To Management
CGR Products, Inc. Employees' Profit
Sharing Plan and Trust
Greensboro, North Carolina

We have audited the financial statements of CGR Products, Inc. Employees' Profit Sharing Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit] for the year ended December 31, 2025, and have issued our report thereon dated October 2, 2026. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan (investment information) by Matrix Trust, the trustee, which is a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and supplemental schedule, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP. Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our engagement letter dated May 14, 2026. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

You are responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by CGR Products, Inc. Employees' Profit Sharing Plan and Trust are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2025. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements and are based on your knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

The financial statement disclosures are neutral, consistent, and clear.

Form 5500 Procedures

We are required to obtain and read a substantially complete draft of Form 5500 prior to dating our auditor's report. The purpose of this procedure is to identify any material inconsistencies between the draft Form 5500 and the Plan's financial statements. We identified no material inconsistencies in performing and completing our audit.

Employees' Profit Sharing Plan and Trust and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about CGR Products, Inc. Employees' Profit Sharing Plan and Trust's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of CGR Products, Inc. Employees' Profit Sharing Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about CGR Products, Inc. Employees' Profit Sharing Plan and Trust's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and

disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1 Description of Plan

The following description of the CGR Products, Inc. ("the Company") Employees' Profit Sharing Plan and Trust ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of its participating employers: CGR Products, Inc.; CGR Wisconsin, LLC; and CGR Minnesota, LLC, effective January 22, 2021. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The effective date of the Plan is January 1, 1972.

Employee Contributions

Participants may make pre-tax and Roth salary deferrals as defined by the Plan, subject to certain Internal Revenue Code limitations. Effective January 1, 2021, the Plan was amended to 1) change eligibility for participation in the Plan to the employee's date of hire, regardless of age or service, and 2) include an automatic enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate, with a default deferral rate set at 6% of eligible compensation, and contributions are automatically invested in a target retirement age fund until changed by the participant. Effective January 1, 2025, the automatic salary deferral feature of the Plan was amended to include automatic escalation up to a maximum of 8% of eligible compensation based on the Plan Year of application to the participant.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Additional voluntary contributions are not allowed.

Employer Contributions

The Company makes a Safe Harbor matching contribution equal to 100% of the amount contributed by the participant for each payroll period up to 6% of each participant's compensation, as defined by the Plan. In addition, the Company may make additional discretionary Company contributions to participants' accounts, as well as discretionary matching contributions to participants who have elective deferrals.

Participant Accounts

Each participant's account is credited with the Company's contributions, the participant's voluntary contribution, and the Plan earnings, which are allocated proportionately among all participants based on their investment in each fund. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty-six mutual funds and one guaranteed interest account as investment options for participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1 Description of Plan (continued)

Vesting

Participants are vested in their voluntary contributions immediately upon entering the Plan. Participants are fully vested in the Company's Safe Harbor matching contribution portion of their account upon attainment of one year of credited service. Vesting in the employer's additional discretionary contribution account is based upon the number of years of the participant's service. A participant is 20% vested after two years of credited service, increasing 20% for each additional year of service with 100% vesting after six years of credited service.

Notes Receivable from Participants

During 2020, as allowed by the Federal CARES Act, the Plan was amended to permit participants to borrow from their accounts from a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The Plan allowed each participant to have no more than two outstanding loans at a time. Each existing loan is secured by the balance in the participant's account, and the loan interest rate is equivalent to the prime rate plus 2 percent. Principal and interest is paid ratably through biweekly payroll deductions. Effective January 1, 2021, the Plan was amended to discontinue new loan originations from the Plan.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or periodic installments over a period necessary to satisfy the required distribution requirements. For termination of service for other reasons, a participant may receive the value of the vested interest in their account as a lump sum distribution.

Withdrawals

Pre-retirement withdrawals are allowed for hardship distributions up to the lesser of 1) the amount necessary to alleviate the participant's financial hardship or, 2) the amount of the participant's vested account balance. In-service distributions may be made to participants who have not separated from service provided they have attained the age of 65. Effective May 22, 2026, the Plan was amended to lower the attained age for in-service distributions to age 59 ½; refer to Note 10.

Forfeited Accounts

Forfeitures may be used to pay administrative expenses or used as future employer contributions. During the year ended December 31, 2025, forfeitures of $2,614 were applied to the employer contribution. The Plan held no forfeitures at December 31, 2025 or 2024.

2 Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

2 Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. The notes are secured by the balance in the participant's account and bear interest at 5.25%. Principal and interest is paid ratably through bi-monthly payroll deductions.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan had no excess contributions for the years ended December 31, 2025 or 2024.

Payment of Benefits

Benefits to participants are recorded when paid. There were no participants who elected to withdraw from the Plan that had not been paid at December 31, 2025 and 2024.

Expenses

Certain expenses of maintaining the Plan are paid by the Company and are therefore excluded from these financial statements. Investment-related expenses are included in the net appreciation in fair value of investments. Fees related to the administration of benefit payments are charged directly to the individual participant's account and are included in administrative expenses. For the year ended December 31, 2025, total plan expenses of $65,167 have been reduced by $13,101 in funds received by the Plan from a revenue sharing arrangement with its investment provider, for total expenses of $52,066.

3 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Exchange-traded funds: Valued at quoted market prices as reported by the applicable national securities exchange on which the funds are traded. Exchange-traded funds held by the Plan are traded on national securities exchanges and, where applicable, are registered with the Securities and Exchange Commission. These funds transact at market price rather than net asset value (NAV). Exchange-traded funds held by the Plan are generally deemed to be actively traded when quoted prices are available in active markets.

3 Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

Fair Value Measurements at the End of the Reporting Period Using:

	Level 1	Level 2	Level 3
December 31, 2025			
Mutual funds	$ 15,816,982	$ -	$ -
Exchange-traded funds	686,783	-	-
Investments at fair value	$ 16,503,765	$ -	$ -

Fair Value Measurements at the End of the Reporting Period Using:

	Level 1	Level 2	Level 3
December 31, 2024			
Mutual funds	$ 13,519,929	$ -	$ -
Exchange-traded funds	656,699	-	-
Investments at fair value	$ 14,176,628	$ -	$ -

The Plan recognizes transfers among levels as of the beginning of the reporting period. There were no transfers between levels for the years ending December 31, 2025 and 2024.

4 Guaranteed Interest Contract with CMFG Life Insurance Company

In 2013, the Plan entered into a traditional fully benefit-responsive unallocated Deposit Administration Group Annuity (DAGA) with CMFG Life Insurance Company (CMFG) totaling $983,170 and $1,064,670 at December 31, 2025 and 2024, respectively. CMFG maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The DAGA issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula established by the contract issuer but may not be less than zero percent. The crediting rate is reviewed on a quarterly basis for resetting. The DAGA does not permit the insurance company to terminate the agreement under normal circumstances.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by CMFG, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

4 Guaranteed Interest Contract with CMFG Life Insurance Company (continued)

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the Trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without the consent of the issuer.

5 Certified Investments and Notes Receivable

Certain information in the accompanying financial statements and ERISA-required supplemental schedule related to investments held as of December 31, 2025 and 2024, and net appreciation in fair value of investments, and interest and dividends for the year ended December 31, 2025 was obtained by management and agreed to or derived from information certified as complete and accurate by Matrix Trust Company (the trustee of the Plan), a qualified institution.

Certain information in the accompanying financial statements and ERISA-required supplemental schedule related to notes receivable from participants held as of December 31, 2025 and 2024, and interest income on notes receivable from participants for the year ended December 31, 2025 was obtained by management and agreed to or derived from information certified as complete and accurate by CMFG Life Insurance Company, a qualified institution.

6 Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated June 30, 2020, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

6 Tax Status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress.

7 Party-in-Interest Transactions

The Guaranteed Interest Contract account is managed by CMFG Life Insurance Company, which is affiliated with CPI Qualified Plan Consultants, Inc. Recordkeeping services for the Plan are provided by CPI Qualified Plan Consultants, Inc. and, therefore, related transactions qualify as party-in-interest transactions. Administrative, recordkeeping, and investment management fees for this account are deducted from credited interest rates. These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

8 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

9 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10 Subsequent Events

Subsequent events were evaluated through October 2, 2026, which is the date the financial statements were available to be issued.

Effective March 31, 2026, the Plan was amended to allow participation by employees of an acquired company, Technicon Industries, Inc.

Effective May 22, 2026, the Plan was amended to lower the age for in-service distributions to participants who have not separated from service from age 65 to age 59 1/2.

Subsequent to year-end, participant deferrals totaling $124,454 were not remitted within the timeframe required by DOL regulations because the third-party administrator was unable to receive the contributions. The plan sponsor, with the assistance of the administrator, is currently evaluating the effects of the delinquent remittances and no reasonable estimate of the amount of these effects is available at the date of these financial statements.
