INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
Sexing Technologies 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Sexing Technologies 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audits of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).

- The information in the accompanying financial statements related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

"Doeren Mayhew" is the brand name under which Doeren Mayhew Assurance, PC and Doeren Mayhew Advisors, LLC and its subsidiary entities provide professional services. Doeren Mayhew Assurance, PC and Doeren Mayhew Advisors, LLC (and its subsidiary entities) practice as an alternative practice structure in accordance with the AICPA Code of Professional Conduct and applicable law, regulations and professional standards. Doeren Mayhew Assurance, PC is a licensed independent CPA firm that provides attest services to its clients, and Doeren Mayhew Advisors, LLC and its subsidiary entities provide tax and business consulting services to their clients. Doeren Mayhew Advisors, LLC and its subsidiary entities are not licensed CPA firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our ethical responsibilities in accordance with the ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) as of December 31, 2025 and delinquent participant contributions for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Description of the Plan

The following description of the Sexing Technologies 401(k) Plan (the Plan) is provided for general information purposes only and is as of December 31, 2025 unless otherwise noted. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) plan that provides retirement savings benefits to eligible employees of Inguran, LLC dba Sexing Technologies and its participating employers: XY, LLC; AcuFast, LLC (formerly Fast-Sexing Technologies USA, LLC); Genetic Visions-ST, LLC; Acuity Genetics; Cytonome, LLC; and Cytonome Verity, LLC (collectively, the Employer or Company). The Plan commenced effective January 1, 2012, and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Administration

Voya Retirement Insurance and Annuity Company (VRIAC or the Custodian) is the Custodian maintaining custody of all investments held by the Plan, maintaining the Plan's participant account balances, and providing recordkeeping services to the Plan. Among other duties, the Custodian receives contributions, holds, and invests the fund assets in accordance with participant direction, and makes distributions as directed by the Plan Administrator. Certain officers of the Company have been appointed as Trustees of the Plan.

Eligibility

Employees of the Company are eligible to participate in the Plan upon completion of two months of service. Eligible employees are permitted to enter the Plan upon the first day of each month coincident with, or next following, satisfaction of the eligibility requirement.

Participant Contributions

Participant contributions may be in the form of pre-tax or Roth elective deferrals, up to 100% of eligible compensation as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan may also accept rollover contributions of retirement benefits that originate from another qualified retirement plan or from a "conduit" IRA.

The Plan includes an automatic enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their salary deferral contributions set at 3% of eligible compensation.

Employer Contributions

The Company may elect to make discretionary matching contributions. The Employer may make a different discretionary matching contribution for each designated location or entity. Discretionary matching contributions are made each pay period and the period for determining the amount of an allocation of discretionary matching contributions is the end of the Plan year. Discretionary matching contributions for 2025 were equal to 50% of the first 6% of Plan compensation that a participant contributes to the Plan for all employees of the Company with the exception of AcuFast, LLC employees, which discretionary matching contributions for 2025 were equal to 100% of the first 4% of Plan compensation that a participant contributes to the Plan. The total Employer discretionary matching contribution was $1,470,867 for the year ended December 31, 2025.

Continued

The Plan also provides a year end true up matching contribution to allow participants to receive the maximum matching contribution available by making up any loss in matching contributions resulting from participant individual savings strategies. The total Employer true up matching contribution was $94,340 for the year ended December 31, 2025. Management intends to use forfeitures in 2026 for the funding of the Employer true-up matching contributions for the year ended December 31, 2025.

Employer contributions are subject to the limits established annually per the IRC.

Participant Accounts

Each participant's account is credited with the participant's contributions and Employer contributions as well as Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions (deferrals and rollovers) and earnings thereon. Vesting in Employer contributions is based on years of continuous service at a rate of 20% per year after one full year of credited service. A participant is 100% vested after five years of credited service. Participants also become 100% vested upon death, disability, or attainment of normal retirement age.

Forfeitures

Forfeitures attributable to terminated participants' non-vested accounts are allocated to a forfeiture account and are used to either pay for certain Plan expenses or reduce Employer contributions. Forfeitures of $40,293 were used during the year ended December 31, 2025 to fund the true-up contributions related to Plan year 2024. Forfeitures available for use as of December 31, 2025 and 2024, respectively, were $232,351 and $202,291.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, less the participant's highest outstanding loan balance during the preceding 12 months. Loans are secured by the balance in the participant's account. The maximum number of loans outstanding at any one time is limited to one general purpose loan and one residential purpose loan. The maximum term of a loan is five years, unless the loan is for the purchase of a primary residence, in which case the maximum loan term is fifteen years. The interest rate, determined monthly, is set at 2% above Prime rate, as defined. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement or other reasons, a participant may elect to receive a lump sum payment from the vested portion of their account balance. Required minimum distributions are made in accordance with IRS requirements. A terminating participant with an account balance of $5,000 or less automatically receives a distribution from the Plan. If the vested portion of the terminating participant account is less than or equal to $1,000, the vested account will be distributed in cash. If the vested portion of the terminating participant account is more than $1,000, but does not exceed $5,000, the Plan Administrator will transfer the vested account to an IRA established in the name of the participant.

Continued

In-service withdrawals are allowed upon reaching age 59½. Hardship withdrawals are allowed as provided under the terms of the Plan adoption agreement and provisions of the IRC.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Investment Valuation and Income Recognition

Investments are reported at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2025 or 2024. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan agreement.

Payment of Benefits

Benefits are recorded when distributed.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees and expenses relating to the day-to-day Plan operations are paid by the Plan. Certain investment related expenses are included in the net appreciation in fair value of investments.

Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 8, 2026, which is the date the financial statements were available to be issued.

Continued

Note 3 - Unaudited Information Certified by Custodian

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted under such election, the following information has been certified by Voya Retirement Insurance and Annuity Company as to its completeness and accuracy and was not subject to any auditing procedures performed by the Plan's independent auditor:

- Investments reflected in the statements of net assets available for benefits as of December 31, 2025 and 2024 and notes to financial statements,
- Dividend and interest income, net appreciation in fair value of investments, and interest income on notes receivable from participants for the year ended December 31, 2025, and
- Investment information included in the supplemental schedule of assets (held at end of year) as of December 31, 2025.

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2025 and 2024.

Pooled Separate Accounts: Valued at the underlying price per unit held by the Plan as provided by Voya Retirement and Insurance Company. The pooled separate accounts used net asset value (NAV) as the practical expedient for measuring fair value. The NAV is based on the fair value of the underlying assets owned by the fund, net of the investment management fees. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. If the Plan initiates a full redemption of the pooled separate account, the issuer reserves the right to require twelve months' notification in order to ensure that security liquidations will be carried out in an orderly business manner. Participant transactions (purchases and sales) may occur daily. There are no significant restrictions on participant redemptions or any unfunded commitments.

Continued

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair value. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025:

	Level 1	Level 2	Level 3	Total
Total assets in the fair value hierarchy	$ -	$ -	$ -	$ -
Investments measured at net asset value [(a)]				45,104,420
Investments at fair value				$ 45,104,420

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured on a recurring basis at fair value as of December 31, 2024:

	Level 1	Level 2	Level 3	Total
Total assets in the fair value hierarchy	$ -	$ -	$ -	$ -
Investments measured at net asset value [(a)]				33,898,562
Investments at fair value				$ 33,898,562

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (pooled separate accounts) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 5 - Fully Benefit-Responsive Investment Contract

The Voya Fixed Account is a fully benefit-responsive investment contract with Voya Retirement Insurance and Annuity Company (VRIAC) and as such, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by the Recordkeeper represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. As of December 31, 2025 and 2024, the contract value of this investment was $1,102,996 and $816,982, respectively.

VRIAC maintains the contributions in a general account. The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. There are no reserves against contract value for the credit risk of the issuer or otherwise.

Continued

Certain events may limit the ability of the Plan to transact at contract value with VRIAC. Such events include termination of the contract, merger, layoffs, bankruptcy, the creation of a new competing fund, partial or total plan termination and retirement incentive programs. Upon occurrence of any of these events, a market value adjustment may apply. The Plan Administrator believes that any events that would limit the Plan's ability to transact at contract value are remote.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in all their Employer contributions.

Note 7 - Tax Status

The Plan is utilizing a non-standardized pre-approved plan document sponsored by Economic Group Pension Services (the non-standardized plan). The non-standardized plan has been filed with the IRS and has received a favorable opinion letter dated June 30, 2020. The Plan Sponsor has elected not to apply for an individual IRS Determination Letter upon adoption of the Plan nor on any subsequent amendments. Although the Plan has been amended since receipt of the favorable opinion letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified under Section 401(a) and that the related trust is tax-exempt as of the financial statement date.

GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. As of December 31, 2025 and 2024, the Plan had no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

The Plan has implemented the mandatory provisions of SECURE Act 2.0. Written amendments to the Plan document to reflect these operational changes will be executed at a later date in accordance with deadlines pursuant to applicable laws and IRS regulations.

Note 8 - Related Party and Party-in-Interest Transactions

Certain Plan investments are managed by the Custodian. Transactions involving these investments qualify as party-in-interest transactions. These transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations. For the year ended December 31, 2025, the Plan paid fees to Voya Retirement Insurance and Annuity Company of $239,436. Certain accounting and administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan.

Note 9 - Risks and Uncertainties

The Plan invests in investment securities that are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Continued

Note 10 - Delinquent Participant Contributions

For the Plan years 2022-2025, the Plan Sponsor has identified participant contributions remitted outside the timeframe considered to be as soon as administratively possible, as defined by ERISA. These contributions are considered nonexempt prohibited transactions. The Plan Sponsor is required to compensate the Plan for lost investment earnings related to these prohibited transactions.
