Independent Auditors' Report

To the Retirement Plan Committee
TD SYNNEX 401(k) Retirement Plan:

Opinion

We have audited the financial statements of TD SYNNEX 401(k) Retirement Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

(1) Description of Plan

The following description of TD SYNNEX 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

(a) General

The Plan is a defined contribution plan sponsored by TD SYNNEX Corporation (the "Company") for the benefit of its eligible employees, as defined in the Plan document, who have 1 month of service and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is administered by the Company's Retirement Plan Committee ("Committee"), which is a committee of the Board of Directors of the Company. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

The Plan was most recently amended and restated effective January 1, 2023. Fidelity Management Trust Company ("FMTC") serves as the trustee of the Plan and Fidelity Workplace Services LLC ("FWS") serves as recordkeeper of the Plan.

(b) Contributions

Each year, participants may contribute up to 90% of eligible compensation as pre-tax or Roth contributions, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan, and beginning in 2025, eligible participants ages 60 through 63 could make additional catch-up contributions under SECURE 2.0 Act enhanced catch-up provisions. Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The Company may make matching contributions at its discretion. During the year ended December 31, 2025, the Company made matching contributions of 50% of the first 6% of eligible compensation that participants contributed to the Plan. Employees must complete 6 months of service to be eligible to receive Company matching contributions. Contributions are subject to certain Internal Revenue Code ("IRC") limitations.

(1) Description of Plan - Continued

(c) Participant Investment Account Options

The Plan currently offers various mutual funds, common collective trusts, and a stable value fund as investment options for participants. Each investment option has its own investment strategy, which can be obtained through the prospectus of the respective fund. Participants may change their investment options at any time.

(d) Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company matching contributions and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(e) Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 30% vested after one year of credited service, 60% vested after two years of credited service and 100% vested after three years of credited service. Employees who are members of certain classes receive a different vesting schedule as defined in the Plan. Regardless of years of service, participants will become 100% vested upon attainment of normal retirement age (age 65, as defined in the Plan), or in the event of death or total and permanent disability.

(f) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

(g) Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, installment payments, or partial withdrawals. If the vested account balance of a terminated participant is greater than $1,000 but less than $7,000 and the participant does not make an alternative election, such account will be automatically rolled over to an IRA without the participant's consent. If the vested account balance of a terminated participant is $1,000 or less, such account will be automatically distributed to the participant without the participant's consent. The Plan also provides for in-service withdrawals for participants age 59 ½ or older and for hardship withdrawals in the event of immediate and heavy financial need. Any hardship withdrawal is limited to the amount needed to meet the financial need and must qualify with respect to plan provisions.

(1) Description of Plan - Continued

(h) Forfeited Accounts

At December 31, 2025 and 2024, forfeited nonvested accounts totaled $130,349 and $260,914, respectively. These accounts will be used to reduce future employer contributions. Also, for the year ended December 31, 2025, employer contributions were reduced by $1,021,169 from forfeited nonvested accounts.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan’s gains and losses on investments bought and sold, as well as held during the year.

(d) Contributions

Contributions from Plan participants and the matching contributions from the Company are recorded in the year in which participant compensation is earned.

(e) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2025 or 2024.

(f) Payment of Benefits

Benefits are recorded when paid.

(2) Summary of Significant Accounting Policies - Continued

(g) Administrative Expenses

Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

(3) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(3) Fair Value Measurements - Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trusts: Valued at the NAV of units of bank collective trusts. The NAV, as provided by the trustees, are used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trusts, the investment advisors reserve the right to temporarily delay withdrawal from the trusts in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no participant redemption restrictions; the redemption notice period is applicable to the Plan. The funds have no unfunded commitments.

Stable value common collective trust: The MetLife Stable Value Solutions Fund is a common collective trust of Great Gray Trust Company, LLC that invests solely in MetLife Group Annuity Contract No. 25554, issued by Metropolitan Life Insurance Company, and is valued at the NAV of units of the bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. The fund has no unfunded commitments.

The Company elected to present investments at fair value and investments at contract value as aggregated totals in the statements of net assets available for benefits as of December 31, 2025 and 2024.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025 and 2024:

		Investments at Fair Value as of December 31, 2025		
Description	Assets Measured at Fair Value	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 329,977,087	329,977,087	-	-
Total assets in the fair value hierarchy	329,977,087			
Investments measured at NAV practical expedient **(a)**	650,966,583			
Total investments, at fair value	$ 980,943,670			

(3) Fair Value Measurements - Continued

Description	Assets Measured at Fair Value	Investments at Fair Value as of December 31, 2024: Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 296,302,858	296,302,858	-	-
Total assets in the fair value hierarchy	296,302,858			
Investments measured at NAV practical expedient **(a)**	554,407,493			
Total investments, at fair value	$ 850,710,351			

(a) *In accordance with Subtopic 820-10, certain investments that were measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.*

(4) Fully Benefit-Responsive Investment Contract

The Plan has a fully benefit-responsive investment contract with New York Life Insurance Company ("NYL") to invest in the New York Life Anchor Account, which is a stable value fund held in a pooled separate account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified rate of interest that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than zero. The crediting rate is reviewed for resetting no less frequently than annually nor more frequently than daily. The guaranteed investment contract does not have a scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the Plan. Contract value, as reported to the Plan by NYL, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meets its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

(4) Fully Benefit-Responsive Investment Contract - Continued

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendment to the Plan document (including complete or partial termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that would limit the ability of the Plan to transact at contract value with the participants.

(5) Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds and a common collective trust managed by an affiliate of FMTC and FWS. Also, notes receivable from participants are administered by FMTC. FMTC and FWS are the trustee and recordkeeper for the Plan, respectively, and therefore, these transactions qualify as party-in-interest transactions.

During the year ended December 31, 2025, the Plan made direct payments of approximately $453,000 for recordkeeping and other services. While these transactions qualify as party-in-interest transactions, as defined by Section 3(14) of ERISA, they are expressly exempted from the prohibited transaction rules.

(6) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

(7) Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2025 and 2024 to Form 5500:

	2025	2024
Net assets available for benefits per the financial statements	$ 1,029,295,086	897,288,926
Less employer contributions receivable	(1,347,536)	(1,198,551)
Net assets available for benefits per Schedule H of the Form 5500	$ 1,027,947,550	896,090,375

(7) Reconciliation of Financial Statements to Schedule H of Form 5500 - Continued

The following is a reconciliation of net increase in net assets available for benefits per the financial statements for the year ended December 31, 2025 to Form 5500:

Net increase in net assets per the financial statements	$ 132,006,160
Change in employer contributions receivable	(148,985)
Net income per Schedule H of the Form 5500	$ 131,857,175

(8) Tax Status

The Company has adopted a pre-approved plan document that has received an opinion letter from the Internal Revenue Service ("IRS") dated June 30, 2020, stating that the form of the pre-approved plan document was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since adopting the pre-approved plan document, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and, therefore, believes that the Plan is qualified.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(9) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(10) Subsequent Events

The Plan has evaluated subsequent events through October 9, 2026, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
