We have performed an audit of the financial statements of the Pension Plan for Eaton Employees in Puerto Rico (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution, Banco Popular de Puerto Rico, as of and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical

requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment

information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets Held for Investment Purposes at End of Year and Schedule of Reportable Transactions as of December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS

Pension Plan for Eaton Employees in Puerto Rico

1 Description of Plan

The following description of the Pension Plan for Eaton Employees in Puerto Rico (the "Plan") provides only general information. Participants should refer to the Plan document and summary plan descriptions, which are available from the Company's Human Resources Department upon request, for a complete description of the Plan's provisions.

General:

Effective the close of business on December 1, 2010, the Cutler-Hammer Electrical Company elected to use the transitional relief provisions under Revenue Ruling 2008-40, to establish the Pension Plan for Eaton Employees in Puerto Rico. Prior to December 1, 2010, the Plan's participants accrued benefits under prior plans with all credited service earned under these plans carried over to the Plan. The Plan is intended to be qualified under Sections 1081.01(a) of the Puerto Rico Internal Revenue Code of 2011, as amended ("PRIRC"). The Plan is a noncontributory defined benefit plan that covers substantially all hourly and salary employees of the Company and provides for retirement and death benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was amended and restated effective January 1, 2011. On March 28, 2013, the Plan was amended to exclude from participation certain employees who are classified on and after April 1, 2013, as new hires, rehires and/or certain transfers. The Plan was amended on December 21, 2023, to identify Eaton Intelligent Power Limited as the "Company" and "Plan Sponsor" effective December 29, 2023. The Plan was most recently amended on December 12, 2024, to implement a delayed freeze of the Plan effective December 31, 2026. All members participating in the Plan will begin participation in the defined contribution plan for service beginning January 1, 2027. The Company is a subsidiary of Eaton Corporation plc ("Eaton").

Funding Policy:

The Company makes contributions in amounts sufficient to maintain the Plan on a sound actuarial basis. The Company's policy is to fund at least the ERISA minimum funding requirement for the year. The Plan has met the ERISA minimum funding requirements. The Company has the right to amend and/or terminate the Plan subject to the provisions of ERISA.

Pension Benefits:

Participants are vested in their benefits earned under various methods defined in the Plan. Normal retirement age is 65. Participants may be entitled to early retirement payments based on the Plan document. Forms of payment include lump sum options, and various annuity options depending on whether the participant has a spouse and what type of joint and survivor option the participant chooses.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

2 Summary of Significant Accounting Policies, Continued

Investment Valuation:

Plan investments are reported at fair value. Registered investment companies are valued at the closing price on the last business day of the Plan year. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Actuarial Present Value of Accumulated Plan Benefits:

Accumulated Plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits for hourly employees under the Plan are based on the greater of career pensionable compensation multiplied by a predetermined percentage or years of credited service multiplied by a monthly factor. The benefits for salaried employees in the traditional plan are based on final average pay multiplied by a predetermined percentage and the employees' years of credited service. The benefits for employees in cash balance plans are based on the current value of the account balance.

Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated Plan benefits.

Administrative Fees:

All administrative costs, management fees and expenses of the Plan are paid by the Trustee from the trust unless such costs, fees and expenses are paid by the Company. The Company elected to pay certain administrative costs during 2025 and 2024, on behalf of the Plan. The administrative costs paid by the Plan are accounted for in setting the assumed rate of return on investments.

Payment of Benefits:

Benefit payments to participants are recorded upon distribution.

2 Summary of Significant Accounting Policies, Continued

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event that the Plan terminates, the net assets of the Plan shall be allocated among the participants and beneficiaries in accordance with the priorities mandated by ERISA. Whether a particular participant's accumulated Plan benefits will be paid depends on the priority of those benefits. Some benefits may be fully or partially provided for by the then existing assets, while other benefits may not be provided for at all. A full description of the defined benefit plan termination priorities is available in the Plan document.

Risks and Uncertainties:

The Plan's investments include investments in registered investment companies with varying degrees of risk, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Subsequent Events:

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through October 9, 2026, which is the date the financial statements were available to be issued.

3 Tax Status

The Plan has received a determination letter from the Puerto Rico Department of the Treasury dated August 13, 2025, stating that the Plan meets the requirements of Section 1081.01 of the Puerto Rico Internal Revenue Code of 2011 (“PRIRC”); therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the PRIRC to maintain its qualification. The Plan Sponsor believes the Plan is being operated in compliance with the applicable requirements of the PRIRC and, therefore, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2025, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. No audits for any tax periods are in progress.

4 Accumulated Plan Benefits

The Plan's actuary estimates the actuarial present value of accumulated Plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated Plan benefit information as of the beginning of the Plan Year is as follows:

	January 1, 2025
Actuarial present value of accumulated Plan benefits:	
Vested benefits:	
Participants currently receiving payments	**$ 38,261,004**
Other participants	**50,949,678**
	89,210,682
Non-vested benefits	**1,771,021**
Total	**$ 90,981,703**

The changes in actuarial present value of accumulated Plan benefits are as follows:

Balance as of January 1, 2024	**$ 86,791,919**
Benefits accumulated	**2,542,688**
Interest	**6,290,768**
Benefits paid	**(4,733,572)**
Assumption changes	**89,900**
Balance as of January 1, 2025	**$ 90,981,703**

Significant assumptions underlying the actuarial computations are:

Actuarial cost method	Projected unit credit
Assumed rate of return on investments / Discount Rate	7.25%
Salary increase	Age-graded scale of 1.5% to 4.0% for hourly participants and 3.0% to 8.0% for salaried participants.
Mortality and Projection Scale	Pri-2012 Employee, Healthy Retiree and Contingent Survivor Mortality Tables projected generationally from 2012 using a modified Scale MP-2021, and the Pri-2012 Disabled Mortality Tables projected generationally from 2012 using a modified Scale MP-2021 for disabled salaried participants were used. The MP-2021 projection scale was modified using a long-term improvement rate assumption of 0.75% in 2037.

4 Accumulated Plan Benefits, Continued

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

5 Party-in-Interest Transactions

During 2025 and 2024, internal costs attributed to certain accounting and legal services and external fees for certain professional services were paid by the Company on behalf of the Plan, while the Plan paid fees for trustee, actuarial, investment management and other professional services. In addition, the Plan has arrangements with various service providers, and these arrangements qualify as party-in-interest transactions.

6 Fair Value Measurements

United States Generally Accepted Accounting Principles Accounting Standards Codification 820 ("ASC 820"), which applies to financial assets and liabilities, establishes a framework for measuring fair value, establishes a fair value hierarchy based on inputs used to measure fair value, and expands disclosure about fair value measurements. Adopting this statement has not had an effect on the Plan's net assets available for benefits or changes in those net assets.

In accordance with ASC 820, the Plan categorized its financial instruments, based on the degree of subjectivity inherent in the valuation technique, into a fair value hierarchy of three levels, as follows:

• Level 1 - inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

• Level 2 - inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

• Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Registered investment companies : Valued at the net asset value (NAV) of shares held by the Plan at year-end.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025:

	Totals	Level 1 Fair Value
Registered investment companies	**$ 105,235,855**	**$ 105,235,855**

6 Fair Value Measurements, Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024:

	Totals	Level 1 Fair Value
Registered investment companies	$ 90,988,690	$ 90,988,690

Vested Benefits upon Termination of Service

Vesting: 100% of the accrued benefit is vested after completion of three (3) years of eligibility service.

Termination Benefit: The benefit is the full account payable at termination.

Disability Retirement Benefit

If a participant becomes totally and permanently disabled and received disability benefits under Eaton Corporation’s Long Term Disability (LTD) Plan, his account will continue to earn pay-based and interest credits. The pay-based credits are calculated based on the following pay formula; base pay in effect at the date of disability; plus a three-year average of the executive incentive compensation; plus a three-year average of the variable pay. During the disability, the participant will also continue to earn Service for purposes of vesting. When the participant reaches age 65 or the LTD benefits end – whichever comes later – the participant will begin receiving benefits under any of the payment options offered by the plan.

Death Benefits

Upon the participant’s death, the vested portion of the account will be payable to the beneficiary. If the participant is married, the spouse will be automatically designated to be the beneficiary. If the participant is single, the participant may name anyone as beneficiary to receive the death benefit payable.

Optional Forms of Retirement Income in Lieu of Normal Form

The participant, depending on marital status, may elect to receive the plan benefit under one of the following payment options: lump sum (automatic if benefit amount is $1,000 or less); 10 years certain and life annuity; joint and survivor annuities with 50%, 75% or 100% to the survivor; or a Social Security level income annuity.

The benefit accrued up to the late retirement date, considering compensation and credited service up to that date. Benefits are increased actuarially if payment is not deferred after age 70½.

Early Retirement Benefit

Early Retirement Date: Age 60 and completion of ten (10) years of eligibility service.

Benefit:

1. The monthly benefit accrued at the early retirement date reduced by 1/3 of 1.0% for each month by which the Early Retirement Date precedes the Normal Retirement Date; plus
2. A supplemental benefit payable for the period from the Early Retirement Date to the first day of the month coincident with or next following attainment of age 62, equal to the greater of (a) and (b):

If eligibility service under Westinghouse as of February 1, 1994 was at least equal to ten (10) years, Westinghouse will be responsible for the payment of the minimum supplemental amount shown in item 2.b. in respect of service up to February 1, 1994. The Plan will pay the balance of $1.00 per year of service after February 1, 1994.

Vested Benefits upon Termination of Service

Vesting: 100% of the accrued benefit is vested after completion of five (5) years of eligibility service.

Termination Benefit: The vested deferred benefit is the vested portion of the accrued benefit determined as of the termination date. Payment may commence prior to age 65 if the participant had completed ten (10) years of eligibility service, in which case it is reduced by ½ of 1.0% for each month by which the benefit commencement date precedes Normal Retirement Date.

Death Benefits

Upon the death of a participant who has been married for at least one (1) year and who is eligible for early retirement, an immediate pension is payable to the participant's spouse. The monthly benefit is equal to 55% of the accrued benefit as of the date of death reduced for commencement prior to age 65 and by the applicable joint and survivor reduction factors.

Upon the death of a vested participant who has been married for at least one (1) year and who is not eligible for early retirement, a deferred pension is payable to the participant's spouse. The monthly benefit is equal to 55% of the actuarial equivalent of the accrued benefit on the date of death on a joint and 55% survivor basis. Payment can begin on the earliest date the participant could have retired; however, if payment begins before age 65, the early retirement reduction factor will apply.

Economic Assumptions

Interest Rate Basis:

Applicable month	September
Interest rate basis	3-Segment Rates

Interest Rates:

	Reflecting Corridors	Not Reflecting Corridors
First segment rate	5.07%	5.07%
Second segment rate	5.31%	5.33%
Third segment rate	5.50%	5.36%
Effective interest rate	5.40%	5.33%

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Cash Balance Interest Credits

With respect to interest credits, account balances are assumed to increase by 5.00% per year.

Cash Balance Index Credits

Opening account balances subject to indexing are assumed to increase by 2.50% per year (in addition to interest credits) during active employment.

Assumed Cost of Living Adjustments

Not applicable.

SCHEDULE SB ATTACHMENTS

Plan-related Expenses

The amount included this year for plan-related expenses is $432,000, which is equal to the prior year actual expenses paid by the trust rounded to the nearest thousand.

65	1.75%	3.50%
70	1.50%	3.00%

Future Increases in Social Security

Social Security Taxable Wage Base is assumed to increase in the future due to increases in the National Average Wage index of 3.00% per year, compounded annually.

Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under the Puerto Rico IRC §1081.01(a)(11). Plan compensation in 2012 and later is limited to the maximum presently allowed by the Puerto Rico IRC §1081.01(a)(12). No provision is made for future increases in the maximum annual benefit or compensation limit.

Form of Payment

Salaried cash balance participants: 18% of participants are assumed to elect a single life annuity, 1% are assumed to elect a joint and 50% survivor annuity, 1% are assumed to elect a joint and 100% survivor annuity, and 80% are assumed to elect the lump sum optional form of payment. It is assumed that terminated participants commence their benefits at age 62.

Hourly participants: 100% of participants are assumed to elect the normal form of payment, which is a life annuity with five years guaranteed. It is assumed that terminated participants commence their benefits at age 65.

Challenger Caribbean frozen benefits are valued with the normal form of payment for these benefits, which is a single life annuity. It is assumed that terminated participants commence their benefits at age 65.

Lump sums were valued using the substitution of annuity form under IRS Regulation §1.430(d)-1(f)(4).

Annuities were calculated from the cash balance accounts using the required methodology in IRS Regulation §1.430(d)-1(f)(5).

Marriage

For purposes of valuing the pre-retirement surviving spouse's benefit, 80% of all participants are assumed to be married. Assumption is not applicable for salaried participants who can have a non-spouse beneficiary. Male spouses are assumed to be three (3) years older than female spouses.

Employees

It was assumed there will be no new or rehired employees.

Plan Compensation

Salaried participants: Plan compensation is the expected base pay rate for the valuation year plus a three-year average of executive incentive compensation (EIC) plus a three-year average of variable non-EIC bonus compensation.

Hourly participants: Plan compensation is actual gross earnings during the prior year, provided by the employer.

SCHEDULE SB ATTACHMENTS

Methods

Valuation Date

First day of plan year.

Funding Target

Present value of accrued benefits as required by regulations under IRC §430.

Target Normal Cost

Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Decrement Timing

The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Asset Method: Average Value

Average of the fair market value of assets on the valuation date and the dates 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable. The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not Included in Valuation

Actual early retirement supplements for Hourly participants have not been valued. The total amount of early retirement supplements that has been paid to actual retirees over the last several years has been deemed immaterial.

Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest Rate Basis:

Applicable month	September
Interest rate basis	3-Segment Rates

Interest Rates:

	Reflecting Corridors	Not Reflecting Corridors
First segment rate	5.07%	5.07%
Second segment rate	5.31%	5.33%
Third segment rate	5.50%	5.36%
Effective interest rate	5.40%	5.33%

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Cash Balance Interest Credits

With respect to interest credits, account balances are assumed to increase by 5.00% per year.

Cash Balance Index Credits

Opening account balances subject to indexing are assumed to increase by 2.50% per year (in addition to interest credits) during active employment.

Assumed Cost of Living Adjustments

Not applicable.

SCHEDULE SB ATTACHMENTS

Plan-related Expenses

The amount included this year for plan-related expenses is $432,000, which is equal to the prior year actual expenses paid by the trust rounded to the nearest thousand.

Compensation Increases

Future compensation is assumed to increase at an age-related rate per annum, as shown below:

Age	Hourly Participants	Salaried Participants
20	4.00%	8.00%

60	2.00%	4.00%
65	1.75%	3.50%
70	1.50%	3.00%

Future Increases in Social Security

Social Security Taxable Wage Base is assumed to increase in the future due to increases in the National Average Wage index of 3.00% per year, compounded annually.

Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under the Puerto Rico IRC §1081.01(a)(11). Plan compensation in 2012 and later is limited to the maximum presently allowed by the Puerto Rico IRC §1081.01(a)(12). No provision is made for future increases in the maximum annual benefit or compensation limit.

It is assumed that terminated participants commence their benefits at age 62.

Hourly participants: 100% of participants are assumed to elect the normal form of payment, which is a life annuity with five years guaranteed. It is assumed that terminated participants commence their benefits at age 65.

Challenger Caribbean frozen benefits are valued with the normal form of payment for these benefits, which is a single life annuity. It is assumed that terminated participants commence their benefits at age 65.

Lump sums were valued using the substitution of annuity form under IRS Regulation §1.430(d)-1(f)(4).

Annuities were calculated from the cash balance accounts using the required methodology in IRS Regulation §1.430(d)-1(f)(5).

Marriage

For purposes of valuing the pre-retirement surviving spouse's benefit, 80% of all participants are assumed to be married. Assumption is not applicable for salaried participants who can have a non-spouse beneficiary. Male spouses are assumed to be three (3) years older than female spouses.

Employees

It was assumed there will be no new or rehired employees.

Plan Compensation

Salaried participants: Plan compensation is the expected base pay rate for the valuation year plus a three-year average of executive incentive compensation (EIC) plus a three-year average of variable non-EIC bonus compensation.

Hourly participants: Plan compensation is actual gross earnings during the prior year, provided by the employer.

SCHEDULE SB ATTACHMENTS

Methods

Valuation Date

First day of plan year.

Funding Target

Present value of accrued benefits as required by regulations under IRC §430.

Target Normal Cost

Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Decrement Timing

The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Asset Method: Average Value

Average of the fair market value of assets on the valuation date and the dates 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable. The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not Included in Valuation

Actual early retirement supplements for Hourly participants have not been valued. The total amount of early retirement supplements that has been paid to actual retirees over the last several years has been deemed immaterial.
