Independent Auditor's Report

Plan Administrator
National Public Radio, Inc. Retirement Plan
Washington, D.C.

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of the National Public Radio, Inc. Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from qualified institutions as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

Prior to January 1, 2009, records were maintained at a contract, not a plan level; therefore, management has not maintained, and Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF), did not provide, sufficient accounting records and supporting documentation relating to certain annuity contracts and custodial accounts issued to current and former employees, and supporting documentation is not adequate to assure the completeness and accuracy of the amounts included in the financial statements. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements have been affected by these conditions.

BDO USA, P.C., a Virginia professional corporation, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP), and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America (GAAS) and to issue an auditor's report. However, because of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter — Supplemental Schedules Required by ERISA

The ERISA-required Supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025, and the ERISA-required Supplemental Schedule H, line 4a – Schedule of Delinquent Participant Contributions for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section of our report, it is inappropriate to, and we do not express an opinion on the supplemental schedules referred to above.

1. Description of the Plan

The following description of the National Public Radio, Inc. ("NPR;" "Plan Administrator") Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

A. General—The Plan is a defined contribution 403(b) plan with salary deferral provisions covering substantially all NPR employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). NPR's management and National Public Radio, Inc.'s Retirement Committee ("Retirement Committee") are responsible for oversight of the Plan and determine the appropriateness of the Plan's investment offerings, monitor investment performance, and report to the Plan's Administrator.

B. Trustees and administration of the Plan—The Plan transitioned primary custodial and recordkeeping services from the Teachers Insurance and Annuity Association of America ("TIAA") to Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company and Principal Life Insurance Company, members of Principal Financial Group (collectively "Principal") on April 1, 2023 ("Transition Date"). Most Plan assets were transferred from TIAA to Principal (hereinafter referred to as "Plan Asset Transfer"). Principal allocated each participant's balance into a similar investment (e.g., similar target date fund). After a "blackout" period, participants could direct their investment elections into funds of their choice. During this transition, all participants remained fully invested.

On the Transition Date, the Plan adopted a new 403(b) Volume Submitter Plan with Principal ("Principal Agreement"). New contributions, transfers, and rollovers are only permitted into Principal.

The trustees and issuers of the insurance products held in the Plan are Teachers Insurance and Annuity Association of America ("TIAA") and College Retirement Equities Fund ("CREF") (collectively, "TIAA and CREF"). All other assets are held at Principal (hereinafter TIAA and Principal collectively referred to as "Trustees"). The Trustees hold all assets of the Plan in accordance with the service provider contracts with NPR.

C. Eligibility—All NPR employees, except nonresident aliens, leased employees, and independent contractors, are eligible to participate in the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their initial deferral rate set at 3% of eligible compensation, increasing 1% per year, to a maximum of 10%, and their contributions are invested in a designated retirement age-specific balanced fund unless changed by the participant. Participants become eligible to receive NPR contributions on the first day of the month following the completion of two years of service in which the employee worked at least 1,000 hours each year.

D. Contributions—Employees may participate in the salary deferral portion of the Plan upon hire and may contribute up to the maximum amount allowed as defined in the Plan, subject to the limits established by the U.S. Internal Revenue Code of 1986, as amended ("IRC"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans or Individual Retirement Accounts, known as rollover contributions.

1. Description of the Plan (Continued)

D. Contributions (Continued)—NPR contributes a certain percentage of a participant's compensation earned based upon whether or not the participant is covered by a collective bargaining agreement:

- For those participants who are covered by a collective bargaining agreement between NPR and the Screen Actors Guild—American Federation of Television and Radio Artists, Washington-Baltimore local ("SAG—AFTRA"), NPR contributes an amount equal to 7% of the participant's compensation earned.
- For those participants who are covered by a collective bargaining agreement between NPR and the National Association of Broadcast Employees and Technicians in the Digital Media Unit ("NABET-CWA DMU"), NPR contributes an amount equal to 7% of the participant's compensation earned.
- For those participants not covered by the collective bargaining agreement between NPR and SAG—AFTRA or NABET-CWA DMU, NPR contributes an amount equal to 6.5% of the participant's compensation earned.

The plan permits increased amounts of catch-up contributions for eligible participants who will attain ages 60, 61, 62, or 63 as of the close of the taxable year. Increased catch-up contributions shall be the great of (i) $10,000 per year; or (ii) 150% of the regular amount of catch-up contributions made by a participant in the taxable year. Regular catch-up contribution amounts shall apply to eligible participants who will attain ages 50-59, and ages 64 and over as of the close of the taxable year. Catch-up contributions shall be indexed annually for inflation.

E. Participant accounts—Participants direct the investment of contributions into various investment options offered by the Plan. Each participant's account is (a) credited with the participant's contributions, NPR's contributions, and an allocation of earnings or losses from the investment options elected by the participant and (b) debited for certain Plan expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

F. Vesting—Participants are immediately and fully vested in their voluntary contributions, rollover contributions, and NPR contributions plus actual earnings and losses thereon.

G. TIAA Plan loans—Until July 16, 2018, participants could borrow directly from TIAA, up to a maximum amount equal to the lesser of $50,000 or 45% of their vested account balance, subject to any participant notes receivable outstanding. As these loans were issued directly from funds owned by TIAA and not from a participant's account, the loans are not considered assets of the Plan and are, therefore, excluded from the Plan's statements of net assets available for benefits. Adequate security is required and a portion of the participant's account is reserved, or held in collateral, to cover 110% of the outstanding loan in case of default. The collateral is held in the TIAA Traditional Fixed Annuity Account as either part of a Group Supplemental Retirement Annuity ("GSRA") contract or as a separate Retirement Loan contract. Interest rates on these loans range from 4.00% to 5.85% for the year ended December 31, 2025.

At December 31, 2025 and 2024, there was $144,117 and $177,795, respectively, held within participant accounts in investments within the statements of net assets available for benefits, which served as collateral against outstanding TIAA Plan Loan balances.

1. Description of the Plan (Continued)

G. TIAA Plan loans (Continued)—For the year ended December 31, 2025, no defaulted TIAA Plan Loans were included in benefits paid to participants and beneficiaries in the statement of changes in net assets available for benefits.

H. Notes receivable from participants—Participants may borrow from the participant contribution portion of their accounts a minimum of $1,000 up to the lesser of 50% of their vested account balance or $50,000, reduced by the highest outstanding loan balance in their account during the prior 12-month period. The loans are secured by the balance in the participant's account.

The loans are repaid ratably through payroll deductions over a period of five years or less, unless used to purchase a principal residence up to 10 years. These loans are subject to certain restrictions as defined by the Plan document and applicable restrictions under the IRC. Also, each participant may not have more than two loans outstanding at any time.

For the year ended December 31, 2025, defaulted participant loans totaling $22,583 were included in benefits paid to participants and beneficiaries in the statement of changes in net assets available for benefits.

I. Payment of benefits—Upon termination of service or upon death, disability, or retirement (age 65), the Plan allows for distributions in accordance with the appropriate provisions of the IRC and applicable state laws. A participant or beneficiary may elect to receive either a lump-sum amount equal to the value of the participant's vested account balance or annuitized payments of the participant's vested account balance over time.

The Plan allows for in-service payment of benefits when a participant reaches age 59½. Participants may elect to withdraw from their vested accounts in the event of a proven financial hardship. Participants may only withdraw from the participant's elective contributions account in an amount equal to the lesser of 100% of their elective contributions account balance or the amount needed to satisfy the immediate and heavy financial need of the participant. If a participant terminates employment and the participant's account balance does not exceed $5,000, the Plan Administrator may authorize the benefit payment without the participant's consent.

J. Forfeited accounts—Forfeited accounts may be utilized to reduce NPR contributions or pay the Plan's administrative expenses. Forfeited accounts totaled $0 and $13,999 at December 31, 2025 and 2024, respectively. For the year ended December 31, 2025, $3,110 of forfeitures were utilized during the year to pay for plan expenses, and there were $584 of earnings on the funds.

K. Administrative expenses—NPR has elected to pay most administrative expenses associated with the Plan, except for certain account and loan fees deducted directly from the individual participants' accounts and some allowable expenses paid by the Plan. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. If there are not enough funds generated by the revenue sharing arrangement, then NPR will pay the expenses by direct payment.

1. Description of the Plan (Continued)

L. Revenue credits—The Principal Agreement provides a revenue credit arrangement whereby Principal allocates quarterly deposits into an account that is used to pay the Plan's administrative expenses. During 2025, the Plan received credits of $188,877, $117,723 of which was used to pay administrative expenses. The credits had $12,544 in earnings and dividends. Administrative expenses are presented net of revenue credits in the statement of changes in net assets available for benefits. Unused revenue credits at December 31, 2025 and 2024 are $206,347 and $122,649, respectively.

2. Summary of Significant Accounting Policies

A. Annual reporting requirements—Prior to January 1, 2009, TIAA and CREF maintained records at a contract, not Plan level. Neither the Plan sponsor nor TIAA and CREF, as custodians, have sufficient historical accounting records and supporting documents relating to certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. As a result, the completeness and the accuracy of the annuity and custodial accounts, related investment income, and distributions related to these accounts, could not be determined.

B. Basis of accounting—The Plan's financial statements are prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

C. Use of estimates—The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

D. Investment valuation and income recognition—Investments are reported at fair value, except for fully benefit-responsive ("FBR") investment contracts, which are valued at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance companies. See Note 4 for additional information related to fair value measurements.

The Plan's FBR investment contracts with TIAA are valued at contract value (Note 5). Contract value equals the accumulated cash contributions and interest credited to the Plan's contracts less withdrawals. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

E. Notes receivable from participants—Notes receivable from participants are measured at the unpaid principal balances plus any accrued but unpaid interest. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded if the participant has met a distributable event in accordance with the Plan document. Notes receivable from participants held with Principal that were deemed to have been distributed was $22,583 for the year ended December 31, 2025.

2. Summary of Significant Accounting Policies (Continued)

F. Contributions—Participant contributions and any related employer discretionary contributions are recognized in the period during which NPR makes the respective payroll deduction from the participant's compensation.

G. Payment of benefits—Benefits are recorded when paid.

H. Expenses—Plan-paid recordkeeping services expenses are reported as administrative expenses in the statement of changes in net assets available for benefits. Fees paid by NPR, if any, are excluded from these financial statements. Fees related to participant-initiated transactions are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation in fair value of investments.

3. Information Certified by Principal, TIAA and CREF

Certain information disclosed in the accompanying financial statements and ERISA-required supplemental schedule, related to investments and notes receivable from participants held at December 31, 2025 and 2024, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2025, was obtained and agreed to or derived from information certified as complete and accurate by Principal, TIAA and CREF, qualified institutions.

4. Fair Value Measurements

ASC 820, *Fair Value Measurement*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

- **Level 1**—Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan can access.

- **Level 2**—Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- **Level 3**—Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

4. Fair Value Measurements (Continued)

Following is a description of the valuation methods used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

- **Mutual funds**—These investments are generally valued at the daily closing price as reported by the respective fund and these funds are required to publish their daily net asset value ("NAV") and to transact at that price. These Plan investments are deemed to be actively traded on a public exchange.

- **CREF registered investments**—These variable annuity accounts are registered investments that invest principally in equity securities, fixed-income instruments, and short-term investments in accordance with each portfolio's investment objectives. Account investments and fund holdings are primarily valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments including matrix pricing. Money market account holdings are generally valued at amortized cost. Units may be redeemed daily, with no required notice period. Units may not be transferred out of the same account unless 90 calendar days have passed. The NAV is the basis for participant transactions and is published on the NASDAQ daily.

- **Fixed annuity contracts**—The non-FBR fixed annuity contracts, composed entirely of the TIAA-Traditional Annuity ("TIAA-TA"), are reported at fair value, as approximated by contract value. Fair value is determined using the discounted cash flow method. The TIAA-TA is not available for sale or transfer on any securities exchange and is subject to various restrictions (Note 5).

- **Pooled separate account**—The investment in the pooled separate account is stated at fair value as determined in accordance with the policies and procedures reviewed by the Investment Committee of the issuer. The NAV of the units held in the TIAA real estate pooled separate account is based on the market value of the underlying real estate holdings which are valued principally utilizing external appraisals and involve significant judgment. The NAV of the TIAA real estate pooled separate account is the basis for participant transactions and are published daily on the NASDAQ (Note 6).

- **Self-directed brokerage account**—The self-directed brokerage account gives participants the opportunity to actively manage their retirement contributions as participants can select from various registered company fund choices such as fixed income securities, equities and exchange traded funds, and mutual funds. These investments are generally valued at the daily closing price as reported by the respective fund and these funds are required to publish their daily NAV and to transact at that price. These investments are deemed to be actively traded.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (Continued)

Fair value tables—The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of the end of 2025 and 2024.

		Fair Value Hierarchy Level

Quantitative information—Quantitative information with respect to assets measured and carried at fair value on a recurring basis using significant unobservable inputs (level 3) follows:

Description	Fair Value at December 31, **2025**	Fair Value at December 31, 2024	Principal Valuation Techniques	Unobservable Inputs
Fixed Annuity Contracts *(TIAA Traditional Annuity)*	**$ 38,015,182**	$ 39,032,635	Discounted cash flow; Theoretical transfer (exit value)	Risk adjusted discount rate
Pooled Separate Account *(TIAA Real Estate Account)*	**$ 5,139,477**	$ 5,621,194	Income approach: discounted cash flow and direct capitalization	Discount Rate Terminal Capitalization Rate Overall Capitalization Rate

Level 3 Sensitivity of Fair Value Measurements and Changes in Significant Observable Inputs—The significant unobservable inputs used in the fair value measurement of the Plan's Level 3 investments are subject to market risks resulting from changes in the market value of its investments.

5. Fixed Annuity Contracts with TIAA and Principal

TIAA—TIAA offers the TIAA-TA through a variety of contracts. Such contracts are established between the participants and TIAA. The contract options include Retirement Annuities ("RA"), Supplemental Retirement Annuities ("SRA"), and GSRA. No new contributions, transfers, or rollovers are permitted into these legacy options after June 28, 2018. After June 28, 2018, the available contract options for new contracts include only Retirement Choice ("RC") and Retirement Choice Plus ("RCP") annuities.

Contributions to the annuity accounts are grouped by TIAA into "vintages" comprised of premiums received over defined time periods of one or more contiguous calendar months. The interest crediting rate for each vintage is determined, in part, by the net investment earnings rate of the TIAA assets supporting that vintage, minus a charge for administrative expenses and an amount set aside for contingency reserves. Crediting rates are also determined by the performance of investments contained in TIAA's general account.

The TIAA-TA holdings within RA and RC contracts have liquidity restrictions and account balances may only be withdrawn via periodic payments up to 10 years. Furthermore, the RA and RC contracts do not allow lump-sum cash withdrawals and transfers must be spread over a multi-year period of annual installments. Because these provisions are considered to restrict participant's "reasonable access" to their contract balances, RA and RC contracts are non-FBR.

The TIAA-TA holdings within the GSRA, SRA, and RCP contracts contain no liquidity restrictions and are immediately cashable once a participant terminates employment with NPR (unless the holdings are pledged as collateral on a Plan Loan). As a result, GSRAs, SRAs, and RCPs are FBR.

5. Fixed Annuity Contracts with TIAA and Principal (Continued)

TIAA (Continued)—There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is supported by the investment performance of a large, diversified portfolio and is adjusted for contract liquidity, but it may not be less than 3%. Such interest rates are reviewed on a quarterly basis for resetting. The TIAA-TA is fully and unconditionally guaranteed and backed by the claims-paying ability of TIAA.

The contract does not permit TIAA to terminate the agreement prior to the scheduled maturity date.

Principal—Principal offers the Principal Guaranteed Option ("PGO"), which is a guaranteed general account-backed, group annuity contract issued by Principal Life Insurance Company ("Principal Life"). All contributions and transfers to the contract are credited with a guaranteed rate of return ("crediting rate"). The composite crediting rate is determined by Principal Life semiannually, and the rate reflects deductions of fees for administrative and recordkeeping services as applicable.

The Principal holdings within the PGO contract contains no liquidity restrictions and are immediately cashable once a participant terminates employment with NPR. As a result, PGO contracts are FBR.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is supported by the investment performance of a large, diversified portfolio and is adjusted for contract liquidity.

The PGO is fully and unconditionally guaranteed and backed by the general account of Principal Life.

Annuity Contract Crediting Rates—During 2025, the crediting rates were:

Annuity Contract	Rates
TIAA	
GSRA FBR annuity contracts	3.75% - 4.50%
RA non-FBR annuity contracts	4.50% - 5.25%
RC non-FBR annuity contracts	4.75% - 5.50%
RCP FBR annuity contracts	4.00% - 4.75%
SRA FBR annuity contracts	3.75% - 4.50%
Principal	
Fixed Income-Guaranteed Option	4.75% - 4.95%

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

5. Fixed Annuity Contracts with TIAA and Principal (Continued)

The Plan Administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring, and the Plan Administrator is not aware of any events that would limit the ability of the Plan to transact at contract value with the issuers.

6. Pooled Separate Account with TIAA

The TIAA Real Estate Fund ("RE Fund") invests in real estate properties and related estate-related investments. As such, the value of this account is principally derived from the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally using external appraisers, which are estimates of property values based on a professional's opinion. The account sometimes holds securities as well. These securities are generally priced using values obtained from independent pricing sources. The pooled separate account is stated at fair value as determined in accordance with the policies and procedures reviewed by the RE Fund's Investment Committee of Trustees.

The value of the units held in the pooled separate account is based on the market value of the underlying real estate holdings with TIAA which are valued principally utilizing external appraisals and involve significant judgment.

Further, as the RE Fund generally obtains appraisals on a quarterly basis, there may be circumstances in the period between appraisals or interim valuation adjustments in which the true realizable value of a property is not reflected in the RE Fund's daily NAV calculation or in the RE Fund's periodic financial statements. This disparity may be more apparent when the commercial and residential real estate markets experience an overall and possibly dramatic change in property values in a relatively short period of time between appraisals.

The RE Fund provides participants with a liquidity guarantee enabling the account to have funds available to meet participant redemption, transfer, or cash withdrawals.

TIAA guarantees that participants can redeem their accumulation unit value determined after their transfer or cash withdrawal request is received in good order.

TIAA limits the ability of participants to transfer funds into the RE Account. Specifically, individual participants are limited from making internal transfers into their account if, after giving effect to such transfer, the total value of such participant's account (under all contracts issued to such participant) would exceed $150,000. A participant is not required to reduce his or her contract balance to a level at or below $150,000 if the participant's account totals more than $150,000.

7. Related Party and Party-in-Interest Transactions

The Plan holds investments issued and managed by Principal, TIAA and CREF, and affiliates. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments. Therefore, transactions with Principal and TIAA and CREF qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA. Notes receivable from participants are also exempt party-in-interest transactions.

8. Prohibited Transactions

During the Plan year ended December 31, 2025, loan repayments totaling $2,705 were not remitted to the Plan within the period prescribed by DOL regulations. The loan payments were remitted to the Plan in 2026; however, the related lost earnings had not been remitted as of the report date. During the Plan year ended December 31, 2024, participant contributions and loan repayments totaling $540,818 were not remitted to the Plan timely. The contributions and loan repayments were remitted to the Plan during 2024; however, the related lost earnings on these transactions were not remitted to the Plan as of December 31, 2025. These transactions constitute non-exempt party-in-interest transactions or prohibited transactions as defined by ERISA. The related lost earnings will be remitted to the Plan during 2026, when the Plan makes the correction through the Voluntary Fiduciary Correction Program (VFCP).

9. Tax Status

The Principal Agreement executed upon the Transition Date is a pre-approved plan document sponsored by Principal. Principal received an opinion letter from the Internal Revenue Service ("IRS"), dated March 31, 2017, which states that the pre-approved plan document, as then designed, satisfies the applicable provisions of the IRC. Although the Plan has been amended since the date of the opinion letter, the Plan Administrator and the Plan's external counsel believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

GAAP requires the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator does not believe its financial statements include any uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Plan Termination

Although it has not expressed any intent to do so, NPR has the right under the Plan to reduce or discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants continue to be 100% vested in their employer contributions.

11. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements and participant account balances.

12. Subsequent Events

The Plan Administrator has evaluated subsequent events and transactions through October 13, 2025, the date the financial statements were available to be issued. Effective February 13, 2026, the Plan was amended to make certain changes to the definition of eligible compensation and other administrative changes. Effective June 1, 2026, the plan was amended to change the maximum elective deferral percentage from 100% of compensation to 90% of compensation.
