INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of the
FirstEnergy Corp. Welfare Plan
Akron, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of FirstEnergy Corp. Welfare Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits and statements of benefit obligations as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits and of changes in benefit obligations for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 10 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audits of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our

audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audits does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audits of the Financial Statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess

whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of ERISA Section 103(a)(3)(C) audits is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

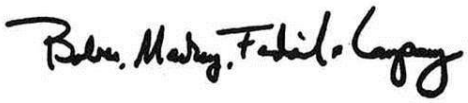

Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025 and Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agrees to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 – DESCRIPTION OF THE PLAN

The following brief description of the FirstEnergy Corp. Welfare Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the provisions of the Plan.

General

The Plan was established to provide health and other welfare benefits to eligible employees and retirees of affiliates and subsidiaries of FirstEnergy Corp. (the "Company"). A Postretirement Health Benefits Trust (the "Trust") was established in 1995 as a vehicle to fund certain benefits provided by the Plan. The Plan participates in the Trust, which is made up of individual Voluntary Employee Beneficiary Association Trusts (the "VEBA Trusts"). The Plan and Trust are subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and the Internal Revenue Code of 1986 ("IRC"), as amended.

Benefits and Eligibility

The Plan provides medical, prescription drug, dental, vision, long-term disability, accidental death and disability, life insurance, business travel-accident, flexible spending accounts and employee assistance programs.

Certain unions may make an annual election to opt out of, or participate in, the Company sponsored medical plans under their respective collective bargaining agreements. The unions who have opted out as of January 1, 2025 are Local 102, Local 140, Local 180, Local 270, Local 459, Local 777 and Local 777S. These same unions, with the exception of Local 459, opted out as of January 1, 2024. During 2025, the Company contributed $22,301,676 in medical and prescription drug premium payments on behalf of the unions who opted out. As of December 31, 2025 and 2024, these unions were included in the population used to measure the actuarial present value of benefit obligations.

All regular full and part-time employees of the Company and their eligible dependents are eligible to participate in the Plan beginning on the first day of the month following their hire date. Employees can waive coverage. In addition, medical coverage is available to certain retired employees and their spouses.

Contributions

The cost of health care coverage paid by participants, if any, is determined by Company policy and agreements between the Company and the unions representing bargaining unit employees.

During 2025, employee contributions of health care coverage for base plan options represented 15% of total contributions for all active participants and 25% of total contributions for dependents.

Currently, the Company pays the entire cost of the basic life insurance coverage for most active participants.

Some employees who retire from the Company continue to have access to healthcare coverage under the Plan until they become eligible for Medicare. Most retirees who elect such coverage are responsible for 100% of the expense.

Administrative Expenses

The cost of processing benefit payments and commissions associated with contracts the Plan has with various third-party claims administrators and other service providers are paid by the Plan. All other costs of administering the Plan are paid by the Company.

With respect to the VEBA Trusts, administrative expenses are paid directly from the VEBA Trusts' assets.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between willing market participants on the measurement date.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation or depreciation in the fair value of its investments which consist of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported using the average cost method.

Postretirement Benefit Obligations and Claims Incurred But Not Reported

The postretirement benefit obligations represent the actuarial present value of those estimated future benefits to be paid to or for eligible employees and retirees of the Plan. The actuarial present value of the benefit obligation is determined by an actuary and is the amount that results from applying certain assumptions (see Note 4). The Plan also has other benefit obligations related to the Plan’s liability for claims incurred but not reported (IBNR) as of December 31, 2025 and December 31, 2024. The Plan’s liability for IBNR is estimated using the following methodology: Lag factors for medical and prescription drug plans are calculated using actual case experience including paid data in 2025, measurement of time between service and payment dates (lag) and weighted by dollar amount paid. Calculated lag factors are then ‘smoothed’ for consistent pattern of completion factors over the experience period adding estimated residual liability (extension factor) and administrative expenses. Finally, the reserve is calculated for each employee group based on application of IBNR factor (plus adjustments) to the projected 2025 paid claim base. A separate IBNR factor is developed for each third-party administrator.

The Plan's postretirement benefit obligation does not reflect an amount associated with the Medicare subsidy allowed under the Medicare Prescription Drug Improvement and Modernization Act of 2003 as the Plan is not directly entitled to the Medicare subsidy. The Company has included the effects of the Medicare subsidy in measuring its postretirement benefit obligation; therefore, the Plan's postretirement benefit obligation differs from that of the Company.

Risks and Uncertainties

Investment securities are exposed to various risks such as interest rate, market and credit risks. Market values of securities fluctuate based on changing market conditions; significant changes in market conditions could materially affect plan investments.

The actuarial present value of benefit obligations is prepared based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2026, the date the financial statements were issued.

NOTE 3 – RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS

There were no recent accounting pronouncements not yet adopted which have a material impact on the Plan.

NOTE 4 – POSTRETIREMENT BENEFIT OBLIGATIONS

The actuarial present value of postretirement benefit obligations was determined by the Company's actuary, Aon. The present value of postretirement benefit obligations is the amount that results from applying actuarial assumptions to adjust the postretirement benefit obligations to reflect the time value of money and the probability of payment between the valuation date and expected payment date.

The significant actuarial assumptions and methods used in the valuations of the postretirement benefit obligation as of December 31, 2025 and 2024 were: 1) healthy life mortality rates based on the Pri-2012 Mortality Tables; 2) a discount rate of 5.37% in 2025 and 5.60% in 2024; and 3) health care cost trend rates. The mortality assumption used the standard Pri-2012 tables for employees and nondisabled annuitants and the Pri-2012 tables for disabled retirees, both tables were projected generationally using projection scale MP-2021, actuarially adjusted to reflect increased mortality due to the ongoing impact of COVID-19, for the 2025 and 2024 mortality assumption. These assumptions were utilized to determine the benefit obligations as of December 31, 2025 and 2024 for the Plan.

During 2025, the Society of Actuaries elected not to release a new mortality improvement scale due to data available being severely impacted by COVID-19. It was determined that the Pri-2012 mortality table with projection scale MP-2021, actuarially adjusted to reflect increased mortality due to the ongoing impact of COVID-19 was most appropriate to determine the benefit obligation as of December 31, 2025. This adjustment acknowledges COVID-19 cannot be eradicated and assumes reductions in other causes will not offset future COVID-19 deaths enough to produce a normal level of improvements.

Health care cost trend rates of 6.50% and 7.00% for medical costs were assumed for 2025 and 2024, respectively. Health care cost trend rates of 11.00% and 12.00% were assumed for 2025 and 2024, respectively, for prescription drug costs. The 2025 and 2024 rates were assumed to decrease gradually to 4.50% by 2036, for medical costs and for prescription drug costs and to remain at that level thereafter. For measurement purposes, medical and prescription drug costs are valued separately.

The foregoing assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation. The health care cost trend rate assumption has a significant effect on the amounts reported in the accompanying financial statements. If the assumed rates increased by one percentage point in each year, it would increase the obligation as of December 31, 2025 by $9,557,800 and as of December 31, 2024 by $9,973,300.

NOTE 5 – VEBA TRUSTS

The Company has established VEBA Trusts to fund a portion of its postretirement welfare benefit liability for certain current and future retirees. The VEBA Trusts are operated to receive favorable tax treatment under IRC Section 501(c)(9).

Company contributions are set aside in external trusts with a trustee and investment manager and are tax deductible. The VEBA Trusts' assets can only be used to pay postretirement welfare benefits and the administrative costs of the Plan. The amount of funding, timing of Company contributions, administration and funding policy are determined by the Company. The creation, administration and funding of these VEBA Trusts do not preclude the Company from amending, modifying or terminating the health care benefits at any time.

NOTE 6 – INVESTMENTS AND FAIR VALUE MEASUREMENTS

Authoritative accounting guidance establishes a fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy gives the highest priority to Level 1 measurements and the lowest priority to Level 3 measurements.

The three levels of the fair value hierarchy are as follows:

Level 1 – Quoted prices for identical instruments in active markets.

Level 2 – Quoted prices for similar instruments in active markets;
– Quoted prices for identical or similar instruments in markets that are not active; and
– Model-derived valuations for which all significant inputs are observable market data.

Models are primarily industry-standard models that consider various assumptions, including quoted forward prices for commodities, time value, volatility factors and current market and contractual prices for the underlying instruments, as well as other economic measures.

Level 3 – Valuation inputs are unobservable and significant to the fair value measurement. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value.

There were no changes in valuation methodologies for assets measured at fair value during 2025.

The following tables set forth by level within the fair value hierarchy, the fair value of the Plan's investments. During 2025 and 2024, there were no significant transfers among levels. Transfers among levels are recognized at the end of the reporting period.

Total investments at fair value	$ 314,074,783	$ 258,331,711	$ —	$ 572,406,494

NOTE 7 – PARTY-IN-INTEREST

State Street Bank and Trust Company (“State Street”) is the trustee of the VEBA Trusts with the exception of the VEBA Trusts related to the former Allegheny Welfare Plan ("AYE Benefits"). Bank of New York Mellon/BNY Mellon, N.A. (“BNYM”) is the trustee of the VEBA Trusts related to former AYE Benefits. Certain Plan investments are managed by State Street Global Advisors and BNYM. Accordingly, these investment transactions qualify as exempt party-in-interest transactions that are allowable under ERISA.

NOTE 8 – TAX STATUS

The Plan Trusts established under the Plan to hold the Plan’s assets received individual determination letters on various dates, in which the Internal Revenue Service (IRS) stated that the Plan Trusts, as then designed, were in compliance with the applicable requirements of the IRC. The Plan Trusts have been amended since receiving the determination letters. However, the Plan Administrator, FirstEnergy Service Company, and the Plan’s tax counsel believe that the Plan Trusts are currently designed and being operated in compliance with the applicable requirements of the IRC.

The VEBA Trusts established under the Plan to hold VEBA-related net assets is qualified pursuant to IRC Section 501(c) (9) and, accordingly, the Trusts' net investment income is exempt from income taxes. The Plan Administrator has obtained favorable tax determination letters from the IRS and the Plan Administrator believes that the VEBA Trusts continue to qualify and operate as designed.

Although the Plan Trusts are not subject to income tax, the Plan may be subject to tax on its unrelated business taxable income.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 – RIGHT TO TERMINATE

The Company may terminate the Plan, or some or all of the benefits provided by the Plan, at any time, for any reason. No termination of the Plan shall be effective to preclude payment of claims properly incurred under the Plan prior to the date of such termination. Postretirement medical benefits are not vested. Upon termination, the Plan's net assets would be allocated for payment in an order of priority determined in accordance with ERISA, applicable regulations, and the Plan document.

NOTE 10 – TRUSTEE CERTIFICATION

State Street certified the value of investments held by the Plan, except for the assets and investments held in the VEBA Trusts for former AYE Benefits, which were certified by its Trustee, BNYM (collectively with State Street, the Trustees). The Trustees also certified the accrued interest and dividends, interest and dividend income and net appreciation (depreciation) in fair value of investments held by them included in the accompanying financial statements in accordance with 29 CFR Section 2520.103-5 of the Department of Labor rules and regulations for responding for reporting and disclosure under ERISA.

NOTE 11 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits and the increase in net assets available for benefit per the financial statements to Form 5500 as of December 31, 2025 and 2024, and for the year ended December 31, 2025:
