Independent Auditor's Report

Plan Administrator
BioIVT, LLC Retirement Plan
Woodbury, New York

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of BioIVT, LLC Retirement Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of BioIVT, LLC Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the "Scope and Nature of the ERISA Section 103(a)(3)(C) Audit" section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of the Plan

General

The following description of BioIVT, LLC Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

Effective January 1, 2017, and most recently amended as outlined below, BioIVT, LLC (the "Plan Sponsor") established the BioIVT, LLC Retirement Plan (the "Plan") as a defined contribution plan for employees of BioIVT, LLC and its related participating employers (collectively, the "Company"). Related participating employers include the following companies:

- In Vitro, Inc.
- ILSBIO, LLC
- Asterand Bioscience, Inc.
- Asterand US Acquisition Corp.
- Qualyst Transporter Solutions, LLC
- Ascendance Biotechnology, Inc.
- Optivia Biotechnology Inc.
- Biological Specialty Corp.
- Physicians Plasma Alliance
- Valley Biomedical
- Tennessee Blood Services Corp.
- XenoTech, LLC
- Zen-Bio, Inc

The Plan is a 401(k) defined contribution plan covering all employees of the Company, as defined in the Plan, excluding employees covered by a collective bargaining agreement. The provisions of the Plan provide for entry into the Plan for those who have completed two consecutive months of service and are age 21 or older. Employees are eligible to enter the Plan on the first day of the calendar month upon completion of the eligibility requirements. Employees become eligible to receive discretionary employer contributions on the first day of the first month and seventh month of the plan year coinciding with or next following the date age 21 is attained and one year of eligibility service has been completed; provided that they are an eligible employee on such date. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* ("ERISA"). Voya Institutional Trust Company in 2025 and Voya Retirement Insurance and Annuity Company in 2024 ("Voya") serve as custodians for the Plan.

Contributions

Participants may contribute up to 100% of pre-tax annual compensation, as defined in the Plan. Contributions can also be made on a Roth post-tax basis at the election of the participant. Individuals who attain age 50 by the end of the plan year may make additional pre-tax "catch-up" contributions. Participants may also contribute amounts representing distributions from other qualified plans. Contributions are subject to certain limitations as permitted under the Internal Revenue Code ("IRC"). Under the terms of the Plan, the Company will make a safe harbor matching contribution equal to 100% on the first 3% of the participants' eligible earnings deferred and an additional

50% on the next 2% of the participants' eligible earnings deferred. The Company is also permitted to make discretionary profit-sharing contributions. During the years ended December 31, 2025 and 2024, no discretionary profit-sharing contribution was made by the Company.

All investments are participant-directed. Participants direct the investment of contributions into the various investment options offered by the Plan.

Participant Investment Account Options

Investment account options available include an annuity contract and pooled separate accounts. Each participant has the option of directing his/her contributions into any of the various investments offered by the Plan and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution, plan earnings, and can be charged for some costs associated with operating the Plan. Allocations are based on participant earnings. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon, as well as in the employer safe harbor matching contributions. Vesting in the Company's discretionary non-safe harbor matching contribution portion of their accounts is based on years of continuous service. A participant is fully vested after six years of continuous service following a graded vesting schedule, as defined by the Plan document. The nonvested balance is forfeited upon termination of service.

Payment of Benefits

Upon death, disability, immediate and heavy financial hardship, retirement, or termination of service, a participant or his or her beneficiary may receive, at his or her election, within a reasonable period of time, distribution of their benefits. Normal retirement age is 65. For those participants who have vested benefits in excess of $5,000, who are receiving benefits due to retirement, death or disability, hardship, or termination, may elect to receive either a lump-sum amount equal to the participant's vested interest in his or her account or installment payments over a period of years that does not exceed the life expectancy of the participant or, if applicable, the beneficiary. If the vested benefit is less than $5,000, participants or, if applicable, their beneficiaries will receive a single lump-sum distribution.

Forfeited Accounts

At December 31, 2025 and 2024, forfeited nonvested accounts totaled $2,214 and $3,263, respectively. These accounts will be used to reduce future employer contributions.

Notes Receivable from Participants

The Plan Document includes provisions authorizing loans from the Plan to active eligible participants. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of $50,000 reduced by the participant's highest outstanding loan balances from the Plan during the one-year period ending on the day before the date on which the loan is made, or 50% of the participant's vested account balance less current outstanding loan balances. All loans, other than those used to purchase a principal residence, must be repaid within five years. Loans used to purchase a principal residence can have terms of up to 30 years. The loans are secured by the balance in the participant's account, and the interest rate on loans is set at 1% above the prime rate, as defined. Principal and interest are paid ratably through payroll deductions or another approved manner, with payments made not less frequently than quarterly. Participant loans,

excluding loans of parties-in-interest, as defined, are due and payable on the date the participant terminates employment with the Company. At December 31, 2025, the notes bear interest between 4.25% and 9.50% and have scheduled maturities through June 2030.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Quoted market prices, if available, are used to value investments. Pooled separate accounts are valued at estimated fair values as provided by Voya.

Fully benefit-responsive investment contracts are valued at contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less participant withdrawals, and administration expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contract value is the relevant measure for the portion of net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Contributions

Contributions from Plan participants and the matching contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

Note 3. Certification of Plan Custodian

The Company has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya Institutional Trust Company as of and for the year ended December 31, 2025 and Voya Retirement Insurance and Annuity Company as of and for the year ended December 31, 2024, qualified institutions, have certified the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule are complete and accurate:

- Investments as shown in the statements of net assets available for benefits as of December 31, 2025 and 2024.
- Investment income as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2025 and 2024.
- Investment information included in the accompanying schedule of assets (held at end of year) as of December 31, 2025.

The Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

Note 4. Related Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

Certain plan assets are invested in a group annuity contract managed by Voya. Voya is a custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines. The Plan paid $105,898 and $67,435 of recordkeeping fees and custodial services to the trustee and custodians during 2025 and 2024, respectively.

The Company provides certain administrative services at no cost to the Plan.

Note 5. Plan Amendments

Effective January 1, 2025, the Plan was restated and adopted with Voya Financial to incorporate basic Plan Document and various plan provisions. Under the Voya Financial Plan Document, there is a maximum number of loans of one per participant. The Plan was amended to implement the hardship distribution provisions of the Bipartisan Budget Bill of 2018 and further provisions of the SECURE Act. Plan management believes this will have an insignificant impact on the financial statements.

Effective January 1, 2025, the Plan was amended to permit previous employment with Zen-Bio, LLC to be treated as service with the Employer for eligibility purposes.

Effective April 1, 2024, the Plan was amended to modify the force-out provisions of terminated participants' account balances. Plan management believes this will have an insignificant impact on the financial statements.

Note 6. Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2025 and 2024. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projects and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Pooled Separate Accounts

Valued on a per-unit basis used as a practical expedient to measure fair value, which is evaluated based on the publicly quoted net asset value ("NAV") of the underlying investment in mutual funds or the fair value of other investments held and adjusted for an annual expense charge, as defined. In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. This category includes several collective trusts that invest primarily in mutual funds and other collective investment funds. These accounts can be redeemed daily and have no redemption restrictions or unfunded commitments at December 31, 2025 and 2024.

As of December 31, 2025 and 2024, the Plan's Pooled Separate Accounts totaled $63,807,999 and $50,771,867, respectively.

Note 7. Investment Contract with Insurance Company

The Plan has a fully benefit-responsive investment contract with Voya totaling $1,253,980 and $1,014,831 at December 31, 2025 and 2024, respectively. Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan.

The guaranteed investment contract is fully benefit-responsive; therefore, contract value is the relevant measurement. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan Documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Company or other Company events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. The Plan Administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. Certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an incurred violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material representation, and (4) a material amendment to the agreement without the consent of the issuer.

Note 8. Transfer of Plan Assets

As described in Note 5, effective as of January 1, 2025, the Plan was amended to permit previous employment with Zen-Bio, LLC to be treated as service with the Employer for eligibility purposes.

All participants in the acquired company's legacy plan became 100% vested in that Plan upon termination and were provided the option to have their account balance rolled into any qualified plan (including the Plan) or IRA, receive a lump-sum distribution, or be paid through an annuity contract. An aggregate of $1,530,868 was transferred into the Plan as a result of the plan merger during the year ended December 31, 2025, and is included as a transfer on the statement of changes in net assets available for benefits.

Note 9. Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 10. Plan Tax Status

As permitted by Revenue Procedures 2002-6, the Plan Sponsor has elected to rely on the favorable opinion letter issued to the nonstandardized prototype plan provider, Voya, on June 30, 2020. Although the Plan has been amended since receiving this opinion letter, the trustees believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 12. Subsequent Events

Subsequent events have been evaluated through October 12, 2026, which is the date the financial statements were available to be issued.
