INDEPENDENT AUDITOR'S REPORT

To the Participants and Trustees of the
Gordon College Defined Contribution Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit
We have performed audits of the financial statements of the Gordon College Defined Contribution Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion
We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion
The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Further, as described in Note 8 to the financial statements, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, Annual Reporting Requirements for 403(b) Plans. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America (U.S. GAAP) require that these accounts and the related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements
Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits.

Other Matter – Supplemental Schedule Required by ERISA
The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Respectfully submitted,

GORDON COLLEGE DEFINED CONTRIBUTION RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024

Note 1 – Description of Plan

The following description of the Gordon College Defined Contribution Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a participant directed defined contribution plan available to all eligible employees of the College and is funded by contributions from the employee and employer matching contributions. The Plan was established in 1971 and is subject to the provisions of the Internal Revenue Code ("IRC") and the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Participant Accounts

Each participant's account is credited with the participant's contribution, the employer's matching contribution, and allocations of plan earnings, and charged with withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings or eligibility, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants direct the investment of their account balance into various investment options offered by the Plan and may change their investment options at any time, subject to the terms of the funding vehicles. Plan earnings are credited to a participant's account according to the type of funding vehicle in which balances are invested.

Fund managers' fees are charged to participants' accounts as a reduction of the return earned on each investment option.

Contributions

All employees are eligible to make elective (pre-tax) and Roth (post-tax) contributions, except for student employees. Effective January 1, 2025, the Plan was amended to allow employees who normally work less than 20 hours per week to make contributions to the Plan, but these employees still remain ineligible for employer matching and employer nonelective contributions. Employee contributions are subject to certain Internal Revenue Service ("IRS") limitations. The Plan allows for certain discretionary employer contributions. Effective July 1, 2024, the Plan was amended to include an employer matching contribution equal to 2% of eligible compensation. Employees must be at least 21 years old to be eligible for employer match and employer nonelective contributions. Participants may also contribute amounts representing distributions from other qualified plans.

Beginning on July 1, 2024, participants are automatically enrolled to defer 2% of compensation upon meeting eligibility requirements as defined by the Plan document, unless they opt-out.

Vesting
A participant is fully vested in the contributions and accumulations in their annuity contracts and investment accounts at all times.

Payment of Benefits
Upon termination of service, retirement, death or total permanent disability, a participant may elect to receive a distribution of their entire accumulated plan balance, subject to the terms of the funding vehicles. Distribution options include lump sum payments, partial payments, or installments. In addition, participants may elect in-service withdrawals of their elective deferral account balances for hardship purposes, or after attaining the age of 59½. In case of participant death before the annuity starting date, payment of the current value of the annuity accumulations will be made to a beneficiary, as designated by the participant.

Notes Receivable from Participants
Participants may borrow from their participant accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Participants can have three loans outstanding at any given time. Loans are repayable within a period of 5 years unless for the purchase of a primary residence, in which case the loan must be repaid in a period not exceeding 30 years. The loans are secured by the balance in the participant's account and bear interest at rates which are equal to the Federal Reserve Board Bank prime loan rate plus 1% at the time of loan origination (4.25% - 9.50% for loans outstanding as of December 31, 2025 and 2024). Principal and interest are either paid by the participants directly not to exceed a quarterly basis or through payroll deductions.

Note 2 – Summary of Significant Accounting Policies
A summary of significant accounting policies follows:

Basis of Presentation
The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates
The preparation of financial statements in conformity with U.S. GAAP requires the Plan Administrator to make estimates and assumptions. These estimates and assumptions affect the reported amounts of net assets available for benefits as of the date of the financial statements and the changes in net assets available for benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities as of the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides investment options which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term that would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except for the fully benefit responsive investment contracts, which are stated at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The fully benefit-responsive investment contracts are presented at contract value because contract value is the relevant measurement attribute for that portion of the net assets. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. See Note 4.

TIAA Traditional Annuity Contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As discussed below, certain Teacher's Insurance and Annuity Association ("TIAA") Traditional Annuity contract types are considered fully benefit responsive and are presented at contract value. Certain other non-benefit responsive investment contracts are reported at fair value using contract value as a proxy. TIAA, in its capacity as record keeper and administrator, provides plan management with periodic financial information regarding the plan's assets. In determining reasonableness of the valuation methodology, plan management reviews the accounting and valuation methodology of TIAA Traditional Annuity to determine the appropriateness of fair value considering historical credit rates and treasury yields.

The TIAA Traditional Annuity is a guaranteed fixed annuity contract available as an investment option to plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The Traditional Annuity is offered through a variety of contract types, including Retirement Annuities ("RA"), Supplemental Retirement Annuities ("SRA"), Group Supplemental Retirement Annuities ("GSRA"), and Retirement Choice Plus ("RCP"). The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, are guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years.

The RA contract does not allow lump-sum cash withdrawals and transfers must be spread over 10 annual installments. All other withdrawals and transfers from RA contracts must be spread over 10 annual installments. The SRA, GSRA, and RCP contracts provide for full participant-directed liquidity. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statement of changes in net assets available for benefits.

Payment of Benefits
Benefits are recorded when paid.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2025.

Administrative Expenses

Administrative expenses incurred by the Plan are paid by the Plan or the College. Loan and other transaction fees are charged to participants. The College provides certain accounting and management services to the Plan at no charge. A portion of the administrative expenses is returned to the Plan on revenue sharing arrangements. The revenue sharing amounts received are recorded with other income of $51,165 in the statement of changes in net assets available for plan benefits. There was $127,449 and $93,641 in the revenue sharing account at December 31, 2025 and 2024, respectively, and $23,000 was used to pay plan expenses for the year ended December 31, 2025.

Note 3 – Summary of Certified Financial Data

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA and College Retirement Equities Fund ("CREF") (together, "TIAA and CREF"), custodians of the Plan, have certified the following data included in the financial statements and supplemental schedule is complete and accurate. This certification also extends to those investments, if any, which TIAA Trust, N.A. held as a directed trustee or custodian that were record kept by TIAA:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2025 and 2024.

- Net investment income, interest income on notes receivable from participants and other income as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2025.

- Schedule H, Line 4i - schedule of assets (held at end of year) as of December 31, 2025.

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4 – Fair Value Measurements

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
    - Quoted prices for similar assets or liabilities in active markets;
    - Quoted prices for identical or similar assets or liabilities in inactive markets;
    - Inputs other than quoted prices that are observable for the asset or liability; and
    - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There were no transfers between levels for the years ended December 31, 2025 and 2024.

Following is a description of the valuation methodologies used for assets measured at fair value.

There have been no changes in the methodologies used at December 31, 2025 and 2024:

Mutual funds: The mutual funds are valued at the net asset value ("NAV") of shares held by the Plan at year-end. NAV is calculated using observable quoted active market prices for identical assets.

CREF Variable Annuities: These registered investments primarily invest in equity securities, fixed-income instruments and short-term investments in accordance with each portfolio's investment objectives. Account investments and fund holdings are primarily valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods, including matrix pricing. Money market account holdings are generally valued at amortized cost. On a daily basis, units in these investments are revalued to reflect performance of the underlying investment, minus any fees and changes. The price is available daily to plan administrators and client investors on NASDAQ's website.

TIAA Real Estate Account: The fair value of the Plan's interest in the TIAA Real Estate Account (a pooled separate account) is based on the fund's daily NAV, which is considered by plan management to be the best approximation of fair value. The unit value of the fund is calculated daily and available to plan administrators and client investors on NASDAQ's website. Underlying holdings are primarily valued using independent appraisals or independent pricing sources. Although the underlying assets of the fund cannot be quickly sold and converted to liquid assets, the TIAA general account provides the fund with a liquidity guarantee whereby TIAA ensures that the fund has funds available to meet participant redemption, transfer or cash withdrawal requests.

TIAA Traditional Annuity Contracts: The fair value of the Plan's interest in non-benefit responsive TIAA Traditional Annuity contracts (fixed annuity contracts) is reported at fair value, which approximates contract value. As these investments are contract-based, observable prices for identical or similar investments do not exist and, accordingly, these investments are valued using unobservable inputs (Level 3). The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Liquidity restrictions apply to these investments that could impact the value realized upon exiting the contract. See also Note 2 for discussion of the TIAA Traditional Annuity. In determining the reasonableness of the methodology, Plan management evaluates a variety of factors including a review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms, while others are substantiated utilizing available market data.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	Investments, Fair Value as of December 31, 2025		
	Level 1	**Level 3**	**Total**

	$ 82,391,692	$ 22,984,884	$ 105,376,576

* Non-fully benefit responsive TIAA Traditional Annuity contracts

Purchases of Level 3 investments were $3,123,758 for the Plan year ended December 31, 2025.

Transfers out of the TIAA Real Estate Account to a TIAA or CREF account or into another investment option can be executed at any time but are limited to once per calendar quarter. Transfers out of the TIAA Traditional Annuity contracts can only be affected over a period of time (up to 10 years) and may be subject to other limitations. Transfers out of CREF funds and TIAA mutual funds into another investment option may be executed on a daily basis.

The following table represents the Plan's Level 3 financial instruments not valued at NAV, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2025 and 2024:

TIAA Traditional Annuity Non-Benefit-Responsive Insurance Annuity Contract

Date	Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Range of Significant Input Values
December 31, 2025	$22,414,592	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	RA - 3.55% - 6.50%
December 31, 2024	$22,984,884	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	RA - 3.65% - 6.50%

TIAA Traditional Annuity account balances are reported at fair value, which is the aggregation of contributions, plus interest, and less withdrawals, if any. Crediting rates are a combination of a guaranteed rate and an annually established discretionary rate. Additionally, the discretionary rate applied to the contributions received during a reporting period may vary from the discretionary rate applied to the account balance at the end of the reporting period.

Fair value approximates a discounted cash flow value calculated using an appropriate risk-adjusted market discount rate, which correlates closely with the TIAA Traditional Annuity's historical crediting rates.

Note 5 – Tax Status

The Plan has adopted the Volume Submitter 403(b) Plan from TIAA, which has received an IRS determination letter dated August 7, 2017 that the Plan is designed in accordance with the applicable sections of the IRC. The Plan Administrator believes that the Plan is currently designed and operating in accordance with the applicable requirements of Section 403(b) of the IRC and, therefore, believes the Plan is qualified and the related custodial accounts and tax-deferred annuities are tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 – Party-In-Interest Transactions
Certain plan investments are managed by entities related to TIAA and CREF, custodians of the Plan, and, therefore, transactions involving these investments qualify as party-in-interest transactions. The Plan also has notes receivable from participants, which qualify as party-in-interest transactions.

Note 7 – Plan Termination
Although it has not expressed any intent to do so, the College has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

Note 8 – Accounting Records
In November 2007, the DOL issued amended regulations eliminating an exemption granted to 403(b) plans from the annual Form 5500 reporting and disclosure requirements under Part 1 of Subtitle B of Title I of the ERISA. Prior to the amended regulations, the Plan was not viewed as a separate reporting entity.

Consistent with higher education industry sector practices, recordkeeping of the Plan has been maintained by TIAA since the Plan's inception. While TIAA provided details of participant accounts to the individual plan participants, TIAA did not provide sufficient records at a plan level and as a result, plan management did not have such records when preparing the financial statements. The effect, if any, on the Plan's financial statements cannot be determined.

Note 9 – Subsequent Events
Management has completed its evaluation of potential subsequent events. This evaluation was completed through October 13, 2026, the date the financial statements were available to be issued.
