INDEPENDENT AUDITORS' REPORT

To the Plan Administrator, Trustees and Participants
MountainOne Financial, Inc. 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of MountainOne Financial, Inc. 401(k) Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

General

The following description of the MountainOne Financial, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a discretionary contribution retirement plan. The Plan Sponsor is MountainOne Financial, Inc. (the Company). Participating employers in the Plan include the Company's wholly owned subsidiary, MountainOne Bank (the Bank), and the Bank's wholly owned subsidiary, MountainOne Insurance Agency, Inc. Effective January 1, 2017, True North Insurance Agency, Inc. (True North) was merged into Coakley, Pierpan, Dolan & Collins Insurance Agency, Inc. (CPDC), which was renamed MountainOne Insurance Agency, Inc. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). The original effective date of the Plan is January 1, 1993.

Eligibility

Employees become eligible to make pre-tax and/or after-tax (Roth) contributions, and to receive Company matching contributions, if any, as of the date they reach the later of 90 days of eligible service or age 21.

Employees become eligible to receive Company discretionary (core) contributions when they reach the later of age 21 or the completion of 1 year of eligible service. A year of eligible service is a 12-month period measured from date of hire in which employees are credited with at least 1,000 hours of service. If paid for fewer than 1,000 hours in that period, employees will be credited with a year of eligible service whenever 1,000 hours or more of service is completed in any Plan year following the date of hire.

Any employee of South Coastal Bank, a former subsidiary of the Company that was merged into the Bank effective July 22, 2013, who was a participant in South Coastal Bank's defined benefit plan as of November 1, 2008, and any employee hired on or before December 31, 2008 by the Company, the Bank or the former True North, is not eligible to receive core contributions.

Contributions

Participants may elect to contribute a voluntary pre-tax or Roth salary deferral amount, subject to the provisions of the Internal Revenue Code (IRC). The Plan also allows rollover contributions of eligible rollover distributions from other qualified retirement plans.

The Company has the option of making matching contributions. In 2025 and 2024, the Company matched 50% of a participant's contributions on the first 6% of a participant's eligible compensation under the Plan.

Additionally, the Company contributes 3% of participants' eligible compensation under the Plan for participants hired after December 31, 2008 and that have completed one year of service. These contributions are referred to as "core" contributions by the Company.

1. Description of Plan (Continued)

Participants may select the investments in which their accounts are invested from among a variety of available investment options.

Vesting

Any elective deferrals or rollover contributions are 100% vested. Additionally, participants are automatically fully vested upon attainment of normal or early retirement age, or upon retirement due to disability or death. Contributions made by the Company are fully vested immediately for all participants. Certain former employees of CPDC had a vesting schedule for Company contributions made prior to January 1, 2016, which are now fully vested.

Contributions

The Sponsor automatically enrolls employees who do not affirmatively elect otherwise into the Plan. Employees who are automatically enrolled make a pre-tax deferral contribution in the amount of 3% of Plan Compensation for each payroll period, (effective January 1, 2025). The Plan includes automatic annual escalations of 1% up to a maximum of 10% (effective January 1, 2025).

Forfeitures

Forfeitures may be used to pay any administrative expenses as well as to reduce employer contributions. At December 31, 2025 and 2024, there was no balance in the forfeiture account.

Participant Accounts

Each participant's account is credited with the participant's contribution and a proportionate allocation of any Company contributions and Plan earnings or losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

The Plan allows loans to employees participating in the Plan. The amount of any loan shall be at least $1,000 and shall not exceed the lesser of (a) $50,000 reduced by the individual's highest outstanding loan balance during the twelve-month period ending on the day before the date the new loan is made; or (b) 50% of the individual's vested interest in their total account. Notes must be repaid within five years, unless the proceeds are used to buy a principal residence, with fixed interest rates at prime plus 1% for loans based on current market rates at the time of the loan.

Each loan is collateralized by the borrower's interest in the Plan and is evidenced by a promissory note. Loan repayment is made through payroll deduction. Loan fees are assessed against an individual participant's account.

1. Description of Plan (Continued)

Participant Withdrawals

The Plan provides for participants to withdraw their funds at any time after reaching normal retirement age (65) or early retirement age (55 ½) with certain employment requirements. The Plan also provides for withdrawals in the event of death, disability, hardship or termination.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Valuation and Income Recognition

Investments in mutual funds and collective trust funds are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The guaranteed investment contract is reported at contract value, as determined by the insurance company, as it is considered fully benefit-responsive. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of investment securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes realized gains and losses on investments that were sold during the year as well as net unrealized appreciation (depreciation) on investments held at year-end.

2. Summary of Significant Accounting Policies (Continued)

Contributions

Participant contributions are reported in the period in which payroll deductions are made; employer matching and core contributions are recorded in the same period as corresponding participant contributions.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan are paid by the Plan participants to the extent they are not paid by the Company, except for the administrative costs of mutual funds, collective trust funds, pooled separate accounts and loan processing fees, which are paid from participants' investment funds.

Notes Receivable from Participants

Notes receivable from participants are carried at the unpaid principal balance plus any accrued but unpaid interest.

Subsequent Events

Events occurring after the statement of net assets available for benefits date are evaluated by management to determine whether such events should be recognized or disclosed in the financial statements. Management has evaluated subsequent events through October 8, 2026, the date the financial statements were available to be issued.

Effective January 1, 2026, the Plan was amended to permit In-Plan Roth Rollovers and In-Plan Roth Transfers. Participants may elect to convert eligible non-Roth account balances to designated Roth accounts within the Plan. In-Plan Roth Rollovers are permitted for amounts otherwise eligible for distribution under the Plan, and In-Plan Roth Transfers are permitted for amounts not otherwise distributable, with such amounts retaining their existing distribution restrictions.

Effective January 1, 2026, pursuant to a merger agreement entered into by the Plan Sponsor (i.e., MountainOne Financial, Inc.), Mechanics Bancorp, Inc. merged with and into MountainOne Financial, Inc., with MountainOne Financial, Inc. as the surviving corporation. There have been no formal changes to the Plan at this time as a result of this merger.

3. Tax Status

A qualifying plan is one for which the employer may currently deduct contributions on its income tax return, the employee is not currently taxed on the contribution, and the plan income is not taxable.

3. Tax Status (Continued)

Effective January 1, 2022, the Plan adopted a non-standardized pre-approved plan sponsored by The Angell Pension Group, Inc. and the Company was informed by a letter dated June 30, 2020 from the IRS that the form of the Plan was acceptable under Section 401(a) of the IRC. Plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

4. Fair Value Measurements

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. Management has evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Assets that are measured at fair value using the net asset value (NAV) per share practical expedient have not been classified in the fair value hierarchy.

4. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund. The Plan has no unfunded commitments for those accounts and they can be redeemed daily at NAV.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	Total	Level 1	Level 2	Level 3
December 31, 2025:				
Mutual funds	$10,284,177	$10,284,177	$ –	$ –
Investments valued using the NAV per share practical expedient	20,420,908			
	$30,705,085			
December 31, 2024:				
Mutual funds	$ 9,042,771	$ 9,042,771	$ –	$ –
Investments valued using the NAV per share practical expedient	18,469,932			
	$27,512,703			

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Contract with Insurance Company

The Plan has a fully benefit-responsive group annuity contract issued by Principal Life Insurance Company (Principal). Principal maintains the contributions in a general account. The account is credited with the earnings on the underlying investments and is charged for participant withdrawals and certain administrative expenses charged by Principal. The contract is included in the financial statements at contract value, as reported to the Plan by Principal. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and certain administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The contract is backed by Principal's general account, which is invested in a diversified portfolio, consisting predominately of fixed income investments. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a semiannual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the insurance company under the group annuity contract. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures, or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such events that would limit the Plan's ability to transact at contract value with participants is probable.

6. Information Certified by the Plan's Custodians

Information disclosed in the accompanying financial statements and supplemental schedule, relating to investments, related net appreciation (depreciation) in fair value of investments, interest and dividends, and related investment transactions, was certified as complete and accurate by Principal Life Insurance Company, Principal Life Insurance Company on behalf of Principal Global Investors Trust Company and Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, the Plan's custodians, as of December 31, 2025 and 2024 and for the years then ended. Plan Management has determined that the Plan's custodians meet the requirements of a qualified institution as defined by the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the custodians. Notes receivable from participants and the related income were subject to procedures under auditing standards generally accepted in the United States of America.

7. Related-Party Transactions and Party-in-Interest Transactions

Certain investments qualify as party-in-interest transactions. Investment choices are provided under a group annuity contract and recordkeeping agreement issued by Principal. Affiliated companies, Principal Trust Company and Principal Global Investors Trust Company, registered investment advisors, provide investment information relating to the Plan. These transactions qualify as party-in-interest.

Notes receivable from participants and the related income qualify as party-in-interest transactions.

Administrative expenses charged to the Plan and paid to Principal and affiliated entities, as well as other service providers were $82,584 and $69,787 in 2025 and 2024, respectively. These transactions also qualify as party-in-interest.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a full Plan termination, participants will become 100% vested in their accounts.

9. Reconciliation of Financial Statements to Form 5500

Notes receivable from participants are reflected as investments in the Form 5500 as of December 31, 2025 and 2024. The related interest income is shown as investment income on the Form 5500 for the years ended December 31, 2025 and 2024.
