Independent Auditor's Report

To the Board of Trustees of United Bancorp, Inc. of Martins Ferry, Ohio Employees' Pension Plan and Trust:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of United Bancorp, Inc. of Martins Ferry, Ohio Employees' Pension Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the years ended December 31, 2025 and 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of United Bancorp, Inc. of Martins Ferry, Ohio Employees' Pension Plan and Trust's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from Nottingham Trust, a Division of Community Bank, N.A. as of and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 10 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of United Bancorp, Inc. of Martins Ferry, Ohio Employees' Pension Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about United Bancorp, Inc. of Martins Ferry, Ohio Employees' Pension Plan and Trust's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of United Bancorp, Inc. of Martins Ferry, Ohio Employees' Pension Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about United Bancorp, Inc. of Martins Ferry, Ohio Employees' Pension Plan and Trust's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of Assets Held at End of Year as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following description of the United Bancorp, Inc. of Martins Ferry, Ohio Employees' Pension Plan and Trust (the Plan) provides only general information. Additional information about the vesting and benefit provisions and the Pension Benefit Guaranty Corporation's (PBGC) benefit guarantee is contained in the Plan Document and *Summary Plan Description*, which are available from the plan administrator.

General

The Plan is a noncontributory defined benefit plan that covers substantially all employees of United Bancorp, Inc. (the Company) and provides for retirement, death and disability benefits. The Plan is subject to provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). The Plan was originally established on December 1, 1948, was most recently restated on January 1, 2012, and most recently amended on January 1, 2018.

Custodian/Trustee

Nottingham Trust, a Division of Community Bank, N.A., is the Plan Trustee and executes the Plan's investment transactions. Community Bank assigns its custodial duties to Charles Schwab.

Contributions

The Company contributes amounts necessary to satisfy ERISA minimum funding requirements and may make additional discretionary contributions based on recommendations of the Plan's actuary and the financial objectives of the Company. The Company's present intention is to make contributions to fund the Plan in accordance with ERISA minimum funding standards. Additional contributions in excess of this amount may be made to cover the amount of benefits being earned during the year, if the Company is able to do so. The Plan has met minimum funding requirements.

Retirement Benefits

The Plan provides for retirement benefits in several different forms including normal retirement, early retirement, late retirement, disability and death benefits:

- Benefits under the Plan earned prior to January 1, 2014 are based on employees' five highest compensation years during their last ten years of credited service. Benefits earned on and after January 1, 2014 are based on the employees' compensation each year.
- Normal retirement age is either the fifth anniversary of the first day of the Plan year in which participation in the Plan commenced or age 65, whichever is later, but in no event later than age 70.
- Participants may elect to receive reduced benefits upon early retirement at age 55, provided that they have completed years of service with the Company such that the participant's age and years of service sum to at least 70.
- Accrued benefits are payable as an annuity over the participant's lifetime or as a qualified joint and one half-survivor annuity unless an election is made otherwise.
- In 2025 and 2024, no disability payments were made by the Plan.

1. Description of Plan (continued)

Death Benefits

The spouse of a *retired* participant will receive a 50% survivor annuity, as defined in the Plan, upon the death of the participant. The surviving spouse annuity is equal to 50% of the participant's monthly benefit. This benefit is immediately payable to the spouse if the participant was already receiving benefits. If the participant was not already receiving benefits, payments to the spouse may commence as of the earliest date the participant would have received benefits.

The spouse of a *non-retired* participant that has met the requirements for Early or Normal Retirement or has attained age 49 and the sum of their age and years of service totals at least 60, will receive the actuarial equivalent value of the participant's accrued benefit at the time of death, reduced by any Spouse's benefit payable.

Vesting

Participants are fully vested after five years of service with no vesting prior to that time.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Marketable securities are stated at fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

In accordance with ASC 965, benefits are recorded when paid.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan in accordance with the Plan document. Historically, costs related to custody, actuarial services and the audit are paid for by the Plan, while certain administrative expenses, including PBGC insurance premiums, are paid by the Company.

3. Investments

Investment Composition

As of December 31, 2025, the Plan's investments consisted of:

	Level 1	Level 2	Level 3	Investments measured at net asset value	Total
Investments in securities, at fair value					
Cash & cash equivalents	$ 586,554	$ -	$ -	$ -	$ 586,554
Mutual funds:					
Equity funds	7,717,711	-	-	-	7,717,711
Fixed income funds	3,315,682	-	-	-	3,315,682
Total securities, at fair value	$ 11,619,947	$ -	$ -	$ -	$ 11,619,947

As of December 31, 2024, the Plan's investments consisted of:

	Level 1	Level 2	Level 3	Investments measured at net asset value	Total
Investments in securities, at fair value					
Cash & cash equivalents	$ 187,853	$ -	$ -	$ -	$ 187,853
Mutual funds:					
Equity funds	6,763,174	-	-	-	6,763,174
Fixed income funds	2,783,035	-	-	-	2,783,035
Total securities, at fair value	$ 9,734,062	$ -	$ -	$ -	$ 9,734,062

4. Fair Value

The framework for measuring fair value provides a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1		Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.
Level 2		Inputs to the valuation methodology include: • Quoted prices for similar assets in active markets • Quoted prices for identical or similar assets in inactive markets • Inputs other than quoted prices that are observable for the asset • Inputs that are derived principally from or corroborated by observable market data by correlation or other means If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset.
Level 3		Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
See Note 3 for the level determination of each of the Plan's investments, on a recurring basis.		

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

4. Fair Value (continued)

METHODOLOGIES

There were no changes in the valuation methodologies used by the Plan during 2025 or 2024.

Cash equivalents: Valued at $1 per share.

Mutual funds: Valued at quoted market prices in active markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in different fair value measurements at the reporting date.

5. Accumulated Plan Benefits

An actuary from BPAS Actuarial & Pension Services determines the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payments (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The actuarial valuation was completed as of the ending of the plan year, January 1, 2025 and January 1, 2026.

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- Retired or terminated employees or their beneficiaries
- Present employees or their beneficiaries

Benefits under the Plan earned prior to January 1, 2014 are based on employees' five highest compensation years during their last ten years of credited service. Benefits earned on and after January 1, 2014 are based on the employees' compensation each year. The accumulated plan benefits for active employees are based on their average compensation during the five years of highest compensation. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

Significant assumptions underlying the actuarial computations are:

Assumption	January 1, 2026 (December 31, 2025)	January 1, 2025 (December 31, 2024)
Assumed rate of return on investments	7%	7%
Interest rate used for conversion of lump sums	4.07% within 5 years; 5.15% within 15 years; 6.01% thereafter	5.40%
Mortality Table	PRI-2012 Mortality Tables	PRI-2012 Mortality Tables
Mortality Projection Scale	MP2021	MP2021
Retirement Age	Normal; 65	Normal; 65
Asset Valuation	Market	Market

5. Accumulated Plan Benefits (continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

As of January 1, 2026, plan assets exceeded accumulated plan benefits and the Plan remained adequately funded based on the actuarial valuation.

6. Parties-in- Interest

Parties-in-interest is defined by both the IRS and ERISA to include, among others, any entity that provides services to the Plan. Certain transactions with service providers constitute parties-in-interest transactions as defined by ERISA.

Additionally, the following specific parties-in-interest relationships have been identified:

1) The Company provides certain administrative services at no cost to the Plan.

2) Certain Plan assets are held through accounts maintained by Charles Schwab, which serves as custodian for the Plan's investments through Nottingham Trust.

7. Risk and Uncertainties

Investments of the Plan are not insured by the FDIC; are not deposits or other obligations of, or guaranteed by any bank or affiliates; and are subject to investment risks, including possible loss of the principal amount invested.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

8. Plan Tax Status

The Plan utilizes a prototype non-standardized defined benefit plan that was developed by Harbridge Consulting Group, LLC. This prototype plan document has been filed with the appropriate agency. The Plan has not obtained or requested a determination letter. The IRS has since changed its determination process to only issue determination letters for new or terminated plans. Therefore, the Plan will not apply for a determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

9. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan.

b. Other vested benefits insured by the PBGC up to the applicable limitations discussed below.

c. Vested benefits not insured by the PBGC.

d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at the time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

10. Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The following is a summary of the investment information regarding the Plan as of December 31, 2025 and 2024, and for the years then ended, included in the Plan's financial statements and supplemental schedule that was prepared or derived from information prepared by Nottingham Trust, a Division of Community Bank, N.A., the custodian of the Plan, and furnished to the plan administrator. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate.

The Plan's independent certified public accountants *did not* perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental information.

	December 31, 2025	December 31, 2024
Investments	$ 11,619,947	$ 9,734,062
Investment income receivable	$ 1,582	$ 343
Investment income		
Net realized and unrealized gains	$ 1,358,485	$ 832,406
Interest and dividend income	$ 201,077	$ 162,622

11. Classification Differences

Form 5500 has certain assets and liabilities that differ from amounts shown on the accompanying financial statements. These differences relate to classifications only and have no effect upon net assets available for benefits for either the year ended December 31, 2025 or 2024.

12. Subsequent Events

Management has evaluated subsequent events through the date that the financial statements were issued, October 1, 2026, and determined that no events occurred that require disclosure. No subsequent events occurring after this date have been evaluated for inclusion in the financial statements.

Actuarial Assumptions and Methods

The valuation of a defined benefit pension plan involves estimates and assumptions about the probability of events occurring far into the future. Examples include assumptions about future employment, mortality, and retirement. Below is a description of the actuarial assumptions and methods used in the valuation.

Funding Target Liability

Valuation Date: January 1, 2025

Demographic Information: The demographic information was provided as of January 1, 2025 by United Bancorp, Inc. Although we did not audit the data, we did review the data for reasonableness.

Actuarial Cost Method: As required by PPA, the Traditional Unit Credit Cost Method was used. In addition, as required under PPA, annuity substitution was utilized in the valuation of the Funding Target Liability applicable to the benefits that were assumed to be paid in the form of a lump sum, as determined under 417(e). Specifically, the mortality table used for these benefits, for the post benefit commencement period, was the applicable mortality table for the determination of present values under IRC Section 417(e)(3)(B) for 2025.

Asset Valuation Method: The actuarial value of assets is determined by averaging the fair market value of assets as of the valuation date and the adjusted fair market values as of the preceding two valuation dates. This methodology is consistent with that provided in IRS Notice 2009-22.

Anticipated Rate of Return on Plan Assets: 7.00%, based on a review of the Plan's asset allocation, investment policy (as shown in the annual funding notice), and expected returns using recent capital market assumptions published by leading financial organizations.

Actuarial Valuation Software: For purposes of developing the projected future benefit payments as well as determining attributed liabilities and normal costs as of the valuation date, we utilized the ProVal software platform developed by Winklevoss Technologies. We believe this externally developed valuation system is appropriate, was used for its intended purpose, and did not produce unreasonable results.

Interest Rates for Minimum Required Contribution: The September 2024 funding segment rates were utilized as prescribed by IRC Section 430(h) and elected by United Bancorp, Inc. Below, please find the segment rates after reflection of the segment rate stabilization provisions of IRC Section 430(h)(2)(C)(iv).

Segment	Interest Rate
Segment 1	5.07%
Segment 2	5.31%
Segment 3	5.50%

Effective Interest Rate
5.41%

Segment 1 is applied to benefit payments expected to be made in the first 5 years, segment 2 is applied to benefit payments expected to be made in the next 15 years and segment 3 is applied thereafter.

Interest Rates used to determine Maximum Recommended Contribution: Below, please find the segment rates without reflection of the segment rate stabilization provisions of IRC Section 430(h)(2)(C)(iv). These rates were also used for determining the low-default risk obligation measurement ("LDROM") of the accrued benefits as of the Valuation Date but there are other rates that could have been utilized for an LDROM measurement that may produce a significantly different liability for this purpose.

Segment	Interest Rate
Segment 1	5.07%
Segment 2	5.33%
Segment 3	5.36%

Effective Interest Rate
5.34%

Segment 1 is applied to benefit payments expected to be made in the first 5 years, segment 2 is applied to benefit payments expected to be made in the next 15 years and segment 3 is applied thereafter.

Rate of Compensation Increase: Salaries are assumed to increase at 3.50% per year, based the Plan Sponsor's expectation of future salary increases and current market conditions.

Mortality for Healthy Lives:

Base mortality table: The blended sex distinct Amount-Weighted Pri-2012 mortality tables for employees and healthy annuitants.

Mortality improvements: The base mortality table is adjusted by projecting mortality improvements using the IRS 2025 Adjusted Scale MP-2021 from the year 2012 through 2025, with an additional projection period of 8 years for males and 9 years for females. For ages below 80, the additional projection period is

increased by 1 year for each year below age 80. For ages above 80, the additional projection period is reduced (but not below zero) by 1/3 year for each year above 80.

Retirement Incidence: Employees were assumed to retire at normal retirement age or current age, if later. After a review of the Plan experience from January 1, 2010 through December 31, 2014 and a review of the effect of alternate retirement rates, no change in the assumed rates of retirement was deemed necessary.

Disability: Rates of disability were not assumed in the valuation because the Plan does not have additional disability benefits.

Assumptions used to Convert Annuities to Actuarially Equivalent Lump Sum Amounts: In accordance with IRS Regulation 1.430(d)-1(f)(5)(ii)(B), annuities are converted to lump sums using the current applicable mortality table under IRC Section 417(e)(3) that would apply to a distribution with an annuity starting date occurring on the valuation date and the underlying valuation interest rates under IRC Section 430(h)(2).

Administrative Expenses: Actual plan expenses, not including investment advisory fees, paid out of the trust during the previous plan year rounded to the nearest thousand.

Turnover: Rates of turnover are based on a select table for the first five (5) years of employment and 80% of the 2003 SOA Pension Plan Turnover Study Basic Age Table thereafter. Rates of turnover were determined based on the July 2015 experience study using valuation data from January 1, 2010 through January 1, 2015. Future experience is not expected to deviate significantly from these results. Illustrative rates are shown below:

Select Period	
Service	Percentage
1	25.00%
2	25.00%
3	25.00%
4	20.00%
5	15.00%

Ultimate Period	
Age	Percentage
25	15.60%
30	12.40%
35	9.68%
40	7.52%
45	5.84%
50	4.48%
55	3.36%
60	2.40%

Spouse Assumptions: 100% of participants not currently collecting benefits are assumed to be married, with male spouses assumed to be three years older and female spouses assumed to be three years younger than the participant.

Form of Benefit: The assumed form of benefit was based on the Plan provisions. Active participants are assumed to receive a lump sum. Terminated vested participants are assumed to receive a monthly annuity.

All assumptions used in determining the low-default risk obligation measurement were consistent with those used in determining the Funding Target Liability, except the interest rates which were disclosed above.

Actuarial Present Value of Accumulated Plan Benefits (ASC 960)

Interest Rate: 7.00%, based on a review of the Plan's asset allocation, investment policy (as shown in the annual funding notice), and expected returns using recent capital market assumptions published by leading financial organizations.

Mortality: The sex-distinct Amount-Weighted Pri-2012 Mortality Tables for employees, healthy annuitants, and contingent survivors with mortality improvements projected using Scale MP-2021 on a generational basis. No collar adjustment was reflected in these rates. This assumption was based on a review of published mortality tables and the demographics and industry of the Plan.

Interest Rate (to Convert Annuities to Actuarially Equivalent Lump Sum Amounts): 5.40%, per annum, based on a review of the IRC Section 417(e) segment rates as of November 2024 and the Plan's demographics.

Unless specifically mentioned, all remaining assumptions for the Actuarial Present Value of Accumulated Plan Benefits remain the same as described for the Funding Target Liability above.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

United Bancorp, Inc. of Martins Ferry, Ohio Employees' Pension Plan
Schedule SB, Line 22 - Description of Weighted Average Retirement Age
EIN/PN: 34-1405357/001

All participants were assumed to retire at age 65.

Plan Provisions

This summary is intended as an outline of plan provisions and does not alter the intent or meaning of the provisions contained in the plan document.

Plan Sponsor: **United Bancorp, Inc.**
EIN/PN: **34-1405357/001**

Effective Date

Restated effective January 1, 2024.

Effective Date of Latest Amendment

The Plan was last amended effective January 1, 2018. As of that date, death benefits equal to the present value of a participant's accrued benefit are provided if a participant has attained age 49 and the sum of their age and years of service totals at least 60.

Plan Year

12-month period ending December 31

Participation Requirements

An employee shall become a participant on the entry date following completion of 1,000 hours of service during an anniversary year, measured from his date of hire, provided he has attained age 21.

Entry Date

The effective date or each January 1 and July 1 following the effective date.

Normal Retirement Date

The later of a participant's 65th birthday or the 5th anniversary of plan participation, but not later than the participant's 70th birthday.

Credited Service

One year of credited service for each plan year during which the employee completes 1,000 hours of service. No credit accrues for a plan year in which an employee works less than 1,000 hours. For employees of the Citizens State Bank of Strasburg, no credit is given for vesting and benefit accrual for service before January 1, 1987. For former Glouster Community Bank employees, no credit is given for vesting and benefit accrual for service before July 7, 1998.

Annual Plan Compensation

Gross W-2 annual earnings during calendar years. Gross earnings means total regular compensation including bonuses, overtime payments, commissions, and extra compensation paid during a calendar year.

Social Security Covered Compensation

For each participant, the average of the Social Security Taxable Wage Base in effect for each calendar year (the amount of earnings subject to Social Security taxes each year) during the 35-year period ending with the year during which such participant will reach Social Security Retirement Age. Social Security Covered Compensation is expressed on a monthly basis.

Final Average Earnings

The average monthly compensation for the five consecutive plan years that is highest with the Company earned through December 31, 2013, the date of the Plan formula change.

Eligibility for Early Retirement

Age 55 and the sum of age and years of service totaling at least 70.

Early Retirement Benefit

Accrued benefit payable at normal retirement date, reduced for immediate commencement by 1/180 for each of the first 60 months prior to normal retirement date and 1/360 for each of the next 60 months that commencement of payments precedes the first of month following normal retirement date.

Normal Form of Benefit

Monthly income commencing on a participant's retirement date and payable for life.

Automatic Form of Benefit

For married participants - Actuarially equivalent reduced joint and 50% survivor annuity if married at commencement of benefits, unless another election is made.

For unmarried participants - life annuity

Accrued Benefit

The sum of the benefits earned under the Final Average Earnings plan design and frozen as of January 1, 2014, plus the benefits earned under the Career Average plan design. The benefits earned under the Final Average Earnings plan design are equal to the accrued monthly retirement income at January 1, 2014, based on monthly plan compensation at that date and credited service projected at January 1, 2014 to normal retirement date (with a maximum of 35 years), multiplied by a fraction, the numerator of which is the participant's credited service at January 1, 2014 and the denominator is credited service projected at January 1, 2014 to normal retirement date.

For each year of Credited Service earned on or after January 1, 2014, the accrued benefit for that Plan Year will be equal to 1.1% of annual plan compensation, plus 0.65% of annual plan compensation in excess of Covered Compensation, not to exceed 35 years of excess benefit accruals (including excess accruals earned under the Final Average Earnings plan design). Participants having Credited Service in excess of 35 years will receive 1.1% of their annual plan compensation for each year of Credited Service thereafter.

In no event will the monthly retirement Income be less than the December 31, 1998 accrued benefit.

Vesting

According to the following schedule:

Years of Vesting Service	Vesting Percentage
Less than 5	0%
5 or more	100%

Deferred Retirement Benefit

Accrued benefit at the date participant terminated, payable the first of the month following normal retirement date.

Disability Benefit

Accrued benefit at the date participant became disabled, payable the first of the month following normal retirement date.

Pre-Retirement Death Benefit

In the event of the death of a participant after satisfying the requirements for an early retirement or normal retirement, but prior to attainment of his actual retirement date, a death benefit is payable to the participant's beneficiary, equal to the actuarial equivalent value of the accrued benefit at the participant's date of death, reduced by any spousal benefits payable as shown below. Effective January 1, 2018, this death benefit is provided if a participant has attained age 49 and the sum of their age and years of service totals at least 60.

A participant's lawful spouse is entitled to a monthly benefit payable for life equal to 50% of the benefit payable for life that the deceased Participant would have received if he had retired early on his date of death and had elected to receive his benefits in the form of an immediate joint and 50% surviving spouse annuity, with the pension payments starting on the later of the date that the Participant would have first become eligible for early or normal retirement, or the first day of the month following his death.
