Independent Auditor's Report

Board of Directors
Bonitz, Inc. Employee Stock Ownership Plan
Concord, North Carolina

Opinion

We have audited the accompanying financial statements of Bonitz, Inc. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Company Stock

As discussed in Note 5, the financial statements include Bonitz, Inc. common stock valued at $77,680,088 (100 percent of net assets available for benefits) as of December 31, 2025, whose fair value has been determined by an independent appraiser in the absence of observable fair value inputs. The use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date had a readily determinable market value existed. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

"Elliott Davis" is the brand name under which Elliott Davis, LLC (doing business in North Carolina and D.C. as Elliott Davis, PLLC) and Elliott Davis Advisory, LLC and its subsidiary entities provide professional services. Elliott Davis, LLC and Elliott Davis Advisory, LLC and its subsidiary entities practice as an alternative practice structure in accordance with the AICPA Code of Professional Conduct and applicable law, regulations and professional standards. Elliott Davis, LLC is a licensed independent CPA firm that provides attest services to its customers. Elliott Davis Advisory, LLC and its subsidiary entities provide tax and business consulting services to their customers. Elliott Davis Advisory, LLC and its subsidiary entities are not licensed CPA firms. The entities falling under the Elliott Davis brand are each individual firms that are separate legal and independently owned entities and are not responsible or liable for the services and/or products provided by any other entity providing services and/or products under the Elliott Davis brand. Our use of the terms "our firm" and "we" and "us" and terms of similar import, denote the alternative practice structure conducted by Elliott Davis, LLC and Elliott Davis Advisory, LLC.

Responsibilities of Management for the Financial Statements, Continued

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Description of the Plan

The following description of the Bonitz, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution employee stock ownership plan (ESOP) covering substantially all employees of Bonitz, Inc. and participating subsidiaries (the "Company") who have completed one year of credited service consisting of 1,000 hours and are employed on the last day of the Plan Year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The trustee of the Plan is Argent Trust Company (the "trustee").

Contributions:

Each year, the Company may contribute shares or cash to the Plan as determined by the Board of Directors. Company contributions are allocated among participants' accounts based on participants' eligible compensation, in relation to total compensation. For the year ended December 31, 2025, the Company made $3,864,000 in contributions to the Plan. Employee contributions are not permitted.

Participant accounts:

Participants who are actively employed on the last day of the Plan year and have worked 1,000 hours during the Plan year are eligible to share in the allocations of any contributions made for that Plan year, as well as forfeitures of terminated participants' nonvested accounts. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance, relative to total plan assets. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. A participant is 100 percent vested after 6 years of credited service, in accordance with the gradual vesting schedule.

Voting rights:

The trustee of the Plan usually decides how shares of Company common stock held by the Plan will be voted. However, with respect to certain corporate matters presented to the Company's shareholders for a vote, such as a merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all the assets of the business or similar transaction, each participant will be entitled to give directions as to the voting of the shares of Company common stock allocated to his or her account. If the participant does not provide the trustee with voting instructions, the shares will be voted in the manner determined by the trustee.

Note 1. Description of the Plan, Continued

Put option:

The Company common stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitation includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market within the two put option periods. The put price is representative of the fair market value of the stock as determined by an independent valuation specialist. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash. The first put option period is at least 60 days beginning on the date of distribution. The second put option period is for at least 60 days beginning after the new determination of fair market value (and notice to all participants thereof). No put options were received during 2025.

Payment of benefits:

No distributions from the Plan will be made until a participant retires, becomes permanently disabled, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company. Distributions are made in cash or, if a participant elects, in the form of Company common stock plus cash for any fractional share. On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or other installment options as provided by the Plan. All fully vested balances are available for distribution after the participant reaches the age of 60 for participants who entered the Plan prior to January 1, 2024. For participants entering the Plan after January 1, 2024, fully vested balances are available for distribution after reaching age 65.

Forfeited accounts:

Forfeited nonvested amounts are treated as additional Company contributions and are reallocated among active participants' accounts. Allocations are based upon the relation of the participant's total eligible compensation to total eligible compensation for the Plan. Forfeitures totaling $246,130 and 10.02 shares of Company common stock were reallocated during the year ended December 31, 2025.

Diversification:

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of his or her account less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify may receive their distribution in the form of cash, Company common stock or direct transfer of shares to another qualified plan, as defined by the plan document.

Note 2. Summary of Significant Accounting Policies

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Note 2. Summary of Significant Accounting Policies, Continued

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition:

The Company's common stock is valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Directors determines the Plan's valuation policies utilizing information provided by the independent appraisal. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan relies significantly on the use of estimates in determining the valuation of the Company's common stock. The financial statements include the Company's common stock valued at $45,437 per share as of December 31, 2025 and $39,860 per share as of December 31, 2024. The stock's value has been estimated by management in the absence of a readily ascertainable market value. This estimate was based on a valuation completed by an independent appraiser. Because of the inherent subjectivity in any valuation, the estimated value may differ significantly from the value that would have been used had a ready market for the securities existed, and the difference could be material.

Expenses:

The expenses incurred to maintain the Plan are paid by the Company and are excluded from these financial statements.

Payment of benefits:

Benefits are recorded when paid.

Subsequent events:

The Plan has evaluated subsequent events through October 13, 2026, the date the financial statements were available to be issued.

Recently issued accounting pronouncements:

Accounting standards that have been issued or proposed by the Financial Accounting Standards Board (FASB) or other standards-setting bodies are not expected to have a material impact on the Plan's financial statements.

Note 3. Administration of Plan Assets

The Plan's assets, which consist entirely of the Company's common stock, are held by the trustee of the Plan. Company contributions are held and managed by the trustee, who makes distributions to participants. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustee's fees are paid directly by the Company.

Note 4. Investments

The Plan's investments in Company common stock as of December 31 are presented in the following table:

	2025	2024
Number of shares	1,709.6147	1,796.0465
Cost	$ 46,128,738	$ 46,735,397
Fair value	$ 77,680,088	$ 71,589,964
Fair value per share	$ 45,437.19	$ 39,859.75

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 5. Fair Value Measurements, Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2025 and 2024.

Company common stock: Value is determined by an independent valuation specialist using unobservable inputs. Factors considered in determining the fair market value included historical and projected cash flow and net income, return on assets, return on equity, and market comparables.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets:

	December 31, 2025			
	Level 1	**Level 2**	**Level 3**	**Total**
Company common stock	$ -	$ -	$ 77,680,088	$ 77,680,088

	December 31, 2024			
	Level 1	**Level 2**	**Level 3**	**Total**
Company common stock	$ -	$ -	$ 71,589,964	$ 71,589,964

Changes in Fair Value of Level 3 Assets:

The Plan acquired 85.0405 shares valued at $3,864,000 of Level 3 investments during the year ended December 31, 2025. Additionally, 171.4723 shares valued at $6,834,843 of Level 3 investments were sold during the year ended December 31, 2025.

Note 6. Related-Party and Party in Interest Transactions

The Plan invests in Company common stock. As described in Note 3, the Company pays the expenses of the Plan. Also described in Note 3, the Plan assets are held by the trustee. The trustee is a party in interest under ERISA. These are related-party and party in interest transactions.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, the Employee Benefits Administration Committee directs the Trustee to pay all liabilities and expenses of the ESOP. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Internal Revenue Code (IRC). In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

Note 8. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated August 18, 2017, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Risks and Uncertainties

The Plan invests in the Company's common stock. The common stock is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with the investment in the common stock, and to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in the values of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the 2025 statement of net assets available for benefits.
