Independent Auditor's Report

To the Administrative Committee of the
Yedei Chesed Tax Deferred Annuity Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Yedei Chesed Tax Deferred Annuity Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company and Voya Retirement Insurance and Annuity Company, a qualified institution, as of and for the years ending December 31, 2025 and 2024, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Yedei Chesed Tax Deferred Annuity Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Yedei Chesed Tax Deferred Annuity Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedules Required by ERISA

The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) for the year ended December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note A – Description of Plan

The following description of the Yedei Chesed Tax Deferred Annuity Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution, profit-sharing plan established by Yedei Chesed, Inc. ("Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan was established to provide retirement benefits for employees of the Company, who meet the eligibility requirements per the Plan document.

Transfer of Plan Assets. Effective June 19, 2024, the Plan's assets, excluding outstanding participant loans, were transferred from Voya Retirement and Insurance and Annuity Company ("Voya") to Principal Trust Company ("Principal"), the Plan's new recordkeeper and custodian. Participant loans were not transferred and remain with Voya due to Voya's loan transfer restriction policy.

In connection with the transition, a blackout period was in effect from May 16, 2024 through the week of June 9, 2024, during which participants were temporarily unable to direct or diversify investments, request plan loans (if applicable), or make withdrawals or distributions. The last day to change investment elections with the prior recordkeeper was May 15, 2024.

Due to contractual provisions, the Voya Fixed Plus Fund offered under the Plan will continue to be held as a separate investment option outside of Principal for a period of five years following the transfer. Systematic liquidations of this investment will occur over that period, with proceeds allocated to participants based on their current investment elections. If a participant does not have an investment election on file, funds will be allocated to the Plan's participant-level default investment option.

Contributions. Each year, participants may contribute up to the maximum percentage allowable not to exceed the limits of Code Sections 401(k). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company has the option to make discretionary matching contributions to the Plan each year. For the plan year ended December 31, 2025, the Company made matching contributions equal to 100% of each participant's elective deferrals, up to a maximum of $250 per quarter. Additionally, the Company can make discretionary profit-sharing contributions each year. Profit-sharing contributions in the amount of $10,000 were made for the plan year ending December 31, 2025. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Note A – Description of Plan (continued)

Participant Accounts. Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit-sharing contribution, if any, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service.

Notes Receivable from Participants. Participants may borrow a minimum of $1,000 and the maximum of the lesser of one-half of the vested account balance or $50,000 reduced by the highest outstanding loan balance in the account during the prior 12-month period. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. The interest rates on the outstanding loans as of the end of the year was 5.10% - 8.75% Principal and interest are paid ratably through payroll deductions.

Payment of Benefits. Participants may withdraw from their account when reaching normal retirement age. All accounts are subject to distribution upon the participant's termination, retirement, total disability or death. On termination of service, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Additional information regarding distribution limits is detailed in the plan document.

Forfeited Accounts. As of December 31, 2025 and 2024, there was no balance in the forfeiture account. These accounts are to be used at the Plan Sponsor's discretion and may be allocated to participants, used to pay plan expenses and/or to reduce any future employer contributions.

Note B – Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note B – Summary of Accounting Policies

Investment Valuation and Income Recognition
Investments are reported at fair value (except for fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Contributions
Contributions from Plan participants and the matching contributions from the Employer are recorded in the year in which the employee contributions are withheld from compensation.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Excess Contributions Payable
Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2025 excess contributions to the applicable participants on September 11, 2026.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events
The Plan has evaluated subsequent events through October 1, 2026, the date the financial statements were available to be issued.

Note C – Certified Investment Information

Certain information in the accompanying financial statements and ERISA-required supplemental schedule related to investments and notes receivable from participants held at December 31, 2025 and 2024, and net appreciation in fair value investments, interest and dividends, and interest income on notes receivable from participants for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company and/or Voya Retirement Insurance and Annuity Company, qualified institutions.

Note D – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Insurance Co. General Account (Voya Fixed Plus Account and Principal Guaranteed Option) is reported at contract value. Contract value represents the amount participants would receive if they were to initiate a transaction under the terms of the ongoing plan.

Note D – Fair Value Measurements (continued)

Interest is credited daily at an interest rate not less than the guaranteed minimum interest rate, as shown on the contract. The interest crediting rate is declared on a quarterly basis. The contract amount maintained in the account is guaranteed against loss of principal, minus all withdrawals, including charges and adjustments. The guarantee is based on the trustee's ability to meet its financial obligations from general assets.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets as fair value as of December 31, 2025 and 2024:

	Assets at Fair Value as of December 31, 2025			
	Level 1	*Level 2*	*Level 3*	*Total*
Insurance co. general acct*	$ -	$ -	$ -	$ 1,019,974
Mutual funds	1,703,922	-	-	1,703,922
Total assets at fair value	$ 1,703,922	$ -	$ -	$ 2,723,896

	Assets at Fair Value as of December 31, 2024			
	Level 1	*Level 2*	*Level 3*	*Total*
Insurance co. general acct*	$ -	$ -	$ -	$ 987,354
Mutual funds	1,492,216	-	-	1,492,216
Total assets at fair value	$ 1,492,216	$ -	$ -	$ 2,479,570

*****Certain investments that are measured at contract value have not been classified in the fair value hierarchy.

The fair value amounts in this table are intended to permit reconciliation of the fair value hierarchy table to the fair value of investments presented in the statement of net assets available for benefits.

Note E – Investment Contract with Insurance Company

Voya Fixed Plus Account

The Plan invests in the Voya Fixed Plus Account, a group annuity contract issued by Voya Retirement Insurance and Annuity Company ("Voya"). The Voya Fixed Plus Account is a general account investment contract that provides a guaranteed minimum interest rate and may be credited with additional interest at the discretion of Voya.

Interest is credited at a rate declared by Voya and is guaranteed not to be less than 1% annually. The declared rate is reviewed periodically and may be reset by Voya, but once established, applies to all contributions allocated to the account for a specified period.

Note E – Investment Contract with Insurance Company (continued)
The contract is considered a fully benefit-responsive investment contract as defined by the Financial Accounting Standards Board Accounting Standards Codification (ASC) 962, *Plan Accounting—Defined Contribution Pension Plans*. Accordingly, the investment is reported at contract value, which represents contributions made to the contract, plus earnings credited, less participant withdrawals and administrative expenses. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

At December 31, 2025 and 2024, the contract value approximated fair value.

The Voya Fixed Plus Account is backed by the general assets of Voya. Voya guarantees principal and accumulated interest for participant-initiated withdrawals permitted by the Plan. Withdrawals or transfers initiated by the Plan sponsor, rather than by participants, may be subject to certain restrictions, including advance notice requirements or payment over a specified period of time.

Principal Guaranteed Option
The Plan invests in the Principal Guaranteed Option ("PGO"), a benefit-responsive group annuity contract issued by Principal Life Insurance Company ("PLIC") and held in custody by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company. The contract provides for stable, competitive interest rates based on current market conditions through investments in fixed income securities of short to intermediate duration held in PLIC's general account.

The PGO provides fully benefit-responsive features and is recorded at contract value, which approximates fair value, as reported to the Plan by the custodian. Contract value represents contributions made under the contract, plus interest credited, less participant withdrawals and administrative expenses. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Plan participants may withdraw all or a portion of their balances without fees or restrictions for "benefit-responsive events," including termination of employment, retirement, death, or disability. Participant-directed transactions not resulting from a benefit-responsive event may be subject to restrictions and/or discontinuation charges, as defined in the contract.

The methodology for calculating the interest crediting rate is defined in the contract under the term "Composite Crediting Rate." Under the terms of the existing contract, the crediting rate is reset on a semiannual basis, subject to a minimum guaranteed interest rate. The net crediting rate is the rate actually credited to participants' balances, after any applicable fees.

Because the PGO is a single group annuity contract with a fixed rate of interest, the average yield earned by the Plan is the yield earned (i.e., interest credited) on the contract itself, rather than being derived from a portfolio of underlying assets as would be the case with a stable value fund.

At December 31, 2025, the contract value approximated fair value.

Note E – Investment Contract with Insurance Company (continued)
The net composite crediting rate history for the contract is as follows:

Time Period	Rate
December 1, 2025 – May 31, 2026	4.10%
June 1, 2025 – November 30, 2025	4.30%
December 1, 2024 – May 31, 2025	4.20%
June 1, 2024 – November 30, 2024	4.50%
December 1, 2023 – May 31, 2024	5.40%

By definition, the Principal Guaranteed Option ("PGO") group annuity contract is an insurance contract. Accordingly, the Plan may transact according to the terms defined in the contract at any time. The provisions governing deposits, fees, benefits, payments, and limitations are specified in Article II (Deposits and Ownership – Vintages), Article III (Fees), Article IV (Benefits and Other Payments), and Article V (Limitations; Termination) of the contract.

Plan management should assess the probability of events occurring that could limit the Plan's ability to transact with participants at contract value.

Article V of the contract defines the circumstances under which the Plan may terminate its interest in the contract, including any associated limitations or charges. In addition, while PLIC may cease to accept new deposits under Article II, Section 4, any termination of the contract remains subject to the provisions of Article V.

Note F – Related-Party Transactions and Party in Interest Transactions
Certain Plan investments are managed by Voya Retirement Insurance and Annuity Company or Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company. Voya and Principal are trustees and recordkeepers for the Plan and, therefore, these transactions qualify as party-in-interest transactions. Participant loans also qualify as party-in-interest transactions.

Note G – Plan Termination
Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note H – Tax Status
The Plan has been designed using a volume submitter 403(b) plan document that received an advisory letter dated March 31, 2017, in which the IRS stated that the volume submitter 403(b) plan document, as then designed, satisfied the applicable requirements of the IRC. The plan is required to operate in conformity with the IRC to maintain the tax-exempt status for plan participants under Section 403(b).

Note H – Tax Status

Although it has been amended since receiving the determination letter and has never received a determination letter itself from the IRS, the plan administrator believes that the plan is designed and is currently being operated, in compliance with the applicable requirements of the IRC. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note I – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonable that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note J – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2025:

Net assets available for benefits per the financial statements	$	2,853,947
Add: Current year corrective distributions payable		460
