INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
TotalEnergies Finance USA, Inc. Employee Savings Plan
Houston, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of TotalEnergies Finance USA, Inc. Employee Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

(Continued)

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025, and Schedule H, Line 4a – Schedule of Delinquent Participant Contributions for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 – DESCRIPTION OF PLAN

The TotalEnergies Finance USA, Inc. Employee Savings Plan (the "Plan") is a defined contribution plan covering substantially all employees of TotalEnergies Finance USA, Inc. and certain affiliated employers (collectively, the "Company"). The Plan was originally effective January 1, 1995 and was most recently amended and restated effective January 1, 2020. Effective September 1, 2021, the Company changed its name from TOTAL Finance USA, Inc. to TotalEnergies Finance USA, Inc., and the Plan name was amended accordingly. The Plan was further amended effective January 1, 2024, to update the definition of Considered Compensation to reflect collectively bargained provisions.

Plan Administration: The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA), and is intended to qualify under Section 401(a) of the Internal Revenue Code of 1986, as amended (the Code). The Company is the plan administrator for purposes of the reporting and disclosure requirements of ERISA and the Code. The general operations of the Plan are administered by a committee whose members are appointed by the Company's Board of Directors (the Administrative Committee). The Plan's assets are held by a trustee appointed under the applicable trust agreement. The Administrative Committee selects the investment funds available under the Plan and may appoint investment managers or delegate permissible administrative and investment responsibilities. Participants should refer to the Plan document, as amended, for a complete description of the Plan's provisions.

Eligible Employees: Except for employees and other individuals excluded under the terms of the Plan, eligible employees, including regular full-time, temporary, and part-time employees, may participate in the Plan for purposes of employee elective contributions and eligible rollover contributions as soon as administratively practicable after becoming eligible. Participation for purposes of matching contributions begins as soon as administratively practicable after eligibility, except that temporary and part-time employees become eligible for matching contributions after completing one year of eligibility service.

Employees covered by a collective bargaining agreement are eligible for non-contributory contributions only if the applicable agreement expressly provides for those contributions and the employee otherwise satisfies the Plan's definition of an eligible union employee. An eligible union employee who is not a part-time or temporary employee becomes eligible for non-contributory contributions as of the first payroll period beginning on or after becoming an eligible union employee. An eligible union employee who is a part-time or temporary employee becomes eligible as of the first payroll period after the later of becoming an eligible union employee or completing one year of eligibility service.

Eligible Union Employee: For purposes of eligibility to receive allocations of non-contributory contributions, any employee who is included in a unit of employees covered by a collective bargaining agreement between the Company and United Steel, Paper and Forestry, Rubber Manufacturing, Energy, Allied Industrial and Service Workers International Union, A.F.L. C.I.O., CLC, International Brotherhood of Electrical Workers A.F.L.-C.I.O. (Amdel employee), or other eligible employee who is included in a unit of employees covered by a collective bargaining agreement that expressly provides for eligibility to receive allocations of non-contributory contributions who is eligible to receive allocations of non-contributory contributions; provided, however, that an employee will not be an eligible union employee if he is eligible to participate in the TotalEnergies Finance USA, Inc. Pension Plan, the TotalEnergies Finance USA, Inc. Cash Balance Pension Plan or any other defined benefit plan of the Company, or an affiliate that is intended to satisfy the qualification requirements of Section 401(a) of the Code.

An eligible union employee, other than a part-time employee or a temporary employee, will become eligible to receive an allocation of non-contributory contributions as of the first payroll period beginning on or after the date on which he becomes an eligible union employee. An eligible union employee who is a part-time employee or a temporary employee is eligible to participate in the Plan for purposes of non-contributory contributions beginning as of the first payroll period after the later to occur of (1) the date on which he becomes a union eligible employee or (2) the date on which he completes one year of eligibility service.

(Continued)

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Contributions: Participants may contribute from 1% to 75% of eligible compensation, subject to the Plan's administrative procedures and limitations imposed by the Code. The combined percentage elected for before-tax, Roth 401(k), after-tax, catch-up before-tax, and Roth catch-up contributions may not exceed 75% of a participant's eligible compensation per pay period, or such other percentage as may be prescribed by the Administrative Committee. Eligible employees are automatically enrolled at a before-tax contribution rate of 6% unless they affirmatively elect another rate, including zero. Contributions made through automatic enrollment are invested in the Plan's default investment fund designated by the Administrative Committee unless and until the participant makes a different investment election.

The Company generally makes a matching contribution equal to 100% of a participant's eligible before-tax and after-tax contributions, up to 6% of eligible compensation per pay period. For eligible non-union Total USVI participants, the Company makes matching contributions of up to 7% of eligible compensation per pay period. Matching contributions are not made with respect to excess deferrals, excess 401(k) contributions, excess aggregate 401(m) contributions, catch-up before-tax contributions, or Roth catch-up contributions. Any matching contribution made with respect to such an amount, together with related earnings, is forfeited.

A matching contribution made on account of a participant’s before-tax contribution or after-tax contribution will not be contributed before the participant’s performance of services with respect to which the before-tax contribution or after-tax contribution is made, or when the cash would be currently available to the participant, if earlier. An employee has no right to receive a matching contribution with respect to an excess deferral, excess 401(k) contributions or excess aggregate 401(m) contribution, a catch-up before tax contribution or a Roth catch-up contribution. Accordingly, any matching contribution that is made with respect to an excess deferral, an excess 401(k) contribution, an excess aggregate 401(m) contribution, a catch-up before-tax contribution or a Roth catch-up contribution, and earnings thereon, shall be forfeited.

For each payroll period in which an eligible union employee is eligible for non-contributory contributions, the Company makes a non-contributory contribution based on the participant's eligible compensation and years of non-contributory contribution service as follows: 5% for less than 5 years of service; 6% for 5 years but less than 10 years; 7% for 10 years but less than 15 years; 7.5% for 15 years but less than 20 years; and 8% for 20 or more years. Eligible compensation is Considered Compensation as defined in the Plan document, as amended, and varies for certain bargaining-unit and employer classifications.

Employee and Company contributions, as described, are subject to various limitations imposed by the Code. Under the terms of the Plan, employee pre-tax contributions are limited to amounts provided under Sections 402(g) of the Code.

Participants who attain age 50 by the end of the Plan year may make catch-up contributions, subject to limitations imposed by the Code. The Company does not match catch-up contributions. Subject to Plan procedures, eligible participants may also make permitted direct rollover contributions from an eligible retirement plan or individual retirement account.

Participant Accounts: Each participant's account is credited with the participant's contributions and allocations of Company contributions and Plan earnings and losses and is charged with the participant's withdrawals and allocated administrative expenses. Allocations are based on participant contributions, eligible compensation, participant account balances, or specific participant transactions, as applicable under the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

(Continued)

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Investment Options: Participants may direct the investment of their accounts among the investment funds made available under the Plan. Participants may change their investment elections for future contributions and transfer existing account balances among available investment funds, subject to restrictions imposed under the Plan, the applicable investment fund documents, and administrative procedures. If a participant does not make an investment election, the participant's account is invested in the Plan's default investment fund designated by the Administrative Committee.

Vesting: Participants are at all times fully vested in their employee contribution accounts and the other participant accounts designated as nonforfeitable under the Plan. Effective January 1, 2017, participants are also fully vested in their Matching Contribution Accounts, except for matching contributions attributable to excess deferrals, excess contributions, or catch-up contributions for which no matching contribution is permitted under the Plan.

Certain legacy TFUS Contributory Contribution Accounts remain subject to a five-year graded vesting schedule under which participants become 20% vested after one year of vesting service and vest an additional 20% for each subsequent year, becoming 100% vested after five years of vesting service. Eligible union employees generally become 100% vested in their Non-Contributory Contribution Accounts after three years of non-contributory contribution service. Participants may become fully vested earlier upon attaining age 65 while employed, death, disability, or another vesting event specified in the Plan.

Payment of Benefits: After termination of employment, a participant may elect to receive the vested account balance in a lump sum or, if eligible, in annual, semiannual, quarterly, or monthly installments. If the value of a participant's vested account balance, determined in accordance with the Plan's small-benefit rules, is $1,000 or less, the balance is paid as soon as administratively practicable in a single lump sum or eligible rollover. If the balance is greater than $1,000 but not more than $5,000 and the participant does not provide timely distribution instructions after receiving notice of the Plan's procedures, the balance is distributed in a direct rollover to an individual retirement plan designated by the Company for the participant's benefit. Participant consent is not required for distributions payable under these small-benefit provisions.

While employed, a participant may make withdrawals from specified accounts to the extent permitted under the Plan and applicable law. Hardship withdrawals under the Plan are limited to eligible Grandfathered TFUS Participants and Grandfathered Cray Valley Participants and to the accounts specified for those participants. A hardship withdrawal may not exceed the amount necessary to satisfy an immediate and heavy financial need. The participant must represent that the participant has insufficient cash or other liquid assets reasonably available to satisfy the need, and the Administrative Committee may not have actual knowledge contrary to that representation.

A participant who has attained age 59 1/2 may withdraw amounts from the accounts specified in the Plan, subject to applicable minimums and distribution-order rules. A participant who has incurred a disability and is disabled may withdraw all or any portion of the amounts credited to the participant's accounts. Other in-service withdrawals are available only as provided under the Plan.

Notes Receivable from Participants: Participants may obtain loans from the Plan secured by a pledge of the portion of the participant's account invested in the loan. The Administrative Committee may establish a minimum loan amount, which may not exceed $1,000. A loan may not cause the participant's total outstanding Plan loans to exceed 50% of the participant's vested account balance. In addition, a single loan may not exceed the lesser of (a) $50,000 reduced by the greater of the participant's outstanding loan balance on the loan date or the highest outstanding loan balance during the preceding one-year period, or (b) 50% of the participant's vested account balance reduced by the participant's outstanding loan balance on the loan date. Loans bear a reasonable rate of interest established under the Plan's loan procedures. Principal-residence loans may have terms of up to 15 years; general-purpose loans may have terms of up to five years.

(Continued)

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Forfeitures: Upon termination of employment, a participant is entitled to the participant's vested account balance. Any forfeitable interest is forfeited in accordance with the Plan, generally upon the participant's receipt or deemed receipt of a distribution of the entire vested account balance or, if no distribution is received, after the participant incurs five consecutive one-year breaks in service. Certain forfeited amounts may be restored following reemployment if the applicable repayment and timing conditions are satisfied.

Forfeitures are retained in the Plan and are first used to restore accounts as required under the Plan. Remaining forfeitures may be used to pay reasonable Plan administrative expenses, reduce the Company's obligation to make restorative payments, or reduce future matching or non-elective contributions. At December 31, 2025 and 2024, forfeited balances totaled $396,741 and $118,001, respectively. During 2025, $9,777 of forfeitures was used to reduce employer contributions.

Plan Termination: The Company’s Board of Directors may elect to terminate the Plan or completely discontinue contributions under the Plan for any reason at any time. Upon the termination or partial termination of the Plan, or complete discontinuance of contributions under the Plan, the affected participants shall have fully nonforfeitable interest in their account balances. In the event of the complete termination of the Plan, the participants’ accounts shall be distributed to such persons or otherwise for their benefit or continued in trust for their benefit.

Administrative Expenses: Administrative expenses incident to the operation of the Plan generally are paid from Plan assets unless paid by the Company. Certain expenses specified in the Plan are required to be paid by the Company. Fees and expenses reflected in the total annual operating expenses of an investment option reduce that investment option's rate of return and are paid from Plan assets. Expenses paid by the Company are excluded from the financial statements.

Subsequent Events: Plan management has evaluated subsequent events for recognition and disclosure through October 9, 2026, which is the date the financial statements were available to be issued and has determined that no events occurred that would require adjustment to or disclosure in the financial statements.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Investment Valuation and Income Recognition: The Plan’s investments are reported at fair value as further described in Note 4. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan’s principal or most advantageous market for the asset or liability.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan’s gains and losses on investments bought and sold as well as held during the year.

(Continued)

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (Continued)

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Payment of Benefits: Benefits are recorded when paid.

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks such as interest rate, market, liquidity, credit, and risks arising from the effect of global events. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 3 – CERTIFIED INFORMATION

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments and notes receivable from participants held at December 31, 2025 and 2024, net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company.

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

> *Level 1:* Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
>
> *Level 2:* Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
>
> *Level 3:* Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following presents the valuation methods and assumptions used by the Plan to estimate the fair values of investments.

Money Market Mutual Fund: The fair value of money market mutual fund investments is determined using quoted market prices for the fund's net asset value (NAV) per share (Level 1 inputs).

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

(Continued)

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

Collective Trust Funds: Investments in collective trust funds are valued using the NAV per unit as reported by the fund managers. The NAV is used as a practical expedient to estimate fair value. The collective trust funds consist primarily of target-date funds and a managed-income fund. The target-date funds invest in diversified portfolios with asset allocations designed for participants with anticipated retirement dates corresponding to the applicable target year and generally become more conservative as the target retirement date approaches. The managed-income fund is designed to provide income and preservation of principal through investments selected in accordance with the fund's investment strategy. These funds allow for daily redemptions at NAV with no advance notice or other redemption restrictions. There are no unfunded commitments related to these investments.

Investments measured at fair value on a recurring basis are summarized below:

	2025			
	Level 1	Level 2	Level 3	Total
Money market mutual fund	$ 17,627,180	$ -	$ -	$ 17,627,180

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statements of net assets available for benefits.

NOTE 5 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan held investments managed by Fidelity Management Trust Company. Certain professional fees for the administration and audit of the Plan were paid by the Company. Various administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. During 2025, the Plan paid administrative fees to various service providers including an investment advisor and the Plan's recordkeeper. These reflect party-in-interest transactions. Notes receivable from participants also reflect party-in-interest transactions.

NOTE 6 – TAX STATUS

The IRS has determined and informed the Company by a letter dated February 23, 2018 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2022.

NOTE 7 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2025, and 2024, to Form 5500:

INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
TotalEnergies Finance USA, Inc. Employee Savings Plan
Houston, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of TotalEnergies Finance USA, Inc. Employee Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

(Continued)

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025, and Schedule H, Line 4a – Schedule of Delinquent Participant Contributions for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 – DESCRIPTION OF PLAN

The TotalEnergies Finance USA, Inc. Employee Savings Plan (the "Plan") is a defined contribution plan covering substantially all employees of TotalEnergies Finance USA, Inc. and certain affiliated employers (collectively, the "Company"). The Plan was originally effective January 1, 1995 and was most recently amended and restated effective January 1, 2020. Effective September 1, 2021, the Company changed its name from TOTAL Finance USA, Inc. to TotalEnergies Finance USA, Inc., and the Plan name was amended accordingly. The Plan was further amended effective January 1, 2024, to update the definition of Considered Compensation to reflect collectively bargained provisions.

Plan Administration: The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA), and is intended to qualify under Section 401(a) of the Internal Revenue Code of 1986, as amended (the Code). The Company is the plan administrator for purposes of the reporting and disclosure requirements of ERISA and the Code. The general operations of the Plan are administered by a committee whose members are appointed by the Company's Board of Directors (the Administrative Committee). The Plan's assets are held by a trustee appointed under the applicable trust agreement. The Administrative Committee selects the investment funds available under the Plan and may appoint investment managers or delegate permissible administrative and investment responsibilities. Participants should refer to the Plan document, as amended, for a complete description of the Plan's provisions.

Eligible Employees: Except for employees and other individuals excluded under the terms of the Plan, eligible employees, including regular full-time, temporary, and part-time employees, may participate in the Plan for purposes of employee elective contributions and eligible rollover contributions as soon as administratively practicable after becoming eligible. Participation for purposes of matching contributions begins as soon as administratively practicable after eligibility, except that temporary and part-time employees become eligible for matching contributions after completing one year of eligibility service.

Employees covered by a collective bargaining agreement are eligible for non-contributory contributions only if the applicable agreement expressly provides for those contributions and the employee otherwise satisfies the Plan's definition of an eligible union employee. An eligible union employee who is not a part-time or temporary employee becomes eligible for non-contributory contributions as of the first payroll period beginning on or after becoming an eligible union employee. An eligible union employee who is a part-time or temporary employee becomes eligible as of the first payroll period after the later of becoming an eligible union employee or completing one year of eligibility service.

Eligible Union Employee: For purposes of eligibility to receive allocations of non-contributory contributions, any employee who is included in a unit of employees covered by a collective bargaining agreement between the Company and United Steel, Paper and Forestry, Rubber Manufacturing, Energy, Allied Industrial and Service Workers International Union, A.F.L. C.I.O., CLC, International Brotherhood of Electrical Workers A.F.L.-C.I.O. (Amdel employee), or other eligible employee who is included in a unit of employees covered by a collective bargaining agreement that expressly provides for eligibility to receive allocations of non-contributory contributions who is eligible to receive allocations of non-contributory contributions; provided, however, that an employee will not be an eligible union employee if he is eligible to participate in the TotalEnergies Finance USA, Inc. Pension Plan, the TotalEnergies Finance USA, Inc. Cash Balance Pension Plan or any other defined benefit plan of the Company, or an affiliate that is intended to satisfy the qualification requirements of Section 401(a) of the Code.

An eligible union employee, other than a part-time employee or a temporary employee, will become eligible to receive an allocation of non-contributory contributions as of the first payroll period beginning on or after the date on which he becomes an eligible union employee. An eligible union employee who is a part-time employee or a temporary employee is eligible to participate in the Plan for purposes of non-contributory contributions beginning as of the first payroll period after the later to occur of (1) the date on which he becomes a union eligible employee or (2) the date on which he completes one year of eligibility service.

(Continued)

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Contributions: Participants may contribute from 1% to 75% of eligible compensation, subject to the Plan's administrative procedures and limitations imposed by the Code. The combined percentage elected for before-tax, Roth 401(k), after-tax, catch-up before-tax, and Roth catch-up contributions may not exceed 75% of a participant's eligible compensation per pay period, or such other percentage as may be prescribed by the Administrative Committee. Eligible employees are automatically enrolled at a before-tax contribution rate of 6% unless they affirmatively elect another rate, including zero. Contributions made through automatic enrollment are invested in the Plan's default investment fund designated by the Administrative Committee unless and until the participant makes a different investment election.

The Company generally makes a matching contribution equal to 100% of a participant's eligible before-tax and after-tax contributions, up to 6% of eligible compensation per pay period. For eligible non-union Total USVI participants, the Company makes matching contributions of up to 7% of eligible compensation per pay period. Matching contributions are not made with respect to excess deferrals, excess 401(k) contributions, excess aggregate 401(m) contributions, catch-up before-tax contributions, or Roth catch-up contributions. Any matching contribution made with respect to such an amount, together with related earnings, is forfeited.

A matching contribution made on account of a participant’s before-tax contribution or after-tax contribution will not be contributed before the participant’s performance of services with respect to which the before-tax contribution or after-tax contribution is made, or when the cash would be currently available to the participant, if earlier. An employee has no right to receive a matching contribution with respect to an excess deferral, excess 401(k) contributions or excess aggregate 401(m) contribution, a catch-up before tax contribution or a Roth catch-up contribution. Accordingly, any matching contribution that is made with respect to an excess deferral, an excess 401(k) contribution, an excess aggregate 401(m) contribution, a catch-up before-tax contribution or a Roth catch-up contribution, and earnings thereon, shall be forfeited.

For each payroll period in which an eligible union employee is eligible for non-contributory contributions, the Company makes a non-contributory contribution based on the participant's eligible compensation and years of non-contributory contribution service as follows: 5% for less than 5 years of service; 6% for 5 years but less than 10 years; 7% for 10 years but less than 15 years; 7.5% for 15 years but less than 20 years; and 8% for 20 or more years. Eligible compensation is Considered Compensation as defined in the Plan document, as amended, and varies for certain bargaining-unit and employer classifications.

Employee and Company contributions, as described, are subject to various limitations imposed by the Code. Under the terms of the Plan, employee pre-tax contributions are limited to amounts provided under Sections 402(g) of the Code.

Participants who attain age 50 by the end of the Plan year may make catch-up contributions, subject to limitations imposed by the Code. The Company does not match catch-up contributions. Subject to Plan procedures, eligible participants may also make permitted direct rollover contributions from an eligible retirement plan or individual retirement account.

Participant Accounts: Each participant's account is credited with the participant's contributions and allocations of Company contributions and Plan earnings and losses and is charged with the participant's withdrawals and allocated administrative expenses. Allocations are based on participant contributions, eligible compensation, participant account balances, or specific participant transactions, as applicable under the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

(Continued)

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Investment Options: Participants may direct the investment of their accounts among the investment funds made available under the Plan. Participants may change their investment elections for future contributions and transfer existing account balances among available investment funds, subject to restrictions imposed under the Plan, the applicable investment fund documents, and administrative procedures. If a participant does not make an investment election, the participant's account is invested in the Plan's default investment fund designated by the Administrative Committee.

Vesting: Participants are at all times fully vested in their employee contribution accounts and the other participant accounts designated as nonforfeitable under the Plan. Effective January 1, 2017, participants are also fully vested in their Matching Contribution Accounts, except for matching contributions attributable to excess deferrals, excess contributions, or catch-up contributions for which no matching contribution is permitted under the Plan.

Certain legacy TFUS Contributory Contribution Accounts remain subject to a five-year graded vesting schedule under which participants become 20% vested after one year of vesting service and vest an additional 20% for each subsequent year, becoming 100% vested after five years of vesting service. Eligible union employees generally become 100% vested in their Non-Contributory Contribution Accounts after three years of non-contributory contribution service. Participants may become fully vested earlier upon attaining age 65 while employed, death, disability, or another vesting event specified in the Plan.

Payment of Benefits: After termination of employment, a participant may elect to receive the vested account balance in a lump sum or, if eligible, in annual, semiannual, quarterly, or monthly installments. If the value of a participant's vested account balance, determined in accordance with the Plan's small-benefit rules, is $1,000 or less, the balance is paid as soon as administratively practicable in a single lump sum or eligible rollover. If the balance is greater than $1,000 but not more than $5,000 and the participant does not provide timely distribution instructions after receiving notice of the Plan's procedures, the balance is distributed in a direct rollover to an individual retirement plan designated by the Company for the participant's benefit. Participant consent is not required for distributions payable under these small-benefit provisions.

While employed, a participant may make withdrawals from specified accounts to the extent permitted under the Plan and applicable law. Hardship withdrawals under the Plan are limited to eligible Grandfathered TFUS Participants and Grandfathered Cray Valley Participants and to the accounts specified for those participants. A hardship withdrawal may not exceed the amount necessary to satisfy an immediate and heavy financial need. The participant must represent that the participant has insufficient cash or other liquid assets reasonably available to satisfy the need, and the Administrative Committee may not have actual knowledge contrary to that representation.

A participant who has attained age 59 1/2 may withdraw amounts from the accounts specified in the Plan, subject to applicable minimums and distribution-order rules. A participant who has incurred a disability and is disabled may withdraw all or any portion of the amounts credited to the participant's accounts. Other in-service withdrawals are available only as provided under the Plan.

Notes Receivable from Participants: Participants may obtain loans from the Plan secured by a pledge of the portion of the participant's account invested in the loan. The Administrative Committee may establish a minimum loan amount, which may not exceed $1,000. A loan may not cause the participant's total outstanding Plan loans to exceed 50% of the participant's vested account balance. In addition, a single loan may not exceed the lesser of (a) $50,000 reduced by the greater of the participant's outstanding loan balance on the loan date or the highest outstanding loan balance during the preceding one-year period, or (b) 50% of the participant's vested account balance reduced by the participant's outstanding loan balance on the loan date. Loans bear a reasonable rate of interest established under the Plan's loan procedures. Principal-residence loans may have terms of up to 15 years; general-purpose loans may have terms of up to five years.

(Continued)

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Forfeitures: Upon termination of employment, a participant is entitled to the participant's vested account balance. Any forfeitable interest is forfeited in accordance with the Plan, generally upon the participant's receipt or deemed receipt of a distribution of the entire vested account balance or, if no distribution is received, after the participant incurs five consecutive one-year breaks in service. Certain forfeited amounts may be restored following reemployment if the applicable repayment and timing conditions are satisfied.

Forfeitures are retained in the Plan and are first used to restore accounts as required under the Plan. Remaining forfeitures may be used to pay reasonable Plan administrative expenses, reduce the Company's obligation to make restorative payments, or reduce future matching or non-elective contributions. At December 31, 2025 and 2024, forfeited balances totaled $396,741 and $118,001, respectively. During 2025, $9,777 of forfeitures was used to reduce employer contributions.

Plan Termination: The Company’s Board of Directors may elect to terminate the Plan or completely discontinue contributions under the Plan for any reason at any time. Upon the termination or partial termination of the Plan, or complete discontinuance of contributions under the Plan, the affected participants shall have fully nonforfeitable interest in their account balances. In the event of the complete termination of the Plan, the participants’ accounts shall be distributed to such persons or otherwise for their benefit or continued in trust for their benefit.

Administrative Expenses: Administrative expenses incident to the operation of the Plan generally are paid from Plan assets unless paid by the Company. Certain expenses specified in the Plan are required to be paid by the Company. Fees and expenses reflected in the total annual operating expenses of an investment option reduce that investment option's rate of return and are paid from Plan assets. Expenses paid by the Company are excluded from the financial statements.

Subsequent Events: Plan management has evaluated subsequent events for recognition and disclosure through October 9, 2026, which is the date the financial statements were available to be issued and has determined that no events occurred that would require adjustment to or disclosure in the financial statements.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Investment Valuation and Income Recognition: The Plan’s investments are reported at fair value as further described in Note 4. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan’s principal or most advantageous market for the asset or liability.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan’s gains and losses on investments bought and sold as well as held during the year.

(Continued)

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (Continued)

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Payment of Benefits: Benefits are recorded when paid.

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks such as interest rate, market, liquidity, credit, and risks arising from the effect of global events. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 3 – CERTIFIED INFORMATION

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments and notes receivable from participants held at December 31, 2025 and 2024, net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company.

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

> *Level 1:* Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
>
> *Level 2:* Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
>
> *Level 3:* Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following presents the valuation methods and assumptions used by the Plan to estimate the fair values of investments.

Money Market Mutual Fund: The fair value of money market mutual fund investments is determined using quoted market prices for the fund's net asset value (NAV) per share (Level 1 inputs).

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

(Continued)

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

Collective Trust Funds: Investments in collective trust funds are valued using the NAV per unit as reported by the fund managers. The NAV is used as a practical expedient to estimate fair value. The collective trust funds consist primarily of target-date funds and a managed-income fund. The target-date funds invest in diversified portfolios with asset allocations designed for participants with anticipated retirement dates corresponding to the applicable target year and generally become more conservative as the target retirement date approaches. The managed-income fund is designed to provide income and preservation of principal through investments selected in accordance with the fund's investment strategy. These funds allow for daily redemptions at NAV with no advance notice or other redemption restrictions. There are no unfunded commitments related to these investments.

Investments measured at fair value on a recurring basis are summarized below:

NOTE 5 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan held investments managed by Fidelity Management Trust Company. Certain professional fees for the administration and audit of the Plan were paid by the Company. Various administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. During 2025, the Plan paid administrative fees to various service providers including an investment advisor and the Plan's recordkeeper. These reflect party-in-interest transactions. Notes receivable from participants also reflect party-in-interest transactions.

NOTE 6 – TAX STATUS

The IRS has determined and informed the Company by a letter dated February 23, 2018 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2022.

NOTE 7 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
TotalEnergies Finance USA, Inc. Employee Savings Plan
Houston, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of TotalEnergies Finance USA, Inc. Employee Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

(Continued)

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025, and Schedule H, Line 4a – Schedule of Delinquent Participant Contributions for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 – DESCRIPTION OF PLAN

The TotalEnergies Finance USA, Inc. Employee Savings Plan (the "Plan") is a defined contribution plan covering substantially all employees of TotalEnergies Finance USA, Inc. and certain affiliated employers (collectively, the "Company"). The Plan was originally effective January 1, 1995 and was most recently amended and restated effective January 1, 2020. Effective September 1, 2021, the Company changed its name from TOTAL Finance USA, Inc. to TotalEnergies Finance USA, Inc., and the Plan name was amended accordingly. The Plan was further amended effective January 1, 2024, to update the definition of Considered Compensation to reflect collectively bargained provisions.

Plan Administration: The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA), and is intended to qualify under Section 401(a) of the Internal Revenue Code of 1986, as amended (the Code). The Company is the plan administrator for purposes of the reporting and disclosure requirements of ERISA and the Code. The general operations of the Plan are administered by a committee whose members are appointed by the Company's Board of Directors (the Administrative Committee). The Plan's assets are held by a trustee appointed under the applicable trust agreement. The Administrative Committee selects the investment funds available under the Plan and may appoint investment managers or delegate permissible administrative and investment responsibilities. Participants should refer to the Plan document, as amended, for a complete description of the Plan's provisions.

Eligible Employees: Except for employees and other individuals excluded under the terms of the Plan, eligible employees, including regular full-time, temporary, and part-time employees, may participate in the Plan for purposes of employee elective contributions and eligible rollover contributions as soon as administratively practicable after becoming eligible. Participation for purposes of matching contributions begins as soon as administratively practicable after eligibility, except that temporary and part-time employees become eligible for matching contributions after completing one year of eligibility service.

Employees covered by a collective bargaining agreement are eligible for non-contributory contributions only if the applicable agreement expressly provides for those contributions and the employee otherwise satisfies the Plan's definition of an eligible union employee. An eligible union employee who is not a part-time or temporary employee becomes eligible for non-contributory contributions as of the first payroll period beginning on or after becoming an eligible union employee. An eligible union employee who is a part-time or temporary employee becomes eligible as of the first payroll period after the later of becoming an eligible union employee or completing one year of eligibility service.

Eligible Union Employee: For purposes of eligibility to receive allocations of non-contributory contributions, any employee who is included in a unit of employees covered by a collective bargaining agreement between the Company and United Steel, Paper and Forestry, Rubber Manufacturing, Energy, Allied Industrial and Service Workers International Union, A.F.L. C.I.O., CLC, International Brotherhood of Electrical Workers A.F.L.-C.I.O. (Amdel employee), or other eligible employee who is included in a unit of employees covered by a collective bargaining agreement that expressly provides for eligibility to receive allocations of non-contributory contributions who is eligible to receive allocations of non-contributory contributions; provided, however, that an employee will not be an eligible union employee if he is eligible to participate in the TotalEnergies Finance USA, Inc. Pension Plan, the TotalEnergies Finance USA, Inc. Cash Balance Pension Plan or any other defined benefit plan of the Company, or an affiliate that is intended to satisfy the qualification requirements of Section 401(a) of the Code.

An eligible union employee, other than a part-time employee or a temporary employee, will become eligible to receive an allocation of non-contributory contributions as of the first payroll period beginning on or after the date on which he becomes an eligible union employee. An eligible union employee who is a part-time employee or a temporary employee is eligible to participate in the Plan for purposes of non-contributory contributions beginning as of the first payroll period after the later to occur of (1) the date on which he becomes a union eligible employee or (2) the date on which he completes one year of eligibility service.

(Continued)

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Contributions: Participants may contribute from 1% to 75% of eligible compensation, subject to the Plan's administrative procedures and limitations imposed by the Code. The combined percentage elected for before-tax, Roth 401(k), after-tax, catch-up before-tax, and Roth catch-up contributions may not exceed 75% of a participant's eligible compensation per pay period, or such other percentage as may be prescribed by the Administrative Committee. Eligible employees are automatically enrolled at a before-tax contribution rate of 6% unless they affirmatively elect another rate, including zero. Contributions made through automatic enrollment are invested in the Plan's default investment fund designated by the Administrative Committee unless and until the participant makes a different investment election.

The Company generally makes a matching contribution equal to 100% of a participant's eligible before-tax and after-tax contributions, up to 6% of eligible compensation per pay period. For eligible non-union Total USVI participants, the Company makes matching contributions of up to 7% of eligible compensation per pay period. Matching contributions are not made with respect to excess deferrals, excess 401(k) contributions, excess aggregate 401(m) contributions, catch-up before-tax contributions, or Roth catch-up contributions. Any matching contribution made with respect to such an amount, together with related earnings, is forfeited.

A matching contribution made on account of a participant’s before-tax contribution or after-tax contribution will not be contributed before the participant’s performance of services with respect to which the before-tax contribution or after-tax contribution is made, or when the cash would be currently available to the participant, if earlier. An employee has no right to receive a matching contribution with respect to an excess deferral, excess 401(k) contributions or excess aggregate 401(m) contribution, a catch-up before tax contribution or a Roth catch-up contribution. Accordingly, any matching contribution that is made with respect to an excess deferral, an excess 401(k) contribution, an excess aggregate 401(m) contribution, a catch-up before-tax contribution or a Roth catch-up contribution, and earnings thereon, shall be forfeited.

For each payroll period in which an eligible union employee is eligible for non-contributory contributions, the Company makes a non-contributory contribution based on the participant's eligible compensation and years of non-contributory contribution service as follows: 5% for less than 5 years of service; 6% for 5 years but less than 10 years; 7% for 10 years but less than 15 years; 7.5% for 15 years but less than 20 years; and 8% for 20 or more years. Eligible compensation is Considered Compensation as defined in the Plan document, as amended, and varies for certain bargaining-unit and employer classifications.

Employee and Company contributions, as described, are subject to various limitations imposed by the Code. Under the terms of the Plan, employee pre-tax contributions are limited to amounts provided under Sections 402(g) of the Code.

Participants who attain age 50 by the end of the Plan year may make catch-up contributions, subject to limitations imposed by the Code. The Company does not match catch-up contributions. Subject to Plan procedures, eligible participants may also make permitted direct rollover contributions from an eligible retirement plan or individual retirement account.

Participant Accounts: Each participant's account is credited with the participant's contributions and allocations of Company contributions and Plan earnings and losses and is charged with the participant's withdrawals and allocated administrative expenses. Allocations are based on participant contributions, eligible compensation, participant account balances, or specific participant transactions, as applicable under the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

(Continued)

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Investment Options: Participants may direct the investment of their accounts among the investment funds made available under the Plan. Participants may change their investment elections for future contributions and transfer existing account balances among available investment funds, subject to restrictions imposed under the Plan, the applicable investment fund documents, and administrative procedures. If a participant does not make an investment election, the participant's account is invested in the Plan's default investment fund designated by the Administrative Committee.

Vesting: Participants are at all times fully vested in their employee contribution accounts and the other participant accounts designated as nonforfeitable under the Plan. Effective January 1, 2017, participants are also fully vested in their Matching Contribution Accounts, except for matching contributions attributable to excess deferrals, excess contributions, or catch-up contributions for which no matching contribution is permitted under the Plan.

Certain legacy TFUS Contributory Contribution Accounts remain subject to a five-year graded vesting schedule under which participants become 20% vested after one year of vesting service and vest an additional 20% for each subsequent year, becoming 100% vested after five years of vesting service. Eligible union employees generally become 100% vested in their Non-Contributory Contribution Accounts after three years of non-contributory contribution service. Participants may become fully vested earlier upon attaining age 65 while employed, death, disability, or another vesting event specified in the Plan.

Payment of Benefits: After termination of employment, a participant may elect to receive the vested account balance in a lump sum or, if eligible, in annual, semiannual, quarterly, or monthly installments. If the value of a participant's vested account balance, determined in accordance with the Plan's small-benefit rules, is $1,000 or less, the balance is paid as soon as administratively practicable in a single lump sum or eligible rollover. If the balance is greater than $1,000 but not more than $5,000 and the participant does not provide timely distribution instructions after receiving notice of the Plan's procedures, the balance is distributed in a direct rollover to an individual retirement plan designated by the Company for the participant's benefit. Participant consent is not required for distributions payable under these small-benefit provisions.

While employed, a participant may make withdrawals from specified accounts to the extent permitted under the Plan and applicable law. Hardship withdrawals under the Plan are limited to eligible Grandfathered TFUS Participants and Grandfathered Cray Valley Participants and to the accounts specified for those participants. A hardship withdrawal may not exceed the amount necessary to satisfy an immediate and heavy financial need. The participant must represent that the participant has insufficient cash or other liquid assets reasonably available to satisfy the need, and the Administrative Committee may not have actual knowledge contrary to that representation.

A participant who has attained age 59 1/2 may withdraw amounts from the accounts specified in the Plan, subject to applicable minimums and distribution-order rules. A participant who has incurred a disability and is disabled may withdraw all or any portion of the amounts credited to the participant's accounts. Other in-service withdrawals are available only as provided under the Plan.

Notes Receivable from Participants: Participants may obtain loans from the Plan secured by a pledge of the portion of the participant's account invested in the loan. The Administrative Committee may establish a minimum loan amount, which may not exceed $1,000. A loan may not cause the participant's total outstanding Plan loans to exceed 50% of the participant's vested account balance. In addition, a single loan may not exceed the lesser of (a) $50,000 reduced by the greater of the participant's outstanding loan balance on the loan date or the highest outstanding loan balance during the preceding one-year period, or (b) 50% of the participant's vested account balance reduced by the participant's outstanding loan balance on the loan date. Loans bear a reasonable rate of interest established under the Plan's loan procedures. Principal-residence loans may have terms of up to 15 years; general-purpose loans may have terms of up to five years.

(Continued)

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Forfeitures: Upon termination of employment, a participant is entitled to the participant's vested account balance. Any forfeitable interest is forfeited in accordance with the Plan, generally upon the participant's receipt or deemed receipt of a distribution of the entire vested account balance or, if no distribution is received, after the participant incurs five consecutive one-year breaks in service. Certain forfeited amounts may be restored following reemployment if the applicable repayment and timing conditions are satisfied.

Forfeitures are retained in the Plan and are first used to restore accounts as required under the Plan. Remaining forfeitures may be used to pay reasonable Plan administrative expenses, reduce the Company's obligation to make restorative payments, or reduce future matching or non-elective contributions. At December 31, 2025 and 2024, forfeited balances totaled $396,741 and $118,001, respectively. During 2025, $9,777 of forfeitures was used to reduce employer contributions.

Plan Termination: The Company’s Board of Directors may elect to terminate the Plan or completely discontinue contributions under the Plan for any reason at any time. Upon the termination or partial termination of the Plan, or complete discontinuance of contributions under the Plan, the affected participants shall have fully nonforfeitable interest in their account balances. In the event of the complete termination of the Plan, the participants’ accounts shall be distributed to such persons or otherwise for their benefit or continued in trust for their benefit.

Administrative Expenses: Administrative expenses incident to the operation of the Plan generally are paid from Plan assets unless paid by the Company. Certain expenses specified in the Plan are required to be paid by the Company. Fees and expenses reflected in the total annual operating expenses of an investment option reduce that investment option's rate of return and are paid from Plan assets. Expenses paid by the Company are excluded from the financial statements.

Subsequent Events: Plan management has evaluated subsequent events for recognition and disclosure through October 9, 2026, which is the date the financial statements were available to be issued and has determined that no events occurred that would require adjustment to or disclosure in the financial statements.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Investment Valuation and Income Recognition: The Plan’s investments are reported at fair value as further described in Note 4. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan’s principal or most advantageous market for the asset or liability.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan’s gains and losses on investments bought and sold as well as held during the year.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (Continued)

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Payment of Benefits: Benefits are recorded when paid.

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks such as interest rate, market, liquidity, credit, and risks arising from the effect of global events. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 3 – CERTIFIED INFORMATION

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments and notes receivable from participants held at December 31, 2025 and 2024, net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company.

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

> *Level 1:* Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
>
> *Level 2:* Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
>
> *Level 3:* Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following presents the valuation methods and assumptions used by the Plan to estimate the fair values of investments.

Money Market Mutual Fund: The fair value of money market mutual fund investments is determined using quoted market prices for the fund's net asset value (NAV) per share (Level 1 inputs).

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

Collective Trust Funds: Investments in collective trust funds are valued using the NAV per unit as reported by the fund managers. The NAV is used as a practical expedient to estimate fair value. The collective trust funds consist primarily of target-date funds and a managed-income fund. The target-date funds invest in diversified portfolios with asset allocations designed for participants with anticipated retirement dates corresponding to the applicable target year and generally become more conservative as the target retirement date approaches. The managed-income fund is designed to provide income and preservation of principal through investments selected in accordance with the fund's investment strategy. These funds allow for daily redemptions at NAV with no advance notice or other redemption restrictions. There are no unfunded commitments related to these investments.

Investments measured at fair value on a recurring basis are summarized below:

	2025			
	Level 1	Level 2	Level 3	Total
Money market mutual fund	$ 17,627,180	$ -	$ -	$ 17,627,180
Mutual funds	449,466,827	-	-	449,466,827
Total investments in the fair value hierarchy	$ 467,094,007	$ -	$ -	467,094,007
Investments measured at NAV as a practical expedient*				413,883,620
Total investments at fair value				$ 880,977,627

	2024			
	Level 1	Level 2	Level 3	Total
Money market mutual fund	$ 17,856,156	$ -	$ -	$ 17,856,156
Mutual funds	407,260,353	-	-	407,260,353
Total investments in the fair value hierarchy	$ 425,116,509	$ -	$ -	425,116,509
Investments measured at NAV as a practical expedient*				353,243,943
Total investments at fair value				$ 778,360,452

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statements of net assets available for benefits.

NOTE 5 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan held investments managed by Fidelity Management Trust Company. Certain professional fees for the administration and audit of the Plan were paid by the Company. Various administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. During 2025, the Plan paid administrative fees to various service providers including an investment advisor and the Plan's recordkeeper. These reflect party-in-interest transactions. Notes receivable from participants also reflect party-in-interest transactions.

NOTE 6 – TAX STATUS

The IRS has determined and informed the Company by a letter dated February 23, 2018 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2022.

NOTE 7 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2025, and 2024, to Form 5500:
