Independent Auditor's Report

To the Plan Administrator
Pension Plan for Hourly Employees Employed by the Hapco Division of Kearney-National, Inc.

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Pension Plan for Hourly Employees Employed by the Hapco Division of Kearney-National, Inc., an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended and the statements of accumulated plan benefits as of December 31, 2025 and 2024, and the related statements of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Pension Plan for Hourly Employees Employed by the Hapco Division of Kearney-National, Inc.'s financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

"Citrin Cooperman" is the brand under which Citrin Cooperman & Company, LLP, a licensed independent CPA firm, and Citrin Cooperman Advisors LLC serve clients' business needs. The two firms operate as separate legal entities in an alternative practice structure. The entities of Citrin Cooperman & Company, LLP and Citrin Cooperman Advisors LLC are independent member firms of the Moore North America, Inc. (MNA) Association, which is itself a regional member of Moore Global Network Limited (MGNL). All the firms associated with MNA are independently owned and managed entities. Their membership in, or association with, MNA should not be construed as constituting or implying any partnership between them.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Pension Plan for Hourly Employees Employed by the Hapco Division of Kearney-National, Inc. and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Pension Plan for Hourly Employees Employed by the Hapco Division of Kearney-National, Inc.'s ability to continue as a going concern for one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Pension Plan for Hourly Employees Employed by the Hapco Division of Kearney-National, Inc.'s internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Pension Plan for Hourly Employees Employed by the Hapco Division of Kearney-National, Inc.'s ability to continue as a going concern for a reasonable period of time.

Their membership in, or association with, MNA should not be construed as constituting or implying any partnership between them.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedule H, line 4i - schedule of assets (held at end of year) and schedule H, line 4j - schedule of reportable transactions as of or for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

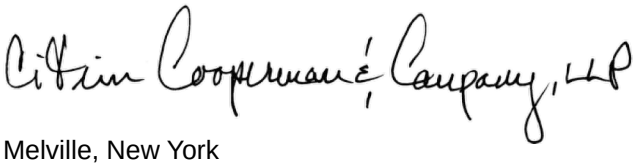

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Their membership in, or association with, MNA should not be construed as constituting or implying any partnership between them.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to the Financial Statements

December 31, 2025 and 2024

1. DESCRIPTION OF PLAN

The following description of the Pension Plan for Hourly Employees Employed by the Hapco Division of Kearney-National, Inc. (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a noncontributory defined benefit plan established effective May 1, 1973, as restated January 1, 2025. Prior to the Plan freeze (see below), the Plan covered all employees of the Hapco Division of Kearney-National, Inc. (the Company), who are employed at an hourly-rate basis and who have completed one year with 1,000 hours of eligible service, and who are not leased employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Investment Committee, which is a committee of the Board of Directors of the Company, is responsible for oversight of the Plan. The Plan’s Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Company's Board of Directors.

On December 31, 2022, the Plan was frozen to future participation and further benefit accruals under the Plan. The Plan was amended not to allow any participant not eligible to enter the Plan on or after December 31, 2022. If any employee became ineligible to participate in the Plan and the status of the employee subsequently changes to an eligible employee on or after December 31, 2022, then such employee is not to enter the Plan and shall not become a participant on or after December 31, 2022. The Plan was further amended to allow participants under collective bargaining agreements in this plan to participate in the KNI Group 401(k) and Profit Sharing Plan, also sponsored by the Company, effective January 1, 2023.

Funding policy - The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The minimum funding requirements of ERISA were met or exceeded in 2025 and 2024.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Pension benefits - Plan participants are entitled to their plan benefits after meeting certain age requirements with vested rights. Participants become vested in the Plan upon completion of at least five years of continuous service or attainment of the normal retirement age (65), although the Plan does allow for early retirement at age 55 if the participant has completed 15 years of vested service. In addition, effective June 1, 2019, the Plan permits early retirement at age 62 if the participant has completed 40 years of pension service. If employees terminate before rendering the required years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Company's contributions. Upon termination, participants may elect to receive the vested value of their accumulated plan benefits as a lump sum distribution, subject to certain restrictions. Upon becoming vested, participants are entitled to a monthly benefit amount multiplied by the number of years of pension services, as defined, credited to the participant. Upon termination of employment, pension payments are normally paid in the form of a monthly annuity payable for their lifetime or, if married, in the form of a qualified joint or survivor annuity.

If an active employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefit is paid to the employee's beneficiary. The Plan does not provide for disability benefits.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits - Benefits payments to participants are recorded upon distribution.

Administrative expenses - The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the Statements of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments in the Statements of Changes in Net Assets Available for Benefits.

Subsequent events - Subsequent events were evaluated through September 29, 2026, the date the financial statements were available to be issued.

3. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the years of service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on a participant's number of years of service multiplied by a benefit multiplier as follows:

- $24.00 multiplied by Years of Pension Service for retirements (or transfers to a non-covered classification) on or after May 8, 2006, and before May 1, 2007
- $25.00 multiplied by Years of Pension Service for retirements (or transfers to a non-covered classification) on or after May 1, 2007, and before May 1, 2008
- $26.00 multiplied by Years of Pension Service for retirements (or transfers to a non-covered classification) on or after May 1, 2008, and before May 1, 2010
- $27.00 multiplied by Years of Pension Service for retirements (or transfers to a non-covered classification) on or after May 8, 2010, and before May 8, 2011
- $28.00 multiplied by Years of Pension Service for retirements (or transfers to a non-covered classification) on or after May 8, 2011, and before May 8, 2012
- $29.00 multiplied by Years of Pension Service for retirements (or transfers to a non-covered classification) on or after May 8, 2012, and before May 8, 2013
- $30.00 multiplied by Years of Pension Service for retirements (or transfers to a non-covered classification) on or after May 8, 2013, and before May 8, 2014
- $31.00 multiplied by Years of Pension Service for retirements (or transfers to a non-covered classification) on or after May 8, 2014, and before May 8, 2015
- $32.00 multiplied by Years of Pension Service for retirements (or transfers to a non-covered classification) on or after May 8, 2015, and before May 14, 2016
- $33.00 multiplied by Years of Pension Service for retirements (or transfers to a non-covered classification) on or after May 14, 2016, and before May 14, 2017
- $34.00 multiplied by Years of Pension Service for retirements (or transfers to a non-covered classification) on or after May 14, 2017, and before May 14, 2018

- $35.00 multiplied by Years of Pension Service for retirements (or transfers to a non-covered classification) on or after May 14, 2018, and before May 14, 2019
- $36.00 multiplied by Years of Pension Service for retirements (or transfers to a non-covered classification) on or after May 14, 2019, and before May 14, 2020
- $37.00 multiplied by Years of Pension Service for retirements (or transfers to a non-covered classification) on or after May 14, 2020, and before May 14, 2021
- $38.00 multiplied by Years of Pension Service for retirements (or transfers to a non-covered classification) on or after May 14, 2021, and before May 14, 2022
- $42.00 multiplied by Years of Pension Service for retirements (or transfers to a non-covered classification) on or after May 14, 2022

Benefits payable under all circumstances, such as retirement, death, and termination of employment, are included, to the extent they are attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2025. Had the valuation been performed as of December 31, there would be no material differences. The significant actuarial assumptions used in the valuation were:

Assumption	**2025**	**2024**
Discount rate	6.25%	6.25%
Assumed rate of return on investments	6.25%	6.25%
Mortality	Pre-2012 Employee/Annuitant Mortality Tables with MP-2021 Scale	Pre-2012 Employee/Annuitant Mortality Tables with MP-2021 Scale
Retirement age	65	65
Termination	Varies with years of service; Rates are as follows: 1 - 3: 15.00% 4 - 9: 12.00% 10 - 14: 4.00% 15 - 19: 6.00% 20 - 24: 2.00% 25+: 15%	Varies with years of service; Rates are as follows: 1 - 4: 15.00% 5 - 9: 8.00% 10 - 14: 6.00% 15+: 0.00% 20 - 24: 2.00% 25+: 15%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2025 and 2024:

Interest-bearing cash: These investments are stated at cost, which approximates fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

Assets at fair value as of December 31, 2025	**Level 1**	**Level 2**	**Level 3**	**Total**
Interest-bearing cash	$ 168,331	$ -	$ -	$ 168,331
Mutual funds	11,662,211	-	-	11,662,211
Total assets in the fair value hierarchy	11,830,542	-	-	11,830,542
Total investments at fair value	$ 11,830,542	$ -	$ -	$ 11,830,542

Assets at fair value as of December 31, 2024	**Level 1**	**Level 2**	**Level 3**	**Total**
Interest-bearing cash	$ 118,935	$ -	$ -	$ 118,935
Mutual funds	10,605,797	-	-	10,605,797
Total assets in the fair value hierarchy	10,724,732	-	-	10,724,732
Total investments at fair value	$ 10,724,732	$ -	$ -	$ 10,724,732

5. INFORMATION CERTIFIED BY TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA for 2025 and 2024. Accordingly, certain information in the Plan's financial statements and supplemental schedules was agreed to or derived from information certified as complete and accurate by Charles Schwab Trust Bank, the Plan's trustee and a qualified institution. The certified information includes the Plan's investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2025 and 2024, and the accompanying supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025, and the related investment activity (including net appreciation, interest, and dividends) reported in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2025 and 2024.

6. RELATED-PARTY AND PARTY IN INTEREST TRANSACTIONS

The Plan's investments are administered under a contract with Charles Schwab Trust Bank, the trustee of the Plan. Contributions are held and managed by Charles Schwab Trust Bank, who invests cash received, interest and dividend income and makes distributions to participants. These transactions are party in interest transactions under ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are party in interest transactions under ERISA.

7. PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

8. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated November 24, 2025, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Appendix A – Summary of Actuarial Methods

The ultimate cost of a pension plan is the excess of actual benefits and administrative expenses paid over actual net investment return on plan assets during the plan's existence until the last payment has been made to the last participant. A plan's "actuarial cost method" determines the expected incidence of actuarial costs by allocating portions of the ultimate cost to each plan year. The cost method is thus a budgeting tool to help ensure that a plan will be adequately and systematically funded. Annual contributions are also affected by a plan's "asset valuation method" (as well as plan provisions, actuarial assumptions, and actual plan demographic and investment experience each year).

Actuarial Cost Method

The actuarial cost method used for determining the Plan's ERISA funding requirements and the FASB ASC Topic 960 values is the Unit Credit method. Under this method, an accrued benefit is determined at each active participant's assumed retirement age based on compensation and service at both the beginning and the end of the current year. The Plan's Normal Cost is the sum of the present value of the excess of each active participant's accrued benefit at the end of the current year over that at the beginning of the current year. The Plan's accrued liability is the sum of (a) the present value of each active participant's accrued benefit at the beginning of the current year plus (b) the present value of each inactive participant's benefits. This method is prescribed for ERISA funding requirements by the Pension Protection Act of 2006.

Asset Valuation Method

The Actuarial Value of Assets used for determining the Plan's ERISA funding requirements is based on the permitted three-year asset smoothing as defined under IRS Notice 2009-22. Under this method, the Actuarial Value of Assets equals the Market Value of Assets minus one-third and two-thirds, respectively, of the investment gain or loss for each of the two immediately preceding plan years, but it must be within 90% to 110% of the Market Value of Assets. The Market Value of Assets is equal to the Fair Value of Assets as of the valuation date plus the discounted value of employer contributions made after the valuation date. These contributions are discounted to the valuation date using the Effective Interest Rate for the prior plan year. The expected investment return for a plan year is based on the lesser of the expected rate of return on plan assets (currently 6.25% per year effective January 1, 2023) or the applicable statutory interest rate for the year.

PBGC Variable-Rate Premium Method

The alternative method is used for the PBGC variable-rate premium calculation (adopted January 1, 2021).

Amortization Method

For the Plan's ERISA funding requirements, incremental Funding Shortfall amounts are amortized over a fifteen-year period, and the related shortfall amortization payment is determined on the first valuation date following the plan year in which it arises based on the segment rates used for ERISA minimum funding purposes on that date, as prescribed under IRC Section 430.

ASOP 56 Modeling

ASOP 56 provides guidance to actuaries in respect to the development and involvement of models used in their actuarial services. The signing actuary should have a limited ability either to obtain information about the model or to understand the underlying workings of the model. Certain disclaimers and disclosures are required whenever

particular models or field experts are relied upon. The valuation results were developed using models intended for valuations that use standard actuarial techniques.

Changes in Actuarial Methods Since Prior Valuation

None.

Appendix B – Summary of Actuarial Assumptions

ECONOMIC ASSUMPTIONS

Interest Rates

The current funding and PBGC interest rates are as follows. The funding interest rates are prescribed under IRS regulations based on the Plan Sponsor's interest rate election. The PBGC interest rates are based on the Plan Sponsor's elected method for determining the premium funding target.

	Minimum Funding	Maximum Deductible	PBGC Premium
Segment 1 (0–5 years)	5.00%	5.00%	5.00%
Segment 2 (5–20 years)	5.27%	5.27%	5.27%
Segment 3 (20+ years)	5.50%	5.40%	5.40%
Effective Interest Rate	5.38%	5.33%	5.33%

ERISA minimum funding: 24-month average segment rates, using no lookback period, adjusted to reflect the applicable segment rate stabilization corridor.

Maximum Deductible Contribution: 24-month average segment rates, using no lookback period, but not adjusted to reflect segment rate stabilization.

PBGC premium: 24-month average segment rates, using no lookback period, but not adjusted to reflect segment rate stabilization. The alternative method (adopted January 1, 2021) is used for the PBGC variable-rate premium calculation.

FASB ASC Topic 960: 6.25% per year (adopted January 1, 2023). This is the assumed rate of return for the Plan's entire portfolio of assets, net of investment expenses and including assumed inflation rate of 2.31%. It is based on the Plan's investment policy, including target asset allocation, and Milliman's capital market expectations.

Asset Returns

6.25% per year (adopted January 1, 2023). It is based on the Plan's investment policy, including target asset allocation, and Milliman's capital market expectations.

Compensation Increases

Not applicable. (Benefit accruals are frozen.)

Inflation (CPI)

2.31% per year (adopted January 1, 2024). It is based on Milliman's capital market expectations.

Postretirement Benefit Increases

None. (The Plan does not provide for automatic postretirement benefit increases.)

Maximum Benefit and Annual Compensation Limitation Increases

ERISA minimum funding and Maximum Deductible Contribution: 0% per year as required by statute.

FASB ASC Topic 960: The assumed inflation assumption of 2.31% per year (adopted January 1, 2024).

Social Security Taxable Wage Base Increases

Not Applicable.

Administrative Expenses

An allowance of $66,980 for administrative expenses has been included in the Target Normal Cost, reflecting the actual administrative expenses paid from the Plan's trust during the previous year.

DEMOGRAPHIC ASSUMPTIONS

Except where noted, demographic assumptions are based on Milliman's Demographic Assumptions Study dated July 22, 2024.

Mortality

ERISA minimum funding, Maximum Deductible Contribution, and PBGC premium: Statutory table using IRS 2024 Generational Mortality Table adjusted to base year 2012, with projections to anticipate greater future longevity using IRS adjusted projection scale MP-2021, with separate rates for non-annuitants and annuitants.

FASB ASC Topic 960: Pri-2012 Mortality Tables projected forward using Scale MP-2021 on a generational basis, with sex-distinct employee rates before benefit commencement and nondisabled annuitant rates after benefit commencement (adopted December 31, 2021). As a generational table, it reflects mortality improvements both before and after the measurement date. The Society of Actuaries' Retirement Plans Experience Committee recommends use of the Pri-2012 tables and MP-2021 scales for valuing retirement plan liabilities.

Retirement

Annual rates of retirement are shown in the following table for active participants who are eligible to retire. These rates were adopted December 31, 2024.

Age	Rate
55-59	5%
60-61	10
62-64	20
65 & Over	100

Terminated vested participants are assumed to retire at age 65.

Termination

Annual rates of termination are based on years of service. Rates (adopted December 31, 2024) are shown in the following table.

Service	Rate
1-3	15%
4-9	12
10-14	4
15-19	6
20-24	2
25 & Over	15

Disability

None assumed.

Decrement Timing

Decrements are assumed to occur at the middle of the year, except that 100% retirement (see above) is assumed to occur at the beginning of the year.

Form of Payment

Life annuity.

Marital Characteristics

For participants not in pay status: 80% of male participants and 50% of female participants are assumed to be married to a spouse of the opposite sex. Males are assumed to be 3 years older than females.

For participants in pay status: Actual birth dates of beneficiaries are included in the census data, where relevant.

For beneficiaries: Actual birth dates are included in the census data, where relevant.

Benefits Not Valued

All plan benefits are valued.

Special Data Adjustments

None.

Appendix C – Summary of Principal Plan Provisions

This summary of plan provisions is intended to only describe the essential features of the Plan. All eligibility requirements and benefit amounts shall be determined in strict accordance with the plan document itself.

Definitions

Accrued Benefit: Determined using the same formula which is used to compute such Participant's Normal Retirement Benefit, taking into account the Participant's Years of Pension Service through the date of determination. Benefit accruals are frozen effective December 31, 2022.

Actuarially Equivalent: Equality in value such that the present value of the amount under any form of payment is essentially the same as the present value of the amount under the normal form of annuity payment for single participants. In general, for purposes other than determining lump-sum amounts, actuarially equivalent factors are based on the UP- 1984 Mortality Table and an interest rate of 7.0%. For purposes of determining lump-sum amounts, actuarially equivalent factors are based on the applicable mortality table in effect under IRC Section 417(e)(3) for the plan year of distribution and the statutory three-tier segment

Plan Effective Date: May 1, 1973. The plan was last amended and restated effective January 1, 2025.

Plan Year: The 12-month period beginning January 1 and ending December 31.

Years of Service

For Pension purposes: Determined using the Hours of Service Method. A Year of Pension Service, for purposes of computing a Participant's Normal Retirement Benefit, is credited for each Plan Year in which an Employee is credited with at least 2,080 Hours of Service. If an Employee worked less than 2,080 Hours in a plan year, a pro-rata portion of a year will be credited based on the ratio of actual number of hours worked to 2,080. All of an Employee's Years of Benefit Service are taken into account in determining the monthly benefit except:

- Service for which the Employee was not entitled to receive Compensation;
- Service while the Employee was not in an Eligible Employee Classification; and
- Service after December 31, 2022.

For Vesting purposes: Determined using the Hours of Service Method. A Year of Vesting Service, for purposes of computing a Participant's Vested Percentage, is credited for each Plan Year in which an Employee is credited with at least 1,000 Hours of Service. If an Employee worked less than 1,000 Hours in year of hire or termination, a pro-rata portion of a year will be credited based on the ratio of actual number of hours worked to 1,000. All of an Employee's Years of Vesting Service are taken into account in determining Vested Percentage.

Eligibility for Participation

The first day of the month which coincides with or next follows the date on which the employee completes one year of eligibility service. A year of eligibility service is earned for (a) the 12-month period beginning on the date of hire and (b) anniversaries thereof, provided that 1,000 or more hours of service are credited within such period. Participation is frozen effective December 31, 2022.

Normal Retirement

Normal Retirement Date: The first day of the month coincident with or next following the attainment of age 65.

Normal Retirement Benefit: A monthly pension benefit commencing on the Participant's Normal Retirement Date payable in the Normal Benefit Form in an amount equal to:

- $24.00 multiplied by Years of Pension Service for terminations or transfers on or after May 8, 2006 and before May 1, 2007;
- $25.00 multiplied by Years of Pension Service for terminations or transfers on or after May 1, 2007 and before May 1, 2008;
- $26.00 multiplied by Years of Pension Service for terminations or transfers on or after May 1, 2008 and before May 8, 2010;
- $27.00 multiplied by Years of Pension Service for terminations or transfers on or after May 8, 2010 and before May 8, 2011;
- $28.00 multiplied by Years of Pension Service for terminations or transfers on or after May 8, 2011 and before May 8, 2012;
- $29.00 multiplied by Years of Pension Service for terminations or transfers on or after May 8, 2012 and before May 8, 2013;
- $30.00 multiplied by Years of Pension Service for terminations or transfers on or after May 8, 2013 and before May 8, 2014;
- $31.00 multiplied by Years of Pension Service for terminations or transfers on or after May 8, 2014 and before May 8, 2015;
- $32.00 multiplied by Years of Pension Service for terminations or transfers on or after May 8, 2015 and before May 14, 2016;
- $33.00 multiplied by Years of Pension Service for terminations or transfers on or after May 14, 2016 and before May 14, 2017;
- $34.00 multiplied by Years of Pension Service for terminations or transfers on or after May 14, 2017 and before May 14, 2018;
- $35.00 multiplied by Years of Pension Service for terminations or transfers on or after May 14, 2018 and before May 14, 2019,
- $36.00 multiplied by Years of Pension Service for terminations or transfers on or after May 14, 2019 and before May 14, 2020;
- $37.00 multiplied by Years of Pension Service for terminations or transfers on or after May 14, 2020 and before May 14, 2021;
- $38.00 multiplied by Years of Pension Service for terminations or transfers on or after May 14, 2021 and before May 14, 2022; or
- $42.00 multiplied by Years of Pension Service for terminations or transfers on or after May 14, 2022.

Early Retirement

Early Retirement Date: The first day of the month coincident with or next following the attainment of age 55 and completion of 15 years of Vesting Service.

Early Retirement Benefit: The Accrued Benefit, reduced by 1/2% per month for each full month that his Early Retirement Date precedes his Normal Retirement Date.

Unreduced Early Retirement Date: The first day of the month coincident with or next following the attainment of age 62 and completion of 40 years of Vesting Service (available effective June 1, 2019).

Unreduced Early Retirement Benefit: 100% of the Accrued Benefit, without reduction.

Deferred Retirement

Deferred Retirement Date: The first day of the month coincident with or next following the date of termination of service if it occurs after the Normal Retirement Date.

Deferred Retirement Benefit: At actual retirement, the benefit will be based on the Normal Retirement Benefit formula using the Participant's Years of Pension Service through his Late Retirement Date.

Termination

Termination Date: The date of termination of service other than for reasons of retirement or death.

Termination Benefit: The Accrued Benefit, multiplied by the vested percentage in the following table, payable at the Normal Retirement Date, or payable as of the first day of any month coincident with or next following attainment of age 55 if at least 15 years of Vesting Service have been completed (reduced for commencement prior to Normal Retirement Date, as described above).

Years of Vesting Service	Vested Percentage
Less than 5	0%
5 or more	100%

Preretirement Death

Preretirement Death Benefit Eligibility: Surviving spouses of participants with a vested Accrued Benefit who die before commencement of payments.

Preretirement Death Benefit: 50% of the benefit that would have been payable had the deceased participant instead terminated service on the date of death, survived to his earliest possible benefit commencement date, elected a joint and 50% survivor annuity, and died on that same date. However, the death benefit will be paid as a lump sum if the present value of the benefit is less than $5,000.

Forms of Payment

Normal Forms: Life annuity if single; actuarially equivalent joint and 50% survivor annuity if married.

Optional Forms: Life annuity; actuarially equivalent life annuity with 10 years certain; actuarially equivalent joint and 50% to 100% (as elected) survivor annuity.

Small Lump Sum: Payable automatically if the actuarially equivalent present value of the vested Accrued Benefit is $1,000 or less.

Changes in Principal Plan Provisions Since Prior Valuation

None.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
