Financial Statements and Supplemental Schedules

Including Independent Auditors' Report

As of December 31, 2025

and for the Year Ended December 31, 2025

PKF O'CONNOR DAVIES
ACCOUNTANTS AND ADVISORS

Independent Auditors' Report

To the Plan Administrator of The O'Connell Companies Employee Stock Ownership Plan

Opinion

We have audited the financial statements of The O'Connell Companies Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2025, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of The O'Connell Companies Employee Stock Ownership Plan as of December 31, 2025, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The O'Connell Companies Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

PKF O'Connor Davies, LLP is a member firm of the PKF International Limited network of legally independent firms and does not accept any responsibility or liability for the actions or inactions on the part of any other individual member firm or firms.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The O'Connell Companies Employee Stock Ownership Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The O'Connell Companies Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The O'Connell Companies Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

The O'Connell Companies Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2025

1. Description of Plan

The following description of The O'Connell Companies Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a leveraged employee stock ownership plan (ESOP) established effective January 1, 2025. The Plan covers all employees, excluding Puerto Rico residents, leased employees, nonresident aliens who receive no U.S.-source earned income, employees included in a unit covered by a collective bargaining agreement where retirement benefits have been the subject of good-faith bargaining, interns, seasonal, and temporary employees, of The O'Connell Companies, Incorporated and its participating affiliated employers, including Western Builders, Inc., Daniel O'Connell's Sons, Inc., Appleton Corporation, and O'Connell Development Group Inc. (collectively, the Participating Employers) who have completed 1,000 hours and are age 18 or older. Interns, seasonal, and temporary employees are eligible to participate in the Plan upon attainment of age 21 and 1,000 hours of service. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The ESOP Committee is responsible for oversight of the Plan. The Plan's ESOP Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Board of Directors.

1. Description of Plan (continued)

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted. Participants who complete at least 1,000 hours of service during the Plan year and are employed on the last working day of the Plan year are generally eligible for an allocation of Company contributions for such year, subject to the Plan's exceptions for death, total and permanent disability, and termination after attainment of normal retirement age. Additional discretionary amounts may be contributed by the Company at the option of the Board of Directors. For the year ended December 31, 2025, the Company recognized a $5,000,000 Company contribution receivable. At December 31, 2025, the contribution had not yet been funded. For financial statement presentation, $4,988,106 is reflected in the allocated column and $11,894 is reflected in the unallocated column to cover accrued interest on the ESOP debt. The contribution was subsequently funded in April 2026 and applied to the refinanced ESOP loan. Because the related debt service had not yet been paid as of December 31, 2025, no shares were released from collateral for financial statement purposes at year-end.

Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with an allocation of the Company's discretionary contributions and, on the last day of each Plan year, an allocation of the Company's common stock shares released from the unallocated account, as well as forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation.

Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated, as defined in the plan agreement, to each participant's account based on the ratio of the participant's account balance to all participants' account balances.

1. Description of Plan (continued)

Vesting

If a participant's employment with the Company is terminated for any reason other than normal retirement age, death, or total and permanent disability, vesting in the portion of their accounts attributable to Employer Contributions is based on years of service. A participant is 20 percent vested after 2 years of credited service and continues to vest in increments of 20 percent until 100 percent vested after 6 years of credited service. A participant becomes fully vested upon attainment of normal retirement age, death, or total and permanent disability.

Voting rights

The Trustee generally exercises voting rights with respect to shares of Company stock held by the Plan, including both allocated and unallocated shares, in its sole discretion. Participants may direct the Trustee's vote with respect to shares allocated to their accounts only for specified major corporate transactions, including mergers, recapitalizations, liquidations, and sales of substantially all of the Company's assets. GreatBanc Trust Company, the Trustee, notifies affected participants when their voting directions are requested and votes those allocated shares in accordance with the directions received.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant will receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installment payments as provided in the plan document. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. If a terminated participant’s vested balance is less than or equal to $7,000, the amount may be automatically distributed in the form of lump sum cash payment or IRA, depending on the balance. Distributions are made in cash or, if the participant elects, in the form of Company common stock plus cash for any fractional share of common stock. The amount to be distributed is based upon the immediately preceding valuation date.

Forfeited accounts

Plan forfeitures are allocated to each participant's account in the same manner in which the Company contributions are allocated. At December 31, 2025, forfeited nonvested accounts totaled $0. These accounts will be allocated to participant accounts on the last day of the plan year. During 2025, no amounts were applied to plan activities from forfeited nonvested accounts.

1. Description of Plan (continued)

Put option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. If the shares are distributed as part of a total distribution, the put price may be paid, with interest, in five substantially equal annual installments. If the shares are not distributed as part of a total distribution, the entire put price is due within 30 days. Depending on the circumstances, the Company may purchase the shares. The purpose of the put option is to ensure that the participant can ultimately obtain cash for the shares.

Diversification

Diversification is offered to active participants who are at least 55 years old and have participated in the Plan for at least 10 years following the Plan's effective date, and have at least $500 in their accounts eligible for transfer (a Qualified Participant). As the Plan became effective January 1, 2025, no participant will be eligible to elect diversification before the election period following the 2034 Plan year, assuming all other eligibility requirements are met. During each of the first five years of eligible diversification, a Qualified Participant may withdraw up to 25% of the value of their investment in Company common stock, less any shares previously diversified, and transfer the amount as a rollover into another qualified plan or as a cash withdrawal. In the sixth and final year of the Qualified Election Period, the percentage amount that can be withdrawn increases to 50%. The election to diversify is made subsequent to year-end based upon the shares of Company stock in the participant's account at year-end.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

2. Summary of Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Company common stock is measured at fair value based on an independent third-party appraisal. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

2. Summary of Accounting Policies (continued)

Subsequent Events

Subsequent events were evaluated through October 13, 2026, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation technique are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation technique include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation technique are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2025.

3. Fair Value Measurements (continued)

Company common stock: Valued at estimated fair value based on an independent third-party appraisal using a combination of widely used valuation approaches, including the market and income valuation techniques. The appraiser considered inputs such as historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities, along with a discount for lack of marketability where appropriate.

Assets at Fair Value as of December 31, 2025	**Level 3**	**Total**
Company common stock	$22,414,712	$22,414,712
Total investments at fair value	$22,414,712	$22,414,712

Changes in Fair Value of Level 3 Assets

The following table sets forth a summary of changes in fair value of the Plan's level 3 assets for the year ended December 31, 2025:

	2025
Balance, beginning of year	
Acquisition of company common stock on December 30, 2025	$47,500,000
Net depreciation through December 31, 2025	(25,085,288)
Balance, end of year	$22,414,712

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table presents the Plan’s Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of December 31, 2025, the significant unobservable inputs and the quantitative information about those inputs.

3. Fair Value Measurements (continued)

Instrument	2025	Principal Valuation Technique	Significant Unobservable Inputs	[Quantitative Information about Significant Unobservable Inputs]
Company common stock	$22,414,712	Income	EBITDA, net income, weighted average cost of capital, discount rate, discount for lack of marketability	Projected revenue growth: 3.0% to 20.2%; projected EBITDA margin: 1.4%; weighted-average cost of capital: 14.0%; long-term growth rate: 3.0%; discount for lack of marketability: 5.0%.
		Market	Public comparables, revenue multiple, EBITDA multiple, discount for lack of marketability	Selected EBITDA multiples: 5.0x to 6.0x; discount for lack of marketability: 5.0%.

4. Investment in Common Stock

The Plan's investments in the Company's common shares at December 31, 2025 are presented in the following table:

	Unallocated
Number of shares	505,405
Cost	$47,500,000
Estimated fair value	$22,414,712

5. Loan Payable

On December 30, 2025, the Plan purchased 505,405 shares of the Company's Class E common stock in the amount of $47,500,000. The purchase was financed through a $7,500,000 loan from the Company and a $40,000,000 seller note issued to a selling shareholder. The Company loan bore interest at a fixed rate of 4.55% and had a stated maturity date of December 30, 2060, and required annual principal and interest payments beginning December 31, 2026. The seller note bore interest at a fixed rate of 10% and had a stated maturity date of December 30, 2040. At December 31, 2025, the Plan had $47,500,000 of principal outstanding under the two original loans and $11,894 of accrued interest. On January 6, 2026, the Plan's original Company ESOP loan and seller loan were refinanced and consolidated into a new Company loan. The opening refinanced balance was $47,583,257, consisting of $47,500,000 of principal plus $83,257 of accrued interest through January 6, 2026. Of the accrued interest, $11,894 related to 2025 and $71,363 accrued after year-end. The refinancing did not result in the acquisition of additional shares. The Plan continues to hold the 505,405 shares of Company Class E common stock acquired in connection with the initial ESOP transaction. The refinanced loan bears interest at a fixed rate of 4.55%, requires 35 annual principal and interest payments beginning December 31, 2026, and matures on January 6, 2061. The borrowing is collateralized by the unallocated shares of common stock and shares are released from collateral as debt service is actually paid. The Company funded the $5,000,000 contribution in April 2026, which the Plan applied as a prepayment to the refinanced loan. Of the prepayment, $593,161 was applied to interest accrued through the payment date and $4,406,839 was applied to principal. Because the related debt service had not been paid at December 31, 2025, all 505,405 shares remained unallocated for financial statement purposes at year-end. The April 2026 prepayment subsequently resulted in the release of 27,756 shares under the Plan's share release formula.

The scheduled amortization of the refinanced loan, including the April 2026 prepayment, is as follows:

Year	
December 31, 2026	$ 5,471,274
December 31, 2027	542,347
December 31, 2028	561,842
December 31, 2029	592,587
December 31, 2030	619,550
Thereafter	39,795,657
Total	$47,583,257

6. Related-Party and Party In Interest Transactions

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related party and party in interest transactions. As described in Note 2, the Company may pay plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

7. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the ESOP Committee directs the Trustee to pay all liabilities and expenses of the Plan and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan agreement and the IRC. In the event of Plan termination, participants would become 100 percent vested.

8. Tax Status

The Plan is intended to qualify under Section 401(a) of the Internal Revenue Code, and the related trust is intended to be exempt from federal income taxes under Section 501(a) of the IRC. The Plan has not yet received a favorable determination letter from the Internal Revenue Service. The Company intends to submit an application for a determination letter. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for federal income taxes has been included in the accompanying financial statements.

9. Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
