significant inputs to the valuation model are unobservable.

Claims Incurred But Not Reported

The Plan's liability for incurred but unreported claims is actuarially estimated using the development method. This method uses previous patterns of payments (number of months from incurred month to paid month) to estimate incurred claims from those paid to date.

Postemployment Benefit Obligations

The Plan's postemployment benefit obligations include long-term disability and life insurance benefits for inactive participants. The postemployment benefit obligations are discussed further in Note 7.

Expenses
Administrative expenses of the Plan are paid by either the Plan or the Company, as provided in the Plan document.

Payment of Benefits
Payments of claims, insurance premiums, and flexible spending accounts are recorded upon distribution by the Plan to the third party administrators. Claims and premium amounts processed and approved by the third party administrators but not yet reimbursed by the Plan as of year-end are recorded as claims and premiums payable in the Statements of Benefit Obligations. Pharmacy rebates are received quarterly and are recorded upon receipt. Self-insured claims are presented net of rebates. The Plan received $112.1 million in pharmacy rebates for the year ended December 31, 2025.

3. INVESTMENTS

The VEBA Master Trust investments are stated at fair value as determined and reported by the Trustee in accordance with the VEBA Master Trust Agreement established by the Company.

The Plan's interest represents 7.7 percent and 24.9 percent of total net assets of the VEBA Master Trust as of December 31, 2025 and 2024, respectively. The remaining assets in the VEBA Master Trust relate to the Retiree Plan.

In 2024 the Company began funding certain benefits under the Plan using the Plan’s assets held in the VEBA Master Trust. This continued through 2025 and as a result, the Plan's interest in the VEBA Master Trust assets was reduced by approximately $62 million and $48 million for the years ended December 31, 2025 and 2024, respectively.

Benefit obligations of the Plan exceeded net assets at December 31, 2025 and 2024. It is expected that the deficiency will be funded through future Company and participant contributions, if not funded through other means.

Total net assets of the VEBA Master Trust and the Plan's interest in the VEBA Master Trust balances as of December 31, 2025 and 2024, are as follows:

Total VEBA Master Trust at fair value	$ 320,663	$ 4,699	$ 325,362

5. DERIVATIVE FINANCIAL INSTRUMENTS

Derivative financial instruments, including futures contracts, may be used by the investment managers of the VEBA Master Trust as part of their respective investment strategies. Notional amounts do not quantify risk or represent assets or liabilities of the VEBA Master Trust, but are used in the calculation of cash settlements under the contracts.

Derivative financial instruments are recorded as assets or liabilities of the VEBA Master Trust and are measured at fair value. Changes in the fair value of derivative instruments are reflected in investment income as net appreciation (depreciation) in fair value of investments. During 2025 and 2024, derivative financial instruments were not entered into for hedging purposes and do not qualify for hedge accounting. The volume of derivative activity is commensurate with the amounts disclosed at year-end.

During 2025 and 2024, derivatives included equity contracts on index futures. The notional amounts and fair values, by primary risk exposure, are presented as gross assets and liabilities as of December 31, 2025 and 2024, as follows:

$ in thousands	**2025**	2024
Fair value of asset	**$ 13**	$ —
Fair value of liability	**79**	908
Notional amount	**23,961**	43,308

Futures Contracts
The VEBA Master Trust enters into futures contracts in the normal course of investing activities to manage market risk and to achieve overall investment portfolio objectives. These contracts have elements of market risk in excess of amounts recognized in the statements of net assets available for benefits. The credit risk associated with these contracts is minimal as they are traded on organized exchanges and settled daily. The terms of these contracts typically do not exceed one year. Notional amounts related to these contracts in the table above are stated as a net buy (sell) position. Net gain on index futures for the year ended December 31, 2025, totaled $1.6 million.

6. THIRD PARTY BORROWINGS

The VEBA Master Trust participates in a securities lending program with State Street Bank and Trust Company ("lending agent"). The program allows the lending agent to loan securities held by the VEBA Master Trust to approved borrowers. Such assets could be subject to sale restrictions in the event security lending agreements are terminated and the securities have not been returned to the VEBA Master Trust. The lending agent requires borrowers, pursuant to a security loan agreement, to deliver collateral to secure each loan. The collateral required is 102 percent of the fair value of U.S. securities borrowed and 105 percent for foreign securities borrowed. The VEBA Master Trust bears the risk of loss with respect to unfavorable changes in the fair value of invested cash collateral. However, the borrower bears the risk of loss with respect to unfavorable changes in the fair value of securities collateral and, therefore, may have to deliver additional cash or securities to maintain the required collateral. In U.S. markets, the lending agent may enter into a netting arrangement with a borrower, which permits the netting of mark-to-market exposure for transactions within the lending program with that borrower. Such arrangements would cover lending transactions with the borrower and reverse repurchase agreements of cash collateral involving investment of the collateral. The lending agent may also negotiate a right of offset in the event of borrower default. In the event of borrower default, the lending agent indemnifies the VEBA Master Trust against any loss of the amounts loaned. As of December 31, 2025, cash and non-cash collateral associated with securities on loan totaled $0.9 million and $0.2 million, respectively. As of December 31, 2024, cash and non-cash collateral associated with securities on loan totaled $4.5 million and $0.2 million, respectively. All collateral is presented as Level 2 in the fair value hierarchy as it is held by the lending agent and not readily available for trading.

VEBA Master Trust assets on loan to third-party borrowers under securities lending agreements as of December 31, 2025 and 2024 are as follows:

$ in thousands	**2025**	2024
U.S. equities	**$ 579**	$ 1,002
International equities	**453**	228
Corporate debt	**—**	3,331
VEBA Master Trust assets on loan to third-party borrowers	**$ 1,032**	$ 4,561

7. BENEFIT OBLIGATIONS

The Plan's benefit obligations include reported claims and insurance premiums that have not been paid, an estimate of incurred claims that have not yet been reported and long-term disability and life insurance premium waiver for inactive participants. The IBNR and life insurance premium waiver are each estimated by Mercer and the long-term disability liability is estimated by Willis Towers Watson. The life insurance premium waiver for inactive participants is an estimate of the discounted present value of future employer and employee life insurance premiums that the Company is obligated to provide over the length of disability for eligible disabled employees. The age, gender and nature of the disability of each disabled employee are factors used by Mercer to estimate the length of the disability and the related liability. Such estimated amounts are reported in the accompanying statements of Plan benefit obligations at present value.

Significant assumptions used in the long-term disability valuations of as of December 31, 2025 and 2024, are as follows:

	2025	2024
Weighted average discount rate	**3.83%**	4.42%
Duration of LTD Benefits	**1987 CGDT Rates**	1987 CGDT Rates
Liability for coverage for Northrop Grumman employees	Disability benefits commence after the waiting period specified by the Company. Benefits terminate when the participant returns to work, at death, or on reaching the age as specified by the operating division, whichever occurs first.	
Former Northrop Grumman employees (disabled prior to July 1, 1995)	Disability benefits commence after the waiting period specified by the operating division. Benefits terminate when the participant returns to work, or at death, except that coverage is reduced at age 60 to 10% of life insurance in force at date of disability or $5,000, whichever occurs first.	

Significant assumptions used in the life insurance premium waiver valuations of as of December 31, 2025 and 2024, are as follows:

	2025	2024
Weighted average discount rate	**4.13%**	4.65%
Rate of termination from disabled status	**Society of Actuaries' Group Long-Term Disability 2008 table**	Society of Actuaries' Group Long-Term Disability 2008 table
Mortality	**RP2014/Modified MP2019 [1]**	RP2014/Modified MP2019 [1]

[1] The mortality assumption utilizes the White Collar Benefit Weighted version of the RP-2014 Mortality Tables, generationally projected using a modified version of the MP-2019 projection scale.

Benefit obligations of the Plan exceeded net assets at December 31, 2025 and 2024. It is expected that the deficiency will be funded through future Company and participant contributions, if not funded through other means.

8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

The VEBA Master Trust utilizes various investment managers to manage its net assets. These net assets may be invested in funds managed by the investment managers. Therefore, these transactions qualify as exempt party-in-interest transactions. In Plan management’s opinion, fees paid during the year ended December 31, 2025, for services rendered by parties-in-interest were based upon customary and reasonable rates for such services.

9. INCOME TAX STATUS

The VEBA Master Trust obtained its latest determination letter dated September 11, 1998, in which the Internal Revenue Service affirmed that the VEBA Master Trust's terms at the time of the determination letter application were in compliance with applicable sections of the Internal Revenue Code (the “Code”) and, therefore, the VEBA Master Trust is exempt from taxation. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The Plan is subject to routine audits by taxing jurisdictions. However, there are no audits for any tax periods in progress. Plan management believes that the Plan and the VEBA Master Trust are currently designed and operating in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan’s financial statements, except as described below.

Under Section 512 of the Code and related regulations, the Plan’s investment income is taxable as unrelated business income for both federal and California state purposes equal to the lesser of: (i) the dollar amount by which investment assets at Plan year-end exceed the Plan’s benefit obligation as determined under applicable Code limits, or (ii) actual taxable Plan investment income during the Plan year. Under Section 512 of the Code and related regulations, the Plan did not have taxable investment income for the years ended December 31, 2025 and 2024.

10. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to amend or terminate the Plan subject to the

provisions set forth in ERISA. In the event of termination, the Company will contribute the necessary amounts to fund all applicable expenses incurred prior to the date of the termination.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The Plan is subject to ERISA and therefore must file a Form 5500, Annual Return/Report of Employee Benefit Plan, with the U.S. Department of Labor. The Form 5500 reports plan financial information based on the audited financial statements with certain modifications based on the Form 5500 instructions.

Claims and premiums that have been processed and approved for payment at year-end but not paid by the plan and IBNR, are not considered reductions to net assets available for benefits under GAAP. Therefore, these amounts are not presented in the accompanying statements of net assets available for benefits and changes therein. However, these amounts are recorded on the Form 5500.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

$ in thousands	**2025**	2024
Net assets available for benefits per the financial statements	**$ 18,191**	$ 77,449
Claims and insurance premiums payable	**(54,452)**	(51,101)
Claims incurred but not reported	**(140,546)**	(104,951)
Net assets per Form 5500	**$ (176,807)**	$ (78,603)

The following is a reconciliation of claims and insurance premiums paid per the financial statements to the Form 5500 for the year ended December 31, 2025:

$ in thousands	
Amounts paid per financial statements	**$ 1,299,968**
Plus amounts payable — December 31, 2025	**54,452**
Plus claims incurred but not reported — December 31, 2025	**140,546**
Less amounts payable — December 31, 2024	**(51,101)**
Less claims incurred but not reported - December 31, 2024	**(104,951)**
Amounts paid per Form 5500	**$ 1,338,914**

12. SUBSEQUENT EVENTS

Subsequent events were evaluated through October 12, 2026, the date the financial statements were available to be issued. Effective September 2026, the Plan was amended to assume post-employment life insurance benefits for participants previously attributable to the Retiree Plan. As a result, benefit obligations and plan assets of approximately $90 million and $140 million, respectively, were transferred into the Plan from the Retiree Plan.
