Independent Auditor's Report

To the Plan Administrators of
the Wylie & Son, Inc. Employee Stock Ownership Plan
Lubbock, Texas

Opinion

We have audited the accompanying financial statements of the Wylie & Son, Inc. Employee Stock Ownership Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule listed in the accompanying table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1: Plan Description

The following description of the Wylie & Son, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution, non-contributory plan in which all eligible employees of Wylie & Son, Inc. (Wylie or the Company) participate. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulation thereunder of the Internal Revenue Code (the Code), as amended, and it is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by a Retirement Committee whose members were appointed by the Company.

In October 2025, the Plan borrowed $37,165,280 from the Company for the purpose of purchasing 4,320,000 shares of the Company's common stock. The borrowing is collateralized by the unallocated shares of common stock. The shares are held in the Wylie & Son, Inc. Employee Stock Trust (Trust) established under the terms of the Plan. The trustee is William Kropkof of ERISA Advisory Group, as appointed by the Company's Board of Directors.

The Company has committed to making annual contributions to the Plan, in the form of cash contributions, S corporation distributions, or any combination thereof, all amounts necessary for making the scheduled payments on the Plan's debt. As the loan principal is repaid, an appropriate percentage of Wylie stock is released from being collateral on the loan and the released shares are allocated to eligible participants' accounts, in accordance with Code regulations. The number of shares released from collateral is determined by multiplying (i) the total number of unallocated shares remaining by (ii) a fraction, the numerator of which is the amount of the principal and interest payments for the year, and the denominator of which is the sum of the numerator plus all future principal and interest payments. Released shares are allocated to eligible participants' accounts at the end of each Plan year, based on the relative compensation of each participant to the total compensation of all plan participants.

The Company has no rights against shares once they are allocated under the Plan. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to the accounts of employees with vested rights in allocated stock (allocated) and stock not yet allocated to employees (unallocated).

Eligibility. Employees of Wylie who are at least twenty-one years of age are eligible to participate in the Plan, provided they have completed 1,000 hours of service as of the close of the eligibility computation period (either twelve months commencing on the date on which the employee first performs an hour of service or the first day of the plan year which commences prior to the anniversary date of the employee's first hour of service). Plan entry dates are on the first day of January of the year in which the eligibility requirements are met.

Contributions. Wylie makes annual contributions to the Plan for the purpose of servicing the Plan's debt. The Company may also make additional discretionary contributions to the Plan, as determined by the Board of Directors annually. Any discretionary contributions are allocated to eligible participants pro rata based on participant compensation. In order to be eligible for the Company's contributions, a participant must be employed by the Company on the last day of the plan year, except in instances of termination due to death, disability, or normal retirement, the participant will receive an allocation provided the participant completed 1,000 hours of service during the plan year. Employee contributions are not permitted by the Plan.

Note 1: Plan Description (continued)

Participant Accounts. The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account, and allocations of any additional discretionary contributions made by Wylie.

Net appreciation or depreciation of Wylie common stock, as determined by an independent appraiser, is allocated based on the number of shares held by the participants at year-end based on the change in the per value share. Plan expenses (if any) are generally allocated to participants based on the value of the account balances or as equal dollar amounts based on the number of participants in the Plan. At the discretion of the Company's Board of Directors, S corporation distributions paid on Wylie stock are either allocated to participant accounts, in the same manner as other plan earnings or losses, or used to make payments on the Plan's debt.

As of December 31, 2025, 4,320,000 shares were held by the Trust and 112,390 had been allocated to participants within the Plan.

Vesting. Participants vest based on years of continuous service, within a 6-year graded vesting schedule. A year of vesting is defined by 1,000 hours of service. Participants are fully vested after six years of service or at normal retirement age (65), death, or disability.

Participant loans. Participant loans are not permitted by the Plan.

Payment of Benefits. Distribution of Plan benefits due to termination for retirement, disability, death or other reasons will be made in cash, shares of the Company's stock, or a combination thereof, in a lump sum or annual installments. Annual installments are paid over a period of no more than five years, unless the participant's vested account balance exceeds the amount as defined under the Code, in which case installments could exceed five years. The Plan provides for in-service distributions for those still employed by Wylie upon reaching normal retirement age. All vested account balances exceeding $1,000 are distributed in a single lump-sum payment. All vested account balances exceeding $1,000, but not exceeding $7,000, may be rolled into an Individual Retirement Account. Distributions generally commence in the plan year following the plan year in which the participant's service terminates (unless the participant is reemployed by the Company).

Under the provisions of the Plan, the Company is obligated to repurchase participant shares at fair market value, which have been distributed under the terms of the Plan if the shares are subject to trading limitations.

Forfeitures. Forfeitures of terminated participant's nonvested account balances are allocated to active participants on the same basis as the Company's contributions. There were no forfeited nonvested accounts as of December 31, 2025.

Administration of Plan Assets. Contributions to the Plan are held and managed by Principal, the Custodian of the Plan. The Custodian invests cash received and distribution income and makes distributions to participants. The Custodian also administers the payment of principal and interest on the loan on behalf of the trustee. Certain administrative and trustee functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Voting Rights. Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account under certain specified circumstances and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Note 1: Plan Description (continued)

Put Option. Under federal income tax regulations, the employer stock that is held by the Plan and its participants that is not readily tradable on an established market, or is subject to trading limitations, is required to include a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure the participants have the ability to ultimately obtain cash.

Diversification. Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least 55 years of age with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth plan year, the participant may diversify up to 50%.

Plan Termination. Although they have no intent to do so, the Sponsor has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would automatically become fully vested.

Note 2: Summary of Significant Accounting Policies

The Plan's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), including specialized industry practices as specified in the American Institute of Certified Public Accountants audit and accounting guide titled *Audits of Employee Benefit Plans.*

Use of Estimates. Financial statements prepared in conformity with GAAP require management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations. The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which the debt service is actually paid.

Investment Values. Investments are stated at fair value. In accordance with the plan document, shares are valued only at the end of each plan year. Accordingly, the allocation of common stock is reflected in the statement of changes in net assets available for benefits based upon the fair value of the shares at the end of the plan year. S Corporation distributions are recorded on the payment date.

Payment of Benefits. Benefits are recorded when paid.

Administrative Expenses. As provided in the Plan document, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan. Employees of the Sponsor also perform certain administrative functions with no compensation from the Plan. These expenses are not reflected in the accompanying financial statements.

Note 2: Summary of Significant Accounting Policies (continued)

Prohibited Transactions. A "party-in-interest" is a fiduciary or employee of the Plan, any person who provides services to the Plan, the Sponsor or an employee association whose members are covered by the Plan, a person who owns 50 percent or more of the Sponsor or such employee association or relatives of such person just listed. Under ERISA, a Plan fiduciary is prohibited from causing the Plan to engage in the following transactions with a party-in-interest, with certain conditional exemptions provided by ERISA:

- A sale, exchange, or lease of property;
- A loan or other extension of credit;
- The furnishing of goods, services, or facilities;
- A transfer of plan assets to a party-in-interest for the use or benefit of a party-in-interest; or
- An acquisition of employer securities or real property.

A fiduciary is also generally prohibited from using the Plan's assets for his or her own interest or account, acting in any Plan transactions on behalf of a party whose interests are adverse to those of the Plan or its participants and receiving consideration for his or her own account from a party dealing with the Plan in connection with a transaction involving the Plan's assets.

The Plan did not engage in any prohibited transactions for the year ended December 31, 2025.

Tax Status. The Plan is a qualified plan under Section 401(a) of the Internal Revenue Code (the Code) and the underlying trust is a qualified trust under Section 501(a) of the Code. The Internal Revenue Service has determined and informed the Plan by a letter dated May 14, 2026 that the Plan and related trust are designed in accordance with applicable sections of the Code. The Retirement Committee believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. Generally, the Plan's tax returns are subject to examination for three years after they are filed.

Note 3: Investments

At December 31, 2025, the Plan's investments consisted of the following:

	Allocated	Unallocated
Wylie common stock:		
Number of shares	112,390	4,207,610
Cost	$ 966,557	$ 36,198,723
Fair value	$ 84,293	$ 3,155,707

Note 4: Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits.

	2025		
	Level 1	Level 3	Total
Wylie common stock - allocated	$ –	$ 84,293	$ 84,293
Wylie common stock - unallocated	–	3,155,707	3,155,707
Total	$ –	$ 3,240,000	$ 3,240,000

Note 4: Fair Value Measurements (continued)

FASB ASC 820, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Level 3 Fair Value Measurements. The Plan holds Company common stock as part of a leveraged stock ownership arrangement. The fair value of the Company common stock is based on an annual independent appraisal. This appraisal was based on a combination of the market and income valuation approaches. The appraiser took into account historical and projected cash flow and net earnings, weighted average cost of capital, market comparisons, and applicable discounts and premiums.

At December 31, 2025, the Level 3 fair value measurement of Wylie common stock was based on 4,320,000 shares appraised at an estimated fair value of $0.75 per share, for a total of $3,240,000.

Shares released from suspense and allocated to participant accounts remain invested in Company common stock classified within Level 3 and did not represent a transfer into or out of Level 3.

The preceding method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5: Loan Payable

On October 15, 2025, the Plan entered into a $37,165,280 term loan agreement with the Company. The proceeds of the loan were used to purchase 4,320,000 shares of Wylie common stock. The loan agreement provides for the loan to be repaid in annual installments of principal and interest through the December 31, 2064 maturity date, with interest at a fixed rate of 4.73% per annum. Shares not yet released for allocation serve as collateral for the loan.

The number of shares released in any year is determined by the amortization schedule for the debt. During the year ended December 31, 2025, 112,390 shares were released and allocated.

At December 31, 2025, scheduled principal maturities of the note payable approximated the following:

2026	$ 2,050,420
2027	351,971
2028	364,114
2029	385,842
2030	404,092
Thereafter	33,608,841
	$ 37,165,280

The 2026 maturities include the initial principal payment of $1,714,345, which is due for the year ended December 31, 2025. This amount was recorded as employer contributions receivable at December 31, 2025, as the amount had not yet been received by the Plan at year end.

Note 6: Party-In-Interest Transactions

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Such parties are parties-in-interest under ERISA. The Plan invests in Wylie common stock and has indebtedness to the Company, and Wylie pays certain administrative expenses of the Plan. These transactions qualify as party in interest transactions for which a statutory exemption exists.

Note 7: Reconciliation of Financial Statements to Form 5500

The Form 5500 is a joint-agency form, developed by the IRS, the U.S. Department of Labor, and the Pension Benefit Guaranty Corporation, which may be used to satisfy the annual reporting requirements of the Code and Titles I and IV of ERISA. The Plan is required to file a Form 5500 annually, with audited financial statements enclosed. There were no reconciling items between the Form 5500 and the accompanying financial statements as of December 31, 2025 and 2024, or for the year ended December 31, 2025.

Note 8: Risks and Uncertainties

The Plan invests in the common stock of the Company, which is exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with the investment in common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the values of such investment will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9: Subsequent Events Evaluation

Management has evaluated subsequent events through October 12, 2026, the date which the financial statements were available to be issued. No material subsequent events have occurred during this time which would require recognition in the financial statements or footnotes as of and for the year ended December 31, 2025.
