INDEPENDENT AUDITOR'S REPORT

October 6, 2026

To the Participants and Plan Administrator
Speedway Retirement Plan

Opinion

We have audited the financial statements of the Speedway Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, as well as the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, the changes in its net assets available for benefits for the years then ended, the accumulated plan benefits as of January 1, 2025, and the changes in its accumulated plan benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("U.S. GAAS"). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

The Plan's management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Responsibilities of Management for the Financial Statements (continued)

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

The Plan's management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. *Reasonable assurance* is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting in error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. GAAS:

- We exercise professional judgment and maintain professional skepticism throughout the audit.

- We identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and we design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- We obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- We evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, and we evaluate the overall presentation of the financial statements.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

- We conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Former BP Amoco Participants

In addition to the above benefits, participants who were age 40 and above and not age 50 with at least 15 years of service at acquisition and ultimately qualify for early retirement benefits are eligible for a special Social Security supplement. This benefit will be paid until the participant attains age 62.

The monthly supplement amount is equal to $50 times vesting service up to 20 years plus $45 times vesting service greater than 20 years. Vesting service for this purpose is limited to service through December 31, 2010[1]

[1] For Mandan and LAR Unions, effective dates are January 31, 2012 and April 30, 2012, respectively.

The supplement is then reduced to reflect age at commencement based on the factors below:

Age	Vesting Service + Age > = 55	Vesting Service + Age < = 55
61	100%	100%
60	100%	100%
59	97%	85%

53	69%	N/A
52	61%	N/A
51	53%	N/A
50	45%	N/A

The final reduced supplement payable is limited to the amount of the unreduced primary Social Security benefit.

Former Shell Participants

Before Age 65

The greater of (1) and (2) below:

(1) The total service Shell benefit, calculated as 1.60 percent times average final compensation.

(2) Andeavor formula based on service from benefit service table above through December 31, 2010.

After Age 65

The greater of (1) and (2) below:

(1) The total service Shell benefit, calculated as 1.60 percent times Average Final compensation, minus Social Security offset minus August 1, 1998 Shell benefit.

(2) Andeavor formula based on service from benefit service table above through December 31, 2010.

Where amounts above are reduced in accordance with early retirement table. Note that the August 1, 1998 Shell benefit will be offset before age 65 if the participant was eligible at August 1, 1998 for an early retirement benefit

Death Benefit	A participant is eligible for a death benefit after completing three years of vesting service. The death benefit amount is actuarial equivalent to the survivor portion of a 100 percent joint & survivor assuming that the participant elected such form of payment immediately preceding their death. The death benefit for the surviving spouse may be paid as a single life annuity or a lump sum at the election of the spouse. The death benefit for a non-spouse beneficiary will be paid as an immediate lump sum.
Vested Benefits Upon Termination of Service	If a participant terminates his service prior to his normal retirement date and has three years of vesting service (five years for terminations before December 31, 20101[1]), the deferred vested benefit is equal to the benefit computed based on pay and service as of the termination date (pay is frozen at December 31, 2018, service is frozen at December 31, 2010[1]). The benefit will commence at normal retirement date, or reduced benefits may commence at any earlier age on an actuarially equivalent basis, where actuarial equivalence is based on GAM-83 unisex mortality and 7.50 percent interest.
Disability Benefit	A participant is eligible for a disability benefit upon completing three years of vesting service and becoming totally and permanently disabled. The benefit amount is calculated in the same manner as the normal retirement benefit above, however, assuming that pay will continue at the same rate as in effect at time of disability to normal retirement date (frozen at December 31, 2018) and service will continue to December 31, 2010[1].

[1] For Mandan and LAR Unions, effective dates are January 31, 2012 and April 30, 2012, respectively.

Cash Balance Component of Benefit for Services After 2010[1]

Cash Balance Account

Account

A notional account corresponding to each participant reflecting the amount of the employer's obligation to the participant at any given time.

Accrual

On the last day of each plan quarter (or the last day of the month of the participant's date of termination, if earlier), each participant's account shall be credited with:

(1) Interest Credits: Using an annual effective rate based on the yield on 30-Year Treasury Securities (but not less than 3.0 percent) applied to the notional account at the beginning of the quarter; and

(2) Salary Credits: Based on a percentage applied to the member's eligible compensation during the quarter, as shown below:

Age at the End of the Quarter	Quarterly Contribution Percentage
Less Than 30	4.5%
30–39	5.5%
40–49	6.5%
50–59	7.5%
60 and Above	8.5%

In addition, acquired BP Carson employees earn an additional 6 percent (Non-Heritage) or 9 percent (Heritage) of pay for the period between June 1, 2013 and May 31, 2014.

Salary credits are frozen effective December 31, 2018. Interest credits will continue to be provided after December 31, 2018.

Retirement Benefits

The benefit payable upon early or normal retirement date is a lump sum or annuity that is actuarially equivalent to the participant's cash balance account as of the annuity starting date

[1] For Mandan and LAR Unions, effective dates are January 31, 2012 and April 30, 2012, respectively.

Vested Benefits Upon Termination of Service	A participant is 100 percent vested upon completion of three years of service and may elect to commence benefits at any time. The termination benefit is equal to the vested cash balance account credited with interest to the annuity starting date. Vesting service will continue to accrue after December 31, 2018.
Death Benefits	The participant's beneficiary will receive a lump-sum benefit equal to 100 percent of the participant's vested account balance as of the date of death, increased with interest to the payment date.
Disability Benefit	A participant is eligible for a disability benefit upon completing three years of vesting service and becoming totally and permanently disabled. The benefit amount is calculated in the same manner as the Retirement Benefit above, however, assuming that pay and service (i.e., salary credits) will continue at the same rate as in effect at time of disability to normal retirement date. Employees disabled prior to 2011 will begin earning salary credits on January 1, 2011[1] in lieu of additional benefit service under the final average pay formula. Salary credits are frozen as of December 31, 2018.

[1] For Mandan and LAR Unions, effective dates are February 1, 2012 and May 1, 2012, respectively.

Former Plan Participants	Applicable Date
BP Amoco	September 6, 2001
Golden Eagle	May 17, 2002
LAR (Shell Los Angeles)	May 11, 2007
Shell	August 1, 1998

Effective December 31, 2010, Benefit Service is frozen[1].

Normal Retirement Benefit

Andeavor Benefit Formula

Sum of (1) and (2)

(1) 1.10 percent of participant's final average monthly compensation multiplied by the number of years of benefit service through December 31, 2010[1].
(2) 0.50 percent of participant's final average monthly compensation in excess of Social Security coveredcompensation multiplied by the number of years of benefit service through December 31, 2010[1] to a maximum of 35 years.

[1]For Mandan and LAR Unions, effective dates are January 31, 2012 and April 30, 2012, respectively.

Benefit for Former BP Amoco, Golden Eagle and LAR Participants	Greater of (1) and (2) where: (1) Andeavor benefit formula above based on Andeavor service from benefit service table above through December 31, 2010[1] . (2) Andeavor benefit formula above using all service (service with Andeavor and prior plan service) through December 31, 2010[1] minus the prior plan frozen benefit. ***Note:*** *Generally, all service in (2) above is from date of hire, however it is from January 1, 2003 for LAR participants.*
Benefit for Former Shell Participants	Greater of (1) and (2) below: (1) Andeavor benefit formula above based on Andeavor service from Benefit service table above through December 31, 2010. (2) 1.60 percent of participant's average final compensation multiplied by benefit service (all periods) through December 31, 2010 minus August 1, 1998 Shell benefit and minus Social Security offset. The Social Security offset is calculated as 1.50 percent of the participant's primary Social Security benefit (frozen as of December 31, 2018) multiplied by the projected benefit service to Social Security normal retirement age (max of 33⅓ years) multiplied by benefit service through December 31, 2010 divided by projected benefit service to Social Security normal retirement age (no max). Projected benefit service for this purpose is not frozen at December 31, 2010.

[1] For Mandan and LAR Unions, effective dates are January 31, 2012 and April 30, 2012, respectively.

Former BP Amoco Participants

In addition to the above benefits, participants who were age 40 and above and not age 50 with at least 15 years of service at acquisition and ultimately qualify for early retirement benefits are eligible for a special Social Security supplement. This benefit will be paid until the participant attains age 62.

The monthly supplement amount is equal to $50 times vesting service up to 20 years plus $45 times vesting service greater than 20 years. Vesting service for this purpose is limited to service through December 31, 2010[1]

[1] For Mandan and LAR Unions, effective dates are January 31, 2012 and April 30, 2012, respectively.

The supplement is then reduced to reflect age at commencement based on the factors below:

Age	Vesting Service + Age > = 55	Vesting Service + Age < = 55
61	100%	100%
60	100%	100%

The final reduced supplement payable is limited to the amount of the unreduced primary Social Security benefit.

Former Shell Participants

Before Age 65

The greater of (1) and (2) below:

(1) The total service Shell benefit, calculated as 1.60 percent times average final compensation.

(2) Andeavor formula based on service from benefit service table above through December 31, 2010.

After Age 65

The greater of (1) and (2) below:

(1) The total service Shell benefit, calculated as 1.60 percent times Average Final compensation, minus Social Security offset minus August 1, 1998 Shell benefit.

(2) Andeavor formula based on service from benefit service table above through December 31, 2010.

Where amounts above are reduced in accordance with early retirement table. Note that the August 1, 1998 Shell benefit will be offset before age 65 if the participant was eligible at August 1, 1998 for an early retirement benefit

Death Benefit	A participant is eligible for a death benefit after completing three years of vesting service. The death benefit amount is actuarial equivalent to the survivor portion of a 100 percent joint & survivor assuming that the participant elected such form of payment immediately preceding their death. The death benefit for the surviving spouse may be paid as a single life annuity or a lump sum at the election of the spouse. The death benefit for a non-spouse beneficiary will be paid as an immediate lump sum.
Vested Benefits Upon Termination of Service	If a participant terminates his service prior to his normal retirement date and has three years of vesting service (five years for terminations before December 31, 20101[1]), the deferred vested benefit is equal to the benefit computed based on pay and service as of the termination date (pay is frozen at December 31, 2018, service is frozen at December 31, 2010[1]). The benefit will commence at normal retirement date, or reduced benefits may commence at any earlier age on an actuarially equivalent basis, where actuarial equivalence is based on GAM-83 unisex mortality and 7.50 percent interest.
Disability Benefit	A participant is eligible for a disability benefit upon completing three years of vesting service and becoming totally and permanently disabled. The benefit amount is calculated in the same manner as the normal retirement benefit above, however, assuming that pay will continue at the same rate as in effect at time of disability to normal retirement date (frozen at December 31, 2018) and service will continue to December 31, 2010[1].

[1] For Mandan and LAR Unions, effective dates are January 31, 2012 and April 30, 2012, respectively.

Cash Balance Component of Benefit for Services After 2010[1]

Cash Balance Account

Account

A notional account corresponding to each participant reflecting the amount of the employer's obligation to the participant at any given time.

Accrual

On the last day of each plan quarter (or the last day of the month of the participant's date of termination, if earlier), each participant's account shall be credited with:

(1) Interest Credits: Using an annual effective rate based on the yield on 30-Year Treasury Securities (but not less than 3.0 percent) applied to the notional account at the beginning of the quarter; and

(2) Salary Credits: Based on a percentage applied to the member's eligible compensation during the quarter, as shown below:

Age at the End of the Quarter	Quarterly Contribution Percentage
Less Than 30	4.5%
30–39	5.5%
40–49	6.5%
50–59	7.5%
60 and Above	8.5%

In addition, acquired BP Carson employees earn an additional 6 percent (Non-Heritage) or 9 percent (Heritage) of pay for the period between June 1, 2013 and May 31, 2014.

Salary credits are frozen effective December 31, 2018. Interest credits will continue to be provided after December 31, 2018.

Retirement Benefits

The benefit payable upon early or normal retirement date is a lump sum or annuity that is actuarially equivalent to the participant's cash balance account as of the annuity starting date

[1] For Mandan and LAR Unions, effective dates are January 31, 2012 and April 30, 2012, respectively.

Vested Benefits Upon Termination of Service	A participant is 100 percent vested upon completion of three years of service and may elect to commence benefits at any time. The termination benefit is equal to the vested cash balance account credited with interest to the annuity starting date. Vesting service will continue to accrue after December 31, 2018.
Death Benefits	The participant's beneficiary will receive a lump-sum benefit equal to 100 percent of the participant's vested account balance as of the date of death, increased with interest to the payment date.
Disability Benefit	A participant is eligible for a disability benefit upon completing three years of vesting service and becoming totally and permanently disabled. The benefit amount is calculated in the same manner as the Retirement Benefit above, however, assuming that pay and service (i.e., salary credits) will continue at the same rate as in effect at time of disability to normal retirement date. Employees disabled prior to 2011 will begin earning salary credits on January 1, 2011[1] in lieu of additional benefit service under the final average pay formula. Salary credits are frozen as of December 31, 2018.

[1] For Mandan and LAR Unions, effective dates are February 1, 2012 and May 1, 2012, respectively.

INDEPENDENT AUDITOR'S REPORT

October 6, 2026

To the Participants and Plan Administrator
Speedway Retirement Plan

Opinion

We have audited the financial statements of the Speedway Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, as well as the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, the changes in its net assets available for benefits for the years then ended, the accumulated plan benefits as of January 1, 2025, and the changes in its accumulated plan benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("U.S. GAAS"). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

The Plan's management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Responsibilities of Management for the Financial Statements (continued)

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

The Plan's management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. *Reasonable assurance* is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting in error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. GAAS:

- We exercise professional judgment and maintain professional skepticism throughout the audit.

- We identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and we design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- We obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- We evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, and we evaluate the overall presentation of the financial statements.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

- We conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Speedway Retirement Plan
Notes to Financial Statements
December 31, 2025 and 2024

Note 1 - Description of the Plan

The following description of the Speedway Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan is subject to the applicable provisions of the Internal Revenue Code of 1986, as amended (the "Code") and the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

General

The Plan is a non-contributory employer defined benefit pension plan that, prior to its closure and later freeze, covered eligible employees of Speedway LLC ("Speedway") and of a participating employer as defined in the Plan document. The Plan is sponsored by Marathon Petroleum Company LP ("MPC").

The Plan, originally named the Petroleum Marketing Retirement Plan (the "PMRP"), was established effective January 1, 1976. Effective January 1, 1999, the PMRP was merged into the Marathon Petroleum Company LLC Retirement Plan as the "Retail Sub-Plan." Effective July 1, 2007, the Retail Sub-Plan was spun off from the Marathon Petroleum Company LLC Retirement Plan (now known as the Marathon Petroleum Retirement Plan) into a separate plan and named the Speedway SuperAmerica LLC Retirement Plan. Effective February 15, 2011, the Plan was renamed the Speedway Retirement Plan.

Only the assets and liabilities related to benefits accrued under the Retail Sub-Plan as determined by the Plan's actuary were spun off in the June 30, 2007 Plan change described above. Therefore, some participants have accrued benefits in both the Plan and in the remaining Marathon Petroleum Retirement Plan. The Plan retained provisions identical to the provisions of the Retail Sub-Plan as they existed immediately prior to the spin-off.

Effective August 2, 2020, the Plan was closed as to new participants, including any re-hired employees. The Plan was frozen as to the accrual of additional benefits, i.e., the accrual of additional cash balance pay credits for all participants, effective May 14, 2021, which date was the effective date of Marathon Petroleum Corporation's sale of Speedway and certain of its affiliates (the "Speedway Sale"). Also on account of the Speedway Sale, effective May 14, 2021, no employee of Speedway or any of its affiliates is an active participant in the Plan. The only remaining active participants in the Plan (albeit, with frozen benefits) are a small number of current employees of MPC or an affiliate of MPC who are former Speedway employees.

The Northern Trust Company is the Plan's trustee ("Trustee"). Fidelity Investments is the record keeper for the Plan.

Pension Benefits

Generally, employees of a participating employer were eligible to participate in the Plan if they were a United States citizen, a non-United States citizen hired in the United States to perform services in the United States, or within an employee group approved by the Plan Administrator. Employees were not eligible to participate in the Plan if they were covered by a collective bargaining agreement (unless such agreement expressly provided for their participation in the Plan) or if they were subject to any employment agreement or contract that waived or excluded their participation in the Plan.

Effective January 1, 2010, the Plan was closed to all new participation and was amended such that retirement benefits accrued through December 31, 2009 would continue application of compensation updates for all future years of employment. After December 31, 2009, participants stopped earning service credits and age growth updates. Prior to these changes, benefits for participants in the Plan were calculated using a pension equity formula ("PEP"). That formula was a participant-account-based formula defined as a percentage of average pay based on age and years of service. Grandfathered PMRP participants are entitled to a benefit accrued under the terms of the PMRP based on their average monthly base compensation at either (1) retirement or termination of employment or (2) December 31, 1998, depending upon a participant's job category as of December 31, 1998. Participants who were transferred from the SuperAmerica division of Ashland, Inc. effective as of January 1, 1999 and who participated in the Ashland Inc. and Affiliates Pension Plan are entitled to a supplemental benefit based on the prior plan's pension formula using final average compensation as of the participant's termination or retirement date.

Effective January 1, 2013, all compensation updates after December 31, 2012 were eliminated for the PMRP, the PEP formula and the supplemental Ashland formula as defined in the Plan. In addition, future social security offset accruals were eliminated for the PMRP formula. Effectively, the amendment froze the single life annuity unreduced for age as of December 31, 2012.

Commencing with the 2013 Plan Year, the GATT rate as determined by the current Plan provisions for purposes of calculating PMRP lump sums is limited to an annual increase as determined by the following table:

Calculated Annual Plan Rate (Unadjusted)	Maximum Annual Plan Rate Increase
Up to 5.00	0.25
≥ 5.01 - 7.00	0.50
≥ 7.01	0.75

If, however, the Plan provisions for calculating the annual lump sum interest rates result in a rate lower than the previous year's Participant Rate, such lower rate will be used without regard to any cap on the size of the reduction.

Effective January 1, 2016, the Plan was amended to provide eligible employees with a cash balance type benefit. (The Plan remains frozen as to the eligibility for and further accrual of the non-cash balance type benefits described above.) Generally, only non-store employees in salary grades 11 or below, store employees in salary grades 4 or above, and employees classified as a Shift Leader II were eligible for a cash balance benefit. Beginning on January 1, 2019, employees who after December 31, 2018, became regularly classified as a salary grade 12 or above employee as a new hire, rehire, transferee or on account of receiving a promotion and who were not active participants in the Marathon Petroleum Retirement Plan as at December 31, 2018, were also eligible for a cash balance benefit. Under the cash balance component of the Plan, eligible employees received an annual 4% cash balance pay credit; provided, however, that beginning on January 1, 2019, participants who were classified as salary grade 12 or above received annual 7%, 9% or 11% cash balance pay credits. As previously noted above, the Plan was frozen effective May 14, 2021, as to accrual of any additional benefits, i.e., additional cash balance pay credits.

A participant fully vests in his or her Plan benefit upon the earlier of the participant's attainment of normal retirement age of 65 or completion of three years of vesting service. A participant accrued benefits for a particular period of service under the Plan. As noted above, the Plan was amended effective January 1, 2010, to cease any additional accruals based on service after January 1, 2010 for the Plan's non-cash balance type benefits.

The Plan provides single life annuity, joint and survivor annuity, and other optional forms of benefit payment, including a lump sum payment option. Participants who have terminated employment are entitled to commence benefits before attaining normal retirement age. Participants who have PMRP or supplemental Ashland type benefits may be entitled to subsidized early retirement benefits upon retirement before age 65.

Plan Amendments

Pursuant to an amendment adopted on July 9, 2024, the Plan was amended effective January 1, 2024, to (i) clarify the Plan's provisions as to the post-normal retirement age actuarial increase of legacy type benefits under the Plan's components, (ii) clarify the Plan's provisions as to participant elections to commence their benefits after normal retirement age, (iii) update the Plan's forfeiture provisions as to unclaimed benefits; (iv) provide a revised time limit for filing a legal action regarding a claim under the Plan; and (v) specify the court venue for any legal action against the Plan.

Note 2 - Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan were prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Use of Estimates

The preparation of financial statements in accordance with US GAAP requires the Plan to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits as of the dates of the financial statements and the reported amounts of additions and deductions during the respective periods. Actual amounts could differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes gains and losses on investments bought and sold as well as held during the year.

Contributions

Contributions to the Plan are recorded in the period that the Plan's actuary determines they relate to except that a contribution receivable is recorded to the extent that amounts due are pursuant to formal commitments as well as legal or contractual requirements in existence at the end of the Plan year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Expenses incurred in the administration of the Plan are paid out of Plan assets unless MPC, in its discretion, pays such expenses.

Note 3 - Investments

The Plan's assets are held in (a) the Marathon Petroleum Master Retirement Trust (the "Master Retirement Trust") and (b) the Marathon Petroleum Group Trust (the "Group Trust") and both are managed by the Trustee as a directed trustee.

The Master Retirement Trust's assets are allocated between the Plan and the Marathon Petroleum Retirement Plan based on the account balances of the plans and the investment funds relating to the plans. The Master Retirement Trust's assets were allocated among the plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that could be specifically identified and by allocating among all plans, based on the fair value of the specific assets assigned to each plan, the income and expenses resulting from the investment of said assets of the Master Retirement Trust. Investment income and administrative expenses related to the Master Retirement Trust are allocated to the individual plans based on the specific investment within each plan.

The Master Retirement Trust has the following plans and accounts with their respective proportionate interest as of December 31, 2025 and 2024:

	2025	2024
Marathon Petroleum Retirement Plan	95%	94%
Speedway Retirement Plan	5%	6%
	100%	100%

Investment income and administrative expenses relating to the Master Retirement Trust are allocated based on average monthly balances invested by each plan, other than items specific to one or the other plan.

The Group Trust has the following plans with their respective proportionate interest as of December 31, 2025 and 2024:

	2025	2024
Marathon Petroleum Retirement Plan	90%	90%
Speedway Retirement Plan	10%	10%
	100%	100%

Investment income and administrative expenses relating to the Group Trust are allocated based on average monthly balances invested by each plan, other than items specific to one or the other plan.

Note 4 - Fair Value Measurements

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. There are three approaches for measuring the fair value of assets and liabilities: the market approach, the income approach and the cost approach, each of which includes multiple valuation techniques. The fair value hierarchy consists of three broad levels:

- Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and liabilities. These inputs have the highest priority;
- Level 2 inputs consist of observable market-based inputs or unobservable inputs that are corroborated by market data, and are either directly or indirectly observable as of the measurements date;
- Level 3 inputs are unobservable inputs that are not corroborated by market data and may be used with internally developed methodologies that result in management's best estimate of fair value. These inputs have the lowest priority.

The Plan's investments in the Master Retirement Trust and the Group Trust are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following provides a description of the valuation techniques employed for each major plan asset category:

- **Cash and cash equivalents** – Cash and cash equivalents include a collective fund serving as the investment vehicle for the cash reserves and cash held by third-party investment managers. The collective fund is valued at net asset value ("NAV") on a scheduled basis using a cost approach, and is considered a Level 2 asset. Cash and cash equivalents held by third-party investment managers are valued using a cost approach and are considered Level 2 assets. The non-Master Retirement Trust cash and cash equivalents include cash on deposit and an investment in a money market mutual fund that invests mainly in short-term instruments and cash, both of which are valued using a market approach and are considered Level 1 assets. The money market mutual fund is valued at the NAV of shares held.
- **Equity** – Equity investments include common and preferred stock, mutual and pooled funds, public and non-public investment trusts, and S&P 500 exchange-traded funds. Common and preferred stock is valued using a market approach. These assets are priced daily in active markets and are considered Level 1 assets. Mutual and pooled equity funds are well diversified portfolios, representing a mix of strategies in domestic, international, and emerging markets. Mutual funds are publicly registered, valued at NAV on a daily basis using a market approach, and are considered Level 1 assets. Pooled funds are valued at NAV using a market approach, and are considered Level 2 assets. Investments in public trusts and S&P 500 exchange traded funds are valued using a market approach at the closing price reported in an active market and therefore are considered Level 1 assets. Non-public investment trusts are considered Level 2 assets and are valued using a market approach based on the underlying investments in the trust, which are publicly traded securities.
- **Fixed Income** – Fixed income investments include corporate bonds, U.S. dollar treasury bonds, and municipal bonds. These securities are priced on observable inputs using a combination of market, income, and cost approaches. These securities are considered Level 2 assets. Fixed income also includes a well-diversified bond portfolio structured as a pooled fund. This pooled fund is valued at NAV on a daily basis using a combination of market, income, and cost approaches. It is considered a Level 2 asset. U.S. dollar denominated bank loans are also a fixed income investment. Based on the price source of these instruments they are categorized as Level 3 assets.
- **Private Equity** – Private equity investments include interests in limited partnerships which are valued using information provided by external managers for each individual investment held in the fund. These holdings are considered Level 3 assets.
- **Real Estate** – Real estate investments consist of interests in limited partnerships. These holdings are either appraised or valued using investment manager's assessment of assets held. These holdings are considered Level 3 assets.
- **Other** – Other investments include two limited liability companies ("LLCs") with no public market. The LLCs were formed to acquire timberland in the northwest United States. These holdings are either appraised or valued using investment manager's assessment of assets held. These holdings are considered Level 3 assets.
- **Derivative Options and Swaps –** The Plan values derivative instruments using pricing models based on the prevailing forward exchange rate of the underlying currencies taking into account the counterparties' creditworthiness.

The following table provides valuation technique and significant unobservable inputs used in the fair value measurement of Level 3 assets in the Group Trust for the year ended December 31, 2024:

Instrument	Fair Value	Valuation Technique	Unobservable Input	Range
Private Equity[3][4]	$8,749,349	NAV	N/A	N/A

Other	$188,622	Discounted Cash Flows	Discount Rate(1) Revenue Growth(2)	5.3-6.5%

[1]As much as 0.5 percent of the discount rate is for exit premium.

[2]Revenue Growth is calculated using projections of future harvest volumes, physical measurement and statistical information of timber inventory, future timber prices and expenses.

[3]The remaining lives of such investments range from less than one year to up to twelve years.

[4]Investments are valued at NAV, unless it is determined that this does not represent fair value. In such instances, fair value is estimated in accordance with the Plan's valuation practices. Such adjustments decreased the fair value of private equity funds by an immaterial amount.

Note 5 - Derivative Instruments

The Plan (through the Master Retirement Trust) may enter into foreign currency forward exchange contracts primarily to hedge against foreign currency exchange rate risks on its U.S. dollar denominated investment securities. When entering into a forward currency contract, the Plan agrees to receive or deliver a fixed quantity of foreign currency for an agreed-upon price on an agreed future date. The Plan's net equity therein, representing unrealized gain or loss on the contracts, as measured by the difference between the forward foreign exchanges rates at the dates of entry in the contracts and the forward rates at the reporting date is included in the Master Retirement Trust's statement of net assets. Realized and unrealized gains and losses are included in the Master Retirement Trust's statement of changes in net assets. These instruments involve market risk, credit risk, or both kinds of risks in excess of the amount recognized in the statement of net assets. Risks arise from the possible inability of counterparties to meet the terms of their contracts and movement in currency and securities values and interest rates. The year-end balance is indicative of the average volume during the year.

The following table provides the aggregate fair value of assets and liabilities of the Master Retirement Trust's derivatives not under hedge accounting included in derivative financial instruments and foreign exchange contracts receivable/payable as reported in the statements of net assets available for benefits at December 31, 2025 and 2024:

	December 31, 2025			December 31, 2024		
	Asset	Liability	Notational (a)	Asset	Liability	Notational (a)
Central Counterparty Swaps	3,323,853	(770,278)	—	2,453,141	(665,989)	—

OTC Currency Options	36,265	(11,294)	—	—	—	—

(a) Represents fair value of foreign currency contracts and underlying principal value for all other derivatives.

At December 31, 2025 and 2024, there were no derivatives accounted for as cash flow or fair value hedges and no amounts recognized in accumulated other comprehensive income. Accordingly, for the year ended December 31, 2025, there were no gains or losses related to derivatives recognized in, or reclassified from, other comprehensive income.

Gains and losses on derivative financial instruments are recognized as fair values change. Generally, gains and losses on the derivative financial instruments held would be offset by similar fair value gains and losses on the related securities. The following table provides changes in fair value of the Master Retirement Trust's derivatives not under hedge accounting included in net appreciation in fair value of investments as reported in the Master Retirement Trust's statement of changes in net assets available for benefits for the years ended December 31, 2025 and 2024:

	For the Year Ended December 31, 2025		For the Year Ended December 31, 2024

Central Counterparty Swaps	$	766,423	$	1,417,009

Swaptions	$	207,447	$	43,868
OTC Currency Options	$	24,972	$	—

Note 6 - Accumulated Plan Benefits

A third party actuary determines the actuarial present value of accumulated plan benefits. The amount results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for termination after becoming vested, death, disability, withdrawal, and retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in determining accumulated plan benefits as of January 1, 2025 are as follows:

Interest Rate	6.4%
Mortality Rates	2012 base mortality rates for annuitants and nonannuitants per §1.430(h)(3)-1(d), projected generationally for years beyond 2012 using IRS-prescribed mortality improvement rates per §1.430(h)(3)-1(b)(iii)
Average Retirement Age	64

The actuarial assumptions are based on the presumption that the Plan will continue. If the Plan is terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The accumulated plan benefits information as of January 1, 2025 is as follows:

Actuarial present value of accumulated Plan benefits		
Vested benefits		
Participants currently receiving payments	$	9,106,418
Other participants		81,664,762
Total vested benefits		90,771,180
Total actuarial present value of accumulated Plan benefits	$	90,771,180

The change in the actuarial present value of accumulated plan benefits from last actuary valuation, to current actuary valuation date, is attributed to the following:

Actuarial present value of accumulated Plan benefits, as of January 1, 2024	$	98,375,448
(Decrease)/increase during the year attributable to		
Benefit payments		(15,807,157)
Interest accumulation		5,253,829
Actuarial assumptions		(4,537,327)
Benefits accumulated, net of experience gain or loss or changes in data		7,486,387
Net change		(7,604,268)
Actuarial present value of accumulated Plan benefits, as of January 1, 2025	$	90,771,180

The computations of actuarial present value of accumulated Plan benefits were made as of January 1, 2025. Had the valuations been performed as of December 31, 2024, there would be no material difference.

Note 7 - Securities Lending Activities

The Plan participates in a securities lending program within the Master Retirement Trust through the Trustee. Under this program, the Plan's investment securities are loaned to pre-approved investment brokers for a fee. Securities loaned are fully collateralized by cash, letters of credit, and acceptable securities. The initial collateral level is no less than 100% of the market value of securities lent for loans collateralized by assets that are denominated in United States dollars. However, if the collateral is for any loaned securities that are foreign securities that are principally cleared and settled outside the United States, or any other loaned securities, then the initial collateral is no less than 105% and 102% of the market value of the securities lent, respectively. Marking to market is performed every business day. All borrowers are required to provide additional collateral if the market value of securities lent falls below the required collateral level.

At December 31, 2025, securities with an aggregate market value of $65,678,027, were on loan to brokers that provided cash collateral and $4,922,376 were on loan to brokers that provided non-cash collateral. The loans were secured by cash collateral of $67,440,424 and non-cash collateral of $5,057,420 at December 31, 2025. At December 31, 2024, securities with an aggregate market value of $60,712,524, were on loan to brokers that provided cash collateral and $9,590,700 were on loan to brokers that provided non-cash collateral. The loans were secured by cash collateral of $62,038,688 and non-cash collateral of $9,859,817 at December 31, 2024. For the years ended December 31, 2025 and 2024, the Plan earned $149,547 and $144,460, respectively, from securities lending.

Note 8 - Funding Policy

The actuarial cost method used for funding of the Plan is the "projected unit credit" method of actuarial valuation. The funding policy provides that MPC will contribute amounts necessary to maintain the Plan on a sound actuarial basis and in accordance with the minimum funding requirements of ERISA plus any additional amounts which may be approved from time to time. No payments were made in 2026 for the 2025 plan year, as well as in 2025 for the 2024 plan year. Minimum required funding has been met for the 2025 and 2024 plan years.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities which are exposed to various risks, such as interest rate, credit and overall market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 10 - Party-In-Interest Transactions

Fees paid by the Plan to the Trustee, in its capacity as the Plan's Trustee, for 2025 and 2024 were $81,360 and $127,136, respectively.

The Trustee has been identified as a party-in-interest and these transactions are exempt from the prohibited transaction rules.

Note 11 - Plan Termination

Although it has not expressed any intent to do so, MPC has retained the right to amend, terminate, or otherwise modify the Plan, including the right to discontinue the contributions thereto, at any time, solely at the discretion of MPC. In the event of the termination of the Plan, the assets thereof shall be distributed in accordance with Section 4044 of ERISA. The Plan is a covered plan under the plan termination insurance provisions of ERISA, and the PBGC guarantees the payments of certain benefits thereunder. Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets, while other benefits may not be provided for at all.

Note 12 - Income Tax Status

The Internal Revenue Service ("IRS") has determined, and informed Speedway by letter dated December 17, 2020, that the Plan is qualified under Section 401(a) of the Code. Although the Plan has been amended subsequent to the amendments covered by the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan, as amended, is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions, and there are currently no audits for any tax periods in progress. The Plan was previously subject to an audit by the Internal Revenue Service for its 2018, 2019 and 2020 plan years. Said audit was concluded in 2024, and there were no adverse findings by the Internal Revenue Service relating to the Plan's tax qualification and there were no sanctions or other penalties imposed on MPC as the Plan's sponsor with respect to the audit.

Note 13 - Commitments

At both December 31, 2025 and 2024, the Plan's allocation of additional funding commitments related to various real estate and limited partnership investments in the Group Trust amounted to $0.6 million and $0.7 million, respectively.

Note 14 - Subsequent Events

Subsequent events were evaluated through October 6, 2026 which is the date the financial statements were available to be issued.
