Independent Auditor's Report

Plan Administrator
Comanche County Medical Center 403(b) Plan
Austin, Texas

Opinion

We have audited the financial statements of Comanche County Medical Center 403(b) Plan (Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Description of the Plan

General

The following description of the Comanche County Medical Center 403(b) Plan (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan sponsored by Comanche County Medical Center (Company) for the benefit of eligible employees. Employees are eligible to make elective deferrals as of their date of hire. Employees become eligible for employer matching and nonelective contributions upon attaining age 18 and completing three months of service.

Historically, the Plan participated in the Texas Hospital Association Participant Directed Retirement Program for Member Hospitals Group Trust, with Charles Schwab Trust Bank serving as custodian and Milliman, Inc. serving as record-keeper. Effective August 1, 2024, Empower Trust Company became the Plan's custodian and record-keeper. Effective December 31, 2024, the former group trust merged with the Texas Hospital Association Participant Directed Retirement Program Group Trust (Group Trust), in which all Plan assets are currently held.

The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA) effective December 1, 2017. The Company also sponsors the Comanche County Medical Center Employees Retirement Plan.

Contributions

Participants are allowed to make elective pretax or Roth contributions to the Plan, subject to limitations under the Internal Revenue Code (IRC). Participants who have attained age 50 are eligible to make catch-up contributions. Participants may also contribute amounts representing rollovers from other qualified retirement plans or individual retirement accounts. The Plan includes an automatic enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan upon meeting the Plan's eligibility requirements unless they have in effect a salary reduction agreement on the automatic deferral effective date or affirmatively elect not to participate in the Plan. All new entrants to the Plan are automatically enrolled at a 3% deferral rate with a 1% automatic increase on the first day of the plan year, up to a maximum of 7% of eligible compensation.

The Company may elect to make a discretionary matching contribution to the Plan equal to a uniform percentage of employee contributions determined and authorized by the Plan and the Company's Board of Directors up to the maximum amounts permitted by the IRC. The Company may also elect to make discretionary nonelective contributions. No discretionary matching contributions were approved or made to the Plan in 2025 or 2024. Discretionary nonelective contributions of $33,627 and $0 were approved and made to the Plan in 2025 and 2024, respectively. The Company makes matching contributions to a separate 401(k) plan sponsored by the Company, the Comanche County Medical Center Employees Retirement Plan, based upon each participant's contribution to the Plan.

Participant Investment Account Options

Each participant has the option of directing their contributions into any of the various investment options offered by the Plan and may change the allocation daily.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is fully vested after five years of continuous service. A participant is 100% vested upon death, disability, or retirement.

Forfeited Accounts

At December 31, 2025 and 2024, there were no forfeitures. Forfeitures will be used to reinstate previously forfeited account balances, pay plan administrative expenses, or reduce future employer contributions.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined quarterly, is set at 1% above the prime rate, as defined. Principal and interest are paid ratably through monthly payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the vested interest in their account or annual installments. Upon termination of service for other reasons, a participant may receive the value of the vested interest in their account only as a lump-sum distribution.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP) and present the Plan's net assets available for benefits and changes therein.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets, changes in net assets, and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisors, custodian, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a settlement date. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and expenses charged to the Plan for investments in mutual fund accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable From Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan at the Company's discretion. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

Note 3. Investment in Group Trust

Plan assets are held in the Group Trust. Investments are specifically allocated to the participating member plans based on the underlying investments and activity of the member plan, as the Group Trust is participant directed.

The following table presents the net assets available for benefits of the Group Trust on a modified cash basis as of December 31, 2025:

	Group Trust	Plan's Interest in Group Trust
Investments at fair value	$ 255,875,209	$ 5,501,467
Investments at contract value	9,986,662	83,123
	$ 265,861,871	$ 5,584,590

Plan's interest in Group Trust as a percentage of the total: 2.10%

The following table presents the net assets available for benefits of the Group Trust on a modified cash basis as of December 31, 2024:

	Group Trust	Plan's Interest in Group Trust
Cash and cash equivalents	$ 2,075	$ -
Investments at fair value	200,156,937	4,129,376
	200,159,012	4,129,376
Investments at contract value	8,292,433	66,801
	$ 208,451,445	$ 4,196,177

Plan's interest in Group Trust as a percentage of the total: 2.01%

The following table presents the investment income for the Group Trust for the year ended December 31, 2025:

Dividends, interest, and other investment income	$	7,673,635
Net realized and unrealized gain		28,507,884
	$	36,181,519

The following table presents the investment income for the Group Trust for the year ended December 31, 2024:

Dividends, interest, and other investment income	$	4,783,379
Net realized and unrealized gain		16,830,127
	$	21,613,506

Note 4. Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. The hierarchy comprises three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs supported by little or no market activity and that are significant to the fair value of the assets or liabilities

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

- Mutual funds: Valued at the net asset value of shares held by the Group Trust at year-end.

The Plan's investment in the Group Trust is stated on a modified cash basis. It is held by a bank-administered trust fund. The Group Trust is composed primarily of mutual funds and a guaranteed income fund. If available, the Group Trust uses quoted market values to value investments; if not, market values for similar investments are used to estimate the fair value of the investments. Many factors are considered in arriving at fair value.

The following table sets forth by level, within the fair value hierarchy, the Group Trust's assets at fair value as of December 31:

		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
2025				
Mutual funds	$ 255,875,209	$ 255,875,209	$ -	$ -
Investments at fair value	$ 255,875,209	$ 255,875,209	$ -	$ -
2024				
Mutual funds	$ 200,156,937	$ 200,156,937	$ -	$ -
Investments at fair value	$ 200,156,937	$ 200,156,937	$ -	$ -

The Group Trust participates in a contract with Empower Annuity Insurance Company of America (EAICA) via an investment in the Guaranteed Income Fund (GIF), which is a traditional group annuity insurance product. EAICA combines the assets of the GIF with other assets. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Because GIF is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefit attributable to the investment contract. Contract value, as reported to the Group Trust by EAICA, represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Generally, there are not any events that could limit the ability of the Group Trust to transact at contract value paid within 90 days or, in certain rate-based circumstances, paid over time. There are not any events that allow the issuer to terminate the contract and which require the Group Trust to settle at an amount different from the contract value paid either within 90 days or over time.

Note 5. Related-Party and Party-in-Interest Transactions

Plan assets include notes receivable from participants and an investment in the Group Trust. Fees incurred by the Plan for the investment management services are included in Group Trust investment income on the statements of changes in net assets available for benefits, as they are paid through revenue sharing or directly by the Group Trust, rather than through a direct payment by the Plan. Investment oversight of the Group Trust is managed by an appointed board of hospital executives called the Board of Successor Trustees (Trustees). The Plan pays certain administrative fees to Texas Hospital Association, the plan administrator, under an agreement with the Trustees to provide such services.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

Note 7. Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2017 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Note 8. Nonexempt Transactions

Defined contribution plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the employer's general assets, but no later than the 15th business day of the month following the month in which the participant contributions are withheld by the employer. While the Company remitted all employee contributions to the Plan, contributions of $102,756 and $137,486 were not remitted within the required time period for the years ended December 31, 2025 and 2024, respectively.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31:

	2025	2024
Net assets available for benefits per the financial statements	$ 5,739,510	$ 4,298,904
Less participant contributions receivable	-	(17,991)
Net assets available for benefits per Form 5500	$ 5,739,510	$ 4,280,913

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to Form 5500 for the years ended December 31:

	2025	2024
Net increase in net assets available for benefits per the financial statements	$ 1,440,606	$ 1,291,310
Less current-year receivables	-	(17,991)
Plus prior-year receivables	17,991	5,477
Net income per Form 5500	$ 1,458,597	$ 1,278,796

Note 11. Subsequent Events

Subsequent events have been evaluated through October 12, 2026, which is the date the financial statements were available to be issued.

Independent Auditor's Report

Plan Administrator
Comanche County Medical Center 403(b) Plan
Austin, Texas

Opinion

We have audited the financial statements of Comanche County Medical Center 403(b) Plan (Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Description of the Plan

General

The following description of the Comanche County Medical Center 403(b) Plan (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan sponsored by Comanche County Medical Center (Company) for the benefit of eligible employees. Employees are eligible to make elective deferrals as of their date of hire. Employees become eligible for employer matching and nonelective contributions upon attaining age 18 and completing three months of service.

Historically, the Plan participated in the Texas Hospital Association Participant Directed Retirement Program for Member Hospitals Group Trust, with Charles Schwab Trust Bank serving as custodian and Milliman, Inc. serving as record-keeper. Effective August 1, 2024, Empower Trust Company became the Plan's custodian and record-keeper. Effective December 31, 2024, the former group trust merged with the Texas Hospital Association Participant Directed Retirement Program Group Trust (Group Trust), in which all Plan assets are currently held.

The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA) effective December 1, 2017. The Company also sponsors the Comanche County Medical Center Employees Retirement Plan.

Contributions

Participants are allowed to make elective pretax or Roth contributions to the Plan, subject to limitations under the Internal Revenue Code (IRC). Participants who have attained age 50 are eligible to make catch-up contributions. Participants may also contribute amounts representing rollovers from other qualified retirement plans or individual retirement accounts. The Plan includes an automatic enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan upon meeting the Plan's eligibility requirements unless they have in effect a salary reduction agreement on the automatic deferral effective date or affirmatively elect not to participate in the Plan. All new entrants to the Plan are automatically enrolled at a 3% deferral rate with a 1% automatic increase on the first day of the plan year, up to a maximum of 7% of eligible compensation.

The Company may elect to make a discretionary matching contribution to the Plan equal to a uniform percentage of employee contributions determined and authorized by the Plan and the Company's Board of Directors up to the maximum amounts permitted by the IRC. The Company may also elect to make discretionary nonelective contributions. No discretionary matching contributions were approved or made to the Plan in 2025 or 2024. Discretionary nonelective contributions of $33,627 and $0 were approved and made to the Plan in 2025 and 2024, respectively. The Company makes matching contributions to a separate 401(k) plan sponsored by the Company, the Comanche County Medical Center Employees Retirement Plan, based upon each participant's contribution to the Plan.

Participant Investment Account Options

Each participant has the option of directing their contributions into any of the various investment options offered by the Plan and may change the allocation daily.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is fully vested after five years of continuous service. A participant is 100% vested upon death, disability, or retirement.

Forfeited Accounts

At December 31, 2025 and 2024, there were no forfeitures. Forfeitures will be used to reinstate previously forfeited account balances, pay plan administrative expenses, or reduce future employer contributions.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined quarterly, is set at 1% above the prime rate, as defined. Principal and interest are paid ratably through monthly payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the vested interest in their account or annual installments. Upon termination of service for other reasons, a participant may receive the value of the vested interest in their account only as a lump-sum distribution.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP) and present the Plan's net assets available for benefits and changes therein.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets, changes in net assets, and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisors, custodian, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a settlement date. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and expenses charged to the Plan for investments in mutual fund accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable From Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan at the Company's discretion. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

Note 3. Investment in Group Trust

Plan assets are held in the Group Trust. Investments are specifically allocated to the participating member plans based on the underlying investments and activity of the member plan, as the Group Trust is participant directed.

The following table presents the net assets available for benefits of the Group Trust on a modified cash basis as of December 31, 2025:

	Group Trust	Plan's Interest in Group Trust
Investments at fair value	$ 255,875,209	$ 5,501,467
Investments at contract value	9,986,662	83,123
	$ 265,861,871	$ 5,584,590

Plan's interest in Group Trust as a percentage of the total: 2.10%

The following table presents the net assets available for benefits of the Group Trust on a modified cash basis as of December 31, 2024:

	Group Trust	Plan's Interest in Group Trust
Cash and cash equivalents	$ 2,075	$ -
Investments at fair value	200,156,937	4,129,376
	200,159,012	4,129,376
Investments at contract value	8,292,433	66,801
	$ 208,451,445	$ 4,196,177

Plan's interest in Group Trust as a percentage of the total: 2.01%

The following table presents the investment income for the Group Trust for the year ended December 31, 2025:

Dividends, interest, and other investment income	$	7,673,635
Net realized and unrealized gain		28,507,884
	$	36,181,519

The following table presents the investment income for the Group Trust for the year ended December 31, 2024:

Dividends, interest, and other investment income	$	4,783,379
Net realized and unrealized gain		16,830,127
	$	21,613,506

Note 4. Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. The hierarchy comprises three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs supported by little or no market activity and that are significant to the fair value of the assets or liabilities

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

- Mutual funds: Valued at the net asset value of shares held by the Group Trust at year-end.

The Plan's investment in the Group Trust is stated on a modified cash basis. It is held by a bank-administered trust fund. The Group Trust is composed primarily of mutual funds and a guaranteed income fund. If available, the Group Trust uses quoted market values to value investments; if not, market values for similar investments are used to estimate the fair value of the investments. Many factors are considered in arriving at fair value.

The following table sets forth by level, within the fair value hierarchy, the Group Trust's assets at fair value as of December 31:

		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
2025				
Mutual funds	$ 255,875,209	$ 255,875,209	$ -	$ -
Investments at fair value	$ 255,875,209	$ 255,875,209	$ -	$ -
2024				
Mutual funds	$ 200,156,937	$ 200,156,937	$ -	$ -
Investments at fair value	$ 200,156,937	$ 200,156,937	$ -	$ -

The Group Trust participates in a contract with Empower Annuity Insurance Company of America (EAICA) via an investment in the Guaranteed Income Fund (GIF), which is a traditional group annuity insurance product. EAICA combines the assets of the GIF with other assets. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Because GIF is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefit attributable to the investment contract. Contract value, as reported to the Group Trust by EAICA, represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Generally, there are not any events that could limit the ability of the Group Trust to transact at contract value paid within 90 days or, in certain rate-based circumstances, paid over time. There are not any events that allow the issuer to terminate the contract and which require the Group Trust to settle at an amount different from the contract value paid either within 90 days or over time.

Note 5. Related-Party and Party-in-Interest Transactions

Plan assets include notes receivable from participants and an investment in the Group Trust. Fees incurred by the Plan for the investment management services are included in Group Trust investment income on the statements of changes in net assets available for benefits, as they are paid through revenue sharing or directly by the Group Trust, rather than through a direct payment by the Plan. Investment oversight of the Group Trust is managed by an appointed board of hospital executives called the Board of Successor Trustees (Trustees). The Plan pays certain administrative fees to Texas Hospital Association, the plan administrator, under an agreement with the Trustees to provide such services.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

Note 7. Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2017 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Note 8. Nonexempt Transactions

Defined contribution plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the employer's general assets, but no later than the 15th business day of the month following the month in which the participant contributions are withheld by the employer. While the Company remitted all employee contributions to the Plan, contributions of $102,756 and $137,486 were not remitted within the required time period for the years ended December 31, 2025 and 2024, respectively.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31:

	2025	2024
Net assets available for benefits per the financial statements	$ 5,739,510	$ 4,298,904
Less participant contributions receivable	-	(17,991)
Net assets available for benefits per Form 5500	$ 5,739,510	$ 4,280,913

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to Form 5500 for the years ended December 31:

	2025	2024
Net increase in net assets available for benefits per the financial statements	$ 1,440,606	$ 1,291,310
Less current-year receivables	-	(17,991)
Plus prior-year receivables	17,991	5,477
Net income per Form 5500	$ 1,458,597	$ 1,278,796

Note 11. Subsequent Events

Subsequent events have been evaluated through October 12, 2026, which is the date the financial statements were available to be issued.
