Independent Auditor's Report

Investment Committee and Plan Administrator
SwedishAmerican 403(b) IncentiveSAVER Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit
We were engaged to perform audits of the financial statements of SwedishAmerican 403(b) IncentiveSAVER Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion
We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion
The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Further, as described in Note 6 to the financial statements, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America (U.S. GAAP) require that these accounts and the related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements
Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter—Supplemental Schedule Required by ERISA
The supplemental schedule of Schedule H, line 4i—schedule of assets (held at end of year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Note 1. Plan Description

The following description of SwedishAmerican 403(b) IncentiveSAVER Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan was established by SwedishAmerican Health System Corporation (the Company), effective January 1, 1987. The Plan is a defined-contribution plan covering all employees of the non-profit entities of the Company. Employees who are regularly scheduled to work at least 20 hours per week are eligible immediately upon employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Investment Committee comprised of individuals appointed by the Company's Board of Directors. The Investment Committee has overall responsibility for the operation and administration of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Company's Board of Directors.

Contributions: Eligible employees of the Company may make voluntary tax-deferred contributions, subject to Internal Revenue Code (IRC) limitations, as defined in the Plan. Participants who will attain age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Employees who have been hired or rehired and have not elected otherwise will automatically have 3% of compensation deferred. The Company makes a matching contribution up to a maximum of 3% of a participant's compensation, based on the participant's years of service and participant contributions. Additionally, the Company contributes a non-elective annual contribution amount up to a maximum of 5% of a participant's compensation, based on the participant's years of service and compensation provided that the participant is employed at the end of the year and has worked at least 1,000 hours. In 2025, total company matching contributions were approximately $3,381,800 and the Company non-elective annual contribution was approximately $10,466,200. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of: (a) the Company's non-elective annual contribution and (b) Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan, and Plan losses. Allocations are based on participant earnings or account balances, as defined in the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions and Company contributions, plus actual earnings thereon.

Investment options: Upon enrollment in the Plan, participants select one of two tiers for asset allocation. Tier #1 is the professional money management option provided by ProManage, LLC, an independent investment adviser, that will diversify a participant's investments across select funds based on age, account balance and projected estimates of Social Security benefit and life expectancy. Participants may opt out of Tier #1. Tier #2 offers participants to manage their own investment options selecting from the core investment options offered by the plan. Under Tier #2, a participant may direct Company and participant contributions into any of the investment options offered by the Plan. Participants in Tier #2 which are not using ProManage, LLC may change their investment mixes for future contributions and exchange account fund balances on any day that the market is open, subject to a 30-day block following any previous exchange.

Note 1. Plan Description (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Note terms are up to five years, or up to 10 years for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear a rate of interest which is commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: On termination of service for any reason, a participant with greater than $1,000 in vested benefits may elect to receive either a lump-sum amount equal to the value of their account or periodic payments over their life expectancy. A participant with $1,000 or less in vested benefits may receive the value of the vested interest in their account as a lump-sum distribution. The Plan also allows for in-service distributions before age 59½ for certain hardships as defined by the Plan. After age 59½, the Plan allows for in-service distributions for any reason. The Plan provides benefits to a participant's beneficiaries upon their death.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of accounting estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value (except for direct investments in fully-benefit responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accounted for on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions: Contributions from Plan participants and the Company matching contributions are recorded in the year in which participant compensation is earned.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the plan document. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Payment of benefits: Benefits paid to participants are recorded when paid.

Administrative expenses: Plan administrative expenses are paid by either the Company or the Plan. Expenses of maintaining the Plan that are paid directly by the Company are excluded from these financial statements.

Subsequent events: The Plan's management has evaluated subsequent events through October 12, 2026, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by T. Rowe Price Trust Company

The following is a summary of the Plan's asset information as of December 31, 2025 and 2024, and for the year ended December 31, 2025, included throughout the Plan's financial statements and ERISA required supplemental schedule, obtained by management and agreed to or derive from information certified as complete and accurate by T. Rowe Price Trust Company (T. Rowe Price), a qualified institution:

	2025	2024
Investments, at fair value:		
Shares of registered investment companies	$ 399,425,002	$ 355,533,462
Investments, at contract value:		
Group annuity contract, general account of insurance company	33,862,198	30,559,903
Notes receivable from participants	5,916,657	5,264,675

T. Rowe Price also certified to the completeness and accuracy of $32,366,915 of net appreciation in fair value of investments, $21,604,699 of interest and dividends and $451,203 of interest income on notes receivable from participants related to the aforementioned Plan assets for the year ended December 31, 2025.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the Financial Accounting Standards Board Accounting Standards Codification 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4. Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2025 and 2024.

	2025			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 399,425,002	$ -	$ -	$ 399,425,002

	2024			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 355,533,462	$ -	$ -	$ 355,533,462

Changes to fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. The Plan's management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2025, there were no transfers in or out of Level 3.

Note 5. Fully Benefit-Responsive Investment Contract

The Plan holds a group annuity contract with New York Life Insurance Company. This contract meets the fully benefit-responsive contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. With this type of contract, the Plan owns only the contract itself and the contract is designed to accrue interest based on crediting rates established by the contract issuer. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that was guaranteed to the Plan. The crediting rate for 2025, as established by the contract issuer, was 5.00%. The crediting rate is reviewed on a semiannual basis for resetting. The contract value was $33,862,198 and $30,559,903 as of December 31, 2025 and 2024, respectively.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Note 5. Fully Benefit-Responsive Investment Contract (Continued)

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the IRC or the failure of the trust to be tax-exempt under Section 501(a) of the IRC.

2. Premature termination of the contract.

3. Plan termination or merger.

4. Changes to the Plan's prohibition on competing investment options.

5. Bankruptcy of the Company or other Company events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.

2. A breach of material obligation under the contract.

3. A material misrepresentation.

4. A material amendment to the plan agreement without the consent of the issuer.

Note 6. Excluded Contracts

The Plan Administrator has elected to exclude from investments certain annuity and custodial accounts which may have been issued to current and former employees without the Plan Administrator's knowledge prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such potential accounts have also been excluded from the statement of changes in net assets available for benefits. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements. The Plan Administrator is not able to determine the amount of these excluded annuity and custodial accounts and the related income and distributions because no records relating to these exist.

Note 7. Related-Party and Party-in-Interest Transactions

Certain Plan investments are shares of registered investment companies managed by an affiliated company of T. Rowe Price Trust Company, the custodian, as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Administrative fees for participant note processing paid by the Plan to the custodian were approximately $23,300 for the year ended December 31, 2025. Investment advisor fees paid to ProManage, LLC investment advisors and a fiduciary of the Plan amounted to approximately $467,200 for the year ended December 31, 2025.

Certain administrative functions are performed by officers or employees of the Company for which no compensation is paid from the Plan.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 9. Income Tax Status

The Plan Administrator believes the terms of the Plan have been designed to meet the requirements of the applicable sections of the IRC and is currently being operated in conformity with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2025	2024
Net assets available for benefits per the financial statements	$ 451,080,590	$ 402,225,670
Notes receivable from participants	(5,916,657)	(5,264,675)
Investment, participant loans	5,916,657	5,264,675
Net assets available for benefits per the Form 5500	$ 451,080,590	$ 402,225,670

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2025:

Net increase in net assets available for benefits per the financial statements	$ 48,854,920
Benefits paid directly to participants	(67,965)
Deemed distributions of participant loans	67,965
Net increase in net assets available for benefits per the Form 5500	$ 48,854,920

Note 11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
