Independent Auditor's Report

To the Plan Administrator of the Durham Retirement Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Durham Retirement Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note G to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

- the information in the accompanying financial statements related to assets which provide benefits under the plan and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2025 and the Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- the certified information in the supplemental schedules related to assets which provide benefits under the plan and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

A. DESCRIPTION OF PLAN:

The following description of the Durham Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan. The Plan sponsor is Durham City Transit Company, Inc. (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Under the Plan, each employee who is at least 21 years of age is eligible to participate in the Plan as of the first day of the month coincident with, or next, following his or her date of hire.

The Plan is administered by the Company's Administrative Committee (the "Committee") comprised of the Company's management who report to the parent company and the City of Durham. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investments held and monitors investment performance.

Effective July 1, 2023, the Plan was amended and the Company agreed to transfer plan sponsorship to RATP Dev USA, Inc. (RATP Dev) and RATP Dev assumed the obligation of the plan sponsorship at that time.

Contributions

Contributions to the Plan are made solely by the Company based on actuarial calculations made by the Plan's actuaries and are subject to minimum funding requirement of ERISA. The Company made employer contributions of $1,859,548 and $2,101,641, for the years ended December 31, 2025 and 2024, respectively, which met or exceeded the minimum funding requirement.

Benefits

Under the terms of the Plan, participants are eligible for monthly benefit payments upon reaching their normal retirement date. Normal retirement date is a participant's 65th birthday or, if later, the fifth anniversary of their initial commencement of Plan participation. The monthly benefit amount is determined by the participant's total compensation averaged over the five consecutive calendar years that produce the highest average. Monthly benefits are equal to 2% of average monthly compensation, multiplied by total projected number of years of service, less:

1. 0.75% of average monthly compensation during the final three years of participation (not to exceed covered compensation), multiplied by total years of service (maximum of 30 years). The offset percentage is reduced by 1/15 for each year that a participant's social security retirement age is greater than 65

2. Amount of the participant's vested accrued benefit under the Duke Power Company Employees' Retirement Plan

CARON BLETZER

A participant is eligible for early retirement benefits after the attainment of age 55 with 10 years of service. The accrued benefit payable at early retirement date is reduced 6% per year to reflect early payment if payment begins before age 60.

Vesting

Employees become 100% vested in the Plan's benefits after five years of service. Employees are credited for a year of service after working a minimum of 1,000 hours during a Plan year. The payment of vested benefits following termination of employment is deferred to the participant's normal retirement date, unless the participant elects otherwise. Participants who terminate with less than five years of service are not entitled to pension benefits.

Death and Disability Benefit

A participant who terminates for reasons of disability will be fully vested in accrued benefits. If a participant should die while employed by the Company, his or her beneficiary shall be entitled to receive the qualified pre-retirement survivor's annuity. No survivor's benefit shall be payable to an unmarried participant who dies before retirement.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

CARON BLETZER

Expenses of the Plan

Investment advisory and administrative expenses are paid by the Company. Investment related expenses are included in net appreciation (depreciation) in fair value of investments. Expenses that are paid by the Company are excluded from these financial statements. The expense for the Pension Benefit Guaranty Corporation ("PBGC") premium filing was paid by the plan for the 2025 plan year.

Payment of Benefits

Benefits are recorded when paid.

C. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used by the Plan. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Pooled separate accounts - Valued at the net asset value of units of a pooled separate account. The net asset value, as provided by the contract issuer, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

CARON BLETZER

The Plan holds no investments that are required to be leveled within the fair value hierarchy as of December 31, 2025 and 2024.

	2025	2024
Investments measured at net asset value(1):		
Pooled separate accounts	$ 22,813,048	$ 19,899,814
Total investments at fair value	$ 22,813,048	$ 19,899,814

(1) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The pooled separate accounts can be redeemed monthly by participants; however, the Plan may defer transfers up to 90 days or such longer periods as necessary. There are no unfunded commitments.

D. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered and include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and, and (c) present employees or their beneficiaries. Vested benefits are benefits to which members are entitled regardless of future service with the Company. Nonvested benefits are dependent upon future services.

The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Discount rate	- 5.37%
Mortality basis	- Pri-2012 Blue collar base rate mortality table projected generationally using MP-2021
Retirement Age	- Based on assumed retirement date by age starting from age 55 through age 70, with an average retirement age of 65

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2025. Had the valuation been performed as of December 31, there would be no material difference.

CARON BLETZER

As of December 31, 2024, the actuarial present value of accumulated plan benefits under the Plan were:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	$ 8,376,004
Other participants	12,452,587
Total vested benefits	20,828,591
Nonvested benefits	85,619
Total actuarial present value of accumulated plan benefits	$ 20,914,210

The net increase in actuarial present value of accumulated plan benefits can be attributed to the following for the year ended December 31, 2024:

Actuarial present value of accumulated plan benefits at beginning of year	$ 19,079,595
Increase (decrease) during the year attributable to:	
Increase in interest due to decrease in discount period	1,113,346
Change in actuarial assumptions	-
Benefits paid	(1,063,145)
Benefits accumulated	1,784,414
Net increase	1,834,615
Actuarial present value of accumulated plan benefits at end of year	$ 20,914,210

E. RELATED-PARTY AND PARTY IN INTEREST TRANSACTIONS:

Section 3(14) of ERISA defines a party in interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, the management of investments held by the trustee are considered party in interest transactions.

F. TAX STATUS:

The plan obtained its latest determination letter on June 30, 2020, in which the Internal Revenue Service states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (“IRC”). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

During 2024, it was discovered that the Plan's written provisions were not consistent with its operation. To correct the operational error, the plan submitted an application under the IRS' Employees Plans Compliance Resolution System (“EPCRS”) Voluntary Correction Program (“VCP”). The IRS issued a compliance statement preserving the tax-exempt status of the Plan on August 7, 2025.

CARON BLETZER

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

G. CERTIFIED INVESTMENTS:

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held at December 31, 2025 and 2024, and net appreciation (depreciation) in fair value of investments for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Principal Life Insurance Company, the trustee of the Plan.

H. PLAN TERMINATION:

Although the Plan was established with the intention that it will continue indefinitely, the Company retains the right to discontinue its contributions at any time or to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, all participants will become 100% vested in their accounts.

While it is the intent of the Company to maintain this Plan indefinitely, in the event the Plan is terminated, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in order indicated:

a. Benefits attributable to employee contributions, if any, taking into account those paid out before termination.

b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan.

c. Other vested benefits insured by the PBGC (a U.S. government agency) up to the applicable limitations (discussed below).

d. All other vested benefits (that is, vested benefits not insured by the PBGC).

e. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

I. RISKS AND UNCERTAINTIES:

The plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

J. SUBSEQUENT EVENTS:

The Plan has evaluated subsequent events through October 13, 2026, the date these financial statements were available for issuance.

Assumptions prescribed by law	
Mortality	Before benefit payment period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female. During benefit payment period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.
Assumptions selected by actuary	
Inflation	2.40% increase per year. Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.
Asset return	6.50% for the current plan year. The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.
Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.
Retirement	Active and inactive participants are assumed to retire at normal retirement age as defined in Plan provisions. Due to our short tenure as actuaries on this plan, we don't have the experience necessary to set this assumption and we are relying on the assumption set by the prior actuary. This assumption seems reasonable with the plan's design and as we gain experience, we will continue to monitor and make appropriate adjustments to this assumption in the future.
Upcoming year salary increase	The preceding year's salary is increased by 3.00% at each age. Note: not used for Plan accounting calculations. Expected salary increase is composed of salary inflation, a real wage growth and a merit increase. This reflects company salary increase philosophies.
Disability	None. This plan does not offer a subsidized disability benefit therefore the disability assumption is built into the withdrawal assumption.
Marriage	100% married; husbands are 0 years older than wives. This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

Withdrawal	Sarason T-8 Table Selected rates of withdrawal are shown below:

Age	Rate of withdrawal
25	11.62%
40	9.40%
55	1.73%

Due to our short tenure as actuaries on this plan, we don't have the experience necessary to set this assumption and we are relying on the assumption set by the prior actuary. This assumption seems reasonable with the plan's design and as we gain experience, we will continue to monitor and make appropriate adjustments to this assumption in the future.

Wage base increase	3.50% per year. Our Wage Base increase assumption are based on inflation and the real wage differential forecast from Social Security Trustee Report. Based on average annual real wage growth forecast from the Social Security Trustee report and historical averages, our best estimate places this assumption at 3.50%.
Compensation limit increase	2.40% increase per year used in the calculation of the IRC 404 maximum deduction cushion. See Calculated deduction in Rules and regulations. Compensation limit increase is consistent with the inflation assumption.
Form of benefit	Participants are assumed to receive their benefits on the normal form at the assumed retirement age.

Methods prescribed by law

Liability measure	Funding target is the present value of the benefits accrued on the valuation date. Included in Funding Target is the value of any missed required minimum distributions (defined in IRC §401(a)(9) and Treasury Regulation §1.401(a)(9)), equal to back payments with interest at 8.00%. Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

Methods selected by plan sponsor

Asset method
Market value

Segment rates
24-month average with no weighting to prior law basis. Use rates where December is the last month included in the average.

PBGC premium basis
Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 01/01/2016 plan year.

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
4.65%	5.28%	5.63%

Methods elected by actuary

Retirees
Assets and liabilities for current and future retirees are included.

Vested benefits
A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality
Based on Pri-2012 Blue collar base rate mortality table projected generationally using MP-2021.

Mortality base rates

Before benefit payment period
Employee amount-weighted, male and female

During benefit payment period
Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Blue collar base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Mortality improvement	MP-2021 is the most recent improvement scale published by the SOA in October 2021. In selecting this assumption, we considered the other parameters available in the MIM-2021-v4 application tool issued by the SOA in October 2023 and consider the selections in MP-2021 reasonable. Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.
Interest rate used to value liabilities	6.00% The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.
Treatment of administrative expenses	No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses. Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer. Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Schedule SB, Part V - Summary of Plan Provisions
Durham Retirement Plan
EIN 75-1626932 Plan No. 002

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan signed 01/28/2011 including amendments through 07/01/2023.

Plan eligibility

Age	Attained age 21.
Service	No service requirement
Class	Any employee of the employer with the exception of an Independent contractor who is later determined to be an employee

Normal retirement benefit

Age	Attained age 65.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	The retirement benefit is a) – b) – c) : a) 2.00% of average monthly compensation multiplied by years of accrual service b) 0.75% of average monthly compensation during the final 3 years of participation (not to exceed covered compensation) multiplied by years of accrual service (maximum 30 years). The offset percentage is adjusted as required under Treasury Regulations Section 1.401(l). c) The amount of the participant's vested accrued benefit under the Duke Power Company Employees' Retirement Plan.

Early retirement benefit

Age	Attained age 55.
Service	Completed 10 years of accrual service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date reduced by 6% for each year that the early retirement date precedes age 60.

Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on late retirement date. Must commence benefit at age 65.

Termination benefit	
Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Disability benefit	
Eligibility	Eligible for a disability benefit under Title II of the Federal Social Security Act and disabled for six months
Form	Monthly income payable for life.
Amount	Accrued benefit on date of disability except that the offset reduction shall not be made before the month in which payment of Social Security disability benefits begin.

Survivor annuity death benefit (a vested benefit)	
Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death. After reaching age 35, a married participant may designate a beneficiary other than the spouse with the spouse's written consent.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Definitions	
Average compensation	The monthly average of "415" pay plus elective deferral contributions received for the highest five consecutive compensation years out of all compensation years.
Benefit service	A participant is granted one year of service upon the accumulation of 1,000 hours of service with the company during twelve consecutive months of employment.
Covered compensation	The monthly average of the social security taxable wage bases in effect under section 230 of the Social Security Act for each year in the 35 year period ending with the year in which the employee attains social security retirement age.

Optional forms of benefit payments

The optional forms of benefit payments are:

- Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 75, or 100.
- Monthly annuity payable for a fixed period elected by the participant.

The optional form conversion basis is 8.0% interest and the 1983 Group Annuity Mortality table (male lives) for payments other than lump sums.

Lump sum provisions

Small amount force out (SAFO) – allowed up to $5,000.

Lump sums in excess of SAFO - are allowed at termination of employment and retirement.

Conversion –greater of the deferred or immediate rate with early retirement factor based on the applicable interest rate and applicable mortality table as set forth in Code Section 417. The applicable interest rate uses the second calendar month preceding the first day of the stability period which is the plan year.

Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
