Independent Auditor's Report

To the Retirement and Employee Benefits Committee
Ideal Industries, Inc. Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the financial statements of Ideal Industries, Inc. Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2025 and 2024 and the related statement of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of January 1, 2025 and the related statement of changes in accumulated plan benefits for the year then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the years then ended stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

PRAXITY™
Empowering Business Globally

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audits* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of the ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedules Required by ERISA

The supplemental schedules of assets held at end of year as of December 31, 2025 and reportable transactions for the year ended December 31, 2025 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Plan Description

The following description of Ideal Industries, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit and cash balance plan covering substantially all employees of Ideal Industries, Inc. (Ideal) and its divisions/subsidiaries (collectively, the "Company"), including certain participants associated with former divisions/subsidiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility and Vesting

Employees become participants in the Plan following completion of one hour of service with the Company and are vested for normal retirement benefits after three years of service. If employees terminate before rendering three years of service, they forfeit the right to receive benefits unless due to death, disability, or retirement.

Funding Policy

Contributions to the Plan by the Company are based upon actuarial calculations of amounts required to provide benefits in accordance with the Plan's provisions. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2025 and 2024.

Pension Benefits

Employees are entitled to normal annual pension benefits, beginning at the participant's normal retirement age of 62 for employees hired prior to January 1, 2002 and 65 for employees hired after January 1, 2002. Normal retirement benefits vary based on a participant's enrollment date, age, and years of service within the Plan. As of January 1, 2014, the Plan's defined benefits formulas, which consider employee earnings, primary Social Security benefit, and years of service, were frozen for all participants who were not age 59 with 20 or more years of service. The Plan's normal retirement benefits earned after January 1, 2014 by employees with frozen defined benefits and employees hired after January 1, 2014 are based on hypothetical cash balances maintained for participants.

For employees hired before January 1, 2014, their hypothetical cash balances receive an annual pay credit ranging from 5 percent to 9 percent of the employees' eligible compensation based on the participants' ages. Employees hired on or after January 1, 2014 receive an annual pay credit of 4 percent.

Participants' hypothetical accounts also receive investment credits at the end of every year. The amount of the investment credit is tied to the 30-year U.S. Treasury rate, is in no event less than 2 percent, and is adjusted annually. As of December 31, 2025 and 2024, the interest rate was 4.37 percent and 4.94 percent, respectively.

Benefit computations are subject to minimum and maximum limits. The Plan also permits early retirement at age 55 with 15 years of service.

Benefit Payments

Distributions are payable upon retirement, death, disability, or termination of employment in the form of monthly annuity payments, other prescribed annuity forms, or as a lump-sum payment.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value.

Note 2 - Summary of Significant Accounting Policies (Continued)

Investments in limited liability companies are valued at net asset value per share (NAV), as reported by the fund manager, which is considered to be the practical expedient to estimate fair value. All other investments are valued based on quoted market prices. There were no unfunded commitments or redemption restrictions on the investments as of December 31, 2025 and 2024. See Note 4 for additional information.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Realized and unrealized gains or losses include the Plan's gains and losses on investments bought and sold, as well as held, during the year.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Various administrative costs are paid by the Plan and the Company.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees enrolled in the Plan before January 1, 2014 are based on employee earnings, primary Social Security benefit, and years of service, as limited by the applicable limits set by the Internal Revenue Code (IRC) for all years of credited service up to 35 years on the date as of which the benefit information is presented (the valuation date). The accumulated plan benefits earned after January 1, 2014 are based on the participants' hypothetical account balances.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at January 1, 2025 and 2024 are summarized as follows:

Discount rate	6.5 percent - 2025 and 2024
Mortality basis	Pri-2012 mortality table with MP-2021 projection improvement - 2025 and 2024
Retirement age	Increasing retirement rates beginning at age 55 with 100 percent participant retirement by age 70 - 2025 and 2024

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 2 - Summary of Significant Accounting Policies (Continued)

The decrease in actuarial present value of accumulated plan benefits in the year ended January 1, 2025 due to changes in actuarial assumptions was primarily the result of a decrease in the interest crediting rate from 4.94 percent to 4.37 percent.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 7, 2026, which is the date the financial statements were available to be issued.

Note 3 - Certified Information

U.S. Bank National Association (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements, supplemental schedule of assets held at end of year, and supplemental schedule of reportable transactions are based solely on information certified by the Trustee.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Note 4 - Fair Value Measurements (Continued)

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2025 and 2024:

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2025	
	Investments (at Fair Value)	Level 1
Mutual funds	$ 33,635,476	$ 33,635,476
Money market fund	1,279,028	1,279,028
Total	34,914,504	$ 34,914,504
Investments measured at NAV - Limited liability companies - Fixed income (1)	9,937,066	
Total investments at fair value	$ 44,851,570	

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2024	
	Investments (at Fair Value)	Level 1
Mutual funds	$ 32,317,307	$ 32,317,307
Money market fund	1,578,568	1,578,568
Total	33,895,875	$ 33,895,875
Investments measured at NAV - Limited liability companies - Fixed income (1)	9,288,933	
Total investments at fair value	$ 43,184,808	

(1) This class represents investments in actively managed limited liability companies that invest in a variety of fixed-income investments, which may include corporate bonds, both U.S and non-U.S municipal securities, interest rate swaps, options, and futures.

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 6 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Provide benefits for all participants or beneficiaries whose benefits have been, or could have been, in pay status for the entire three-year period prior to termination, based on the plan provisions in effect during the five-year period ending on such date under which such benefit would be the least
2. Provide all other benefits guaranteed under Title IV of the Employee Retirement Income Security Act of 1974 (without regard to the limitation of Section 4022(b)(3) or the limitation on benefits payable to substantial owners of Section 4022(b)(5))
3. Provide all other vested benefits other than those becoming nonforfeitable solely on account of the termination of the Plan
4. Provide all other benefits under the Plan

The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Demographic Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees

It was assumed there will be no new or rehired employees.

Mortality

Separate rates for non-annuitants and annuitants based on Pri-2012 “Employees” and “Healthy Annuitants” (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).

Termination

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Rate per 1,000 employees assumed to retire during the year	
Age	
55-56	30
57-59	50
60-61	100
62	250
63-64	150
65-66	300
67-69	600
70	1,000
The average retirement age is 62.63	

Benefit commencement date:

- Preretirement death benefit — Upon death of active participant.
- Deferred vested benefit — Upon attainment of unreduced retirement age; either age 62 or 65.
- Retirement benefit — Upon termination of employment.

Form of payment

Participants are assumed to elect a lump sum payment if eligible. If they are not eligible, they are assumed to elect the normal form.

Lump sums were valued using the substitution of annuity form under IRS Regulation 1.430(d)-1(f)(4) without application of generational mortality.

Percent married

80% of males; 70% of females. These assumptions are used to value pre-retirement surviving spouse benefits and in determining the optional form expected to be elected at commencement.

Spouse age

Wife three years younger than husband

SCHEDULE SB ATTACHMENTS

Covered pay	Actual “clean earnings” provided by the employer is used for calendar years prior to the valuation date. Assumed plan compensation for the year beginning on the valuation date was determined as the actual “clean earnings” for the prior year, increased with one year of the salary scale assumption. For those hired during the prior year, “clean earnings” were adjusted to account for an expected full year of pay in the current year.
Timing of benefit payments	Benefit payments are assumed to be made uniformly throughout the year.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant’s rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant’s rounded age at the middle of the year.

SCHEDULE SB ATTACHMENTS

Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2023 plan year.). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in Appendix B were valued.

Sources of Data and Other Information

The plan sponsor, furnished participant data as of 1/1/2025. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. Schedule SB, Part V
Summary of Plan Provisions

Plan sponsor

IDEAL INDUSTRIES, INC.

Plan

IDEAL INDUSTRIES, INC. Retirement Plan

EIN/PN

36-2048768/002

Effective date and most recent amendment

The Plan was originally effective April 1, 1944. The Plan was amended and restated effective January 1, 2014.

Plan Year

The twelve-month period ending December 31, 2025.

Coverage and participation

An employee who was a participant in the plan immediately prior to January 1, 2014 shall continue to be a participant in the plan beginning on January 1, 2014, except participants that were at least age 59 with 20 years of service as of January 1, 2014 and not in Legacy Plan B shall continue to accrue benefits under the Legacy Plan A component of the Plan, and participants whose employment commencement date occurred prior to January 1, 2002 and who has attained age 50 or completed 20 years of service prior to April 1, 2002 shall continue to accrue benefits under the Legacy Plan B component of the plan. Each employee who is not already a participant will become a participant in the plan on the date on which the employee first performs an hour of service; provided, however, that no Employee shall become a participant in the Legacy Plan A or Legacy Plan B components of the Plan after January 1, 2014.

Credited/vesting service

An employee is granted credited and vesting service from his employment commencement date to his severance from service date. Service is the aggregate of all one year periods and any fractional one year periods of employment completed by the employee, rounded to the nearest $1/12^{th}$. 30 days are deemed to be a month in the case of the aggregation of fractional months.

SCHEDULE SB ATTACHMENTS

Legacy Plan A component participants may be eligible for additional credited service called "Transition Service." Transition Service is equal to 0.2 years per complete year of service at March 31, 2002, and is earned by all Retirement Plan component participants whose employment commencement date occurred prior to January 1, 2002 and who were at least 45 years old as of April 1, 2002.

Plan earnings

Earnings for each calendar year is the sum of base salary, overtime, bonuses, commissions, incentive pay, and amounts deferred under Sections 125, 129, and 132(f)(4) of the Internal Revenue Code, plus any savings plus account contributions made under the IDEAL INDUSTRIES, INC. Profit Sharing Plan during that year. The plan shall disregard Earnings in any year in excess of $330,000 (or other amount determined after the 2023 plan year by the Commissioner of the Internal Revenue Service under Section 401(a)(17) of the Internal Revenue Code).

Normal retirement date (NRD)

First of month coinciding with or next following the attainment of age 65.

Early retirement date (ERD)

First of month coinciding with or next following the attainment of age 55 with 15 years of service.

Cash balance account

Sum of pay credits and interest credits, as described below.

Pay credits

A participant shall receive a pay credit to their cash balance account of a percentage of their annual plan earnings if they complete at least 1,000 hours of service, retires on or after their NRD or ERD, or dies. The pay credit is credited to their cash balance account as of the last day of the plan year. The percentage of annual plan earnings that is credited to a participant's cash balance account is determined as follows:

- For a participant who was a participant in the plan immediately prior to January 1, 2014;

Age as of January 1	Percentage of annual plan earnings
Less than 45	5%
45-49	6%
50-54	7%
55-59	8%
60 or older	9%

- For a participant who first becomes a participant on or after January 1, 2014; 4% of annual plan earnings.

SCHEDULE SB ATTACHMENTS

Interest credits

Interest as specified by the Plan will be credited on the last day of the plan year on each active participant's cash balance account as of the first day of the plan year. The interest rate shall be a rate equal to the 30-year U.S. Treasury Rate for October of the immediately prior calendar year (as published in November of such year); provided, however, that in no event shall the interest rate be less than 2%.

Accrued benefit

Cash Balance Account (if applicable) and/or Legacy Plan A Accrued Benefit (as defined in Legacy Plan A section) or Legacy Plan B Accrued Benefit (as defined in Legacy Plan B section.) An employee who was a participant in the plan immediately prior to January 1, 2014 but is not grandfathered in a Legacy Plan shall have their final average pay benefit frozen as of December 31, 2013.

Actuarial Equivalent

Except as otherwise provided with respect to the Legacy Plan A component or Legacy Plan B component, for purposes of converting a Cash Balance Account to an alternate form of benefit, an "Actuarial Equivalent" value shall be calculated using the IRC 417(e)(3) mortality and interest rate for October (published in November) of the year prior to the year of determination.

Normal retirement benefit

Benefit Formula: The benefit at normal retirement date is the accrued benefit

Normal Form of Payment: For a participant who is married at the benefit commencement date, the normal form of payment is an actuarially reduced joint and survivor annuity, with 50% of the benefit continuing to the surviving spouse upon the earlier death of the participant. For all other participants, the normal form of payment is a life annuity.

Deferred retirement

Deferred Retirement Date: The first day of the month coincident with or following the date of retirement from the employment of IDEAL INDUSTRIES, INC. following NRD.

Benefit Formula: The benefit at a deferred retirement date is equal to the greater of (i) or (ii):

(i) The accrued benefit as of the deferred retirement date.

(ii) The accrued benefit at NRD actuarially increased to the earlier of the deferred retirement date or receipt of a suspension of benefits notice.

Vested benefits upon termination of service

Eligibility: Termination of employment after completing at least 3 years of vesting service

Termination Benefit: Form of payment amount actuarially equivalent to the cash balance account

SCHEDULE SB ATTACHMENTS

Death benefits for participants in active service

Eligibility: Surviving spouse of an active vested or terminated vested participant in the event of the participant's death after having been married for at least one year. The spouse's benefit will commence on the first day of the month coincident with or following the later of the participant's date of death or the date the participant would have been eligible for early retirement.

Benefit: Cash balance benefit as a lump sum equal to the participant's cash balance account. In lieu of a lump sum, the eligible spouse can elect a benefit assuming the participant terminated on the date of death, elected to commence payments the following month under the 50% joint and survivor option, and died immediately afterward. The 50% joint and survivor and early commencement factors are determined actuarially.

Optional forms of retirement income in lieu of normal form

In lieu of the normal form of payment, a married participant who retired after completing at least 3 years of vesting service may elect to receive a single life annuity, a lump sum payment, 10-year certain and continuous annuity, 75% joint and survivor annuity, or 100% joint and survivor annuity. A single participant may elect a lump sum payment or a 10-year certain and continuous annuity.

Pension increases

None.

Plan participants' contributions

Employee contributions are neither required nor permitted under the Plan.

Changes in plan provisions since last actuarial valuation

None.

Summary of principal plan provisions – Legacy Plan A component

Average plan earnings

A participant's Average Plan Earnings is the average of his Earnings during the five consecutive years of employment with IDEAL INDUSTRIES, INC. which will produce the highest average.

Covered compensation

The monthly average of Social Security taxable wage bases in effect for each of the 35 calendar years ending with the year the participant attains, or would attain, Social Security retirement age, assuming the Social Security taxable wage base for future years is the same as the Social Security taxable wage base in effect for the current year.

SCHEDULE SB ATTACHMENTS

Excess earnings

The excess, if any, of Average Earnings over Covered Compensation.

Actuarial Equivalent

For purposes of determining the amount of a lump sum distribution, the present value shall be calculated using the IRC 417(e)(3) mortality and interest rate for October (published in November) of the year prior to the year of determination

For all other purposes, including the determination of optional forms of payment and actuarial reductions, the actuarial equivalence shall be based on the following assumptions:

(i) Interest at the rate of 7% per annum, compounded annually.

(ii) The 1971 TPF&C Forecast Mortality Table, and, effective August 1983, all actuarial factors shall be the same for males and females at any given age, assuming a weighting of 70% male and 30% female.

Normal retirement benefit

Normal Retirement Date: The first day of the month coincident with or following age 65.

Benefit Formula: The benefit at normal retirement date is equal to the sum of (i), (ii), and (iii), or the participant's Accrued Benefit under the Legacy Plan component as of March 31, 2002 if greater:

(i) 1.00% of the participant's Average Plan Earnings multiplied by his number of years of service (up to 20 years); plus

(ii) 1.30% of the participant's Average Plan Earnings multiplied by his number of years of service in excess of 20 years; plus

(iii) 0.65% of the participant's Excess Earnings multiplied by his years of service (up to 35 years).

Normal Form of Payment: For a participant who is married at the benefit commencement date, the normal form of payment is an actuarially reduced joint and survivor annuity, with 50% of the benefit continuing to the surviving spouse upon the earlier death of the participant. For all other participants, the normal form of payment is a life annuity.

Deferred retirement

Deferred Retirement Date: The first day of the month coincident with or following the date of retirement from the employment of IDEAL INDUSTRIES, INC. following the normal retirement date.

Benefit Formula: The benefit at a deferred retirement date is equal to the greater of (i) or (ii):

(i) The benefit according to the normal retirement benefit formula, with regards to Average Plan Earnings and service as of the deferred retirement date.

(ii) The participant's benefit at normal retirement date and every December 31 thereafter (prior to deferred retirement date), actuarially increased to the earlier of the deferred retirement date or receipt of a suspension of benefits notice.

SCHEDULE SB ATTACHMENTS

Accrued benefit

The Accrued Benefit is determined by applying the normal retirement benefit formula, but using the Average Plan Earnings, Excess Earnings, and years of service as of the date of determination.

Vested benefits upon termination of service

Eligibility: Termination of employment after completing at least 3 years of vesting service.

Termination Benefit: The participant's Accrued Benefit payable on the first of any month coincident with or following termination date, actuarially reduced for payment prior to Normal Retirement Date.

Death benefits for participants in active service

Eligibility: Surviving spouse of an active vested or terminated vested participant in the event of the participant's death after having been married for at least one year. The spouse's benefit will commence on the first day of the month coincident with or following the later of the participant's date of death or the date the participant would have been eligible for early retirement.

Benefit: The eligible spouse of an active participant who dies prior to normal retirement and before benefit payment commences will receive a benefit assuming the participant terminated on the date of death, elected to commence payments the following month under the 50% joint and survivor option, and died immediately afterward. The 50% joint and survivor and early commencement factors are determined actuarially.

Optional forms of retirement income in lieu of normal form

In lieu of the normal form of payment, a married participant who retired after completing at least 3 years of vesting service may elect to receive a single life annuity, a lump sum payment, 10-year certain and continuous annuity, 75% joint and survivor annuity, or 100% joint and survivor annuity. A single participant may elect a lump sum payment or a 10-year certain and continuous annuity.

Pension increases

None.

Plan participants' contributions

Employee contributions are neither required nor permitted under the Plan.

Summary of principal plan provisions – Legacy Plan B component

Average plan earnings

A participant's Average Plan Earnings is the average of his Earnings during the five consecutive years of employment with IDEAL INDUSTRIES, INC. which will produce the highest average.

SCHEDULE SB ATTACHMENTS

Primary Social Security benefit

The estimated unreduced Primary Old Age Insurance Amount to which a participant is entitled commencing on the participant's earliest unreduced Social Security eligibility date based on the laws in effect on the date of determination. In estimating the benefit, it is assumed that the participant's earnings continue at the same level through the calendar year preceding the participant's normal retirement date, and that the participant has no further earnings thereafter. The Primary Social Security Benefit shall be determined at the earliest of a participant's normal retirement date, early retirement date, or separation from service date, and shall be fixed thereafter.

Actuarial Equivalent

For purposes of determining the amount of a lump sum distribution, the present value shall be calculated using the IRC 417(e)(3) mortality and interest rate for October (published in November) of the year prior to the year of determination

For all other purposes, including the determination of optional forms of payment and actuarial reductions, the actuarial equivalence shall be based on the following assumptions:

(i) Interest at the rate of 7% per annum, compounded annually.

(ii) The 1971 TPF&C Forecast Mortality Table, and, effective August 1983, all actuarial factors shall be the same for males and females at any given age, assuming a weighting of 70% male and 30% female.

Normal retirement benefit

Normal Retirement Date: The first day of the month coincident with or following age 62.

Benefit Formula: The benefit at normal retirement date is equal to the greatest of (i), (ii), or (iii):

(i) 50% of Average Plan Earnings less one-half of the Primary Social Security Benefit, to a member who has completed 20 or more years of service at his normal retirement date. The 50% benefit is reduced 2% for each complete year that service at normal retirement date is less than 20 years, to a minimum of 40% for 15 years of service. If the participant has less than 15 years of service at normal retirement date, the benefit described above is prorated for years of service less than 15.

(ii) The amount of annual retirement benefit purchased as of March 31, 1960.

(iii) $15 per month of service.

Normal Form of Payment: For a participant who is married at the benefit commencement date, the normal form of payment is an actuarially reduced joint and survivor annuity, with 50% of the benefit continuing to the surviving spouse upon the earlier death of the participant. For all other participants, the normal form of payment is a 10-year certain and continuous annuity.

SCHEDULE SB ATTACHMENTS

Deferred retirement

Deferred Retirement Date: The first day of the month coincident with or following the date of retirement from the employment of IDEAL INDUSTRIES, INC. following the normal retirement date.

Benefit Formula: The benefit at a deferred retirement date is equal to the greatest of (i), (ii), (iii), or (iv):

(i) 50% of Average Plan Earnings less one-half of the Primary Social Security Benefit, to a member who has completed 20 or more years of service at his deferred retirement date. The 50% benefit is reduced 2% for each complete year that service at his deferred retirement date is less than 20 years, to a minimum of 40% for 15 years of service. If the participant has less than 15 years of service at his deferred retirement date, the benefit described above is prorated by years of service at deferred retirement date less than 15.

(ii) The amount of annual retirement benefit purchased as of March 31, 1960.

(iii) $15 per month of service.

(iv) The participant's benefit at normal retirement date and every December 31 thereafter (prior to deferred retirement date), actuarially increased to the earlier of the deferred retirement date or receipt of a suspension of benefits notice.

Accrued benefit

The participant's accrued benefit equals the normal retirement benefit, defined earlier with Average Plan Earnings based on the date of determination and then multiplied by the ratio of (i) over (ii), where:

(i) is the participant's service on the date of determination, and

(ii) is the years of service projected to the participant's normal retirement date or deferred retirement date, if later.

Early retirement benefit

Eligibility: Termination of employment after attaining age 55 and completing at least 15 years of vesting service, and before reaching eligibility for normal retirement. The first day of the month coincident with or following such date of termination shall be the participant's Early Retirement Date.

Benefit: The participant's Accrued Benefit on the first of any month coincident with or following his Early Retirement Date, actuarially reduced for payment prior to his Normal Retirement Date.

Vested benefits upon termination of service

Eligibility: Termination of employment after completing at least 3 years of vesting service.

Termination Benefit: The participant's Accrued Benefit payable monthly at Normal Retirement Date in the normal form of payment.

SCHEDULE SB ATTACHMENTS

Death benefits for participants in active service

Eligibility: Surviving spouse of an active vested or terminated vested participant in the event of the participant's death after having been married for at least one year. The spouse's benefit will commence on the first day of the month coincident with or following the later of the participant's date of death or the date the participant would have been eligible for early retirement.

Benefit: The eligible spouse of an active participant who dies prior to normal retirement and before benefit payment commences will receive a benefit assuming the participant terminated on the date of death, elected to commence payments at the earliest possible date under the 50% joint and survivor option, and died immediately afterward. The 50% joint and survivor and early commencement factors are determined actuarially.

Optional forms of retirement income in lieu of normal form

In lieu of the normal form of payment, a married participant may elect to receive a lump sum payment (if retirement eligible), single life annuity, 75% joint and survivor annuity, 100% joint and survivor annuity, or a 10-year certain and continuous annuity. A single participant may elect to receive a lump sum payment (if retirement eligible) or a single life annuity.

Plan participants' contributions

Employee contributions are neither required nor permitted under the Plan.
