INDEPENDENT AUDITORS' REPORT

To the Board of Trustees and Participants of the
ProMinent Fluid Controls, Inc. 401(k) Profit Sharing Plan
Pittsburgh, Pennsylvania

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of ProMinent Fluid Controls, Inc. 401(k) Profit Sharing Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section –

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule (Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion –

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 – Description of Plan

The following description of the ProMinent Fluid Controls, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering substantially all full-time employees of ProMinent Fluid Controls, Inc. (the "Company") who have met the plan participation requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions – Each year, participants may contribute up to the maximum amount allowed by law of their pre-tax annual compensation, as defined in the Plan, or as a post-tax Roth deferral. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain limitations. The aggregate contributions to each participant account may not exceed $70,000 ($77,500 including catch-up contributions) and $69,000 ($76,500 including catch-up contributions) during the years ended December 31, 2025 and 2024, respectively. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and a deferred annuity contract as investment options for participants.

Participant 401(k) Deferral

Eligibility and Participation – Employees are deemed eligible for participation in the Plan immediately upon hire. Entry into the Plan is the date eligibility requirements are met.

Effective January 1, 2023, the Plan features an automatic contribution arrangement in which an eligible participant will automatically defer 6% of included compensation for each payroll period, unless the eligible participant makes a contrary salary reduction agreement election on or after a 30-day notification.

Participant Contributions – Participants may elect to contribute up to 100%, in whole percentage increments, of their compensation, as defined, as a pre-tax or post-tax Roth contribution up to the limits established by the Internal Revenue Service ("IRS") of $23,500 and $23,000 during the years ended December 31, 2025 and 2024, respectively. Participants may direct their contributions or reallocate their account balance quarterly into one of the investment options offered. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

Discretionary Employer Contribution

Eligibility and Participation – Employees are deemed eligible for participation in the Plan immediately upon hire. Entry into the Plan is the date eligibility requirements are met.

Note 1 – Description of Plan – Continued

Company Contributions – Company contributions to the Plan are discretionary and are determined by the Investment Committee. Discretionary contributions are based on the eligible employee's annual compensation earned while a participant in the Plan and may be in the form of a percentage match of the participant deferral or as a profit sharing-component based on Company earnings, or as a combination of both. The Company elected to match participant deferrals at a rate of $0.50 for every $1.00 of the participants' deferral for 2025 and 2024, up to 6% of the participant's compensation. ERISA guidelines limit maximum compensation to $350,000 and $345,000 during the years ended December 31, 2025 and 2024, respectively.

Profit Sharing Contribution

Eligibility and Participation – Employees are deemed eligible to share in the profit sharing contribution if they have completed at least 1,000 hours of service during the Plan year and are employed on the last day of the Plan year and, or, regardless of service time in the year of the employee's death, disability, or retirement.

Company Contributions – Each year, the Company may make a discretionary profit sharing contribution to the Plan. The profit sharing contribution will be allocated to the participant's account in the same proportion that the participant's compensation plus compensation in excess of $30,000 (called "excess compensation") bears to the total compensation plus "excess compensation" of all eligible participants. However, the maximum amount which can be allocated to a participant in this first step is 4.3% of their compensation plus their "excess compensation". If the "excess compensation" dollar amount in the immediately preceding step is less than 20% or more than 80% of the Social Security Taxable Wage Base, the maximum percentage in the immediately preceding step will be adjusted to 5.7% or 5.4%, respectively. If after the first step of the allocation process there still remains a portion of the contribution which has not yet been allocated, then the remainder will be allocated to the participant in the same proportion that the participant's compensation bears to the total compensation of all participants. The Company did not declare a profit sharing contribution during the years ended December 31, 2025 and 2024.

Forfeitures – Forfeitures of non-vested accounts can be used to pay administrative expenses or can be applied to reduce the Company contribution. Forfeitures from all participants that terminated employment before they became fully vested, in respect to their mandatory account balance, amounted to $31,017 and $35,800 during the years ended December 31, 2025 and 2024, respectively. The Company applied accumulated forfeitures of $37,284 and $30,041 against their employer contribution into the Plan during the years ended December 31, 2025 and 2024, respectively.

Participant Accounts – Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's discretionary contribution and (b) earnings of participants' self-directed investments and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 – Description of Plan – Continued

Vesting – Participants are vested immediately in their voluntary contributions, plus actual earnings thereon. Vesting in the Company's discretionary contribution, plus actual earnings thereon, is based on years of service under a graduated vesting schedule listed below, whereby a participant is 100% vested after six years of credited service.

Year	Vested Percent
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants – Participants may borrow from their combined vested 401(k) and discretionary funds accounts a minimum of $1,000, up to a maximum equal to the lesser of 1) $50,000 or 2) 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at prime (6.75% and 7.50% as of December 31, 2025 and 2024), respectively plus 1.0%. Principal and interest are both paid ratably through payroll deductions.

Payment of Benefits – Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments for a specific period of time. For termination of service for other reasons, a participant may receive the value of their vested interest in his or her account as a lump-sum distribution of their entire vested account balance, a single-sum distribution of a portion of their vested account balance, or installments for a specific period of time. Participants with vested account balances of $7,000 or less will receive a lump-sum distribution. Those participants with vested account balances in excess of $7,000 may elect a single-sum distribution for a portion of the vested account balance, a lump-sum distribution of the entire vested portion, or installments for a specified period.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan have been prepared using the accrual method of accounting. Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment Valuation and Income Recognition – Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments in mutual funds are recorded at fair value based on the funds' reported closing net asset values as of the last business day of the year, times the number of shares held by the Plan. See Note 4 for further discussion of fair value measurements.

Note 2 – Summary of Significant Accounting Policies – Continued

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants – Participant loans are reported as a separate line item titled "Notes Receivable from Participants" on the Statement of Net Assets Available for Benefits, and are measured at unpaid principal, plus accrued interest. The Plan is required to report interest income from notes receivable from participants separately from investment income on the Statement of Changes in Net Assets Available for Benefits. However, the Department of Labor still requires Notes Receivable from Participants to be reported as Participant Loans on Schedule H, Line 4i of Form 5500. As such, this presentation is used in the Supplemental Schedule included with the financial statements.

Benefits Paid to Participants – Benefits are recorded when paid.

Administrative Expenses – Certain administrative expenses of the Plan totaling $49,877 and $43,762 during the years ended December 31, 2025 and 2024, respectively, were paid by the Company and are not reflected in the accompanying financial statements, and are not considered an employer contribution.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Note 3 – Information Prepared and Certified by Custodian

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule(s), including investments and notes receivable from participants held at December 31, 2025 and 2024, and the net appreciation (depreciation) in the contract value of investments, and interest for the year ended December 31, 2025 and 2024, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by American United Life Insurance Company, a OneAmerica Financial Partner (custodian of the Plan's assets).

Note 4 – Fair Value Measurements

The Plan reports investments at fair value. Market price observability is impacted by a number of factors, including the type of investment, the characteristics specific to the investment, and the state of the marketplace (including the existence and transparency of transactions between market participants). Investments with readily-available, actively-quoted prices, or for which fair value can be measured from actively quoted prices in an orderly market, will generally have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value.

Note 4 – Fair Value Measurements – Continued

Investments measured and reported at fair value are classified and disclosed in one of the following categories based on inputs:

Level 1 – Quoted prices are available in active markets for identical investments as of the reporting date. The type of investments which would generally be included in Level 1 include listed equity securities and listed derivatives. The Plan, to the extent that it holds such investments, does not adjust the quoted price for these investments, even in situations where the Plan holds a large position and a sale could reasonably impact the quoted price.

Level 2 – Pricing inputs are observable for the investments, either directly or indirectly, as of the reporting date, but are not the same as those used in Level 1. Fair value is determined through the use of models or other valuation methodologies. The types of investments which would generally be included in this category include publicly-traded securities with restrictions on disposition, debt securities and partnerships that hold Level I assets and real estate held for investment if measured by a current appraisal.

Level 3 – Pricing inputs are unobservable for the investment and include situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant judgment or estimation by the Plan. The types of investments which would generally be included in this category include debt and equity securities issued by private entities, and real estate held for investment if measured using management estimates.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the determination of which category within the fair value hierarchy is appropriate for any given investment is based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment.

The Plan's investments are in variable investment accounts, or "pooled separate accounts", which are considered Level 2 investments. Amounts allocated to a variable investment account within an American United Life Insurance Company ("AUL") separate account are credited to a participant's account in the form of accumulation units. The value of an accumulation unit of any investment account is determined at the close of each business day and is directly related to the net asset value of the shares of the underlying investment adjusted for any dividends or distributions received by AUL and the daily equivalent of any fee charged by AUL pursuant to the contract. Each investment account is invested by AUL exclusively in shares of a specific mutual fund or other investment entity as directed by the contract holder and/or participant.

The Plan has a deferred annuity contract with AUL that invests contributions in the Stable Value Account. The fund is an interest-earning investment option, backed by AUL's general account assets. An interest rate is declared prior to the beginning of the calendar year and is guaranteed for that year until the new rate is set for the next year. The interest rate was declared to be 2.00% during the years ended December 31, 2025 and 2024.

Note 4 – Fair Value Measurements – Continued

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the deferred annuity contract since the contract was determined to be fully benefit-responsive. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following:

(a) amendments to the Plan document (including complete or partial Plan termination or merger with another plan),
(b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions,
(c) bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan, or
(d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	As of December 31,	
	2025	2024
Level 2 Assets:		
Pooled separate accounts	$ 25,207,594	$ 20,155,108
Total Level 2 Assets	25,207,594	20,155,108
Investments measured at contract value:		
Deferred fixed annuities*	480,908	782,600
Investments	$ 25,688,502	$ 20,937,708

*The deferred fixed annuity is a fully benefit-responsive investment contract and is reported at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Because contract value is the relevant measurement attribute for this investment, it is not included within the fair value hierarchy.

Note 5 – Party-In-Interest Transactions

Certain Plan investments are shares of pooled separate accounts managed by American United Life Insurance Company as the prototype sponsor of the Plan. These transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services were netted against net appreciation or depreciation in fair value of investments during the years ended December 31, 2025 and 2024.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note 7 – Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated June 30, 2020, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in process.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 – Subsequent Events

Management has evaluated subsequent events through October 7, 2026, the date the financial statements were available to be issued, and determined that no material subsequent events have occurred that would require recognition in the financial statements.
