Independent Auditors' Report

To the Plan Administrator and members of the Employee Benefits Committee
FCA US LLC Pension Plan
FCA US LLC Consolidated Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of FCA US LLC Pension Plan and the FCA US LLC Consolidated Plan (the Plans), employee benefit plans subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plans and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plans' ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plans' internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Notes to Financial Statements

Note 1. Plan Description

The following descriptions of the FCA US LLC Pension Plan (FCAPP) and the FCA US LLC Consolidated Plan (FCON Plan) (collectively, the Plans) provide only general information. Participants should refer to the Plans' legal documents for a more complete description of each Plan's provisions.

General

The Plans are defined benefit pension plans that were established effective on certain dates in 1950. The Plan Sponsor is FCA US LLC (FCA, the Company, the Plan Administrator, or the Plan Sponsor). The Plans are subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The FCAPP covers employees of FCA US LLC and certain of its subsidiaries that generally do not participate in a bargaining unit. However, employees represented by Local 324, International Union of Operating Engineers, AFL-CLO (IUOE), participate in the FCAPP. The FCAPP was closed to new entrants as of January 1, 2004 and benefit accruals were frozen, except for IUOE represented employees, effective December 31, 2013.

In May 2013, the FCAPP, FCA US LLC Salaried Employees' Retirement Plan (SERP) and the FCA US LLC Executive Salaried Employees' Retirement Plan (ESERP) were amended as follows:

- Effective December 31, 2013 (the Freeze Date), except to the extent required by a collective bargaining agreement, any employee who is a participant in the Plans and who had not already ceased accruing benefits will cease accruing benefits for service performed after the Freeze Date (the Affected Employees). Service after the Freeze Date will continue to be credited for purposes of vesting and retirement eligibility only.

- Effective January 1, 2014, with respect to an employee who retires or terminates employment on or after January 1, 2014, the age reduction factors under the Plans' early retirement provisions have been enhanced to allow an employee to retire with an unreduced benefit at age 58. The age reduction factors between ages 55 and 58 have also been reduced consistent with this enhancement.

Effective December 31, 2014, the SERP and the ESERP merged into the FCAPP and the associated SERP and ESERP assets and accumulated plan benefits transferred to the FCAPP. The SERP and ESERP were contributory defined benefit pension plans.

The purpose of the merger was to consolidate plan administration and financing. The merger was not intended to, and did not, impact the level of benefits that were provided under the FCAPP, SERP and ESERP immediately before the merger. Following the merger, each participant in the SERP and or ESERP on the merger date shall continue to have his or her benefits and rights determined under the terms of the SERP and ESERP as in effect immediately before the merger, which terms were incorporated into and became part of the FCAPP for purposes of defining former SERP and ESERP participants' benefit entitlements.

Note 1. Plan Description (continued)

Prior to the Freeze Date, SERP and ESERP were supported by FCA and employee contributions. Employee contributions ceased effective as of the Freeze Date. Included in the assets of the FCAPP are vested employee contributions and accumulated interest summarized as follows:

	2025	2024
Vested employee contributions and interest	**$37,270,957**	**$37,464,707**

The interest rates credited to employee contributions for 2025 and 2024 were 5.10% and 5.25%, respectively. The interest amounts have also been included in the FCAPP's accumulated plan benefit obligation at December 31, 2025, and 2024.

The FCON Plan is the former International Union of Electronic, Electrical, Technical, Salaried, Machine and Furniture Workers Plan (IUE) and includes participants formerly covered under the collective bargaining agreement between FCA (or its predecessors) and the IUE. The FCA US LLC-IUE Pension Agreement was renamed FCON. The FCON Plan was closed to new entrants and credited service for purposes of benefit accrual was frozen effective May 1, 2002.

The FCON Plan also includes participants formerly covered under the FCA US LLC - SPFPA Pension Agreement (SPFPA Plan). The SPFPA Plan includes participants formerly covered under the collective bargaining agreement between FCA (or its predecessors) and the International Union, Security Police Fire Professionals of America (formerly known as the United Plant Guard Workers of America) (SPFPA). The SPFPA Plan was closed to new entrants effective September 30, 2005.

Certain participants from the FCAPP were transferred to the FCON Plan on December 30, 2016. December 30, 2018 and December 30, 2021.

The Plans were amended and effective January 4, 2021, to provide credited service for vacation time earned by and paid to hourly employees represented by the IUOE and amended December 10, 2020, for required minimum distributions under the Plans as permitted by the Setting Every Community Up for Retirement Enhancement (SECURE) Act of 2019 effective January 1, 2020. Additionally, the Plans were amended June 15, 2023, for required minimum distributions under the plans as permitted by the SECURE 2.0 Act of 2022 (SECURE 2.0 Act), effective January 1, 2023.

At a meeting of the FCA US LLC Employee Benefits Committee (EBC) held on September 19, 2025, the EBC approved the following: (1) amendment of the Plans to provide for mandatory cash-outs of up to $7,000 (employee contributions plus interest) to terminated non-vested participants and to provide for mandatory cash-outs of up to $7,000 (present value of accrued benefit) for terminated vested participants, (2) amendment and restatement of the FCAPP, effective January 1, 2025 and (3) amendment and restatement of the FCON, effective January 1, 2025.

Note 1. Plan Description (continued)

The Plans include IUOE represented participants as described above. A tentative agreement between FCA and the IUOE was reached on February 8, 2024. The Plans were amended June 6, 2024 for the IUOE 2023 bargained agreements that are effective November 15, 2023. The IUOE bargained changes include the following provisions: annual lump sum payments for current retirees and pension rate increases for future retirees.

Vesting

Full vesting occurs following the fifth year of credited service as defined in the respective plan documents.

Funding

Employer contributions are determined by an independent actuary, Mercer (US), Inc. FCA contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants and satisfy the ERISA minimum funding requirements. The Plans have met the ERISA minimum funding requirements for 2025 and 2024. The contributions are funded on or before the required dates as set forth by ERISA. The Company at its option can contribute more than the minimum required.

Plan Termination

In the event the Plans terminate, the net assets of the Plans will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.

2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plans. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plans' provisions in effect at any time during the five years preceding Plans' termination.

3. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.

4. All other vested benefits (that is, vested benefits not insured by the PBGC).

5. All nonvested benefits.

Benefits to be provided via contracts under which FCA is obligated to pay the benefits would be excluded for allocation purposes.

Note 1. Plan Description (continued)

Certain benefits under the Plans are insured by the PBGC if the Plans terminate. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits, and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits under the Plans, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plans are guaranteed at the level in effect on the date of the Plans' termination.

Although it has not expressed an intention to do so, FCA reserves the right under the Plans to discontinue its contributions at any time and to terminate the Plans subject to the provisions set forth in the plan documents and ERISA. Upon termination, the net assets of the Plans will be allocated for payment to the participants in an order of priority as prescribed by ERISA and its related regulations and the plan documents.

Whether all participants receive their benefits should the Plans terminate at some future time will depend on the sufficiency, at that time, of the Plans' net assets to provide for accumulated plan benefits and may also depend on the financial condition of FCA and the level of benefits guaranteed by the PBGC as well as the priority of those benefits. Some benefits may be fully or partially provided for by the then-existing net assets of the Plans and the PBGC guarantee, while other benefits may not be provided for at all.

Administrative Expenses

The Plans' expenses are paid either by the Plans or the Company, as provided by the plan documents. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plans that are paid by the Plans are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in Plan interest in the FCA US LLC Master Retirement Trust investment gain - net of investment expenses line presented in the accompanying statements of changes in net assets available for benefits.

Retirement Age

For legacy CPP employees under FCAPP and FCON, normal retirement age is the later of age 65 and 1 year of credited service. Early retirement is permitted at 30 years of credited service, or at least age 55 with 85 age-service points, or at least age 55 and 10 years of credited service. Special early retirement is permitted at age 55 and 10 years of credited service, or age 50 and 10 years of credited service with benefits deferred to age 55. In addition to the age and service requirement for a special early retirement, participants must meet one of the Adverse Circumstances Requirements, which include a permanent shut down of a plant or discontinuance of operations, a permanent layoff, or physical or mental inability to perform work in a satisfactory manner due to partial disability of a permanent nature.

For FCON and FCAPP (formerly SERP and ESERP) employees, normal retirement age is 65. Early retirement is permitted at age 55 with 10 years of service. Special early retirement is permitted at age 55 and 10 years of credited service, or age 50 and 10 years of credited service deferred to age 55 (if laid off permanently). In addition, participants must meet one of the Special Early Standards, which include permanent layoff, inability to perform their work or an extended period of disability.

Note 1. Plan Description (continued)

For FCON (formerly known as IUE) employees, normal retirement age is the later of age 65 and 1 year of credit service (Tier I) or the later of age 65 and 10 years of credited service (Tier II). Early retirement is permitted for Tier I at 30 years of credited service, or at least age 55 with 85 age-service points, or at least age 60 and 10 years of credited service. Early retirement is permitted for Tier II at age 60 and 10 years of service. Special early retirement (for Tier I only) is permitted at age 55 and 10 years of credited service, or age 50 and 10 years of credited service (if laid off as a result of a plant closing). In addition, participants must meet one of the Special Early Standards, which include plant shutdown, permanent layoff, or inability to perform their work.

For FCON (legacy SPFPA) employees, normal retirement age is the later of age 65 and 1 year of credited service. Early retirement is permitted at 30 years of credited service or at least age 55 with 85 age-service points or age 60 and 10 years of credited service. Special early retirement is permitted at age 55 and 10 years of credited service, or age 50 and 10 years of credited service (if laid off as a result of a plant closing). In addition, participants must meet one of the special early standards, which include plant shutdown, permanent layoff, or inability to perform their work.

Non-Contributory Benefits

Retirement eligible participants are eligible for a monthly pension benefit payable for their lifetime in an amount equal to the basic benefit rate times credited service, reduced for early commencement, as defined in the applicable plan document. The basic pension rate is based on the participant's benefit class code. Eligibility for an early retirement supplement, interim supplement or temporary benefit is determined based on credited service and retirement type (e.g., permanent and total disability, special early, etc.). Supplements and the temporary benefit are payable until the participant's age 62 and 1 month.

Deferred vested participants are eligible for a monthly benefit payable for their lifetime in an amount equal to the basic benefit rate times credited service, reduced for early commencement, as defined in the applicable plan document. The basic pension rate is based on the participant's benefit class code. Deferred vested participants are not eligible for supplements or the temporary benefit.

Contributory Benefits

Retirement eligible participants and deferred vested participants who made contributions to SERP or ESERP are eligible for a monthly benefit payable for their lifetime in an amount equal to their contributions to the plan times 5%, reduced for early commencement, as defined in the applicable plan document.

Retirement eligible participants and deferred vested participants also may be eligible for a final average salary benefit. The final average salary benefit is calculated first by determining a target benefit. The target benefit is 2.25% of the participant's average monthly salary for each of the first 20 years of credited service, plus 2% for each of the next 8.5 year of credited services (maximum 62%). This target benefit is offset by 1) 50% of the participant's social security benefits, or, if the participant has not yet reached age 62 and one month, the supplement payable (if any) 2) the basic benefit payable under the UAW plan or CPP, and 3) the contributory benefit.

Note 1. Plan Description (continued)

Benefits

In addition to normal retirement benefits and early retirement benefits, there are supplemental retirement benefits, disability benefits, supplemental disability benefits and death benefits, whose amounts and eligibility requirements are further described in the Plans' document.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. Significant estimates include actuarial assumptions used to determine the present value of accumulated plan benefits, such as discount rates, life expectancy, and retirement ages.

Investment Valuation and Income Recognition

The Plans invest in the FCA US LLC Master Retirement Trust (Master Trust) which was established for the investment of assets of the Plans and other FCA sponsored defined benefit retirement plans.

The Master Trust investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See *Note 5, Fair Value Measurements,* for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Investment income consists of interest and dividend income as well as the realized gains or losses on investments sold during the year and the unrealized appreciation (depreciation) on investments held at the end of the year. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Refer to *Note 4, Interest in FCA US LLC Master Retirement Trust*, for additional information related to the Master Trust.

Each participating retirement plan has an undivided interest in the Master Trust. The fair value of the Plans' interest in the Master Trust represents each plan's allocated portion. Each plan’s allocated portion of the Master Trust is equal to the beginning of the year value of the plan’s interest in the Master Trust plus actual plan contributions and allocated investment income, less actual plan distributions and allocated administrative expenses. Investment income is allocated proportionately on a monthly basis based on the plan interest in the Master Trust.

Note 2. Summary of Significant Accounting Policies (continued)

Benefit Payments

Benefits are recorded when paid.

Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect the amounts reported in the financial statements. Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Recent Accounting Pronouncements

No recent accounting pronouncements.

Note 3. Accumulated Plan Benefits

Accumulated plan benefits represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plans' provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include amounts expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee services rendered to the valuation date.

The Plans' actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal, or retirement) between the valuation date and the expected date of payment.

Actuarial assumptions used in the determination of accumulated plan benefits at December 31, 2025, and 2024 include the following:

Discount Rate

The rates used at December 31, 2025, and 2024 were 5.43% and 5.70%, respectively.

Note 3. Accumulated Plan Benefits (continued)

Actuarial Method

Projected unit credit cost method.

Mortality

At December 31, 2025, FCA Non-Bargaining and Bargaining Units (former SERP and ESERP participants) plan specific mortality tables used for males and females with a base year of 2023 assuming generational improvements using Scale MSS-2025.

At December 31, 2024, FCA Non-Bargaining and Bargaining Units (former SERP and ESERP participants) plan specific mortality tables used for males and females (benefits weighted and adjusted to reflect 2018 and 2017 annuity purchases) with a base year of 2018 assuming generational improvements using Scale MSS-2024.

Turnover

For the FCAPP Plan, turnover was based on a range of possibilities that an employee will terminate employment, from 10.4% for males and females at age 20 to 1.0% for males and females at age 65 as of December 31, 2025, and 11.7% for males and females at age 20 to 1.1% for males and females at age 65 as of December 31, 2024.

For the FCON Plan, turnover was based on a range of possibilities that an employee will terminate employment from 9.5% for males and females at age 20 to 0.3% for males and females at age 65 as of December 31, 2025, and December 31, 2024.

Assumed Retirement Age

For the FCAPP, employees eligible for early retirement at the employee's option were assumed to retire at rates varying from 0% at age 47 to 100% at age 70 at December 31, 2025, and 2024.

For the FCON Plan, employees eligible for early retirement at the employee's option were assumed to retire at rates varying from 0% prior to age 47 to 100% at age 75 and over with separate rates based on service at December 31, 2025, and 2024.

The foregoing actuarial assumptions are based on the presumption that the Plans will continue. If the Plans were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present values of accumulated plan benefits of the respective terminated plan.

Note 4. Interest in FCA US LLC Master Retirement Trust

Certain information related to investments of the Plans and the Master Trust disclosed in the accompanying financial statements including investments held at December 31, 2025, and 2024, and net appreciation (depreciation) in fair value of investments, interest and dividends for the year ended December 31, 2025, was obtained or derived from information provided to the Plan Administrator and certified as complete and accurate by State Street Bank and Trust Company (the Trustee).

At December 31, 2025, and 2024, the Plans' respective interests in the Master Trust were as follows:

Plan	2025	2024
FCAPP	24.6%	25.5%
FCON Plan	5.5%	4.4%

The Plan Sponsor’s investment committee is the investment fiduciary and has primary responsibility for the investment of the Master Trust as delegated by the Board of Directors of the Plan Sponsor.

The investment committee has the responsibility of reviewing and approving the investment policies related to the plan assets in the Master Trust; evaluating the performance of the investments in accordance with the investment policy; reviewing the investment objectives, risk characteristics, expenses and historical performance; and selecting, removing and evaluating the investment managers. The investment committee meets at least quarterly to review the performance of the investment managers and advisors. The investment strategies and objectives for pension assets reflect a balance of liability-hedging and return-seeking considerations. The investment objectives are to minimize the volatility of the value of the pension assets relative to the pension liabilities and to ensure pension assets are sufficient to pay plan obligations.

The objective of minimizing the volatility of assets relative to liabilities is addressed primarily through asset diversification, partial asset-liability matching and hedging. Assets are broadly diversified across many asset classes to achieve risk-adjusted returns that, in total, lower asset volatility relative to the liabilities. In order to minimize pension asset volatility relative to the pension liabilities, a portion of the pension plan assets are allocated to fixed-income investments. Through its investment activities, the Master Trust is subject to certain credit risks, which the investment committee controls through adherence to investment and diversification standards. In management’s opinion, no concentration of credit risk exists for the Master Trust.

Note 4. Interest in FCA US LLC Master Retirement Trust (continued)

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA as of December 31, 2025, and 2024, and for the years then ended. Accordingly, State Street Bank and Trust Company, a qualified institution, has certified that the following investment information included in the accompanying financial statements is complete and accurate:

- Plan interest in the FCA US LLC Master Retirement Trust as shown in the accompanying statements of net assets available for benefits as of December 31, 2025, and 2024.
- Plan interest in the FCA US LLC Master Retirement Trust investment gain, as shown in the accompanying statements of changes in net assets available for benefits for the year ended December 31, 2025.
- Investment information as shown in *Note 4 - Interest* in FCA US LLC Master Retirement Trust as of and for the years ended December 31, 2025, and 2024.

At the request of the Plan Administrator, the Plans' independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and ERISA required supplemental schedules.

During the year ended December 31, 2025, the Master Trust net investment income was comprised of the following:

Investment gain (loss):	**2025**
Net realized and unrealized gain	$ 1,145,734,994
Interest	227,352,569
Dividends	8,611,362
Total investment gain	1,381,698,925
Investment expenses	(71,135,287)
Net investment gain	$ 1,310,563,638

Securities Lending

The Master Trust participates in a securities lending arrangement with State Street Bank and Trust company (the bank), pursuant to a Securities Lending Authorization Agreement effective October 2024.

Note 4. Interest in FCA US LLC Master Retirement Trust (continued)

The securities lending arrangement authorizes the bank to lend securities held in the Master Trust to pre-approved borrowers. The bank must obtain cash or acceptable collateral to secure the loans. Acceptable forms of collateral include cash, securities, or letters of credit, as determined in accordance with Bank's securities lending program and applicable ERISA requirements. Collateral levels are monitored to maintain appropriate collateralization of securities on loan.

In the event that the loaned securities are not returned by the borrower, the Bank will, subject to the terms of the agreement, either replace the loaned securities or, if unable to purchase those securities on the the market, credit the Master Trust's accounts with cash equal to the fair value of the loaned securities. The Master Trust is indemnified by the Bank against borrower default in accordance with the requirements of ERISA Prohibited Transaction Exemption 2006-2016.

Cash collateral received is invested in accordance with the Master Trust's guidelines, including investment in the State Street Navigator Securities Lending Government Money Market Portfolio. Investment income reported for the Master Trust includes $271,141 earned during 2025 in conjunction with the securities lending program.

The Master Trust’s securities lending activities are collateralized, and the bank provides indemnification against borrower default as described above. The terms of the securities lending agreement with the bank require compliance with government rules and regulations related to the lending of securities held by ERISA plans.

The securities lending program involves both market and credit risk. There were no losses during 2025 resulting from a default of the borrowers or the Trustee.

The Master Trust maintains ownership rights to the securities loaned and, accordingly, continues to classify loaned securities as investments. While the amount received as collateral is not recognized in the Master Trust net assets, the Master Trust separately recognizes a lending arrangement asset and a corresponding obligation in the Master Trust net assets presented in the fair value tables in Note 5, Fair Value Measurements. The fair value of the collateral received consists of $46,115,112 of cash and $4,577,862 of securities at December 31, 2025

Securities loaned at December 31, 2025, and December 31, 2024, consist of the following:

	2025	2024
Corporate debt securities	$ 38,662,158	$ —
Equity securities	10,774,277	—
Total loaned securities	$ 49,436,435	$ —

Note 5. Fair Value Measurements

The fair value framework provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). In some cases, the Net Asset Value (NAV) is used as a practical expedient for valuing an investment, in which case that investment is not categorized within the three levels of the fair value hierarchy. All investments for which fair value is measured using the NAV practical expedient are disclosed separately. The categories of the fair value hierarchy are described below:

- Level 1 - Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

- Level 2 - Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

    - Quoted prices for similar assets and liabilities in active markets
    - Quoted prices for identical or similar assets or liabilities in markets that are not active
    - Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
    - Inputs that are derived principally from or corroborated by observable market data by correlation or other means

- Level 3 - Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management’s own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

- Not leveled - Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk). NAV is used as a practical expedient to value the investment.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

The use of different market assumptions and/or different valuation techniques may have a material effect on the fair value amounts. Accordingly, the fair values presented herein may not be indicative of the amounts that could be realized in a current market exchange.

Note 5. Fair Value Measurements (continued)

Following is a description of the valuation techniques and inputs used for each general type of investment measured at fair value.

Valuation Techniques Used in the Fair Value Measurement of Financial Assets Carried at Fair Value

Cash and cash equivalents categorized as Level 1 are invested in short-term, high-quality government treasury securities whose fair value was based on unadjusted quoted prices in active markets for identical bonds. Short-term investments in Level 2 primarily represent repurchase agreements that are market priced by the fund manager using quoted prices for similar agreements in active markets.

Common and preferred stock securities valued using unadjusted quoted market prices are categorized as Level 1.Certain international and domestic common stock where there are unobservable inputs are categorized as Level 3.

Mutual funds are categorized as Level 1 and valued using quoted market prices.

Government securities, corporate bonds and mortgage-backed securities are comprised primarily of long-duration U.S. Treasury and global government bonds, as well as U.S., developed international and emerging market companies' debt securities diversified by sector, geography and through a wide range of market capitalizations. Pricing for investments categorized as Level 1 was obtained from unadjusted quoted prices in actively traded markets. Level 2 investment pricing is based on unadjusted quotations from brokers or pricing services engaged by the Trustee that utilize prices for similar assets and matrix pricing models.

Certain commingled funds are invested broadly in U.S., developed international and emerging market securities and are not publicly traded. Accordingly, those commingled funds are valued at their NAV based on the fair value of the underlying net assets as determined by the fund managers. These investments consist of common/collective trusts and 103-12 investment entities.

Private equity investments include limited partnerships that invest primarily in operating companies that are not publicly traded on a stock exchange. Private equity investment strategies include leveraged buyouts, venture capital, mezzanine and distressed investments. Certain of the 103-12 investments are limited partnership funds. Limited partnerships have original terms averaging 10 to 12 years and cannot be redeemed within the fund. Although it is not probable that any of such investments will be sold, it is possible to sell the limited partnership units in the secondary market. The fund managers provide the NAV which is used as the practical expedient to value the fund. The Plan Sponsor engages a pricing service whose valuation process consists of obtaining a quarterly NAV from the fund manager. These investments are valued at NAV based on the fair value of the underlying assets as determined by the fund managers.

Note 5. Fair Value Measurements (continued)

Real estate investments include those in limited partnerships, Real Estate Investment Trusts (REITs), and real estate funds that invest in various commercial and residential real estate projects both domestically and internationally. Limited partnerships have an average life of 10 to 12 years and cannot be redeemed within the fund, but in some cases can be sold on the secondary market. Although it is not probable that any of such investments will be sold, it is possible to sell the limited partnership units in the secondary market. REITs can be redeemed daily with one day's notice. The fund managers provide the NAV which is used to value the funds.

Hedge fund investments include those seeking to maximize absolute returns using a broad range of strategies to enhance returns and provide additional diversification. The fund managers provide the NAV.

The Plans' and Master Trust's net assets also include other assets and liabilities not measured at fair value on a recurring basis, including employer contributions receivable, accrued income receivable, payables, unsettled trades, and other liabilities. The fair value of these assets and liabilities is equal to the carrying amounts in the accompanying financial statements due to the short maturity of such instruments.

On an annual basis, the Plan Sponsor evaluates the inputs, assumptions and valuation methodologies of the respective fund managers and the pricing services to ensure that the NAVs are representative of fair value. Additionally, the audited financial statements of the funds are reviewed at the time they are issued.

Note 5. Fair Value Measurements (continued)

The following table sets forth a summary of the changes in the fair value of the Master Trust's Level 3 investment assets for the year ended December 31, 2025.

	Balance at January 1, 2025	Net Unrealized Gains/(Losses)	Net Realized Gains/(Losses)	Net Purchases, Issuances and Settlements	Balance at December 31, 2025
Common and preferred stock	$ 1,855,803	$ 171,556	$ 64,171	$ (64,171)	$ 2,027,359

Total	$ 5,162,926	$ 193,706	$ 64,171	$ 47,836	$ 5,468,639

Note 6. Derivative Financial Instruments

The Master Trust investment managers use derivative financial instruments to mitigate the risk of changes in interest rates and foreign currencies impacting the fair values of certain investments held by the Master Trust. Derivative financial instruments may also be used in place of physical securities when it is more cost effective and/or efficient to do so. FCA provides the Master Trust investment managers with guidelines pertaining to derivative use. The Master Trust investment managers must follow the approved strategies for their portfolios when using derivative financial instruments and invest in asset classes that are consistent with the guidelines. As such, FCA does not believe that the use of derivative financial instruments significantly increases the risk of the Master Trust investments.

The Master Trust invests in the following types of derivative instruments:

Foreign Exchange Forward Contracts

The Master Trust investment managers use such contracts to control foreign currency exposure associated with certain investments denominated in foreign currencies, with maturities generally within six months.

Futures and Options Contracts

The Master Trust investment managers enter into such contracts to manage market risk, with maturities generally within six months.

Swap Contracts

The Master Trust investment managers use interest rate swaps to both mitigate risk from changes in interest rates and in place of physical securities when it is more cost effective and/or efficient, with maturities greater than one year. The Master Trust investment managers also enter into credit default swaps to manage market exposure or to reduce exposure to defaults of corporate and sovereign issuers.

Note 6. Derivative Financial Instruments (continued)

Management has elected to present derivative information on a gross basis when subject to a master netting arrangement. The fair values of the Master Trust derivative financial instruments at December 31, 2025, and 2024, on a gross basis are as follows:

	Asset Derivatives		Liability Derivatives	
	2025	2024	2025	2024
Futures, options, and swaps	$ 23,502,423	$ 6,958,878	$ (22,291,619)	$ (86,305,339)
Foreign exchange forwards	9,530,976	35,596,582	(7,479,022)	(1,667,019)
Total	$ 33,033,399	$ 42,555,460	$ (29,770,641)	$ (87,972,358)

The following presents the net realized and unrealized gains/(losses) of derivatives for the year ended December 31, 2025:

	2025
Futures, options, and swaps	$ 265,781,667
Foreign exchange forwards	(35,604,091)
Total	$ 230,177,576

In connection with certain derivative instrument agreements, the Master Trust receives both cash and noncash collateral as security to mitigate the risk of counterparties not meeting obligations under the terms of the agreements. Cash collateral received, which approximated $8.5 million and $7.2 million at December 31, 2025, and 2024, respectively, is invested in a segregated account managed by the Trustee, which consists of high-quality, short-term fixed-income investments.

The Master Trust also pledges both cash and non-cash collateral to counterparties as security to mitigate the risk of the Master Trust not meeting obligations under the terms of the derivative agreements. The net assets of the Master Trust reflect, as an asset, cash collateral pledged by the Master Trust to counterparties. Cash collateral pledged approximated $21.5 million and $28.4 million at December 31, 2025, and 2024, respectively.

The notional amount represents the contract amount, not the amount at risk. The approximate notional amount of the Master Trust derivative instruments at December 31, 2025, and 2024, is as follows:

	2025	2024
Futures, options, and swaps	$ 3,071,483,559	$ 1,118,487,361
Foreign exchange	1,305,935,259	614,423,329
Total	$ 4,377,418,818	$ 1,732,910,690

Note 7. Tax Status

The FCAPP and FCON plans have received determination letters from the Internal Revenue Service (IRS) dated October 27, 2015 and December 8, 2015, respectively, stating that each Plan is qualified under Section 401(a) of the Internal Revenue Code (Code) and therefore, the related Master Trust is exempt from taxation. Subsequent to this determination by the IRS, the Plans have been amended. Once qualified, the Plans are required to operate in conformity with the Code to maintain its qualified status.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plans. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plans are subject to routine audits by taxing jurisdictions. There are no audits for any tax periods in progress.

Note 8. Transfers of Plan Assets

The Employee Benefits Committee may approve the transfer of some participants from one FCA defined benefit pension plan to another. When this occurs, the related net assets and related obligations of the participant are then transferred to the new plan.

Note 9. Party-In-Interest and Related Party Transactions

Some of the Master Trust investments in short-term investments are managed by State Street Global Advisors, an affiliate of the Trustee. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA. These investments earn interest at the market rates applicable for these types of investments. The interest is credited by the Trustee to the Master Trust.

The Plans paid certain expenses related to plan operations and investment activity to various service providers and the Plan Sponsor. These transactions are party-in-interest transactions under ERISA.

Note 10. Subsequent Events

Management evaluated subsequent events for the Plans through October 13, 2026, the date the financial sta tements were available to be issued.

Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2025, the limit is $280,000.
• Subsidiaries' Plan	Effective December 31, 2013, the Subsidiaries' Pension Plan was merged into this Plan. This plan was frozen and had mostly retirees and vested terminations.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated as of January 1, 2017 and as amended as of January 1, 2024, are included in this valuation:

- **Plan amendments excluded:** None
- **Late retirement increases:**
  - *Active participants:* Current employees who retire after age 71 are valued with a benefit reflecting an actuarial equivalent (AE) increase from age 71 to assumed benefit commencement age.
  - *Deferred vested participants:* Current deferred vested participants age 65 and above are assumed to receive an AE increase from age 65 to the earlier of benefit commencement age or their integer age (71, 72, or 73) at Required Beginning Date (RBD age). If benefit commencement age is above their RBD age, back payments with interest from RBD age to benefit commencement age are also assumed.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions

Plan provisions specific to funding

Additional benefits included or excluded

- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* This valuation includes contingent event benefits that occurred before the valuation date, and includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
  - Plan amendments: See above.
  - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
  - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** This valuation does not value the plan's unpredictable contingent event benefits, which are summarized above, because the likelihood of an event is de minimis.

Plan provision changes since prior valuation

None.

Schedule SB, Part V — Summary of Plan Provisions

FCAPP - Formerly Chrysler Group LLC Salaried Employees' Retirement Plan (legacy SERP)

Effective date and plan year	Original legacy SERP plan: April 30, 1941 (RIP Plan), January 1, 1951 (SPP Plan). Consolidated together on January 1, 1976 created legacy SERP. Legacy ESERP was a plan effective 1/1/1998 for employees who were eligible for incentive compensation. Restated plan: January 1, 2017 Plan year: Calendar year
Status of the plan	The plan was frozen with no future accruals effective December 31, 2013.
Significant events that occurred during the year	None
Definitions	
• Covered employees	Substantially all salaried employees of Stellantis and certain of its subsidiaries and affiliates are eligible for legacy SERP or legacy ESERP if hired prior to January 1, 2004. Effective on and after 1/1/1998, legacy SERP covers those employees who were never eligible for Incentive Compensation prior to 1/1/2014. These excluded employees are covered in legacy ESERP on and after 1/1/1998. Effective January 1, 1990, covered employees who were AMC and Jeep employees earned future service benefits under legacy SERP provisions.
• Participation	Prior to 1/1/2014 those salaried employees who meet (1), (2) and (3) below were eligible to become participants in the contributory portion of the Plan: (1) attained age 21 and completed one year of service or attained age 35 (2) pay exceeded the Contribution Salary Base (3) made Employee Contributions to the plan
• Employee contributions	2.5% of Salary in excess of the Contribution Salary Base. Contributions continue until the employee had contributed for 28-1/2 years after age 35. Future contributions ceased as of the Freeze Date.
• Contribution Salary Base	½ of the monthly Social Security contribution base rounded down to the nearest $25.
• Total Accumulated Contributions	Total employee contributions plus interest at 5% annually from 1/1/1976 through 12/31/1987. Effective 1/1/1988, the interest rate is equal to 120% of the mid-term applicable federal rate (AFR) in effect for the first month of each year.
• Year of Credited Service (for vesting and eligibility)	A one year computation period during which the Employee has completed 1,000 Hours of Service.
• Salary	Monthly base salary, excluding contingent, incentive or deferred compensation, cost of living payment, bonuses, amounts paid in lieu of overtime, premium pay, shift differentials, or other extra compensation. Pre-tax deferrals to the 401(k) plan, Flexible Benefits Program (but shall not include amounts added to base compensation payments pursuant to the Flexible Benefits Program), Income Deferral Plan and the Executive Employees' Supplemental Savings Plan are included.
• Average Monthly Salary	Average of salary at the beginning of each of the 60 consecutive credited months out of last 180 that produce the highest average. Average Monthly Salary was frozen as of the Freeze Date.

Schedule SB, Part V — Summary of Plan Provisions

• Frozen Primary Social Security benefit	If the employee is not eligible for retirement on the date he terminates, the PIA is calculated as if he had terminated on the Freeze Date with the PIA calculated assuming level future earnings from the Freeze Date to age 65, and then prorated by Credited Service as of the Freeze Date over projected age 65 Credited Service. If the employee is eligible for retirement on the date he terminates, the PIA is calculated as the lesser of 1) PIA as if he terminated on the Freeze Date (i.e. Termination PIA (shown above) for those not eligible for retirement and Age 62 PIA assuming zero future earnings to age 62 for those retirement eligible), and 2) PIA as if he had terminated on the Freeze Date with the PIA calculated assuming level future earnings from the Freeze Date to age 62, and then prorated by Credited Service as of the Freeze Date over projected age 62 Credited Service. For the minimum project and prorate benefit calculation, the PIA is calculated assuming level future earnings from the Freeze Date to age 65. In all future cases, the Social Security levels of 2013 will be used.
• Credited Months	For purposes of determining Final Average Salary Benefits: Aggregate pay periods (in months) that are included in Continuous Service. Service prior to age 21 is excluded. Months after 1/1/92 that employee was eligible but elected not to contribute to the plan are excluded. Credited Months were frozen as of the Freeze Date. Continuous Service is cumulative service from date of employment (after age 18) to date of severance.
• Freeze Date	December 31, 2013.
Normal retirement	
• Eligibility	Age 65
• Benefit	**Contributory**: Monthly benefit of 5% of employee contributions. Plus **Noncontributory**: A target benefit is calculated as 2-1/4% of the employee's Average Monthly Salary for each of the first 20 years of credited service, plus 2% for each of the next 8.5 years of credited service (maximum 62%). This target benefit is offset by 1) 50% of the employee's Frozen Primary Social Security benefit beginning at age 62 and 1 month, 2) the monthly benefits payable under the Pension Plan (and UAW Plan, as if frozen on 12/31/2013), and 3) the contributory portion of this plan (but, based only on post-age 35 contributions, determined as if the employee had contributed when eligible).
Special Early retirement	
• Eligibility	Age 55 and 10 years of credited service plus qualifications under eligibility standards specified in the Plan.

Schedule SB, Part V — Summary of Plan Provisions

- Benefit

Contributory: Same as Normal with no reduction for early commencement.

Plus

Noncontributory: No reduction for early commencement. The benefit is based on the greater of (i) or (ii):

(i) The benefit as computed under Normal Retirement, but limited to service after age 35, Average Monthly Salary, and Social Security, all as of the Freeze Date. The Primary Social Security amount is not offset until age 62.

(ii) The target benefit and offsets are further projected from the Freeze Date to age 65 assuming the Average Monthly Salary did not change. The net benefit is prorated by the ratio of actual service after age 21 at Freeze Date to the projected service after age 21 at age 65.

Regular Early retirement

- Eligibility

Age 55 and 10 years of credited service.

- Benefit

The contributory and noncontributory retirement benefits as if the employee were retiring under Special Early multiplied by a percentage based on age:

Retirement Prior to January 1, 2014		Retirement on or After January 1, 2014	
Age When Benefit Commences	%	Age When Benefit Commences	%
55	57.9%	55	57.9%
56	63.5%	56	71.9%
57	69.4%	57	85.9%
58	75.2%	58	100.0%
59	80.8%	59	100.0%
60	86.7%	60	100.0%
61	93.3%	61	100.0%

Deferred vested

- Eligibility

Upon termination after 5 years of credited service.

Schedule SB, Part V — Summary of Plan Provisions

• Benefit	The accrued contributory and noncontributory retirement benefits determined as follows: **Contributory**: For non-vested termination with Total Accumulated Contributions less than $1,000, a return of the Total Accumulated Contributions. If over $1,000, the participant may elect the return of the Total Accumulated Contributions, or the actuarial equivalent monthly benefit payable at termination or later. For vested terminations, a monthly benefit of 5% of employee contributions, deferred to age 65, or earlier actuarially reduced. Plus **Noncontributory**: The accrued portion of the noncontributory normal retirement benefit deferred to age 65, or earlier actuarially reduced. If termination occurs after the employee has completed 10 years of service after age 35, the accrued benefit is based on the greater of (i) and (ii) below. If termination occurs before the employee has completed 10 years of service after age 35, the accrued benefit is based on (ii) only. (i) The benefit as computed under Normal Retirement, but limited to service after age 35, Average Monthly Salary, and Social Security, all as of the Freeze Date. (ii) The target benefit and offsets are further projected from the Freeze Date to age 65 assuming the Average Monthly Salary did not change. The net benefit is prorated by the ratio of actual service after age 21 at Freeze Date to the projected service after age 21 at age 65.
Disability	
• Eligibility	Upon permanent total disability with 10 years of credited service after i) age 55 with benefits commencing immediately, or ii) completion of 10 years of contributory participation after age 35, with benefits commencing immediately, or iii) completion of 5 but less than 10 years of contributory participation after age 35 with benefits commencing at age 55.
• Benefit	The contributory and noncontributory retirement benefits determined as if the employee were retiring under Special Early Retirement.
Pre-retirement death	
• Eligibility	**Contributory**: Anyone who has made an employee contribution. **Noncontributory**: Age 60 and 10 years of service, or married for at least one year and vested.
• Benefit prior to retirement – Death after age 65	**Contributory**: Commuted Value of 120 monthly payments, or equivalent amount based on elected payment method. Plus **Noncontributory**: Commuted Value of 120 monthly payments, or equivalent amount based on elected payment method.

Schedule SB, Part V — Summary of Plan Provisions

• Benefit prior to retirement – Death before age 65	**Contributory**: If death before age 35, a lump sum of the Total Accumulated Contributions. Otherwise, a lump sum equal to 100 times the Accrued Contributory Monthly Benefit (5% of employee contributions). Plus **Noncontributory**: Only if at least age 60 with at least 10 years of service: Commuted Value of 120 monthly payments assuming retirement at date of death, reduced 7.5% per year for commencement prior to age 65, or equivalent amount based on elected payment method. For participants married for at least 1 year at death: Benefits are paid to the surviving spouse as a life annuity or equivalent amount, equal to the Actuarial Equivalent of the greater of (i) death benefits above, or (ii) 50% of the reduced normal or early retirement benefits, or vested termination benefits otherwise payable assuming immediate commencement at death and the Pre-Retirement Survivor Option reduction.
Unpredictable contingent event benefits	
• Event	Plant closing or discontinuance of operations.
• Eligibility	Age 50 with at least 10 years of service.
• Benefit	If at least age 55: Special Early Retirement Benefits. If at least age 50, but not yet age 55: Special Early Retirement Benefits, deferred to age 55.
Form of benefits	
• Automatic form for unmarried participants	10 year Certain and Life Annuity
• Automatic form for married participants	65% Joint and Surviving Spouse Annuity with 10 year guarantee
• Optional forms	Life Annuity, 10 year Certain and Life Annuity, 65% Joint and Surviving Spouse Annuity, 50%, 75%, or 100% Joint and Survivor Annuity (any beneficiary)
• Optional form conversion	Actuarial Equivalence: 1971 GAM 70%M/30%F, 9%. Conversion from Life Annuity to automatic form for married participants: factor of 0.95 if the retiree and spouse age does not differ by more than 5 years (+/- 0.005 for each full year that the age difference is greater than/less than 5 years)
Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2025, the limit is $280,000.

Schedule SB, Part V — Summary of Plan Provisions

• AMC and Jeep Benefits for service before 1/1/1990	For service before 1/1/1990, the benefit for former AMC and Jeep salaried employees is the greater of frozen accrued career average benefit and the benefit based on their AMC and Jeep service prior to 1/1/1990 and the updated (retirements after 1/1/2008) pension rates: Minimum Monthly Benefit: $53.65 times service. **AMC Supplement**: Excess of (a) over (b): (a) $3,140 per month for employees with over 30 years of total service (prorated down for AMC service less than 30 years) or an amount ranging from $22.35 to $48.25 (based on retirement age) times AMC service plus Minimum Monthly Benefit. (b) The greater of the AMC frozen accrued benefit or the Minimum Monthly Benefit. **Jeep Supplement**: Excess of (a) plus (b) over (c): (a) Only for employees with 30 or more years of total service: $50.80 times 30 years (prorated down for Jeep service less than 30 years) plus $17.15 times Jeep service in excess of 30 years. (b) The Minimum Monthly Benefit. (c) The greater of Jeep frozen accrued benefit of the Minimum Monthly Benefit.
• AMC and Jeep Special Age 65 Benefit	$72.20 payable per month to former AMC and Jeep salaried employees who retired prior to 12/31/2017 as long as they continue enrollment in the Medicare Part B program. Spouse of retirees who retired prior to 12/31/2017 and subsequently died after 12/31/2017 won't be eligible for this benefit.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated as of January 1, 2017 and as amended as of January 1, 2024, are included in this valuation:

- **Plan amendments excluded:** None
- **Late retirement increases:**
  - *Active participants:* Current employees who retire after age 71 are valued with a benefit reflecting an actuarial equivalent (AE) increase from age 71 to assumed benefit commencement age.
  - *Deferred vested participants:* Current deferred vested participants age 65 and above are assumed to receive an AE increase from age 65 to the earlier of benefit commencement age or their integer age (71, 72, or 73) at Required Beginning Date (RBD age). If benefit commencement age is above their RBD age, back payments with interest from RBD age to benefit commencement age are also assumed.
- **Internal Revenue Code limitations**: The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions

Plan provisions specific to funding

Additional benefits included or excluded

- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* This valuation includes contingent event benefits that occurred before the valuation date, and includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
  - Plan amendments: See above.
  - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
  - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** This valuation does not value the plan's unpredictable contingent event benefits, which are summarized above, because the likelihood of an event is de minimis.

Plan provision changes since prior valuation

None.

Schedule SB, Part V — Summary of Plan Provisions

FCAPP - Formerly Chrysler Group LLC Executive Salaried Employees' Retirement Plan (legacy ESERP)

Effective date and plan year	Original legacy SERP plan: April 30, 1941 (RIP Plan), January 1, 1951(SPP Plan). Consolidated together on January 1, 1976 created legacy SERP. Legacy ESERP was a plan effective 1/1/1998 for employees who were eligible for incentive compensation. Restated plan: January 1, 2017 Plan year: Calendar year
Status of the plan	The plan was frozen with no future accruals effective December 31, 2013.
Significant events that occurred during the year	None
Definitions	
• Covered employees	Substantially all salaried employees of Stellantis and certain of its subsidiaries and affiliates are eligible for legacy SERP or legacy ESERP if hired prior to January 1, 2004. Legacy SERP covers those employees who were never eligible for Incentive Compensation prior to 1/1/2014. These excluded employees are covered in legacy ESERP. Effective January 1, 1990, covered employees who were AMC and Jeep employees earned future service benefits under legacy SERP provisions.
• Participation	Prior to 1/1/2014 those salaried employees who meet (1), (2) and (3) below were eligible to become participants in the contributory portion of the Plan: (1) attained age 21 and completed one year of service or attained age 35 (2) pay exceeded the Contribution Salary Base (3) made Employee Contributions to the plan
• Employee contributions	2.5% of Salary in excess of the Contribution Salary Base. Contributions continue until the employee had contributed for 28-1/2 years after age 35. Future contributions ceased as of the Freeze Date
• Contribution Salary Base	½ of the monthly Social Security contribution base rounded down to the nearest $25.
• Total Accumulated Contributions	Total employee contributions plus interest at 5% annually from 1/1/1976 through 12/31/1987. Effective 1/1/1988, the interest rate is equal to 120% of the mid-term applicable federal rate (AFR) in effect for the first month of each year.
• Year of Credited Service (for vesting and eligibility)	A one year computation period during which the Employee has completed 1,000 Hours of Service.
• Salary	Monthly base salary, excluding contingent, incentive or deferred compensation, cost of living payment, bonuses, amounts paid in lieu of overtime, premium pay, shift differentials, or other extra compensation. Pre-tax deferrals to the 401(k) plan, Flexible Benefits Program (but shall not include amounts added to base compensation payments pursuant to the Flexible Benefits Program), Income Deferral Plan and the Executive Employees' Supplemental Savings Plan are included.
• Average Monthly Salary	Average of salary at the beginning of each of the 60 consecutive credited months out of last 180 that produce the highest average. Average Monthly Salary was frozen as of the Freeze Date.

Schedule SB, Part V — Summary of Plan Provisions

• Frozen Primary Social Security benefit	If the employee is not eligible for retirement on the date he terminates, the PIA is calculated as if he had terminated on the Freeze Date with the PIA calculated assuming level future earnings from the Freeze Date to age 65, and then prorated by Credited Service as of the Freeze Date over projected age 65 Credited Service. If the employee is eligible for retirement on the date he terminates, the PIA is calculated as the lesser of 1) PIA as if he terminated on the Freeze Date (i.e. Termination PIA (shown above) for those not eligible for retirement and Age 62 PIA assuming zero future earnings to age 62 for those retirement eligible), and 2) PIA as if he had terminated on the Freeze Date with the PIA calculated assuming level future earnings from the Freeze Date to age 62, and then prorated by Credited Service as of the Freeze Date over projected age 62 Credited Service. For the minimum project and prorate benefit calculation, the PIA is calculated assuming level future earnings from the Freeze Date to age 65. In all future cases, the Social Security levels of 2013 will be used.
• Credited Months	For purposes of determining Final Average Salary Benefits: Aggregate pay periods (in months) that are included in Continuous Service. Service prior to age 21 is excluded. Months after 1/1/92 that employee was eligible but elected not to contribute to the plan are excluded. Credited Months were frozen as of the Freeze Date. Continuous Service is cumulative service from date of employment (after age 18) to date of severance.
• Freeze Date	December 31, 2013.
Normal retirement	
• Eligibility	Age 65
• Benefit	**Contributory**: Monthly benefit of 5% of employee contributions. Plus **Noncontributory**: A target benefit is calculated as 2-1/4% of the employee's Average Monthly Salary for each of the first 20 years of credited service, plus 2% for each of the next 8.5 years of credited service (maximum 62%). This target benefit is offset by 1) 50% of the employee's Frozen Primary Social Security benefit beginning at age 62 and 1 month, 2) the monthly benefits payable under the Pension Plan (and UAW Plan, as if frozen on 12/31/2013), and 3) the contributory portion of this plan (but, based only on post-age 35 contributions, determined as if the employee had contributed when eligible).
Special Early retirement	
• Eligibility	Age 55 and 10 years of credited service plus qualifications under eligibility standards specified in the Plan.

Schedule SB, Part V — Summary of Plan Provisions

- Benefit

Contributory: Same as Normal with no reduction for early commencement.

Plus

Noncontributory: No reduction for early commencement. The benefit is based on the greater of (i) or (ii):

(i) The benefit as computed under Normal Retirement, but limited to service after age 35, Average Monthly Salary, and Social Security, all as of the Freeze Date. The Primary Social Security amount is not offset until age 62.

(ii) The target benefit and offsets are further projected from the Freeze Date to age 65 assuming the Average Monthly Salary did not change. The net benefit is prorated by the ratio of actual service after age 21 at Freeze Date to the projected service after age 21 at age 65.

Regular Early retirement

- Eligibility

Age 55 and 10 years of credited service.

- Benefit

The contributory and noncontributory retirement benefits as if the employee were retiring under Special Early multiplied by a percentage based on age:

Retirement Prior to January 1, 2014		**Retirement on or After January 1, 2014**	
Age When Benefit Commences	%	Age When Benefit Commences	%
55	57.9%	55	57.9%
56	63.5%	56	71.9%
57	69.4%	57	85.9%
58	75.2%	58	100.0%
59	80.8%	59	100.0%
60	86.7%	60	100.0%
61	93.3%	61	100.0%

Deferred vested

- Eligibility

Upon termination after 5 years of credited service.

Schedule SB, Part V — Summary of Plan Provisions

• Benefit	The accrued contributory and noncontributory retirement benefits determined as follows: **Contributory**: For non-vested termination with Total Accumulated Contributions less than $1,000, a return of the Total Accumulated Contributions. If over $1,000, the participant may elect the return of the Total Accumulated Contributions, or the actuarial equivalent monthly benefit payable at termination or later. For vested terminations, a monthly benefit of 5% of employee contributions, deferred to age 65, or earlier actuarially reduced. Plus **Noncontributory**: The accrued portion of the noncontributory normal retirement benefit deferred to age 65, or earlier actuarially reduced. If termination occurs after the employee has completed 10 years of service after age 35, the accrued benefit is based on the greater of (i) and (ii) below. If termination occurs before the employee has completed 10 years of service after age 35, the accrued benefit is based on (ii) only. (i) The benefit as computed under Normal Retirement, but limited to service after age 35, Average Monthly Salary, and Social Security, all as of the Freeze Date. (ii) The target benefit and offsets are further projected from the Freeze Date to age 65 assuming the Average Monthly Salary did not change. The net benefit is prorated by the ratio of actual service after age 21 at Freeze Date to the projected service after age 21 at age 65.
Disability	
• Eligibility	Upon permanent total disability with 10 years of credited service after i) age 55 with benefits commencing immediately, or ii) completion of 10 years of contributory participation after age 35, with benefits commencing immediately, or iii) completion of 5 but less than 10 years of contributory participation after age 35 with benefits commencing at age 55.
• Benefit	The contributory and noncontributory retirement benefits determined as if the employee were retiring under Special Early Retirement.
Pre-retirement death	
• Eligibility	**Contributory**: Anyone who has made an employee contribution. **Noncontributory**: Age 60 and 10 years of service, or married for at least one year and vested. Additional Retirement Benefit: If listed in Appendix O of the plan document.
• Benefit prior to retirement – Death after age 65	**Contributory**: Commuted Value of 120 monthly payments, or equivalent amount based on elected payment method. Plus **Noncontributory**: Commuted Value of 120 monthly payments, or equivalent amount based on elected payment method. Plus Additional Retirement Benefit: Commuted Value of 120 monthly payments.

Schedule SB, Part V — Summary of Plan Provisions

• Benefit prior to retirement – Death before age 65	**Contributory**: If death before age 35, a lump sum of the Total Accumulated Contributions. Otherwise, a lump sum equal to 100 times the Accrued Contributory Monthly Benefit (5% of employee contributions). Plus **Noncontributory**: Only if at least age 60 with at least 10 years of service: Commuted Value of 120 monthly payments assuming retirement at date of death, reduced 7.5% per year for commencement prior to age 65, or equivalent amount based on elected payment method. Plus Additional Retirement Benefit: Actuarial Equivalent of his accrued age 65 Additional Retirement Benefit listed in Appendix O of the plan document. For participants married for at least 1 year at death: Benefits are paid to the surviving spouse as a life annuity or equivalent amount, equal to the Actuarial Equivalent of the greater of (i) death benefits above, or (ii) 50% of the reduced normal or early retirement benefits, or vested termination benefits otherwise payable assuming immediate commencement at death and the Pre-Retirement Survivor Option reduction.
Unpredictable contingent event benefits	
• Event	Plant closing or discontinuance of operations.
• Eligibility	Age 50 with at least 10 years of service.
• Benefit	If at least age 55: Special Early Retirement Benefits. If at least age 50, but not yet age 55: Special Early Retirement Benefits, deferred to age 55.
Form of benefits	
• Automatic form for unmarried participants	10 year Certain and Life Annuity
• Automatic form for married participants	65% Joint and Surviving Spouse Annuity with 10 year guarantee
• Optional forms	Life Annuity, 10 year Certain and Life Annuity, 65% Joint and Surviving Spouse Annuity, 50%, 75%, or 100% Joint and Survivor Annuity (any beneficiary)
• Optional form conversion	Actuarial Equivalence: 1971 GAM 70%M/30%F, 9%. Conversion from Life Annuity to automatic form for married participants: factor of 0.95 if the retiree and spouse age does not differ by more than 5 years (+/- 0.005 for each full year that the age difference is greater than/less than 5 years)
Miscellaneous	
• Additional Retirement Benefits – Appendix O	Appendix O of the plan document contains lists of employees who have been granted additional “one-time” annuity benefits, which are payable under the same provisions as normal, special early, regular early, disability, or deferred retirements.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2025, the limit is $280,000.

Schedule SB, Part V — Summary of Plan Provisions

• AMC and Jeep Benefits for service before 1/1/1990	For service before 1/1/1990, the benefit for former AMC and Jeep salaried employees is the greater of frozen accrued career average benefit and the benefit based on their AMC and Jeep service prior to 1/1/1990 and the updated (retirements after 1/1/2008) pension rates: Minimum Monthly Benefit: $53.65 times service. **AMC Supplement**: Excess of (a) over (b): (a) $3,140 per month for employees with over 30 years of total service (prorated down for AMC service less than 30 years) or an amount ranging from $22.35 to $48.25 (based on retirement age) times AMC service plus Minimum Monthly Benefit. (b) The greater of the AMC frozen accrued benefit or the Minimum Monthly Benefit. **Jeep Supplement**: Excess of (a) plus (b) over (c): (a) Only for employees with 30 or more years of total service: $50.80 times 30 years (prorated down for Jeep service less than 30 years) plus $17.15 times Jeep service in excess of 30 years. (b) The Minimum Monthly Benefit. (c) The greater of Jeep frozen accrued benefit of the Minimum Monthly Benefit.
• AMC and Jeep Special Age 65 Benefit	$72.20 payable per month to former AMC and Jeep salaried employees who retired prior to 12/31/2017 as long as they continue enrollment in the Medicare Part B program. Spouse of retirees who retired prior to 12/31/2017 and subsequently died after 12/31/2017 won't be eligible for this benefit.

Rationale for Demographic Assumptions

- Withdrawal, disability incidence, retirement age – based on 2024 experience study for experience years 2019-2023.
- Spouse assumptions and form of payment – based on 2024 experience study for experience years 2019-2023.
- Mortality (base) – based on 2021 mortality experience study for experience years 2017-2019 reflecting the 2017 & 2018 annuity purchases.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial methods for funding

Asset methods

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** Only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts**: There are no insurance contracts for any plan.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, line 32 — Schedule of Amortization Bases

The total shortfall amortization charge is the sum of the individual shortfall amortization installments for each plan year since the IRC Section 430 changes made by the ARPA took effect for the plan. Although an individual shortfall amortization installment can be negative, the combined shortfall amortization charge cannot be less than $0.

Shortfall bases					
Year established		Outstanding balance	Years remaining		2025 Installment
2020	$	483,286,306	10	$	60,182,546

Schedule SB, line 24 — Change in Actuarial Assumptions

Actuarial assumption changes since prior valuation

Funding

- Interest discounts were updated from 2024 to 2025 in accordance with PPA.
- The retirement assumption was updated based on the 2024 experience study
- The withdrawal assumption was updated based on the 2024 experience study.
- The form of payment election percentages were updated based on the 2024 experience study.
- The percentage married assumption was updated based on the 2024 experience study.

Schedule SB, line 23 — Information on Use of Substitute Mortality Tables

For all participants, the mortality assumption reflects separate rates for Group 2 (FCAPP and FCON plans) specific mortality tables for males and females (benefits weighted and adjusted to reflect 2017 & 2018 annuity purchases) with a Base Year of 2018 assuming generational improvement using Scale MP-2021. This assumption was approved by IRS on September 20, 2022 for the plan year beginning January 1, 2023. The IRS approval applies for up to five years, through the January 1, 2027 plan year.

The rates were calculated by adjusting the applicable standard mortality tables in section 1.430(h)(3)-1(d) of the Regulations, using the mortality ratio and credibility weighting factor determined individually for male and female experience, as shown in the table below.

	Male Participants	Female Participants
Mortality Ratio	0.8740	1.2570
Credibility Weighting Factor	0.6404	0.2777

Schedule SB, line 22 — Description of Weighted Average Retirement Age

Each employee is assumed to retire in accordance with the appropriate table of retirement rates for the corresponding group, Legacy CPP, SERP and ESERP. The proportion of employees expected to retire at each potential retirement age is shown below. The average retirement age is 57 for Legacy CPP and 62 for SERP/ESERP. The average retirement age is further weighted by the total employees as of 1/1/2025 associated with each group. The overall retirement age is 59.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
