Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the American Commercial Barge Line LLC Pension Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the years ended December 31, 2025 and 2024 stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for at least one year following the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, line 4i - Schedule of Assets (Held at End of Year), and Schedule H, line 4j - Schedule of Reportable Transactions as of or for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. GAAS. For information included in the supplemental schedules that is agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution that is agreed to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following description of the American Commercial Barge Line LLC Pension Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan established effective January 1, 1998, as restated January 1, 2016. Prior to the plan freeze, the Plan covered certain employees of American Commercial Barge Line LLC (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Investment Committee is responsible for oversight of the Plan. The Plan’s Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Under the terms of the Plan, participants are eligible for monthly benefit payments upon reaching normal retirement age of 62 for hourly and 65 for salaried members, or upon early retirement age of 55 with five or more years of service for hourly and 10 or more years of service for salaried members. In February 2007, new entry/re-entry to the Plan was closed for all employees. Effective December 31, 2017, benefit accruals for active hourly and salaried employees were frozen. In April 2018, the Jeffboat location (Jeffboat) was closed, and all employees were terminated. As such, all benefit accruals were frozen effective April 30, 2018.

Funding policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The minimum funding requirements of ERISA were met in 2025 and 2024.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Pension benefits

Participants who meet certain criteria may elect to receive a portion of the value of their accumulated plan benefits as a lump-sum distribution upon retirement and/or they may elect to receive their benefits as a life annuity payable monthly. If a vested employee dies, a benefit equal to the survivorship value of the employee's accumulated pension benefits is paid to the employee's surviving spouse upon eligibility. Active hourly employees and Jeffboat participants who become totally disabled are eligible to receive an annual disability benefit.

If a vested active employee dies at age 55 or older, a benefit equal to the 50% survivorship value of the employee's accumulated pension benefits is paid to the employee's surviving spouse upon eligibility. Active salaried employees who become totally disabled and are receiving the long-term disability benefit through the Company provider will continue to accrue service and credited service under the Plan as if they were still working and receiving the rate of base pay earned on their last day worked up to the earlier of normal retirement age 65, the long-term disability coverage ends or December 31, 2017, when the accrual was frozen. Salaried retirement benefits may begin as indicated under an early or normal retirement as eligibility allows. Jeffboat employees' disability benefit is calculated based on one-half (1/2) the multiplier in effect at the time of their last day worked as an active employee paid for the date they apply and are determined to be totally disabled for their lifetime. Hourly employees determined to be totally disabled are eligible for an unreduced accrued benefit for the date they apply and are determined to be totally disabled for their lifetime. If a disability benefit ends due to no longer being totally and permanently disabled, the participant can then elect, at a future date, a benefit amount calculated at the normal or early retirement date actuarially offset by the benefits already received under the disability retirement.

Annuity buyout

On November 4, 2025, the Company entered into an annuity buyout agreement with Minnesota Life Insurance Company (Minnesota Life) totaling approximately $42,651,000, for Minnesota Life to assume the obligation to make future annuity payments to certain retirees and to reduce future administrative costs to the Plan. The initial payment to Minnesota Life was subsequently adjusted by approximately $170,000, which was received by the Plan on May 13, 2026 and recorded as a receivable on the statements of net assets available for benefits as of December 31, 2025. The adjusted buyout amount is presented within deductions in the accompanying statements of changes in net assets available for benefits for the year ended December 31, 2025. In connection with this purchase of an annuity contract, the Plan also recognized a reduction in its future obligation. (See Note 3.)

2. Summary of Accounting Policies

A summary of significant accounting policies consistently applied by the Plan administrator in the preparation of the accompanying statements of net assets available for benefits and related statements of changes in net assets available for benefits and the related notes to the financial statements (financial statements) follows:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Cash

Cash represents amounts held in demand deposit accounts to provide liquidity for benefit payments and administrative expenses. These balances may, at times, exceed federally insured limits.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the statements of changes in net assets available for benefits. In addition, certain investment-related expenses are included in net appreciation in fair value of investments in the statements of changes in net assets available for benefits.

Other Liabilities

Other liabilities represent amounts due for investment transactions that have been executed but not yet settled as of the financial statement date.

Subsequent Events

Subsequent events were evaluated through October 9, 2026, the date the financial statements were available to be issued.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances, such as retirement, death, disability, and termination of employment, are included, to the extent they are attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

Benefits for retired or terminated employees or their beneficiaries are based on different calculation methods, depending upon whether the employee was a salaried or hourly participant or a Jeffboat participant. For salaried participants, the benefit for credited service rendered prior to February 1, 2000 is based on pension-eligible compensation during the five consecutive years of credited service affording the highest such average. (For this purpose, average compensation is determined as of February 1, 2000.) The benefit for credited service rendered between February 1, 2000 and the valuation date is 1% of pension-eligible compensation during this period. For hourly participants and Jeffboat participants, the benefit is based on a flat-dollar rate for each year of credited service rendered prior to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2025. Had the valuation been performed as of December 31, 2025, the actuarial present value of the accumulated plan benefits would have decreased by approximately $42,000,000, due to the annuity buyout transaction that occurred in November 2025. (See Note 1.) The significant actuarial assumptions used in the valuation were:

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits at January 1, 2025 are as follows:

January 1	**2025**
Vested Benefits:	
Participants currently in payment status	$ 94,400,384
Vested Benefits for other participants	51,369,019
	145,769,403
Non-vested benefits	376,887
Total	$ 146,146,290

The following table represents the changes in the actuarial present value of the accumulated plan benefits:

Beginning of year, as of January 1, 2024	$ 147,386,675
Changes during the year:	
Interest	9,682,410
Benefits paid	(10,163,726)
Benefits accumulated and other plan experience	(759,069)
Net Decrease	(1,240,385)
End of year, as of January 1, 2025	$ 146,146,290

There were no material changes in actuarial assumptions and methods resulting in changes to the actuarial present value of the accumulated plan benefits.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2025 and 2024.

Common Stock, Mutual Funds, and Exchange-Traded Funds (ETFs) - Valued at the closing price in the active market on which the individual security is traded.

Common Collective Trust - Valued at net asset value (NAV) of units of a common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value, and is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Hedge Funds - The fair values of the hedge funds are based on the net asset values per share as reported by the investment manager as of the financial statement dates and recent transaction prices. In determining the reasonableness of the methodology used to estimate fair value, management reviews the funds' audited financial statements and evaluates a variety of factors including the investment manager's assumptions, economic conditions and industry and market developments.

As of December 31, 2025, the Plan held investments in hedge funds in the Mesa West Core Lending Fund, LP. As of December 31, 2024, the Plan held hedge fund investments in the Kohinoor Core (Cayman) Fund, the Blackgold Capital Management, LP and Mesa West Core Lending Fund, LP.

The Mesa West Core Lending Fund, LP is an open-ended Delaware limited partnership that was established to originate and purchase fixed and floating rate first mortgage loans secured by commercial and multifamily residential real estate properties. Limited partner redemptions are permitted through written notices to the general partner on an ongoing basis during any calendar quarter, effective the last day of such calendar quarter in minimum increments of $1,000.

The Kohinoor Core (Cayman) Fund is an offshore feeder fund with substantially all of its investments in the Kohinoor Core Master Fund. The fund's objective is to seek to profit from extreme price and volatility movements in the world financial markets. The Kohinoor Core (Cayman) Fund is redeemable on a monthly basis with a 30-day notice.

The Blackgold Capital Management, LP is an offshore feeder fund with substantially all of its investments in the Blackgold Opportunity Fund LP. The investment objective of the Master Fund is to maximize capital appreciation by investing in securities of companies in the energy and energy-related industries, with an emphasis on highly illiquid and/or privately held companies. Limited partner withdrawals may be made on the last day of the fiscal calendar quarter upon 45 days' prior written notice subject to certain other provisions and restrictions outlined in the partnership agreements.

The Plan had no unfunded commitments related to hedge fund interests at December 31, 2025 and 2024.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

Assets at Fair Value as of December 31, 2025	**Level 1**	**Level 2**	**Level 3**	**Total**
Mutual Funds and ETFs	$ 125,286,229	$ -	$ -	$ 125,286,229
Total assets in the fair value hierarchy	125,286,229	-	-	125,286,229
Collective Trust (a)	-	-	-	1,968,373
Hedge Funds (a)	-	-	-	11,263,602
Total investments at fair value	$ 125,286,229	$ -	$ -	$ 138,518,204

Assets at Fair Value as of December 31, 2024	**Level 1**	**Level 2**	**Level 3**	**Total**
Mutual Funds and ETFs	$ 98,226,809	$ -	$ -	$ 98,226,809
Common Stocks	43,533,556	-	-	43,533,556
Total assets in the fair value hierarchy	141,760,365	-	-	141,760,365
Collective Trust (a)	-	-	-	8,383,555
Hedge Funds (a)	-	-	-	19,053,371
Total investments at fair value	$ 141,760,365	$ -	$ -	$ 169,197,291

(a) In accordance with FASB ASC 820, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

5. Information Certified by Trustee

The Plan administrator has elected to have an audit performed pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2025 and 2024. Accordingly, certain information in the Plan's financial statements and supplemental schedules was agreed to or derived from information certified as complete and accurate by Principal Bank, the Plan's Trustee and a qualified institution. The certified information includes the Plan's investments reported in the accompanying statements of net assets available for benefits as of December 31, 2025 and 2024, and the accompanying supplemental Schedule H, Line 4i - schedule of assets (held at end of year) as of December 31, 2025, and the related investment activity (including net appreciation/depreciation, interest, and dividends) reported in the accompanying statements of changes in net assets available for benefits and the information reported in the accompanying supplemental Schedule H, Line 4j - schedule of reportable transactions for the year ended December 31, 2025.

6. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated May 16, 2017, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risks and Uncertainties

The Plan invests in securities that are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in value will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

8. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

9. Related-Party and Party-In-Interest Transactions

The Plan's investments are administered under a contract with Principal Bank, the Trustee of the Plan. Contributions are held and managed by Principal Bank, which invests cash received, interest and dividend income and makes distributions to participants. These transactions are party-in-interest transactions under ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are party-in-interest transactions under ERISA.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Funding assumptions and methods selection and rationale

Actuarial Standard of Practice No. 27 (“ASOP 27”) provides guidance to actuaries when selecting or advising plan sponsors to select economic assumptions for measuring pension obligations. Under this ASOP, for each assumption that has a significant effect on the measurement that is not prescribed by law or regulation and that the actuary has selected or advised the plan sponsor to select, the actuary should disclose the information and analysis that led the actuary to select or advise the plan sponsor to select the assumption for the purpose of the measurement. For any assumption that the plan sponsor selected without the actuary’s advice, the ASOP requires the actuary to disclose the information and analysis used to support the actuary’s determination that the assumption does not significantly conflict with what, in the actuary’s professional judgment, is reasonable for the purpose of the measurement.

For funding, the actuary selected the retirement rates, withdrawal rates, marriage assumptions, and frequency of optional payment forms. The expected asset return assumption was selected by the Plan Sponsor and is reasonable based on an analysis of long term expected returns for the asset classes in which the plan’s assets were invested as of the measurement date and inputs from the plan’s investment managers. The assumed retirement rates, withdrawal rates, marriage assumptions, and optional payment form frequency were based on an experience study performed in 2022, based upon data collected for the years 2017 through 2021 (inclusive), and are reasonable given historic gain and loss experience of the plan.

The mortality tables and interest rates used for funding purposes are prescribed by the IRS and have a significant impact on the funding results as noted below.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods (continued)

Use of Models

Gallagher uses third-party software in the performance of annual actuarial valuations and projections. The model is intended to calculate the liabilities associated with the provisions of the plan using data and assumptions as of the measurement date under the funding rules and standards specified in this report. Further, the model applies those funding rules and standards to the liabilities derived and other inputs, such as plan assets and contributions, to generate many of the exhibits found in this report. Gallagher has an extensive review process whereby the results of the liability calculations are checked using detailed sample output, changes from year to year are summarized by source, and significant deviations from expectations are investigated. Other funding and outputs are similarly reviewed in detail and at a high level for accuracy, reasonability and consistency with prior results. Gallagher also reviews the model when significant changes are made to the software. The review is performed by experts within the company who are familiar with applicable funding and rules as well as the manner in which the model generates its output.

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the actuarial assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report. However, an assessment of risks for the plan was performed.

Mortality

Mortality tables mandated by applicable law and regulation as specified in IRS Regulation 1.430(h)(3)-1, as amended in the Federal Register on October 20, 2023, in TD 9983, 88 FR 72357, and as amended by IRS Notice 2024-42, applied on a fully generational basis using the IRS 2024 Adjusted Scale MP-2021 Rates mortality improvement scale.

For disabled participants, mortality is based on RR 96-7 Post 94 disability mortality table.

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan administrative expenses to be paid from plan assets during the year.

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including the discounted value of accrued contributions.

Summary of Changes from the January 1, 2024 Valuation

Prescribed changes:

- Before measuring the method change for interest rates, the interest rates and mortality tables were updated to those applicable to the current year in accordance with the requirements of the Internal Revenue Code and associated regulations.
- These changes decreased the plan's Funding Target by approximately $3.36 million.

Non-prescribed changes:

- Expected plan administrative expenses added to the Target Normal Cost decreased from $1,455,981 to $469,436.

Method changes:

- The interest rates were changed from IRS Segment Rates with 4-month Lookback to the IRS Full Yield Curve (no lookback by default) for determining minimum and maximum funding requirements for the plan year beginning January 1, 2025. This change increased the plan's Funding Target by approximately $0.13 million.
- The asset valuation method was changed to value the market value as of the valuation date, including discounted receivables. Previously, the actuarial value of assets was market value as of the valuation date, including the discounted value of accrued contributions, reduced by 2/3 of the gain/(loss) for the immediately preceding plan year and reduced by 1/3 of the gain/(loss) for the plan year before that. The updated asset valuation method meets the criteria for automatic approval under Revenue Procedure 2017-56 Section 3.01. This change increased the 2025 Actuarial Value of Asset by $12.11 million.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V - Summary of Plan Provisions

Salaried Participants (continued)

Deferred Vested Retirement

Eligibility

Five years of Service.

Benefit Amount

The normal retirement benefit calculated as of the termination date is payable at the normal retirement date. The participant may elect to receive a reduced benefit as early as age 55 if eligible for early retirement based on Service at termination.

If the vested participant terminates after reaching age 50 and completing 20 years of Credited Service, the reduced benefit is computed in accordance with the early retirement provisions.

Otherwise, the normal retirement benefit is reduced 0.5% for each month that commencement precedes age 65.

In-Service Distributions

The plan was amended effective August 1, 2017 to enable Salaried and Hourly employees to elect the commencement of an In-Service Pension as early as age 62. The amount of the In-Service Pension will be same pension benefit the employee would be entitled to receive if they terminated employment and immediately commenced their pension. Upon final retirement from active employment, the participant will make a separate election for any additional benefits accrued after the commencement of their In-Service Pension which exceed the equivalent monthly value of the In-Service Pension payments they have received.

Prior Accrued Benefit Amount

With respect to the frozen March 1, 1996 benefit, the participant may elect to commence payment as early as age 55 reduced 1/180th per month for the first 60 months and 1/360th per month for the next 60 months by which commencement precedes normal retirement age 65.

Surviving Spouse Benefit

Eligibility

Five years of Service prior to date of death, survived by an eligible spouse.

Benefit Amount

The Spouse receives a monthly benefit equal to 50% of the pension which would have been otherwise payable had the participant separated on the date of death (or actual termination if earlier). Reduced payments may commence on the earliest possible retirement date available as if the participant had survived.

If in active employment at time of death, the benefit is provided under the early retirement provisions regardless of age or service.

Normal Form of Benefit

Married

Unreduced 50% contingent annuity with spouse as beneficiary.

Prior Plan: Actuarial equivalent 50% contingent annuity with spouse as beneficiary.

Definitions

Credited Service

Prior to January 1, 1965, Credited Service was determined by the labor agreement in effect at the time. From January 1, 1965 through December 31, 1973, a fractional year of Credited Service is credited equal to the ratio of hours of service earned during the plan year to 1,600, but not greater than one. After January 1, 1974, a fractional year of Credited Service is credited equal to the ratio of hours of service earned during the plan year to 1,000, but not greater than one. Credited Service only includes the time the participant is employed with Jeffboat and does not include periods of employment with other affiliated companies.

Service

Schedule SB, Line 25 – Change in Method

The asset valuation method was changed to value the market value as of the valuation date, including discounted receivables. Previously, the actuarial value of assets was market value as of the valuation date, including the discounted value of accrued contributions, reduced by 2/3 of the gain/(loss) for the immediately preceding plan year and reduced by 1/3 of the gain/(loss) for the plan year before that. The updated asset valuation method meets the criteria for automatic approval under Revenue Procedure 2017-56 Section 3.01. This change increased the 2025 Actuarial Value of Asset by $12.11 million.

The interest rates were changed from IRS Segment Rates with 4-month Lookback to the IRS Full Yield Curve (no lookback by default) for determining minimum and maximum funding requirements for the plan year beginning January 1, 2025. This change increased the plan's Funding Target by approximately $0.13 million.
