# Report of Independent Auditors

The Administrative Committee
Debevoise & Plimpton LLP Cash Balance Retirement Plan
for Partners

## Opinion

We have audited the financial statements of Debevoise & Plimpton LLP Cash Balance Retirement Plan for Partners (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2025 and 2024, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

## Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

A member firm of Ernst & Young Global Limited

Shape the future
with confidence

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

A member firm of Ernst & Young Global Limited

Shape the future
with confidence

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

**Supplemental Schedules Required by ERISA**

Our audits were conducted for the purpose of forming an opinion of the financial statements as a whole. The supplemental schedules of assets (held at end of year) as of December 31, 2025, and reportable transactions for the year then ended (referred to as the "supplemental schedules"), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the supplemental schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The supplemental schedule of assets (held at end of year) as of December 31, 2025, that accompanies the financial statements does not disclose the historical cost of certain nonparticipant-directed plan assets held by the custodian. Disclosure of this information is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Our opinion on the ERISA-required supplemental schedules is not modified with respect to this matter.

Debevoise & Plimpton LLP
Cash Balance Retirement Plan for Partners

Notes to Financial Statements

December 31, 2025

## 1. Description of the Plan

The following description of the Debevoise & Plimpton LLP Cash Balance Retirement Plan for Partners (the Plan) provides only general information. Partners should refer to the plan document for a more complete description of the Plan's provisions. The Plan is a defined benefit cash balance pension plan established to provide retirement benefits to eligible partners of Debevoise & Plimpton LLP (the Firm or Plan Administrator) and their beneficiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

### Eligibility

A partner becomes eligible to participate in the Plan on the first day of the month coincident with or next following the date he or she attains partnership status. Cash balance allocations are made as of the last day of the year for each partner who is credited with at least 23 weeks of service during the year. Individuals who are non-resident aliens or who receive no earned income from the Firm from sources within the U.S are not eligible for Plan participation.

### Vesting

A Partner who has performed an hour of service on or after January 1, 2008 shall vest in full (i.e., the partner's nonforfeitable percentage shall be 100%) upon completion of three (3) years of service and no portion of such partner's benefit shall become nonforfeitable prior to completing three (3) years of service; except that, any partner who was a participant in the Plan on or before July 31, 2023 and who has completed at least two (2) years of service shall have a nonforfeitable percentage of at least 20%.

Benefits are computed on the basis of years of service and compensation, as defined in the plan document.

### Contributions

The Plan is funded by the Firm through a trust fund and investments are held by Citibank, N.A. and the Vanguard Group. It is the policy of the Firm to make annual contributions to the trust fund, the amount of which is determined by the Administrative Committee of the Plan based upon

**1. Description of the Plan (continued)**

information supplied by the Firm's independent actuary, October Three, LLC. Partner contributions are not required or permitted under the Plan. Rollover contributions to the Plan are not permitted. The Plan has met the minimum funding requirements in accordance with the provisions set forth in ERISA.

**Payment of Benefits**

The amounts payable to a married partner who has elected to waive the Qualified Joint and Survivor Annuity as described in the plan document, or to an unmarried partner, shall be the Actuarial Equivalent Benefit of the Deemed Cash Balance Account. This amount shall be paid in the form of a life annuity or a lump sum upon the partner's attainment of normal retirement age provided that, unless the partner otherwise elects, the payment of his or her interest in the trust fund shall begin no later than the 60th day after the latest of the close of the year in which (i) he or she attains age 65, (ii) the tenth anniversary of the calendar year in which he or she became a partner or (iii) he or she terminates his or her employment with the Firm. Benefit payments are also subject to certain limitations.

**Death Benefit**

Upon a partner's death, the entire interest of the partner in his or her deemed cash balance account shall be fully vested and be paid in the form of a life annuity or a lump-sum distribution to his or her spouse or his or her beneficiary.

**Termination of the Plan**

Although it has not expressed any intent to do so, the Firm has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. All partners will be fully vested upon Plan termination.

In the event of the termination of the Plan, the Plan's assets will be allocated in accordance with the priorities specified in Section 4044 of ERISA. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. government agency, if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not

**1. Description of the Plan (continued)**

guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

**2. Summary of Significant Accounting Policies**

**Basis of Accounting**

The accompanying financial statements have been prepared on the accrual basis of accounting.

**Payment of Benefits**

Benefits are recorded when paid.

**Use of Estimates**

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

**Administrative Expenses**

Certain administrative expenses of the Plan are paid by the Firm and these expenses are excluded from these financial statements.

**Investments**

Investment transactions are recorded on a trade-date basis. The differences between the current market values and historical costs of securities held at the beginning of the year versus the current market values and historical costs of securities held at the end of the year represent the unrealized appreciation for the current year. The net realized appreciation from sales of investments is determined on an average cost basis.

Interest is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date.

**3. Fair Value Measurements**

The Plan assets and liabilities are measured at fair value. To measure fair value, a hierarchy has been established that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs. As such, the hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

*Level 1* – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

*Level 2* – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in markets that are not active;
- Observable inputs other than quoted prices that are used in the valuation of the asset or liability (e.g., interest rate and yield curve quotes at commonly quoted intervals); and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

*Level 3* – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

**3. Fair Value Measurements (continued)**

The Plan's investments consist of mutual funds, a money market fund and an interest-bearing checking account. Mutual funds and money market funds are valued at quoted market prices, which represent the net asset value at year-end. Interest-bearing checking account is valued based on interest earned. All of the Plan's investments have been measured using Level 1 inputs as of December 31, 2025 and 2024.

**4. Accumulated Plan Benefits**

Accumulated plan benefits represent the estimated future periodic payments, including lump-sum distributions, under the Plan's provisions that are attributable to service rendered by the employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to the following: (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered up to the valuation date.

The Plan's actuaries estimated the actuarial present value of accumulated plan benefits. This is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the partners to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of December 31, 2025 and 2024 are presented below:

| | December 31 | |
|---|---|---|
| | **2025** | **2024** |
| Vested benefits: | | |
| Other participants | **$ 88,908,349** | $ 77,054,705 |
| Unvested benefits | **316,125** | 380,436 |
| Total | **$ 89,224,474** | $ 77,435,141 |

**4. Accumulated Plan Benefits (continued)**

Changes in the actuarial present value of accumulated plan benefits for the years ended December 31, 2025 and 2024 are as follows:

| | 2025 | 2024 |
|---|---|---|
| Actuarial present value of accumulated plan benefits, beginning of year | **$ 77,435,141** | $ 71,386,518 |
| Increases (decreases) during the year attributable to: | | |
| Benefits accumulated | **4,758,303** | 4,770,126 |
| Interest | **12,085,076** | 8,243,823 |
| Forfeitures | **(16,496)** | – |
| Benefits paid | **(5,037,550)** | (6,965,326) |
| Net increase | **11,789,333** | 6,048,623 |
| Actuarial present value of accumulated plan benefits, end of year | **$ 89,224,474** | $ 77,435,141 |

The Plan uses the actual return on Plan assets as the interest crediting rate; therefore, there is no discount rate or mortality assumption used in determining the accumulated plan benefits as of December 31, 2025 and 2024. For the years ended December 31, 2025 and 2024, the interest rate credited was 16.34% and 12.33%, respectively. The accumulated plan benefits reflect the value of the participants' Deemed Cash Balance Accounts, as defined in the plan document, as of the valuation date.

These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

**5. Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

**5. Risks and Uncertainties (continued)**

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

**6. Tax Status**

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated December 17, 2015, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt

U.S. GAAP requires the Plan Administrator to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**7. Party-in-Interest Transactions**

The Plan holds shares of certain funds and cash managed by the Custodians of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

**8. Subsequent Events**

Management evaluated subsequent events for the Plan through October 12, 2026, the date the accompanying financial statements were available to be issued.

| Second segment rate (years 5 to 19): | 5.27% | 5.27% | 5.28% |
| Third segment rate (years 20 and after): | 5.50% | 5.40% | 5.63% |
| Effective interest rate (current year): | 5.25% | 5.24% | N/A |

Interest crediting rate: 3.50%

*The interest rates listed above are compounded annually.*

*The cash balance interest crediting rate is equal to the rate of return on plan assets, subject to a cumulative minimum interest crediting rate. Accordingly, the assets needed to provide future cash balance benefits are independent of interest rates and only dependent on the plan's asset allocation to the extent that the cumulative minimum interest crediting rate affects the cash balance accounts. This plan provision is difficult to measure using traditional deterministic valuation procedures. To account for this plan provision, the interest crediting rate was selected from a reasonable range based on the plan's asset allocation that, when combined with the segment interest rates, produced a funding target that was as close as possible to the economic value of the cash balance accounts.*

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
Actuarial Assumptions and Methods

## Demographic Assumptions

### RETIREMENT

All participants are assumed to retire according to the following schedule upon attainment of 5 years of service, but no earlier than one year from the valuation date of January 1, 2025:

| Assumed retirement age | Percent assumed to retire |
|---|---|
| Age at Normal Retirement Date | 100.00% |

### WEIGHTED AVERAGE RETIREMENT AGE

The weighted average retirement age for the population during the current year, rounded to the nearest whole number, is 65.

### WITHDRAWAL AND DISABILITY

None.

### RATIONALE FOR RETIREMENT AGE, WITHDRAWAL AND DISABILITY ASSUMPTIONS

The economic value of the cash balance benefits is not materially affected by the timing of benefit commencement. Therefore, no preretirement withdrawal or disability is assumed, and all participants are assumed to retire according to the schedule above.

### MORTALITY AND MORTALITY IMPROVEMENT

The mortality follows the IRS 2025 Static Mortality Table, as prescribed by Treasury regulation section 1.430(h)(3)-1. The mortality decrement is assumed to occur as of the beginning of the year.

## Other Assumptions

### FORM OF PAYMENT

Based on the experience of the plan and future expectations, all participants are assumed to elect a lump sum form of payment.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

## Actuarial Assumptions and Methods

### EXPENSES

Assumed expenses are $0 for 2025, based on the experience of the plan and future expectations. In accordance with our understanding of the available guidance, the expense assumption reflects administrative expenses and does not include investment-related expenses or any other non-administrative expense.

## Changes from Prior Year and Rationale for Changes

None.

### GAIN / LOSS ANALYSIS

In our judgment, a gain/loss analysis is not appropriate for assessing the reasonableness of the assumptions.

## Actuarial Methods

### VALUATION DATE

The valuation date is January 1, 2025.

### ACTUARIAL VALUE OF ASSETS

The actuarial value of assets is equal to the market value of assets.

### MINIMUM FUNDING METHOD

The funding target and target normal cost for minimum funding calculations are determined using the traditional unit credit cost method as prescribed by Treasury regulation section 1.430(d)-1. The liability under the unit credit cost method is the value of the accrued pension benefit using service and pay as of the valuation date. The sum of the present value of the accrued benefits for all participants is the ERISA funding target. The normal cost is the present value of the benefits earned during the year. The target normal cost is the sum of the normal costs for all participants and the assumed administrative expenses.

## Changes in Method from Prior Year and Rationale for Changes

For the 2025 plan year, there was a change in funding method due to a change in valuation program. The funding target, target normal cost, and actuarial value of assets determined under the new valuation program were all within 2% of the respective values determined under the prior valuation program.

Schedule SB, Line 25 - Change in Method

**CHANGES FROM PRIOR YEAR AND RATIONALE FOR CHANGES**

For the 2025 plan year, there was a change in funding method due to a change in valuation program. The funding target, target normal cost, and actuarial value of assets determined under the new valuation program were all within 2% of the respective values determined under the prior valuation program.
