INDEPENDENT AUDITOR'S REPORT

To the Trustees
NESN Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of **NESN Retirement Plan**, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits (in liquidation) as of December 31, 2025 and 2024, the related statements of changes in net assets available for benefits (in liquidation) for the years then ended, the statements of accumulated Plan benefits as of January 1, 2025 and 2024, and the related statements of changes in accumulated Plan benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of **NESN Retirement Plan**'s financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of **NESN Retirement Plan** and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Plan Termination and Liquidation Basis of Accounting

As described in Note 1 to the financial statements, the Board of Directors of **NESN Retirement Plan** approved a Plan of liquidation in August 2024, and management determined liquidation was imminent. As a result, the financial statements are presented on the liquidation basis of accounting. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about **NESN Retirement Plan**'s ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of **NESN Retirement Plan**'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about **NESN Retirement Plan**'s ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) and reportable transactions as of December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1: DESCRIPTION OF PLAN

The following description of the NESN Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Agreement for more complete information.

General: The Plan is a defined-benefit pension plan established January 1, 1988, which covers substantially all employees of the New England Sports Network Limited Partnership (the "Company") who meet minimum age and length of service requirements. On December 31, 2015, the Plan was frozen and suspended for the purposes of accruing new or additional benefits for participants. Plan assets acquired under this Plan as a result of employer contributions, investment income, and other additions to the Plan will be administered for the exclusive benefit of the participants and their beneficiaries. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

In August 2024, the Board of Directors voted to terminate the Plan effective November 30, 2024. As part of this agreement, the Plan's investments were divested from equity and fixed income securities into money market funds and treasuries to help ensure stable results upon final distribution. In August 2025, all assets were distributed to participants in the form of lump sum payments and annuity purchases. During the year ended December 31, 2025, $395,526 was transferred out of the Plan into the New England Sports Network 401(k) Employees Retirement Plan, another plan sponsored by the Company, and is included in the transfer out amount on the statements of changes in net assets available for benefits (in liquidation).

No actuarial valuation report was performed for the year ended December 31, 2025, as the Plan was terminated and all benefit obligations were settled during the year. The amounts reported are based on actual settlement amounts and do not rely on actuarial assumptions.

Pension Benefits: A participant is eligible for normal retirement benefits at the later of age 65 or the fifth anniversary of an employee's effective date of participation. A participant may retire early at age 60 and receive benefits if he or she has completed at least five years of service. Employees may elect to receive the value of their earned benefit as a life annuity, joint and survivor annuity, or in a lump sum distribution. Participants will be forced out if their account balance is under $5,000. The Plan Agreement contains a more complete description of these provisions and should be referred to by participants.

Participant Accounts: Under Plan provisions, amounts are credited by the Company to the participants' hypothetical accounts. The accounts are allocated compensation credits and investment credits at the end of year. The compensation credits are allocated based on a percentage of the participant's certified compensation as defined in the Plan document for that particular year. The applicable percentage is 2% of an employee's compensation and is based on the participant's age plus years of credited services (as defined in the Plan document).

Participants' hypothetical accounts also receive investment credits at the end of every year. The amount of the investment credit is tied to the average yield on the investments in the Plan during the year.

NOTE 1: DESCRIPTION OF PLAN (CONTINUED)

Vesting: Vesting is based on years of service. Participants are vested 0% before five years and 100% at five years. Effective November 30, 2024, participants became 100% vested in their account balances.

Funding Policy: The Company's funding policy is to contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to Plan members. The Company's present intention is to make annual contributions in amounts sufficient to fund the Plan's service costs on a current basis. The Company contributed $0 and $732,355 for the years ended December 31, 2025, and 2024, respectively. The Plan has met the minimum funding requirements of ERISA.

Death Benefits: If a participant is married at the time of their death, then the participant's spouse will be entitled to receive a death benefit that is subject to certain limitations imposed by law. Death benefits will generally be equal the actuarial equivalent of the "minimum spouse's death benefit". The "minimum spouse's death benefit" is equal to the amount that would have been paid to the participant's spouse if they had begun receiving distributions under a joint and 50% survivor annuity. Payments will be made immediately to a beneficiary following the death of a participant.

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The Plan's financial statements are prepared on the liquidation basis in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The liquidation basis requires all assets to be reported at fair market value. The financial statements and supplementary schedules have been prepared to satisfy the reporting and disclosure requirements of ERISA.

Use of Estimates: The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of Plan assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefit payments paid to participants are recorded upon distribution.

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Expenses of the Plan: All expenses incurred in the administration of the Plan are charged to and paid by the Plan unless paid by the Company. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as a deduction in the accompanying statements of changes in net assets available for benefits (in liquidation). In addition, certain investment related expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying statements of changes in net assets available for benefits (in liquidation).

Uncertain Tax Positions: GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2022.

Actuarial Present Value of Accumulated Plan Benefits: The actuarial present value of accumulated Plan benefits is determined by an actuary from The Newport Group and the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of January 1 2025 and 2024 are as follows:

Effective interest rates	4.21% - 5.59%
Mortality basis	Pri-2012 Total Dataset Mortality Table projected with Scale MP-2021
Disability rate	None
Salary scale	0.0% per annum
Retirement age	Age 65
Non-investment expenses	$500

The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2025 and 2024. Had the valuations been performed as of December 31, there would be no material differences.

Since the Plan was terminated on November 30, 2024, these actuarial assumptions were based on the presumption that the Plan would continue. Different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits after termination (see Note 3).

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' average compensation during the five consecutive years of credited service, which produces the highest average. The accumulated Plan benefits for active employees are based on their average compensation during the five years, ending on the date the benefit information is presented (the valuation date). Benefits payable under all circumstances are included to the extent they are deemed attributable to employee service rendered to the valuation date.

NOTE 3: PLAN TERMINATION

The Board of Directors voted to terminate the Plan and approved a plan of liquidation. The net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, to provide the following benefits in the order indicated:

a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

b. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations.

c. All other vested benefits (that is, vested benefits not insured by the PBGC).

d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain survivor pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, a statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 4: FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, "*Fair Value Measurements and Disclosures*", provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Money market funds: Valued at the daily closing price as reported by the fund. Money market funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

NOTE 4: FAIR VALUE MEASUREMENTS (CONTINUED)

U.S. government securities: Certain government securities are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2025			
	Level 1	Level 2	Level 3	Total
Common stock	**$ 3,035**	**$ -**	**$ -**	**$ 3,035**
Total investments, at fair value	**$ 3,035**	**$ -**	**$ -**	**$ 3,035**

	2024			
	Level 1	Level 2	Level 3	Total
U.S. government securities	$ -	$ 8,414,377	$ -	$ 8,414,377
Common stock	11,455	-	-	11,455
Money market funds	9,107,692	-	-	9,107,692
Total investments, at fair value	$ 9,119,147	$ 8,414,377	$ -	$ 17,533,524

NOTE 5: TAX STATUS

The Plan obtained its latest determination letter on March 30, 2018, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

NOTE 6: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits (in liquidation).

Plan contributions are made, and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 7: CERTIFICATION OF QUALIFIED INSTITUTION

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, First State Trust Company, the Trustee, certified that the following data included in the accompanying financial statements and supplemental schedules of assets (held at end of year) and reportable transactions are complete and accurate.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules of assets (held at end of year) and reportable transactions.

		2025		2024
Investments:				
Common stock	**$**	**3,035**	$	11,455
U.S. government securities	**$**	**-**	$	8,414,377
Money market funds	**$**	**-**	$	9,107,692
Net appreciation in fair value of investments	**$**	**80,369**	$	1,095,412
Interest and dividend income	**$**	**284,687**	$	516,223

NOTE 8: RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

First State Trust Company is the Trustee as defined by the Plan and, therefore, fees paid to First State Trust Company qualify as party-in-interest transactions. Administrative expenses paid by the Plan to First State Trust Company were $12,609 and $14,899 for the years ended December 31, 2025 and 2024, respectively. Morgan Stanley Smith Barney, LLC is the Plan's Investment Advisor, therefore, fees paid to Morgan Stanley Smith Barney, LLC qualify as party-in-interest transactions. Administrative expenses paid by the Plan to Morgan Stanley Smith Barney, LLC were $10,722 and $51,882 for the years ended December 31, 2025, and 2024, respectively. Ascensus, LLC is the Plan's actuary, therefore, fees paid to Ascensus LLC qualify as party-in-interest transactions. Administrative expenses paid by the Plan to Ascensus LLC were $25,000 and $0 for the years ended December 31, 2025 and 2024, respectively.

NOTE 9: SUBSEQUENT EVENTS

The date to which events occurring after December 31, 2025, the date of the most recent statement of financial position, have been evaluated for possible adjustment to the financial statements or disclosure is October 8, 2026, which is the date the financial statements were available to be issued.
