INDEPENDENT AUDITORS' REPORT

Plan Administrator
JAX 403(b) Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of JAX 403(b) Retirement Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

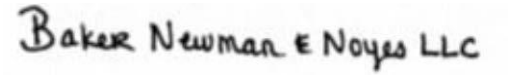

The supplemental schedule of assets (held at end of year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Plan Administrator
JAX 403(b) Retirement Plan

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

INDEPENDENT AUDITORS' REPORT

Plan Administrator
JAX 403(b) Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of JAX 403(b) Retirement Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

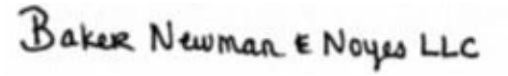

The supplemental schedule of assets (held at end of year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Plan Administrator
JAX 403(b) Retirement Plan

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following brief description of JAX 403(b) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a contributory defined contribution plan which covers substantially all employees of The Jackson Laboratory's United States operations (the Laboratory). The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA).

During 2025, the Laboratory acquired New York Stem Cell Foundation (NYSCF). Effective October 17, 2025, the Plan was amended to recognize prior service of NYSCF employees for eligibility and vesting purposes.

On December 29, 2022, the *Setting Every Community Up for Retirement Enhancement Act of 2022* (SECURE 2.0 Act) was signed into law. It includes mandatory and optional provisions impacting defined contribution plans. Applicable provisions outlined in the SECURE 2.0 Act will be adopted if elected and/or required. Plan amendments for these changes are not yet required.

Eligibility

Employees who are regularly scheduled to work more than 20 hours per week are eligible for elective deferrals immediately upon their hire date. Employees become eligible for discretionary matching and nonelective employer contributions after completing six months of service and reaching age 21. The Plan's entry date is the first day of the calendar month coinciding with or next following satisfaction of those minimum age and service requirements. Effective March 1, 2024, student employees are not eligible for employer contributions.

Participants are automatically enrolled and 5% of Plan compensation will be deferred unless the participant signs a salary reduction agreement specifically electing another amount or opting out. The automatic deferral increases by 1% each year up to a maximum of 10%. Effective June 27, 2025, the escalation maximum was increased from 10% to 12%, unless the participant elects a different deferral percentage or opts out.

The SECURE 2.0 Act expanded eligibility for certain long-term part-time (LTPT) employees. Effective January 1, 2025, certain long-term part-time employees who would not otherwise be eligible to participate in the Plan became eligible to make elective deferrals after completing at least 500 hours of service in each of the two most recent consecutive years (2023-2024).

1. Description of Plan (Continued)

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan document, up to the maximum allowed as determined by the Internal Revenue Code (IRC). Participants are permitted to make post-tax Roth contributions to the Plan, and participants may elect to convert all or any of their non-Roth vested account balance to an in-Plan Roth conversion account. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. The Laboratory may make discretionary matching and nonelective contributions. For the year ended December 31, 2025, the Laboratory's matching contribution was 100% of the first 5% of base compensation that the participant contributed to the Plan. The Laboratory's nonelective contribution for the year ended December 31, 2025 was 5% of base compensation.

The following table summarizes the Laboratory's matching and nonelective contributions:

Participant Contribution	Laboratory Matching Contribution	Laboratory Nonelective Contribution
0%	0%	5%
1%	1%	5%
2%	2%	5%
3%	3%	5%
4%	4%	5%
5%	5%	5%

During the year ended December 31, 2025, the Laboratory made matching contributions of $10,805,465 and nonelective contributions of $11,571,926 to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Laboratory's contributions and allocations of Plan earnings (losses). Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings (losses) thereon. Vesting in the Laboratory's contribution portion of a participant's account is based on the number of years of service.

All participants employed after April 1, 2020 are 100% vested after one year of service.

1. Description of Plan (Continued)

For participants hired prior to April 1, 2020, laboratory contributions vest according to the following schedule:

Years of Service	Vesting Percentage
Less than 2 years	0%
2 years to less than 4 years	50%
4 years or more	100%

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Effective March 1, 2024, the Plan was amended and participants may borrow only from participant contributions. The notes are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined by the Plan Administrator. Interest rates on notes outstanding at December 31, 2025 ranged from 3.25% - 8.50% with various maturities through August 2040. Loan terms range from one to five years or, for the purchase of the participant's primary residence, a loan term up to 15 years. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service, death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the participant's vested interest in his or her account or annual installments, or purchase an annuity. Effective June 27, 2025, the option to purchase an annuity was removed. The Plan makes a mandatory distribution following severance from employment for accounts with balances equal to or less than $7,000. If the balance is less than $7,000, but more than $1,000, and absent participant consent, it is automatically rolled over into an individual retirement account (IRA). The Plan also allows for in-service distributions upon attainment of age 59 1/2.

Forfeitures

At December 31, 2025 and 2024, forfeited nonvested amounts totaled $13,443 and $42,091, respectively. Forfeited nonvested amounts will be used to reduce future Laboratory contributions or to pay administrative expenses of the Plan in accordance with the Plan document. During the year ended December 31, 2025, Laboratory contributions were reduced by $103,712 from forfeited nonvested amounts.

Plan Termination

While the Laboratory intends to continue this Plan, the Laboratory reserves the right to amend or terminate at any time any provision of the Plan or the Plan in its entirety subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Upon termination of the Plan, the custodians, once notified by the Laboratory of the termination date, will distribute to each participant the entire account balance on that date in accordance with the terms of the Plan.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Contributions

Contributions from employees are recorded during the period in which payroll deductions are made. Employer contributions are recorded in the same period as the corresponding employee contributions.

Investment Valuation and Income Recognition

The Plan's investments consist of mutual funds, a pooled separate account, and Teachers Insurance and Annuity Association (TIAA) group annuity contracts. Mutual funds and the pooled separate account are stated at fair value. Certain group annuity contracts are stated at contract value and certain contracts are stated at fair value. The pooled separate account's fair value is based upon the net asset value of shares, which is based on the fair value of the fund's net assets and the number of outstanding shares. See Note 4 for further disclosure on fair value measurements.

Certain group annuity contracts have been determined to be fully benefit responsive and are stated at contract value. Contract value is the relevant measurement attribute because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract plus interest earned, less participant withdrawals and administrative expenses. See Note 5. Certain group annuity contracts have been determined to be nonfully benefit responsive and are stated at fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant notes receivable are recorded as benefit payments on the basis of the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

2. Summary of Significant Accounting Policies (Continued)

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Laboratory. Expenses that are paid by the Laboratory are excluded from these financial statements. Investment-related expenses are allocated proportionately to Plan participants based on their respective account balances and are included in net investment income.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events

Events occurring after the statement of net assets available for benefits date are evaluated by management to determine whether such events should be recognized or disclosed in the financial statements. Management has evaluated subsequent events through October 8, 2026 which is the date the financial statements were available to be issued.

Subsequent to year end, effective January 1, 2027, the Plan changed recordkeeper and custodian from Vanguard Fiduciary Trust Company to Fidelity Management Trust Company.

3. Information Certified by the Custodians

The Plan Administrator has elected the method of compliance as allowed under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's auditors not to perform any auditing procedures with respect to information certified by Vanguard Fiduciary Trust Company, Teachers Insurance and Annuity Association of America and College Retirement Equities Fund (CREF), the custodians of the Plan, except for comparing the information certified by the custodians with the related information included in the financial statements and supplemental schedule. The Plan Administrator has obtained certifications from the custodians stating that the information provided to the Plan Administrator by the custodians is complete and accurate. Such information includes investments, participant notes receivable, interest and dividends, net appreciation in fair value of investments and interest income on participant notes receivable. The Plan Administrator has determined that the custodians meet the requirements of qualified institutions defined by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

4. Fair Value Measurements

Fair value is the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity.

The fair value hierarchy for valuation inputs prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of the three levels which is determined by the lowest level input that is significant to the fair value measurement in its entirety. These levels are:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation method include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled Separate Account: The account is measured at fair value using the NAV practical expedient. The underlying investments are primarily valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methodologies, including matrix pricing. The TIAA Real Estate Account invests in real estate properties and real estate related investments. Real estate holdings are valued principally using external appraisals, which represent estimates of property values based on a professional's opinion. The TIAA Real Estate Account may also hold securities that are valued using prices obtained from independent pricing sources. Unit values are calculated daily.

4. Fair Value Measurements (Continued)

Fixed Annuity Contracts: The group annuity contracts are reported at fair value, which approximates contract value. As these contracts are contract based, observable prices for identical or similar investments do not exist and, accordingly, this investment is valued using unobservable inputs. Units are valued based upon accumulated cash contributions, interest credited to the Plan's contracts, and transfers in, less any withdrawals and transfers from the Plan's contracts. The valuation is a cost-based approach.

TIAA Traditional Annuity and TIAA Stable Value - See Note 5

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with Accounting Standards Update (ASU) 2015-07, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. Therefore, there is no hierarchy required for the pooled separate account held by the Plan totaling $2,395,821 and $2,381,388 at December 31, 2025 and 2024, respectively.

There are no unfunded commitments associated with the pooled separate account. Redemption is allowed on a daily basis with these investments.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Level 1	Level 2	Level 3	Total
2025				
Mutual funds	$641,406,807	$ –	$ –	$641,406,807
Fixed annuity contracts	–	–	49,048,478	49,048,478
Total investments at fair value	$641,406,807	$ –	$49,048,478	690,455,285
Pooled separate account, at net asset value				2,395,821
Total investments at fair value				$692,851,106

4. Fair Value Measurements (Continued)

	Level 1	Level 2	Level 3	Total
2024				
Mutual funds	$540,729,322	$ –	$ –	$540,729,322
Fixed annuity contracts	–	–	49,557,533	49,557,533
Total investments at fair value	$540,729,322	$ –	$49,557,533	590,286,855
Pooled separate account, at net asset value				2,381,388
Total investments at fair value				$592,668,243

The net decrease in the fixed annuity contracts of $509,055 in 2025 represents the change in the fair value of the trusts and withdrawals.

5. Investment Contracts With TIAA

The Plan invests in various traditional investment contracts with TIAA. The following table presents the investment contracts available under the Plan as of December 31:

	2025	2024
Benefit responsive investment contract:		
TIAA traditional benefit-responsive	$ 3,866,237	$ 3,967,323
Nonbenefit responsive investment contract:		
TIAA traditional nonbenefit responsive	49,048,478	49,557,533

TIAA Traditional Annuity

The Plan invests in the TIAA Traditional Annuity option, including both fully benefit-responsive and nonbenefit responsive fixed annuity contract options that are fully and unconditionally guaranteed by TIAA. During the accumulation phase, the TIAA Traditional Annuity provides a guarantee of principal, a guaranteed minimum rate of interest of 3%, and the potential for additional interest if declared by TIAA. When the accumulation is converted to an annuity based on life expectancy, the present value of the stream of payments is equal to the accumulation.

TIAA issues various types of contracts as funding vehicles for retirement plans. Certain contract types contain liquidity restrictions on the redemption of TIAA Traditional Annuity Accumulations, which could impact the value realized upon exiting the contract. There are no liquidity restrictions on the benefit-responsive contract option.

Because a portion of the fixed annuity contract options are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits. The contract value of TIAA Traditional Annuity equals the accumulated cash contributions, interest credited to the Plan's contracts, and transfers, if any, less any withdrawals and transfers, if any. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

5. Investment Contracts With TIAA (Continued)

The TIAA Traditional Annuity accumulations will remain open at TIAA, however, no new participant contributions will be submitted to TIAA, and all other investment terms remain in effect. As a result, the TIAA Traditional Annuity contract that is benefit-responsive is not adversely affected and contract value is the relevant measurement attribute for the investment. There are no known events that will limit the participant's ability to transact at contract value with TIAA. There are no known events or conditions that will allow TIAA to terminate the contract and settle at an amount different than contract value.

TIAA Stable Value

The TIAA Stable Value is a fixed rate group annuity contract issued by TIAA. Contributions are deposited into a nonunitized separate account. The contract provides a guaranteed minimum rate of interest of between 1% and 3% (before deductions for contract fees) with the potential for crediting of additional interest above the guaranteed minimum if approved by the TIAA Board of Trustees. Additional amounts of interest are not guaranteed for periods other than the periods for which they are declared. Contract holders and plan participants do not participate in, and do not receive the earnings of, the assets in the separate account. All guarantees are based upon TIAA's claims-paying ability.

6. Related Party Transactions and Party-in-Interest Transactions

Vanguard, TIAA and CREF are custodians and, therefore, transactions with Vanguard, TIAA and CREF qualify as party-in-interest transactions. The Plan also pays various service providers for fees associated with investment management and administrative services to the Plan. These transactions also qualify as party-in-interest transactions.

Notes receivable from participants also qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

7. Tax Status

The Plan is subject to ERISA and certain provisions of the IRC. The Plan has adopted a volume submitter 403(b) plan document offered by The Vanguard Group that has received an IRS opinion letter dated February 1, 2018 stating that the form of the volume submitter 403(b) plan document was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since adopting the volume submitter 403(b) plan document, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Reconciliation of Financial Statements to Form 5500

Notes receivable from participants are reflected as a receivable on the financial statements which is different from the Form 5500 presentation. On the Form 5500, loans receivable are classified as investments under the caption "participant loans."
