Independent Auditors' Report

The Plan Trustee
Urban Engineers, Inc. Employee Stock Ownership Plan
Philadelphia, Pennsylvania

Opinion

We have audited the financial statements of Urban Engineers, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in net assets available for benefits for the year ended December 31, 2025 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

(1) Description of Plan

The following brief description of the Urban Engineers, Inc. (the Company) Employee Stock Ownership Plan (ESOP or the Plan) is provided for general information purposes only. Participants should refer to the trust agreement for a complete description of the Plan's provisions.

General

The Company established the Plan effective January 1, 2001. The ESOP is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

The Plan is a defined contribution plan covering all eligible employees of the Company effective January 1, 2001. To be eligible to participate, the Plan requires an employee to have attained the age of 18, to have worked at least 1,000 hours during such Plan year, and to be employed either on September 1st or December 31st of such Plan year. Employees whose employment is governed under a collective bargaining agreement, leased employees, and employees of affiliated companies are not eligible to participate. Participants are not permitted to make any contributions to the Plan.

Employer Contributions

The Company can contribute stock to the Plan either by a direct contribution of shares or a contribution of cash to purchase shares.

Payment of Benefits

No distributions are permitted from the Plan to satisfy benefits consisting of financed shares acquired through an acquisition loan until such acquisition loan is repaid in full, unless termination of services arises from death, disability, or retirement as defined in the Plan, or balance is less than $7,000. On termination of services due to death, disability, or attainment of age 70½ coupled with retirement, participants or their beneficiaries are entitled to receive their vested account balance in annual payments over a period not to exceed five years from the date of death, disability, or attainment of age 70½ and retired. Distributions to terminated participants, other than the above, may be paid over a period not to exceed five years. Participants whose vested account balance is less than $1,000 may receive the value of their full account balance in a lump sum, and those account balances that are at least $1,000 but less than $7,000 may be transferred to an individual retirement account or may receive the value of their full account balance in a lump sum.

(1) Description of Plan, Continued

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be fully vested and will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan and the IRC. Upon termination of the Plan, the trustee will pay all liabilities and expenses of the trust fund and sell shares of financed stock, if any, held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Common Stock

No dividends were declared or paid in 2025.

Participant Accounts

The Plan's trustee maintains an individual account for each Plan participant. Each individual account is credited with the Company's allocation and charged administrative fees for specific participant-requested services. Allocations are based on a participant's eligible compensation as a percentage of total eligible compensation times shares released.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The Company can pay for the purchase, with interest, over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Vesting

Subject to certain provisions as fully described in the plan document, the portion of the participant's account that is vested (nonforfeitable) on any specified date shall be determined on the basis of his or her years of service in accordance with the following schedule:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

A participant's account shall also become 100% vested and nonforfeitable upon the participant's attainment of his or her normal retirement age while employed by the Company, or upon the participant's death or disability while employed by the Company.

Participant Diversification of Investments

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified. Participants who are current employees and at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify shall be offered the opportunity to invest the diversified portion in cash, roll over into the Company 401(k) Plan, roll over into an individual retirement account, or receive a cash distribution.

Forfeited Accounts

Upon the termination of employment of a participant or former participant, the portion of the balance credited to his or her account that is not vested shall be forfeited and treated as a contribution in the Plan year in the year in which the participant's vested benefit is paid in full. There were 608 shares forfeited during the year ended December 31, 2025. These forfeitures were reallocated to the remaining participants in the Plan at December 31, 2025. Forfeitures of terminated non-vested account balances allocated to remaining participants at December 31, 2025 totaled $66,681.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is determined by an annual independent appraisal. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of Benefits

Benefit payments are recorded when paid. Amounts approved for distribution but not yet paid are reflected as accrued distributions.

Forfeited Accounts

Forfeited non-vested accounts are to be deemed Company contributions to the Plan for the Plan year in which the forfeiture occurs.

Administrative Expenses

Substantially all administrative expenses are paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events through October 12, 2026, the date the financial statements were available to be issued.

(3) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Continued…

(3) Fair Value Measurements, Continued

Following is a description of the valuation methodologies used for assets measured at fair value.

Urban Engineers, Inc. common stock: The Company's stock is not actively traded and significant other observable inputs are not available. Thus, the fair value of the common stock is determined by an annual independent appraisal. This appraisal is based upon the trend and nature of the Company's business, the state of the economy and industry in which it operates, and the assets the Company holds, among other factors. The valuation process involves the selection of an appraiser by the Trustee. Plan management accumulates the data for the appraiser from financial information of the Company, including historical and projected cash flows and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities. The appraiser prepares a report of the estimated fair market value of the common stock of the Company that is used for the valuation of the stock held by the ESOP. The Trustee reviews the appraisal report before the share price is finalized by the Trustee. As of December 31, 2025 and 2024, the common stock was valued at $109.60 and $88.20, respectively. The Company stock is the only investment held by the Plan as of December 31, 2025 and 2024, respectively, and is categorized as level 3.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in Fair Value of Level 3 Investments

During 2025 and 2024, there were no purchases or transfers into or out of the investment included in level 3 of the fair value hierarchy. The unrealized gain on the Company's common stock is included in net appreciation in fair value of investments on the statement of changes in net assets available for benefits.

The Plan's investment in the Company's common stock at December 31, 2025 and 2024 is as follows:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	102,807	-	102,807	-
Cost	$ 8,442,605	$ -	$ 8,442,605	$ -
Fair value	$ 11,267,611	$ -	$ 9,067,548	$ -

(4) Related Party Transactions and Party-In-Interest Transactions

The Plan invests in Company stock. As discussed in Note 2, the Company also pays certain expenses related to the Plan's operations directly. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA. Certain administrative functions of the Plan are performed by officers or employees of the Company. No officer or employee receives compensation from the Plan.

(5) Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated September 24, 2013, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the IRC. The Plan has been amended since receiving its latest determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) of the IRC and is exempt from federal income taxes under Section 501(a) of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

(6) Risks and Uncertainties

The Plan's investment in Company common stock is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Due to the level of risk associated with this investment, it is at least reasonably possible that changes in the value of Company common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
