Report of Independent Auditors

The Plan Administrator of
LLNS Defined Benefit Pension Plan

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of LLNS Defined Benefit Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2025, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (collectively, the 2025 financial statements).

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of LLNS Defined Benefit Pension Plan as of December 31, 2025, and the changes in its net assets available for benefits for the year then ended, and the accumulated plan benefits as of December 31, 2025, and the changes in its accumulated plan benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of LLNS Defined Benefit Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the 2025 financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about LLNS Defined Benefit Pension Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of LLNS Defined Benefit Pension Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about LLNS Defined Benefit Pension Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the 2025 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Other Matter

Auditor's Report on the 2024 Financial Statements

We performed an audit of the 2024 financial statements of LLNS Defined Benefit Pension Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA, our audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. In our report dated October 6, 2025, we indicated that in our opinion (a) the amounts and disclosures in the 2024 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with GAAP, and (b) the information in the 2024 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Our report also indicated that the form and content of the 2024 supplemental schedule, other than the information in the 2024 supplemental schedule that agreed to or is derived from the certified investment information, was presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2024 supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 – The Plan and its Significant Accounting Policies

General – The following description of the LLNS Defined Benefit Pension Plan (the Plan), provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined benefit plan that was established on October 1, 2007, by Lawrence Livermore National Security, LLC (the Company), to provide benefits to eligible employees, as defined in the Plan document. The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (the Code) as amended, and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is a closed plan and participants under the Plan include employees of the Company who on September 30, 2007, were employed by or on an approved leave of absence from employment with the University of California, and were participating in the University of California Retirement Plan (UCRP) or in an employment classification eligible to become a participant in the Plan, and who did not elect retired or inactive vested status in the UCRP, and who made a Choice Election to accept employment with the Company on October 1, 2007, in accordance with the terms of Total Compensation Plan 1 (TCP1), as described in Section H35(d)(1) of Contract Number DE-AC52-07NA27344 between the Company and the Department of Energy/National Nuclear Security Administration related to the operation of the Lawrence Livermore National Laboratory.

On August 1, 2008, the Lawrence Livermore National Security, LLC, and Triad National Security, LLC (Triad) (formerly Los Alamos National Security, LLC) Defined Benefit Pension Plan Group Trust (the Group Trust) was formed from the pension assets of the Plan and the Triad Defined Benefit Pension Plan. In the context of pension plans, a group trust is a separate trust that invests together some or all of the assets of "participating trusts." The Plan is one participating trust and the Triad Defined Benefit Pension Plan is the other participating trust. The assets are commingled for investment purposes only at the direction of the participating trusts and are not commingled to pay plan benefits. The Company and Triad will continue to sponsor separate qualified pension plans and maintain separate participating trusts. As of December 31, and 2024, the Plan's interest in the Group Trust was 40.88% and 40.81%, respectively.

The pooling of assets of tax exempt trusts does not affect the tax exempt status of the participating trusts or the qualified status of their related plans, according to Internal Revenue Service Revenue Ruling (Rev. Rul.) 81-100. According to Rev. Rul. 81-100, each participating trust remains fully separate and independent from the other participating trust.

Administration – The Company has appointed the Benefits and Investment Committee (the Committee) to manage the operation and administration of the Plan. The Company contracted with The Bank of New York Mellon/BNY Mellon N. A. (BNY Mellon) to act as the trustee for the Plan. The Company contracted with Aon to act as the Plan's actuary and as the third-party administrator. Substantially all expenses incurred for administering the Plan are paid out of the Plan, unless paid by the Company.

Vesting – The Plan provides that pension benefits vest to participants based on years of service as follows: less than five years of credited service, 0%; five or more years of credited service, 100%. Regardless of service, participants are always 100% vested in their contributions.

Pension benefits – Benefits become payable to the participant after five years of credited service and:

(a) electing early retirement upon attaining age 50; or

(b) electing normal retirement upon attaining age 60; or

(c) upon actual retirement if later than age 60.

For married participants who do not elect otherwise, benefits will be paid on the basis of a 50% joint and contingent annuity, as stipulated by ERISA, and will be the amount determined under the benefit formula stated in the Plan multiplied by the appropriate factor. If a participant is unmarried, benefits will be paid on the basis of a single life annuity and will be for the amount determined under the Plan's benefit formula.

Death and disability benefits – There are no benefits payable during a period of disability prior to retirement under the Plan. The surviving spouse of a participant who has provided at least two years of credited service will be eligible to receive a survivor annuity and the designated beneficiary of such participant will receive a one-time single-sum basic death benefit from the Plan.

Basis of accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition – The Plan's investments are held in the Group Trust by BNY Mellon, and investment elections are based solely on the instructions received from the Committee. The investments held in the Group Trust are reported at fair value. The Plan's trustee, BNY Mellon, certifies the fair market value of all investments. If available, quoted market prices are used to value investments. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

The Group Trust records purchases and sales of securities on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation reported by the Group Trust includes the gains and losses of investments bought or sold as well as held during the year. The Plan presents its share of the investment income in the Group Trust in the statements of changes in net assets available for benefits.

Payment of benefits – Benefit payments to participants are recorded upon distribution.

Income taxes – The Plan has received a favorable determination letter dated February 6, 2018. The Plan administrator believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes.

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Risks and uncertainties – The Plan invests its assets in the Group Trust. The Group Trust utilizes various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions, if any, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 2 – Fair Value Measurements

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the standard are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation techniques used for assets held by the Group Trust measured at fair value. There have been no changes in the techniques used at December 31, 2025 and 2024.

Common stocks: Shares of common stock are valued at the closing price reported on the active market on which the individual securities are traded.

Registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Units held in common/collective trusts (CCT) are valued using the NAV practical expedient of the CCT as reported by the CCT managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the CCT, minus its liabilities and then divided by the number of units outstanding. Certain CCTs in the Group Trust's investments have redemption restrictions and require written notice ranging from 10 business days to 30 business days.

Preferred corporate stocks, government securities, government short-term investment funds (interest-bearing cash and cash equivalents), and other investments listed on a national securities exchange and over-the-counter securities: Valued at the last reported sale price on the valuation date or, if no sales are reported for that day, the last published sale price.

Corporate debt instruments: Valued based on market values quoted by dealers who are market makers in these securities, by independent pricing services, or by a methodology approved by BNY Mellon.

Partner/joint venture interests: Valued using the market approach at the NAV practical expedient. NAV is used as a practical expedient to estimate fair value and which represents the Group Trust's proportionate share of the estimated fair value of the underlying net assets of the partner/joint venture interests. Certain partner/joint venture interests in the Group Trust's investments have redemption restrictions and require written notice ranging from ten business days to three months. Certain partner/joint venture interests are invested in master limited partnerships (MLPs). MLPs are business ventures that exist in the form of publicly traded limited partnerships and are valued at the closing price reported on the active market on which the MLPs are traded.

Asset-backed securities included in securities lending collateral: These are bonds or notes backed by financial assets. Institutional observable inputs are used with an income valuation technique provided by outside vendors.

Certificates of deposit, repurchase agreements, and commercial paper included in securities lending collateral are valued using a market approach and are carried at cost, which approximates fair value.

Other investments: Other investments mainly consist of domestic and foreign bonds and U.S. Treasury bonds. The fair value of certain bonds is valued at the closing price reported in an active market in which the individual security is traded. U.S. Ultra bonds, U.S. Treasury bonds, and U.S. Note futures are valued at the prices listed on the national exchanges as of the last sales price. Other bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields or similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

The methods described above may produce a fair value calculation that may not be indicative of net realized value or reflective of future fair values. Furthermore, while the Group Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the investments of the Group Trust at fair value as of December 31, and :

Following are descriptions of the valuation techniques used for assets held by the Plan measured at fair value:

Investment in the Group Trust is stated at fair value as determined by the NAV practical expedient of the issuers based on the unit values of the underlying investments. Unit values are determined by dividing the funds' net assets, which represent the unadjusted prices in primarily active markets of the underlying investments, by the number of units outstanding at the valuation date. While not publicly traded, a significant portion of the underlying investments are comprised of a variety of asset classes that are publicly traded on exchanges or over-the-counter, and price quotes for the assets held by the funds are generally readily observable and available.

Note 3 – Party-in-Interest Transactions

Certain investments and securities lending activities in the Group Trust are managed by BNY Mellon, the trustee of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Note 4 – Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits represent the estimated future periodic payments under the Plan's provisions that are attributable to services rendered by employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to:

(a) retired or terminated employees or their beneficiaries; or

(b) beneficiaries of employees who have died; or

(c) present employees or their beneficiaries.

Benefits under the Plan are based on years of service and benefit credit rates. The accumulated plan benefits for active employees are based on years of service and benefit credit rates on the date at which the benefit information is presented (valuation date). Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary, Aon, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest), anticipated Cost of Living Adjustments, and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2024 (beginning of the Plan year), is as follows:

Interest	7.00%
Cost of Living Adjustments	2.00%
Mortality assumption:	Pri-2012 Mortality Table with a fully generational projection using scale MP-2021 for healthy participants, the Pri-2012 Disabled Retirement Mortality Table with a fully generational projection using scale MP-2021 for disabled participants and Pri-2012 Contingent Survivor Mortality Table with a fully generational projection using scale MP-2021 for contingent survivors.
Retirement age:	Retirement rate varies from 50 to 75 years old, average age 62

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2025. Had the valuation been performed as of December 31, there would be no material differences.

The actuarial present value of accumulated plan benefits at December 31, 2024, is as follows:

Actuarial present value of accumulated Plan benefits:	
Vested benefits:	
Participants currently receiving payments	$ 2,482,862,289
Vested benefits for other participants	1,338,016,642
Total vested plan benefits	3,820,878,931
Nonvested benefits	3,111,968
Total actuarial present value of accumulated plan benefits	$ 3,823,990,899

The change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2024, is as follows:

Actuarial present value of plan benefits, December 31, 2023	$ 3,596,537,953
Increase (decrease) during the year attributable to:	
Benefits accumulated	245,447,572
Benefits paid	(183,389,809)
Other changes	165,395,183
	227,452,946
Actuarial present value of accumulated plan benefits, December 31, 2024	$ 3,823,990,899

The following assumption was changed since January 1, 2024 (the last valuation date):

- A change in the interest rate assumption from segment rate as of January 2024 to segment rate as of January 2025, each adjusted as applicable to fall within the 25-year average interest rate stabilization corridor under the American Rescue Plan Act of 2021.

- A change in the assumed expenses payable from the trust from $4,100,000 to $4,400,000.

Note 5 – Funding Policy

Participant contributions – The Plan requires mandatory participant contributions equal to 7% of eligible compensation each pay period.

Employer contributions – It is the policy of the Company to contribute no less frequently than annually an amount at least equal to the minimum contribution required by law. Lawrence Livermore National Security, LLC, may, at its discretion, contribute amounts in excess of the minimum required contribution.

Annual contributions, if any, are determined by the Plan's actuary. The Plan has satisfied the minimum funding standards required by ERISA and the Code for the years ended December 31, 2025 and 2024.

Note 6 – Plan Interest in the Group Trust

The Plan's interest in the Group Trust reported on the statements of net assets available for benefits consists of the investments held at fair value, certain receivables, and liabilities that are not reported separately on the Plan's financial statements as follows at December 31, 2025 and 2024:

	2025	2024
Investments, at fair value (Note 2)	$ 10,751,755,861	$ 9,896,761,034
Due from investment managers	84,336,558	39,879,586
Obligation to return collateral under security lending agreement (Note 10)	(554,062,698)	(558,668,253)
Due to investment managers	(113,994,459)	(139,158,015)
Net assets allocable to the participating plans	$ 10,168,035,262	$ 9,238,814,352
Allocated to the Triad Defined Benefit Pension Plan	$ 6,011,360,040	$ 5,468,878,518
Allocated to the LLNS Defined Benefit Pension Plan	4,156,675,222	3,769,935,834
	$ 10,168,035,262	$ 9,238,814,352

The Plan's interest in the Group Trust reported on the statements of changes in net assets available for benefits consists of investment income as follows for the years ended December 31, 2025 and 2024:

	2025	2024
Investment income		
Net appreciation (depreciation) in fair value of investments	$ 906,653,027	$ (181,995,342)

Dividends	36,930,764	37,925,650
Other investment income	87,437,992	62,465,077
Total investment income reported by the Group Trust	$ 1,180,387,970	$ 54,033,755
Allocated to the Triad Defined Benefit Pension Plan	$ 696,411,340	$ 36,266,825
Allocated to the LLNS Defined Benefit Pension Plan	483,976,630	17,766,930
	$ 1,180,387,970	$ 54,033,755

Note 7 – Certified Investment Information

The following information related to investments was obtained by management and agreed to or derived from information certified as complete and accurate by BNY Mellon, a qualified institution:

- The Plan's interest in the Group Trust reflected on the accompanying statement of net assets available for benefits as of December 31, 2024.
- The Plan's interest in the investment income in the Group Trust reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2024.
- Investment information, investment-related receivables and liabilities, and investment income disclosed related to the Group Trust in Note 6 as of and for the year ended December 31, 2024.

Note 8 – Financial Instruments with Off-Balance Sheet Risk

In the normal course of operations, assets in the Group Trust are invested in financial instruments that may give rise to off-balance sheet risk. These instruments involve, in varying degrees, elements of credit and market risk in excess of the amounts recognized on the statements of net assets available for benefits. The notional value provides a measure of the Group Trust's involvement in such instruments but is not indicative of potential loss. The intent is to use these financial instruments to reduce, rather than increase, market risk. For 2025 and 2024, these financial instruments consisted of futures contracts and are included under "Other investments" on the Group Trust's statements of net assets available for benefits.

Note 9 – Derivative Financial Instruments

The Committee adopted a "Statement of Investment Policy" that applies to the Group Trust. This statement provides guidelines for certain plan investment managers to allow the use of derivative instruments to achieve investment objectives. It is the investment managers' responsibility to understand the potential impact of derivative instruments on the total portfolio under various market risk scenarios and to comply with these guidelines. As with other marketable securities, all derivatives are recorded at fair value.

Derivatives are subject to risks that include the possible inability of the counterparty to meet the terms of the contracts (counterparty risk), and adverse market movements (market risk).

During the years ended December 31, 2025 and 2024, the following types of derivative instruments were used in the Group Trust:

Foreign currency contracts – The Group Trust's global equity portfolio includes equity securities denominated in foreign currencies. The Committee has retained an investment manager to hedge a portion of the foreign currency risk associated with these securities. Consistent with this strategy, the investment manager enters into forward foreign currency agreements to exchange foreign currencies at a specified future date and at a specified rate.

Futures contracts – The Group Trust enters into futures contracts in the normal course of its investing activities to manage market risk associated with the Group Trust's fixed income investments and to achieve overall investment portfolio objectives. During 2025 and 2024, futures contracts consisted of U.S. Treasury securities and these investments were made in accordance with the guidelines set forth by the Committee. The credit risk associated with these contracts is minimal because they are traded on organized exchanges. The Group Trust's notional exposure related to these futures contracts was approximately $4,185,357,000 and $4,849,097,000 for 2025 and 2024, respectively.

During the period the contract is open, changes in the value of the contract are recognized as unrealized gains or losses by daily marking to market the contract to reflect the market value of the contract at the end of each day's trading. The Group Trust receives from or pays to the broker an amount equal to the daily fluctuation in the market value of the contract known as margin variation, which is recognized in the net appreciation (depreciation) in fair value of investments.

The Group Trust is exposed to credit loss in the event of nonperformance by a counterparty to its contractual obligations. Based on the extent of the investment in these derivatives with any one counterparty, the Company has determined that the risk of loss to the Group Trust in the event of nonperformance by a counterparty is not significant. The Group Trust does not anticipate nonperformance by a counterparty.

In the Group Trust's statements of net assets, all derivative financial instruments are carried at fair value. The fair value of the Group Trust's derivative financial instruments are as follows:

Asset Derivatives December 31, 2025		Liability Derivatives December 31, 2025		
Type of Exposure	Fair Value	Type of Exposure	Fair Value	Number of Open Contracts
Cash Equivalents		*Cash Equivalents*		
Foreign Currency	$ 2,146,634	Foreign Currency	$ 195	54
Other Assets		*Other Assets*		
Futures	$ 682,674	Futures	$ 41,859,457	20

Asset Derivatives December 31, 2024		Liability Derivatives December 31, 2024		
Type of Exposure	Fair Value	Type of Exposure	Fair Value	Number of Open Contracts
Cash Equivalents		*Cash Equivalents*		
Foreign Currency	$ 1,751,302	Foreign Currency	$ 176	49
Other Assets		*Other Assets*		
Futures	$ 2,816,314	Futures	$ 133,016,849	22

Note 10 – Securities Lending

The Group Trust participates in a securities lending program with the trustee. The program allows the trustee to lend securities, which are assets of the Group Trust, to approved borrowers. The trustee requires the borrowers, pursuant to a security loan agreement, to deliver collateral having a market value of not less than the collateral requirement. For U.S. securities, the collateral requirement is 102% of the fair market value of the securities lent. For foreign securities, the collateral requirement is 105% of the fair market value of the securities lent. The Group Trust bears the risk of loss with respect to any unfavorable change in fair value of the invested cash collateral. However, the borrowers bear the risk of loss related to the decrease in the fair value of the noncash collateral and, therefore, would have to deliver additional securities to maintain the required collateral. In the event that the securities lent are not returned by the borrower and the collateral proceeds are insufficient to replace any of the loaned securities, the trustee will pay such amounts as are necessary to make the Group Trust whole. The fair value of the investment of cash collateral received pursuant to securities lending transactions is reflected on the statements of net assets available for benefits as an asset and the obligation to return the amount received is reflected as a liability. As of December 31, 2025 and 2024, collateral for securities on loan from the Group Trust included reinvested collateral in accordance with the guidelines in the "Securities Lending Authorization Agreement" (the Lending Agreement).

Noncash collateral of approximately $113,594,000 and $21,054,000 received for securities on loan at December 31, 2025 and 2024, respectively, consisted of sovereign debt securities in accordance with the Lending Agreement held by the trustee on behalf of the Group Trust. Noncash collateral is not included with the collateral balance included in the statements of net assets available for benefits because it may not be sold or repledged.

The Group Trust and the trustee receive a percentage of the net income derived from the securities lending activities based on the type of securities received as collateral. Income earned during 2025 and 2024 was approximately $1,591,000 and $1,653,000, respectively, which is included in other investment income, net of trustee fees.

Note 11 – Plan Termination or Modification

With prior approval of the National Nuclear Security Administration, the Company can terminate the Plan, subject to the provisions of federal law. Upon the termination of the Plan, partially or in its entirety, the rights of all affected participants to benefits accrued to the date of such termination, to the extent funded as of such date, are nonforfeitable. Provided, however, that upon termination of the Plan, the Company's obligation to make further contributions to the Plan on behalf of affected participants shall cease, except for any additional contribution that may be necessary to meet the minimum funding or other requirements of ERISA.

In the event of a complete termination of the Plan, funds will be distributed to the extent available, in the following order:

- Accrued benefits derived from mandatory employee contributions.
- Annuity benefits that were in pay status before the beginning of the three-year period ending on the termination date, and those annuity benefits that could have been in pay status for participants who, before the beginning of the three-year period ending on the termination date, had reached their earliest retirement date as defined by the Pension Benefit Guaranty Corporation (the PBGC).
- Other vested benefits insured by the PBGC up to the applicable limits.
- All other vested benefits.
- All other participants.

Any residual assets of the Plan will be distributed to the Company, provided that all liabilities of the Plan have been paid.

Certain benefits under the Plan are insured by the PBGC. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of termination. There is a statutory ceiling, which is adjusted periodically, on the amount of a participant's monthly benefit that the PBGC guarantees. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan's sponsor and the level of benefits guaranteed by the PBGC.

Note 12 – Subsequent Event

The Plan has evaluated subsequent events through October 7, 2026, which is the date the financial statements were available to be issued.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

For ERISA Requirements

Interest Rates for Minimum Funding Purposes	Based on segment rates with no lookback (as of January 2025), each adjusted as needed to fall within the 25-year average interest rate corridor under ARPA.
1st Segment Rate	5.00%
2nd Segment Rate	5.27%
3rd Segment Rate	5.50%
Salary Increases	See Table 1
COLA Applied to Retirement Benefit	2.00%
Social Security Wage Base Increases	2.25%
Retirement Age	
Active Participants	See Table 2
Terminated Vested Participants	Age 60
Mortality Rates	
Healthy and Disabled	2012 base mortality rates for annuitants and non-annuitants per §1.430(h)(3)-1(d), projected generationally for years beyond 2012 using IRS-prescribed mortality improvement rates per §1.430(h)(3)-1(b)(1)(iii).
Withdrawal Rates	See Table 3
Disability Rates	See Table 4
Optional Payment Form Election Percentage	Single participants: 100% elect single life annuity. Married participants: 100% elect joint and 50% survivor annuity.
Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%).

Surviving Spouse Benefit	It is assumed that 80% of males and 60% of females have an eligible spouse. Male retirees are three years older than their female spouses, and female retirees are the same age as their male spouses.
Valuation Compensation	Prior year pensionable earnings rolled forward one year with the salary increase assumption.
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of $280,000 and the IRC section 401(a)(17) compensation limit of $350,000.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2023 Plan Year	7.00%, limited to 5.74%
2024 Plan Year	7.00%, limited to 5.59%
2025 Plan Year	7.00%, limited to 5.50%
Trust Expenses Included in Target Normal Cost	$4,400,000
Actuarial Method	Standard unit credit cost method.
Valuation Date	January 1, 2025

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

For ERISA Requirements

Interest Rates for Minimum Funding Purposes	Based on segment rates with no lookback (as of January 2025), each adjusted as needed to fall within the 25-year average interest rate corridor under ARPA.
1st Segment Rate	5.00%
2nd Segment Rate	5.27%
3rd Segment Rate	5.50%
Salary Increases	See Table 1
COLA Applied to Retirement Benefit	2.00%
Social Security Wage Base Increases	2.25%
Retirement Age	
Active Participants	See Table 2
Terminated Vested Participants	Age 60
Mortality Rates	
Healthy and Disabled	2012 base mortality rates for annuitants and non-annuitants per §1.430(h)(3)-1(d), projected generationally for years beyond 2012 using IRS-prescribed mortality improvement rates per §1.430(h)(3)-1(b)(1)(iii).
Withdrawal Rates	See Table 3
Disability Rates	See Table 4
Optional Payment Form Election Percentage	Single participants: 100% elect single life annuity. Married participants: 100% elect joint and 50% survivor annuity.
Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%).

Surviving Spouse Benefit	It is assumed that 80% of males and 60% of females have an eligible spouse. Male retirees are three years older than their female spouses, and female retirees are the same age as their male spouses.
Valuation Compensation	Prior year pensionable earnings rolled forward one year with the salary increase assumption.
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of $280,000 and the IRC section 401(a)(17) compensation limit of $350,000.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2023 Plan Year	7.00%, limited to 5.74%
2024 Plan Year	7.00%, limited to 5.59%
2025 Plan Year	7.00%, limited to 5.50%
Trust Expenses Included in Target Normal Cost	$4,400,000
Actuarial Method	Standard unit credit cost method.
Valuation Date	January 1, 2025

Schedule SB, Part V — Summary of Plan Provisions

Summary of Plan Provisions

Effective Date	October 1, 2007. Amended and restated effective as of January 1, 2017.
Eligibility	All of the following: ● Employed or on an approved leave of absence with the University of California on September 30, 2007; ● Former participant (or eligible to become a participant) in the University of California Retirement Plan ("UCRP"); and ● Elected to accept employment with LLNS under Total Compensation Package 1 ("TCP1") as of October 1, 2007 (or later date if on an approved leave of absence).
Participation Date	Later of October 1, 2007 or date of becoming an eligible employee.
Normal Retirement	
Eligibility	Age 60 and completion of five-year period of service.
Basic Retirement Income	Monthly annuity is the product of: (1) 2.5%; (2) Highest average plan compensation less $133; and (3) Years of credited service. The product of (1) and (2) is limited to 100%.
Social Security Supplement	Monthly annuity payable until age 65 is the product of: (1) 2.5%; (2) $133; and (3) Years of credited service. The product of (1) and (3) is limited to 100%.
Adjustment for Members With Non-Coordinated Benefits September 30, 2007	For members entitled to Social Security benefits: ● In calculation of basic retirement income, offset $133 only for credited service earned after October 1, 2007. ● Calculation of Social Security supplement based on credited service earned after October 1, 2007. For members not entitled to Social Security benefits:

- Basic retirement income will be calculated without the $133 offset.
- Neither the member nor the member's spouse shall be eligible for the Social Security supplement.

Early Retirement

Eligibility — Age 50 and completion of five-year period of service.

Basic Retirement Income and Social Security Supplement — Normal retirement benefits and Social Security Supplements are reduced according to the following table:

Age at Retirement	Percentage of Age 60 Benefit
50	44.0%
51	49.6%
52	55.2%
53	60.8%
54	66.4%
55	72.0%
56	77.6%
57	83.2%
58	88.8%
59	94.4%
60	100.0%

Vested Termination

Eligibility — Completion of five-year period of service.

Benefit — Early retirement benefit commencing at early retirement date.

Late (or Deferred) Retirement

Eligibility — Any time after eligibility for normal retirement.

Benefit — Normal retirement benefit actuarially increased for those months in which the member was credited for less than 40 hours of service and for those months after April 1 of the calendar year following the year the member turns age 70½ regardless of the hours of service.

Disability

Eligibility — Completion of five-year period of service and eligible for and receives disability income under the employer's Defined Benefit Eligible Disability Program.

Benefit	Early or normal retirement benefit. Credited service continues to accrue until earlier of the date the member ceases to be disabled, retires, or attains normal retirement date. Maximum basic retirement Income is greater of: ● Basic retirement income under vested termination; or ● 40% of final complete month of full-time equivalent compensation. The 40% factor is increased to 60% for members with non-coordinated benefits under the UCRP.
Preretirement Death Benefit	
Eligibility	Active with period of service of two years or inactive vested (including disabled members) with a spouse on date of death.
Benefit	
Not Retirement Eligible	Amount that would be paid if participant had terminated on the earlier of date of termination or date of death, survived until the spouse's date of retirement, elected a 50% joint and contingent annuity naming the spouse as the contingent annuitant, and then died. The spouse's date of retirement may not be earlier than the date the member would have attained 50 nor later than the member's normal retirement date.
Retirement Eligible	Same as above, except that member is assumed to have elected a 100% joint and contingent annuity.
Basic Death Benefit	
Eligibility	Active with two years of service or inactive vested (including disabled members).
Benefit	$7,500. However, active members who were participants in the UCRP prior to October 1, 1990, receive the greater of $7,500 or $1,500 plus one month of full-time equivalent compensation.
Normal Form of Payment	
Married Participants	50% joint and contingent annuity.
Unmarried Participants	Single life annuity.
Optional Forms of Payment of the Basic Retirement Income	100% joint and contingent, 75% joint and contingent, 66⅔% joint and contingent, 50% joint and contingent, and single life annuity.

Calculation of Joint and Contingent Form	Actuarial equivalent of the single life annuity increased by 2.4%. For members with non-coordinated benefits on September 30, 2007, the 2.4% factor is replaced by 4.8%, except that if such members are eligible for Social Security benefits, the factor shall be 4.8% for credited service earned prior to October 1, 2007 and 2.4% for credited service earned after October 1, 2007.
Employee Contributions	Beginning June 3, 2012, a participant must contribute 5% of earnings. Beginning June 30, 2013, a participant must contribute 7% of earnings.
Cost of Living Adjustment Applied to Basic Retirement Income	The monthly benefit shall be adjusted each July 1 to reflect movement in the CPI but not more than 2.0%. However, if movement in the CPI exceeds 4.0%, then the benefit is adjusted by 2.0% plus 75% of the amount that CPI movement exceeds 4.0%. The maximum adjustment is 6.0%. No adjustment shall be made if it will decrease the benefit.
Benefits Not Valued	None.
Definitions	
Highest Average Plan Compensation (HAPC)	Monthly amount that is the highest average full-time equivalent compensation during 36 continuous months. For inactive members, HAPC is adjusted each July 1 for movement in the CPI but not more than 2.0%. However, if movement in the CPI exceeds 4.0%, then HAPC is adjusted by 2.0% plus 75% of the amount that CPI movement exceeds 4.0%. The maximum adjustment is 6.0%. No adjustment to HAPC is provided after the earlier of a member's retirement date and normal retirement date.
Full-Time Equivalent Compensation	100% of plan compensation (base salary excluding overtime or bonus pay) which a member would earn from the employer for that calendar month.
Credited Service	One year for each plan year in which member earns 2,080 hours or more and prorated for plan years in which member earns less than 2,080 hours. For members who retire within 120 days of termination of service, proportional credited service will be granted for accumulated sick leave based on a 2,080-hour year. Includes credited service under the UCRP.

Period of Service	Years and complete months from employment commencement to date of termination.
Actuarial Equivalent	
Mortality	1994 GAR Mortality Table for males (set back three years for members and set back five years for beneficiaries).
Interest	7.5%.
COLA	2% per year.

Plan Changes Since the Prior Year

The funding valuation reflects the following plan changes since the prior year:

- The legislated increase in the Section 401(a)(17) recognizable pay limit from $345,000 for 2024 to $350,000 for 2025.
- The legislated increase in the Section 415 dollar limit for defined benefit plans from $275,000 for 2024 to $280,000 for 2025.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Other Material Plan Changes

A change in enrolled actuary.

Schedule SB, line 24—Change in Actuarial Assumptions

The January 1, 2025 valuation reflects the following non-prescribed assumption change:

- A change in the assumed expenses payable from the trust from $4,100,000 to $4,400,000.

This assumption change did not reduce the funding shortfall by more than the thresholds stated in IRC Section 430(h)(5); as such, approval of the Commissioner is not required.

Age at Retirement	Percentage of Age 60 Benefit
50	44.0%
51	49.6%
52	55.2%
53	60.8%
54	66.4%
55	72.0%
56	77.6%
57	83.2%
58	88.8%
59	94.4%
60	100.0%

Vested Termination

Eligibility — Completion of five-year period of service.

Benefit — Early retirement benefit commencing at early retirement date.

Late (or Deferred) Retirement

Eligibility — Any time after eligibility for normal retirement.

Benefit — Normal retirement benefit actuarially increased for those months in which the member was credited for less than 40 hours of service and for those months after April 1 of the calendar year following the year the member turns age 70½ regardless of the hours of service.

Disability

Eligibility — Completion of five-year period of service and eligible for and receives disability income under the employer's Defined Benefit Eligible Disability Program.

Benefit	Early or normal retirement benefit. Credited service continues to accrue until earlier of the date the member ceases to be disabled, retires, or attains normal retirement date. Maximum basic retirement Income is greater of: ● Basic retirement income under vested termination; or ● 40% of final complete month of full-time equivalent compensation. The 40% factor is increased to 60% for members with non-coordinated benefits under the UCRP.
Preretirement Death Benefit	
Eligibility	Active with period of service of two years or inactive vested (including disabled members) with a spouse on date of death.
Benefit	
Not Retirement Eligible	Amount that would be paid if participant had terminated on the earlier of date of termination or date of death, survived until the spouse's date of retirement, elected a 50% joint and contingent annuity naming the spouse as the contingent annuitant, and then died. The spouse's date of retirement may not be earlier than the date the member would have attained 50 nor later than the member's normal retirement date.
Retirement Eligible	Same as above, except that member is assumed to have elected a 100% joint and contingent annuity.
Basic Death Benefit	
Eligibility	Active with two years of service or inactive vested (including disabled members).
Benefit	$7,500. However, active members who were participants in the UCRP prior to October 1, 1990, receive the greater of $7,500 or $1,500 plus one month of full-time equivalent compensation.
Normal Form of Payment	
Married Participants	50% joint and contingent annuity.
Unmarried Participants	Single life annuity.
Optional Forms of Payment of the Basic Retirement Income	100% joint and contingent, 75% joint and contingent, 66⅔% joint and contingent, 50% joint and contingent, and single life annuity.

Calculation of Joint and Contingent Form	Actuarial equivalent of the single life annuity increased by 2.4%. For members with non-coordinated benefits on September 30, 2007, the 2.4% factor is replaced by 4.8%, except that if such members are eligible for Social Security benefits, the factor shall be 4.8% for credited service earned prior to October 1, 2007 and 2.4% for credited service earned after October 1, 2007.
Employee Contributions	Beginning June 3, 2012, a participant must contribute 5% of earnings. Beginning June 30, 2013, a participant must contribute 7% of earnings.
Cost of Living Adjustment Applied to Basic Retirement Income	The monthly benefit shall be adjusted each July 1 to reflect movement in the CPI but not more than 2.0%. However, if movement in the CPI exceeds 4.0%, then the benefit is adjusted by 2.0% plus 75% of the amount that CPI movement exceeds 4.0%. The maximum adjustment is 6.0%. No adjustment shall be made if it will decrease the benefit.
Benefits Not Valued	None.
Definitions	
Highest Average Plan Compensation (HAPC)	Monthly amount that is the highest average full-time equivalent compensation during 36 continuous months. For inactive members, HAPC is adjusted each July 1 for movement in the CPI but not more than 2.0%. However, if movement in the CPI exceeds 4.0%, then HAPC is adjusted by 2.0% plus 75% of the amount that CPI movement exceeds 4.0%. The maximum adjustment is 6.0%. No adjustment to HAPC is provided after the earlier of a member's retirement date and normal retirement date.
Full-Time Equivalent Compensation	100% of plan compensation (base salary excluding overtime or bonus pay) which a member would earn from the employer for that calendar month.
Credited Service	One year for each plan year in which member earns 2,080 hours or more and prorated for plan years in which member earns less than 2,080 hours. For members who retire within 120 days of termination of service, proportional credited service will be granted for accumulated sick leave based on a 2,080-hour year. Includes credited service under the UCRP.

Period of Service	Years and complete months from employment commencement to date of termination.
Actuarial Equivalent	
Mortality	1994 GAR Mortality Table for males (set back three years for members and set back five years for beneficiaries).
Interest	7.5%.
COLA	2% per year.

Normal Retirement Date (NRD) First of month coinciding with or next following the attainment of age 60 with five years of credited service.

Schedule SB, line 24—Change in Actuarial Assumptions

The January 1, 2025 valuation reflects the following non-prescribed assumption change:

- A change in the assumed expenses payable from the trust from $4,100,000 to $4,400,000.

This assumption change did not reduce the funding shortfall by more than the thresholds stated in IRC Section 430(h)(5); as such, approval of the Commissioner is not required.
