INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of the
Duke Energy Legacy Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Duke Energy Legacy Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025, and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements (collectively, the financial statements).

Plan management (Management), having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (US GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that Management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect Management's responsibility for the financial statements.

In preparing the financial statements, Management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

McConnell Jones

- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal controls of the Plan. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by Management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the ability of the Plan to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of US GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with US GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audit.

Duke Energy Legacy Pension Plan
Notes to Financial Statements
December 31, 2025 and 2024

Note 1: Description of the Plan

The following brief description of the Duke Energy Legacy Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description and Plan documents for more complete information.

General

The Plan is a noncontributory defined benefit pension plan generally covering certain former employees of Duke Energy Corporation (Duke Energy) and participating affiliates (collectively referred to as the Employing Company). The Plan is frozen to future benefit accruals and closed to new entrants. The investment of the assets held in the Duke Energy Corporation Master Retirement Trust (Master Trust) is administered by the Duke Energy Investment Committee (Investment Committee) and each of the component benefits under the Plan is administered by the Duke Energy Benefits Committee (Benefits Committee). The Board of Directors of Duke Energy, or its delegate, appoints the Chair of the Investment Committee, who, then in turn, appoints the other members of the Investment Committee. The Board of Directors of Duke Energy, or its delegate, appoints the Chair of the Benefits Committee, who, then in turn, appoints the other members of the Benefits Committee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Pension Benefits

The Plan is frozen to future benefit accruals and closed to new entrants. Participants have previously earned a benefit under a cash balance benefit accrual formula and/or a traditional formula benefit. Under the Plan's cash balance benefit accrual formula, records are maintained on a notional account basis. The participant's account receives monthly interest credits, generally based upon a monthly rate of 0.327% on the account balance.

401(h) Account

The Plan permits, under Section 401(h) of the Internal Revenue Code of 1986, as amended (IRC), the funding of postretirement medical benefits in a separate trust account. No contributions were made by the Employing Company to the Plan’s 401(h) account in 2025. Participants do not contribute to the 401(h) account. Amounts in the 401(h) account may only be used to reimburse eligible medical expenses incurred by eligible retirees and their covered dependents under retiree coverage provided by the Duke Energy Retiree Medical Plan, The Connector Program, the Duke Energy Corporation Nuclear Health Reimbursement Account Opportunity Plan, and/or the Duke Energy Corporation Post-Retirement Health Reimbursement Account Program (individually and collectively referred to as the Medical Plan). Other Plan assets may not be used to fund postretirement medical benefits and the 401(h) account may not be used to fund Plan retirement benefits. The obligations of the Medical Plan are not obligations of the Plan. The Medical Plan obligations are reflected in the financial statements of that plan.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates

The preparation of the financial statements in conformity with US GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks such as interest rates, credit, and overall market volatility. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that some changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates in the near-term would be material to the financial statements.

Investment Valuation and Income Recognition

Investments of the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of the Plan's interest in the Master Trust (see Note 3) is based on the Plan's interest in the underlying assets in the Master Trust. See Note 4 for discussion of fair value measurements.

Realized and unrealized gains and losses are based on the value of these investments as of the later of the beginning of the plan year or at the time of purchase, if purchased during the year, and are reflected currently in the accompanying Statements of Changes in Net Assets Available for Benefits. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment income from the Master Trust, which includes interest, dividends and realized and unrealized gains and losses, net of administrative expenses, is allocated to each Plan by The Northern Trust Company (Trustee) on a pro rata basis. Brokerage fees are added to the acquisition cost of assets purchased and subtracted from the proceeds of the assets sold.

Derivative Financial Instruments

The Master Trust holds various instruments that meet the definition of a derivative under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 815, *Derivatives and Hedging*, (FASB ASC 815) including foreign currency contracts and interest rate swaps. The Plan's primary objective in holding these derivatives is investment appreciation and, accordingly, does not designate such derivatives as hedges of risks. Foreign currency exchange rate movements create a degree of risk by affecting the US dollar value of instruments denominated in foreign currencies. Such derivatives are recorded in the accompanying Statements of Net Assets Available for Benefits at their fair value, and changes in fair value are recorded in the Plan interest in Master Trust net income in the accompanying Statement of Changes in Net Assets Available for Benefits.

Contributions

Contributions to the Plan are recorded in the period that the Plan's actuary determines they relate to except that a contribution receivable is recorded to the extent that amounts due are pursuant to formal commitments as well as legal or contractual requirements in existence at the end of the Plan year.

Benefit Payments

Benefit payments to participants or their beneficiaries are recorded when paid.

Administrative Expenses

The Plan pays all investment fees related to the Plan and most other administrative costs, as provided in the Plan document.

Plan Management's Review of Subsequent Events

In preparing the accompanying financial statements, Plan management has reviewed all known events that have occurred after December 31, 2025, and through October 9, 2026, the date the financial statements were available to be issued, for inclusion in the financial statements and footnotes.

Note 3: Investments (Certified by Trustee)

Information related to the Plan's investments and investment income as of December 31, 2025 and 2024 and for the year ended December 31, 2025, has been certified as complete and accurate by the Trustee. This certification was provided in accordance with 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Management obtained this information and agreed to the information certified by the Trustee.

Duke Energy also sponsors the Duke Energy Retirement Cash Balance Plan (RCBP), which covers certain legacy Duke Energy, Cinergy, Piedmont, and Progress employees. Investments of the RCBP are also held in the Master Trust.

The Master Trust has the following Plans and accounts with their respective percentages as of December 31, 2025 and 2024:

	2025	2024
Duke Energy Retirement Cash Balance Plan	**67.33 %**	66.42 %
Duke Energy Retirement Cash Balance Plan 401(h) account	**0.15 %**	0.14 %
Duke Energy Legacy Pension Plan	**30.68 %**	31.58 %
Duke Energy Legacy Pension Plan 401(h) account	**1.84 %**	1.86 %
Total	**100.00 %**	100.00 %

Investment income and administrative expenses relating to the Master Trust are allocated based on average monthly balances invested by each plan, other than items specific to one or the other.

Note 4: Fair Value Measurements

FASB ASC Topic 820, *Fair Value Measurement*, (FASB ASC 820) defines fair value, establishes a framework for measuring fair value in US GAAP and expands disclosure requirements about fair value measurements. Under FASB ASC 820, fair value is considered to be the exchange price in an orderly transaction between market participants to sell an asset or transfer a liability at the measurement date. The fair value definition under FASB ASC 820 focuses on an exit price, which is the price that would be received by the Plan to sell an asset or paid to transfer a liability versus an entry price, which would be the price paid to acquire an asset or received to assume a liability. Although FASB ASC 820 does not require additional fair value measurements, it applies to other accounting pronouncements that require or permit fair value measurements.

The Plan determines fair value of financial assets and liabilities based on the following fair value hierarchy, as prescribed by FASB ASC 820, which prioritizes the inputs to valuation techniques used to measure fair value into three levels:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access. An active market for the asset or liability is one in which transactions for the asset or liability occurs with sufficient frequency and volume to provide ongoing pricing information.

Level 2: Inputs other than quoted market prices included in Level 1 that are observable, either directly or indirectly, for the asset or liability. Level 2 inputs include, but are not limited to, quoted prices for similar assets or liabilities in an active market, quoted prices for identical or similar assets or liabilities in markets that are not active and inputs other than quoted market prices that are observable for the asset or liability, such as interest rate curves and yield curves observable at commonly quoted intervals, volatilities, credit risk and default rates.

Level 3: Unobservable inputs for the asset or liability. Unobservable inputs reflect the Plan's own assumptions about the factors that other market participants would use in pricing an investment that would be based on the best information available in the circumstances.

Net Asset Value (NAV): FASB ASC 820 also includes the measurement of fair value using the NAV as a practical expedient method for certain investments. The NAV as a practical expedient method uses the net asset value per share of the underlying investment. Investments for which air value is measured at net asset value per share using the practical expedient are categorized in the fair value hierarchy.

The following is a description of the valuation methodologies used for investments measured at fair value for the Master Trust. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Equity securities, corporate debt securities and US government securities: Valued at the closing price in the principal active market in which the individual securities are traded. Principal active markets include published exchanges such as NASDAQ, NYSE, NYMEX and Chicago Board of Trade, as well as pink sheets, which is an electronic quotation system that displays quotes for broker-dealers for many over-the-counter securities.

Short-term investment funds: Valued based on quoted market prices of the securities in the funds.

Partnerships: Valued using the net asset value of the Plan's ownership interest in the Partnerships. Partnerships represent private equity capital that is not quoted on a public exchange. Private equity consists of investors and funds that make investments directly into private companies or conduct buyouts of public companies that result in a delisting of public equity. Capital for private equity is raised from retail and institutional investors, and can be used to fund new technologies, expand working capital within an owned company, make acquisitions, or to strengthen a balance sheet. The majority of private equity consists of institutional investors and accredited investors who can commit large sums of money for long periods of time.

Hedge fund: Valued based on the value provided to the asset manager by the underlying fund. Values of liquid funds are based on observable inputs such as quoted market prices. Values of illiquid funds are based on observable or unobservable inputs to determine the value that might reasonably expect to be received in the normal course of business. If due diligence performed by the asset manager determines the value provided the underlying fund does not represent fair value, the asset manager may consult with its valuation committee in determining fair value.

The following tables provide by level, within the fair value hierarchy, the Master Trust investments at fair value as of December 31, 2025 and 2024 (in millions):

Balance at December 31, 2025	**$**	**80**

The Plan's share in gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation (depreciation) in fair value of investments in the Master Trust's Statement of Changes in Net Assets Available for Benefits.

Note 5: Net Asset Value (NAV) Per Share

Under the amended guidance of FASB Accounting Standards Update (ASU) No. 2009-12 - *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2009-12), entities are permitted, as a practical expedient, to estimate the fair value of investments within its scope using the NAV per share of the investments as of the reporting entity's measurement dates. The amended guidance also requires additional disclosures to better enable users of the financial statements to understand the nature and risks of the reporting entity's investments that fall under these rules. In accordance with ASU 2009-12, the Plan expanded its disclosure to include the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the NAV per share or its equivalent for which the fair value is not readily determinable.

The following table sets forth a summary of Master Trust investments with a reported estimated fair value using the NAV per share as of December 31, 2025 and 2024 (in millions):

	2025	2024	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Equity securities - Common stock funds (a)	**$ —**	$ 14	$ —	Monthly	N/A
Commodities (b)	**5**	—	—	Daily	2 Business Days
Hedge funds (c)	**296**	164	—	Monthly to Quarterly	Weekly to Quarterly

(a) This category consists of investments in commingled institutional funds.

(b) This category consists primarily of investments in commingled funds.

(c) This category consists primarily of investments in privately offered hedge funds managed by unaffiliated investment managers managed by Russell Investments.

Note 6: Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (i) retired or terminated employees or their beneficiaries, (ii) beneficiaries of employees who have died and (iii) present employees or their beneficiaries. Benefits payable under all circumstances (i.e., retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation dates.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment and type (by means of decrements such as death, disability, withdrawal or retirement) between the valuation dates and the expected date of payment. The effect of Plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective.

The significant actuarial assumptions used in the valuations as of January 1, 2026, were:

Discount Rate:	6.50%
Mortality:	Pri-2012 rates with no collar adjustment and Pri-2012 contingent survivor rates projected generationally with Scale MP-2020, adjusted for birth cohort weightings/convergence.
Interest Crediting:	4.0% - 4.84% per annum

The significant actuarial assumptions used in the valuations as of January 1, 2025, were:

Discount Rate	6.00%
Mortality:	Pri-2012 rates with no collar adjustment and Pri-2012 contingent survivor rates projected generationally with Scale MP-2020, adjusted for birth cohort weightings/convergence.
Interest Crediting:	4.0% - 4.78% per annum

The foregoing actuarial assumptions are based on the presumption the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits.

The most recent actuarial valuation was prepared as of January 1, 2026 and 2025. Had the valuations been performed as of December 31, 2025 and 2024, there would be no material differences. The actuarial present value of accumulated plan benefit information as of January 1, 2026 and 2025 is as follows (in millions):

	1/1/2026	1/1/2025
Vested benefits:		
Participants and/or beneficiaries currently receiving benefits	**$ 1,148**	$ 1,231
Other participants	**305**	349
Total vested benefits	**1,453**	1,580
Total Actuarial Present Value of Accumulated Plan Benefits	**$ 1,453**	$ 1,580

The changes in actuarial present value of the Plan's accumulated plan benefits are as follows (in millions):

Actuarial present value of accumulated plan benefits as of 1/1/2026	**$**	**1,453**

Note 7: Funding Policy

The Employing Company's policy is to fund amounts on an actuarial basis to provide assets sufficient to meet benefits to be paid to Plan participants. Contributions to provide benefits under the Plan are made solely by the Employing Company. No contributions by the Employing Company to the Plan were necessary in 2025 to meet the minimum funding requirements of ERISA. The Employing Company made no voluntary contributions related to plan year 2025.

Note 8: Plan Termination

Although it has not expressed any intention to do so, Duke Energy has the right under the Plan, to discontinue contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of any termination of the Plan or upon complete or partial discontinuance of contributions, each participant shall become fully vested, and the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document, generally to provide the following benefits in the order indicated:

a. Benefits attributable to employee contributions, taking into account those paid out before termination.

b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a US government agency) up to the applicable limitations (discussed subsequently).

d. All other vested benefits (that is, vested benefits not insured by the PBGC).

e. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefit, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Note 9: Federal Income Tax Status

The Plan is intended to qualify under section 401(a) of the IRC and the Master Trust is intended to be exempt from tax under section 501(a) of the IRC. The IRS has determined and informed the Employing Company by a letter dated September 15, 2021, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The Employing Company and the Plan administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and Master Trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2025 there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

Note 10: Exempt Party-In-Interest Transactions

Northern Trust is the custodian and trustee of the Master Trust. Northern Trust is also trustee of the Plan. Therefore, transactions between Northern Trust and the Plan qualify as party-in-interest transactions; however, they are exempt from prohibited transaction rules under ERISA. There were no administrative expenses paid by the Plan to Northern Trust for the year ended December 31, 2025.

Note 11: Plan Changes

An amendment to the January 1, 2021 restatement, adopted on December 16, 2024, modifies the required beginning date provisions to reflect SECURE Act 2.0, provides for a transfer of assets and liabilities for certain individuals from the Plan to the RCBP, reflects the final Code section 417(e) regulations, and updates the list of affiliated sponsors. Pursuant to the amendment, $859 million in assets were transferred to the RCBP during the year ended December 31, 2024.

An amendment to the January 1, 2021 restatement, adopted on December 5, 2025, adds hurricane relief to filing deadlines under the claims procedure, and reflects new required beginning date for distributions.

Note 12: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the Form 5500 to the financial statements as of December 31, 2025 and 2024 (in millions):

SCHEDULE SB ATTACHMENTS

Methods

Valuation date	January 1, 2025.
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.
Trust expenses included in target normal cost	Provided by Duke Energy Corporation. $2,725,529 for 2025. Assumes only flat rate premium paid during 2025.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the adjusted fair market value of assets determined for the two immediately preceding valuation dates, adjusted to be no greater than 110% and no less than 90% of fair market value (i.e., 24-month averaging with three determination dates as described in Section 1.430(g)-1(c)(2) of the Regulations and Notice 2009-22). The adjusted fair market value of assets as of each determination date is the market value at that date adjusted to the valuation date based on actual cash flows (i.e., contributions, benefit payments, administrative expenses) and expected earnings determined separately for the 12 and 24 months preceding the valuation date. The amount of expected earnings during a given year is based on the cash flows during that year and the lesser of the assumed rate of return on plan assets and the third segment rate used for purposes of determining the minimum funding requirements under Section 430 of the Code for the plan year preceding the valuation date. The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years.
Actuarial method	Standard Unit Credit Cost Method
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued except prior plan benefits and grandfathered benefits for active employees. Based on discussions with Duke Energy Corporation, such benefits are considered to have a de minimis likelihood of being paid and thus are not required to be valued, and will not be valued. WTW has reviewed the plan provisions with Duke Energy Corporation and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor through its third party administrator, furnished participant data as of 1/1/2025. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. In consultation with Duke Energy, the following assumptions were made for missing or apparently inconsistent data elements:

- Retirees who are receiving a joint and survivor annuity benefit that have missing beneficiary information, the valuation age difference assumption and opposite gender is used.
- Frozen accrued benefits are estimates to the extent they have not yet been certified by the employer. We do not believe these estimates have significantly affected the results of the valuation.
- In cases where an accrued benefit was not provided for a terminated vested participant we have used the prior year benefits, if available, or used an assumption of $1,000 per month for annuity participants and $100,000 cash balance account for cash balance participants.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic and Demographic Assumptions

A separate memo delivered with this report will serve as documentation of the rationale for these valuation assumptions in accordance with our understanding of Actuarial Standards of Practice Nos. 4, 6, 27 and 35. All assumptions were selected based on information known at the valuation date and on the premises that the plan will continue and that no events will occur in 2025 that would cause Duke Energy to select different assumptions.

ASOP 56 - Modeling

A separate memo delivered with this report will serve as documentation of the models used to develop the information contained in this report.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430. The assumption for estimated administrative expenses decreased from $3,564,654 for 2024 to $2,725,529 for 2025. The assumed cash balance crediting rate for account balances subject to the 30-year Treasury rate was updated from 4.15% to 4.78%.

Benefits Paid Upon the Following Events

Normal Retirement

The retirement benefit is based on the opening account balance calculated for Duke as of January 1, 1997 and for PanEnergy/Nantahala, as of January 1, 1999. Thereafter, the account is increased monthly through the addition of contribution credits and an interest adjustment.

The contribution credit percentage is determined by points credited to the participant monthly, as follows:

Contribution Credit Percentage by Points at Beginning of Year

Points	Contribution Credit Percentage
<35	4%, plus 4% of pay over Social Security Wage Base
35-49	5%, plus 4% of pay over Social Security Wage Base
50-64	6%, plus 4% of pay over Social Security Wage Base
>64	7%, plus 4% of pay over Social Security Wage Base

A participant's points as of any January 1 (or date of participation) equal the sum of the attained age and creditable service on such date, with the sum truncated to drop less than full points.

The monthly interest adjustment is a percentage increase in the account balance. For balances accrued through December 31, 2012 for non-union employees, through December 31, 2013 for USW Local 7202 (Nantahala) employees, and through March 31, 2015 for IBEW Local 962 and IBEW Local 962-T employees, the rate of monthly increase is the average yield on 30-year Treasury bonds for the end of the third full business week of the month prior to the beginning of the calendar quarter in which the particular month occurs, subject to a minimum of 4% and a maximum of 9%. For non-union pay credits accrued on or after January 1, 2013, USW Local 7202 (Nantahala) pay credits accrued on or after January 1, 2014, and IBEW Local 962 and IBEW Local 962-T pay credits accrued on or after April 1, 2015, the rate of monthly interest credit is fixed based on an annual percentage rate of 4%.

Normal Retirement	Participant's retirement formula is either based on a final average pay formula ("Traditional Program"), a cash balance plan account ("Cash Balance Program"), or a combination of both. Former TCSR plan participants were moved to the Duke cash balance formula effective January 1, 2010. These participants will have their December 31, 2009 final average pay benefit indexed with pay and will be able to elect to receive their final average pay benefit as a lump sum. These participants are included as part of the Traditional Choice group in the descriptions provided in this report. Effective January 1, 2017, Traditional Choice participants had their final average pay frozen as of December 31, 2016. In 2007, Traditional Plan participants were given the choice to stay in the Traditional Program and continue to accrue benefits or to enter the Duke Cash Balance Program with a $0 opening account balance and a soft freeze (frozen credited service and increasing final average pay) on their Traditional Benefit effective April 1, 2007. Participants who chose to enter

the Duke Cash Balance Program were deemed Traditional Choice participants. Effective January 1, 2011, all remaining Traditional Plan participants were automatically moved to the Duke Cash Balance Program for future accruals with a hard freeze on their Traditional Program benefit.

Effective January 1, 2007, the plan was amended to adopt the Duke Energy Corporation cash balance formula for new hires and for active Cinergy employees previously in the Balanced and Investor Programs. Certain prior accrued benefits are guaranteed as minimum benefits.

Employees commencing participation after January 1, 2003 and before January 1, 2007 were given the choice between the Balanced and Investor Programs. On January 1, 2003 the plan was amended to allow all existing participants a one-time choice between the Traditional Program, the Balanced Program, and the Investor Program.

Methods

Valuation date	January 1, 2025.
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.
Trust expenses included in target normal cost	Provided by Duke Energy Corporation. $2,725,529 for 2025. Assumes only flat rate premium paid during 2025.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the adjusted fair market value of assets determined for the two immediately preceding valuation dates, adjusted to be no greater than 110% and no less than 90% of fair market value (i.e., 24-month averaging with three determination dates as described in Section 1.430(g)-1(c)(2) of the Regulations and Notice 2009-22). The adjusted fair market value of assets as of each determination date is the market value at that date adjusted to the valuation date based on actual cash flows (i.e., contributions, benefit payments, administrative expenses) and expected earnings determined separately for the 12 and 24 months preceding the valuation date. The amount of expected earnings during a given year is based on the cash flows during that year and the lesser of the assumed rate of return on plan assets and the third segment rate used for purposes of determining the minimum funding requirements under Section 430 of the Code for the plan year preceding the valuation date. The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years.
Actuarial method	Standard Unit Credit Cost Method
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued except prior plan benefits and grandfathered benefits for active employees. Based on discussions with Duke Energy Corporation, such benefits are considered to have a de minimis likelihood of being paid and thus are not required to be valued, and will not be valued. WTW has reviewed the plan provisions with Duke Energy Corporation and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor through its third party administrator, furnished participant data as of 1/1/2025. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. In consultation with Duke Energy, the following assumptions were made for missing or apparently inconsistent data elements:

- Retirees who are receiving a joint and survivor annuity benefit that have missing beneficiary information, the valuation age difference assumption and opposite gender is used.
- Frozen accrued benefits are estimates to the extent they have not yet been certified by the employer. We do not believe these estimates have significantly affected the results of the valuation.
- In cases where an accrued benefit was not provided for a terminated vested participant we have used the prior year benefits, if available, or used an assumption of $1,000 per month for annuity participants and $100,000 cash balance account for cash balance participants.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic and Demographic Assumptions

A separate memo delivered with this report will serve as documentation of the rationale for these valuation assumptions in accordance with our understanding of Actuarial Standards of Practice Nos. 4, 6, 27 and 35. All assumptions were selected based on information known at the valuation date and on the premises that the plan will continue and that no events will occur in 2025 that would cause Duke Energy to select different assumptions.

ASOP 56 - Modeling

A separate memo delivered with this report will serve as documentation of the models used to develop the information contained in this report.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430. The assumption for estimated administrative expenses decreased from $3,564,654 for 2024 to $2,725,529 for 2025. The assumed cash balance crediting rate for account balances subject to the 30-year Treasury rate was updated from 4.15% to 4.78%.

Change in Method

The methods for calculating the actuarial value of assets, the funding balances, the minimum required contribution and the quarterly required contributions were changed to reflect the spinoff of assets and liabilities from the Duke Energy Legacy Pension Plan (EIN 20-2777218 PN 012) and subsequent merger into the Duke Energy Retirement Cash Balance Plan (EIN 20-2777218 PN 001), effective January 1, 2025.

Duke Energy submitted a request for approval for these changes to the IRS on December 17, 2025 and has provided information for subsequent requests. As of the date of this filing, the approval hasn’t been received.”

Benefits Paid Upon the Following Events

Normal Retirement

The retirement benefit is based on the opening account balance calculated for Duke as of January 1, 1997 and for PanEnergy/Nantahala, as of January 1, 1999. Thereafter, the account is increased monthly through the addition of contribution credits and an interest adjustment.

The contribution credit percentage is determined by points credited to the participant monthly, as follows:

Contribution Credit Percentage by Points at Beginning of Year

Points	Contribution Credit Percentage
<35	4%, plus 4% of pay over Social Security Wage Base
35-49	5%, plus 4% of pay over Social Security Wage Base
50-64	6%, plus 4% of pay over Social Security Wage Base
>64	7%, plus 4% of pay over Social Security Wage Base

A participant's points as of any January 1 (or date of participation) equal the sum of the attained age and creditable service on such date, with the sum truncated to drop less than full points.

The monthly interest adjustment is a percentage increase in the account balance. For balances accrued through December 31, 2012 for non-union employees, through December 31, 2013 for USW Local 7202 (Nantahala) employees, and through March 31, 2015 for IBEW Local 962 and IBEW Local 962-T employees, the rate of monthly increase is the average yield on 30-year Treasury bonds for the end of the third full business week of the month prior to the beginning of the calendar quarter in which the particular month occurs, subject to a minimum of 4% and a maximum of 9%. For non-union pay credits accrued on or after January 1, 2013, USW Local 7202 (Nantahala) pay credits accrued on or after January 1, 2014, and IBEW Local 962 and IBEW Local 962-T pay credits accrued on or after April 1, 2015, the rate of monthly interest credit is fixed based on an annual percentage rate of 4%.
