Cash Balance Plan B

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Eversheds Sutherland (US) LLP Cash Balance Plan B (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

(Continued)

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Schedule H, Line 4j – Schedule of Reportable Transactions as of and for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Eversheds Sutherland (US) LLP Cash Balance Plan B (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined benefit retirement plan, formed effective January 1, 2019, covering eligible equity partners of Eversheds Sutherland (US) LLP (the "Firm" or "Plan Sponsor"). Generally, equity partners of the Firm become eligible to participate in the Plan coincident with the later of (i) the date the partner becomes a member of an eligible class and (ii) January 1 next following the partner's employment date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Participant Accounts: Under the Plan provisions, amounts are credited by the Firm to the participants' hypothetical accounts. A participant's cash balance account shall be credited with cash balance credits and earnings credits as described below.

Cash Balance Credits: For each Plan Year for which a participant earns a year of service, a cash balance credit shall be credited as of December 31st of the Plan Year to the cash balance account of such participant. For participants that first became a participant during the Plan Year beginning January 1, 2019, the cash balance credit shall be that amount as defined for such participant in the Plan document. The cash balance credits are equal to 50% for participants entering on or after January 1, 2020 through December 31, 2022, or 100%, for participants entering on or after January 1, 2023, of the cash balance credit amount determined based on the participant's partner ownership percentage for such Plan Year multiplied by the full or fractional year of benefit service earned during the Plan Year. In no event shall such cash balance credit be less than $2,500.

Earnings Credits: Earnings credits are credited at the end of each day by applying the rate of return earned by the Plan for such day to the participant's cash balance account as of the beginning of the day. No earnings shall be credited with respect to a participant's cash balance credit for a Plan Year until January 15th next following the Plan Year for which the cash balance credit was earned. In no event shall the cumulative rate of return provided to the cash balance account be greater than 6% annualized over the period of Plan participation. Effective December 31, 2025, this limitation was removed prospectively; accordingly, earnings credits for periods after December 31, 2025, are not subject to a maximum rate of return.

Pension Benefits: Benefits are determined based on the participant's hypothetical account balance. Plan participants are eligible to receive their Plan benefit following retirement or termination of service. Participants are allowed to take in-service distributions upon reaching age 59 ½. Under the terms of the Plan, participants have the option of receiving their Plan benefit as a single lump sum payment or a monthly annuity payable for their lifetime. Participants may also elect to defer payment until a later date. In addition, if the benefits due to a participant are $5,000 or less, the amounts will be paid out in a lump sum. If a participant dies prior to receiving or commencing his or her benefit under the Plan, the participant's spouse or designated beneficiary, if not married at the time of death, will be entitled to the participant's benefit under the Plan.

Vesting: All Plan participants are 100% vested in their cash balance account at all times.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Funding Policy: Firm contributions to the Plan are made in amounts which will meet or exceed the minimum funding requirements under ERISA, as determined by the Plan's actuary. For the 2025 and 2024 plan years, the Firm made contributions of $4,410,930 and $4,082,773, respectively. The Firm's contributions to the Plan for the years ended December 31, 2025 and 2024, satisfied the minimum funding requirements of ERISA. Participant contributions are not permitted under the Plan.

Basis of Accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts and disclosures, and actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimates of the actuarial present value of accumulated Plan benefits.

Risks and Uncertainties: Investments are exposed to various risks such as interest rate, market, liquidity, credit risks, and global events. Due to the level of risk associated with certain plan investments, it is at least reasonably possible that changes in the values of certain plan investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Payment of Benefits: Benefits are recorded when paid.

Administrative and Investment Management Expenses: Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income reported by the Plan. All expenses of the Plan are paid by the Plan, unless paid by the Firm. Expenses paid by the Firm are excluded from these financial statements.

NOTE 3 - CERTIFIED INVESTMENTS

Certain information related to investments included in the accompanying financial statements and ERISA-required supplemental schedules, including investments held at December 31, 2025 and 2024, and net appreciation (depreciation) in fair value of investments and interest and dividends for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Matrix Trust Company, the trustee.

(Continued)

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Mutual funds and exchange-traded funds: The fair values of mutual fund and exchange-traded fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Collective trust fund: The fair value of participation units in the collective trust are based upon the net asset value (NAV) per unit, which is a practical expedient for fair value, of such fund and as reported by the fund manager. The fund provides for daily redemptions by the Plan at reported NAV per share.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2025:

	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 6,340,917	$ 6,340,917	$ -	$ -
Exchange-traded funds	2,981,263	2,981,263	-	-
Total investments in the fair value hierarchy	9,322,180	$ 9,322,180	$ -	$ -
Investments measured at net asset value*	1,308,720			
Total investments, at fair value	$ 10,630,900			

(Continued)

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2024:

	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 4,764,765	$ 4,764,765	$ -	$ -
Exchange-traded funds	2,306,329	2,306,329	-	-
Total investments in the fair value hierarchy	7,071,094	$ 7,071,094	$ -	$ -
Investments measured at net asset value*	1,011,440			
Total investments, at fair value	$ 8,082,534			

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statement of net assets available for benefits.

NOTE 5 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the plan are accumulated based on employees' compensation during each year of credited service. Benefits payable under all circumstances — retirement, death, disability, and termination of employment — are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawals or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2024 were as follows:

Distribution payouts: 100% lump sums
Interest crediting rate: 3.5%
Weighted average retirement age: 64

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

(Continued)

NOTE 5 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The actuarial present value of accumulated plan benefit information as of December 31, 2024 is as follows:

Actuarial present value of accumulated plan benefits	
Vested benefits:	
Active participants	$ 11,735,334
Terminated vested participants	433,517
Total actuarial present value of accumulated plan benefits	$ 12,168,851

The change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2024, is as follows:

Actuarial present value of accumulated plan benefits as of December 31, 2023	$ 9,074,108
Increase (decrease) during the year attributable to:	
Benefits accumulated	4,086,000
Increase for interest	589,411
Benefits paid	(1,580,668)
Net increase	3,094,743
Actuarial present value of accumulated plan benefits as of December 31, 2024	$ 12,168,851

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intention to do so, the Firm has the right under the Plan to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide those benefits and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

NOTE 7 - TAX STATUS

The Internal Revenue Service has determined and informed the Partnership by letter dated June 9, 2022 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was tax-qualified and the related trust was tax-exempt as of the financial statement date.

(Continued)

NOTE 7 - TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the plan, any party rendering service to the plan, the employer, and certain others. Certain administrative functions are performed by employees of the Firm. No such employee receives compensation from the Plan. The Plan holds mutual funds and a collective trust investment that is managed by AllianceBernstein, LP., the Plan's investment advisor, and therefore, these transactions qualify as party-in-interest transactions. Fees paid to other service providers also qualify as exempt party-in-interest transactions. Certain administrative expenses of the Plan are paid directly by the Firm.

NOTE 9 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 12, 2026, which is the date the financial statements were available to be issued. No subsequent events have occurred since December 31, 2025 that required recognition or disclosure in the Plan's financial statements.

NOTE 10 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (UNAUDITED)

The December 31, 2025 actuarial valuation was completed prior to the release of the financial statements. A summary of the actuarial valuation information provided by the Plan's actuary, which has not been audited by independent accountants, is provided below for informational purposes.

The actuarial present value of accumulated plan benefit information as of December 31, 2025 is as follows:

Actuarial present value of accumulated plan benefits	
Vested benefits:	
Active participants	$ 14,292,318
Terminated vested participants	718,921
Total actuarial present value of accumulated plan benefits	$ 15,011,239

(Continued)

NOTE 10 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (UNAUDITED) (Continued)

The change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2025, is as follows:

Actuarial present value of accumulated plan benefits as of December 31, 2024	$ 12,168,851
Increase (decrease) during the year attributable to:	
Benefits accumulated	4,413,569
Increase for interest	899,863
Benefits paid	(2,471,044)
Net increase	2,842,388
Actuarial present value of accumulated plan benefits as of December 31, 2025	$ 15,011,239

The significant actuarial assumptions used in the valuation as of December 31, 2025 were as follows:

Distribution payouts: 100% lump sums
Interest crediting rate: 3.5%
Weighted average retirement age: 64

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Actuarial Assumptions and Methods

Plan Sponsor Elections

Yield curve election: The plan sponsor did not elect to use the full yield curve under IRC section 430(h)(2)(D)(ii).

Applicable month: The plan sponsor elected to base the segment rates on the rates published in the month containing the valuation date.

Economic Assumptions

	Funding Target		PBGC
	with stabilization	without stabilization	Funding Target
First segment rate (years 0 to 4):	5.00%	5.00%	5.00%
Second segment rate (years 5 to 19):	5.27%	5.27%	5.27%
Third segment rate (years 20 and after):	5.50%	5.40%	5.40%
Effective interest rate (current year):	5.29%	5.27%	N/A

Interest crediting rate: 3.50%

The interest rates listed above are compounded annually.

The cash balance interest crediting rate is equal to the rate of return on plan assets, subject to cumulative minimum and maximum interest crediting rates. Accordingly, the assets needed to provide future cash balance benefits are independent of interest rates and only dependent on the plan's asset allocation to the extent that the cumulative minimum or maximum interest crediting rates affect the cash balance accounts. This plan provision is difficult to measure using traditional deterministic valuation procedures. To account for this plan provision, the interest crediting rate was selected from a reasonable range based on the plan's asset allocation that, when combined with the segment interest rates, produced a funding target that was as close as possible to the economic value of the cash balance accounts.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Actuarial Assumptions and Methods

Demographic Assumptions

RETIREMENT

All participants are assumed to retire according to the following schedule, but no earlier than one year from the valuation date of January 1, 2025:

Assumed retirement age	Percent assumed to retire
62	75.00%
70	100.00%

WEIGHTED AVERAGE RETIREMENT AGE

The weighted average retirement age for the population during the current year, rounded to the nearest whole number, is 64.

WITHDRAWAL AND DISABILITY

None.

RATIONALE FOR RETIREMENT AGE, WITHDRAWAL AND DISABILITY ASSUMPTIONS

The economic value of the cash balance benefits is not materially affected by the timing of benefit commencement. Therefore, no preretirement withdrawal or disability is assumed, and all participants are assumed to retire according to the schedule above.

MORTALITY AND MORTALITY IMPROVEMENT

The mortality follows the IRS 2025 Static Mortality Table, as prescribed by Treasury regulation section 1.430(h)(3)-1. The mortality decrement is assumed to occur as of the beginning of the year.

Other Assumptions

FORM OF PAYMENT

Based on the experience of the plan and future expectations, all participants are assumed to elect a lump sum form of payment.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Actuarial Assumptions and Methods

EXPENSES

Assumed expenses are $0 for 2025, based on the experience of the plan and future expectations. In accordance with our understanding of the available guidance, the expense assumption reflects administrative expenses and does not include investment-related expenses or any other non-administrative expense.

Changes from Prior Year and Rationale for Changes

None.

Actuarial Methods

VALUATION DATE

The valuation date is January 1, 2025.

ACTUARIAL VALUE OF ASSETS

The actuarial value of assets is equal to the market value of assets.

MINIMUM FUNDING METHOD

The funding target and target normal cost for minimum funding calculations are determined using the traditional unit credit cost method as prescribed by Treasury regulation section 1.430(d)-1. The liability under the unit credit cost method is the value of the accrued pension benefit using service and pay as of the valuation date. The sum of the present value of the accrued benefits for all participants is the ERISA funding target. The normal cost is the present value of the benefits earned during the year. The target normal cost is the sum of the normal costs for all participants and the assumed administrative expenses.

Changes in Method from Prior Year and Rationale for Changes

None.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
