Independent Auditor's Report

To Administrative Committee of the
Quality Companies 401(k) Plan
Youngsville, LA

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2025 Financial Statements
We have performed the audit of the financial statements of the Quality Companies 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2025, the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2025 Financial Statements
In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2025 Financial Statements section:

- The amounts and disclosures in the 2025 Financial Statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the 2025 Financial Statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2025 Financial Statements
We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2025 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2025 Financial Statements
Management is responsible for the preparation and fair presentation of the 2025 Financial Statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the 2025 Financial Statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2025 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2025 Financial Statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2025 Supplemental Schedules Required by ERISA
The supplemental schedules of assets (held at end of year) and schedule of delinquent participant contributions, are presented for purposes of additional analysis are not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2024 Financial Statements

The financial statements of the Plan as of December 31, 2024, were audited by the predecessor auditors. In accordance with the ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated September 24, 2025, indicated that in their opinion (a) the amounts and disclosures in the 2024 Financial Statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with U.S. GAAP, and (b) the information in the 2024 Financial Statements related to assets held by and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of Plan

The following description of the Quality Companies 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Quality Companies (the Company). An eligible employee may enter the Plan on the first day of the month following the date eligibility requirements are met. Participating members of the Company are Quality Construction & Production, LLC, Quality Production Management, LLC, Qualco Management, Inc., Zadok Technologies, and Traco Production Services, Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Each year, participants may contribute portions of their eligible compensation, up to the maximum allowed by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified benefit or defined contribution plans.

The Company matches 100% of the first 3% and 50% of the next 2% of participant's eligible compensation contributed to the Plan. The Company may also contribute discretionary match contributions to the Plan. Employer matching contributions also apply to catch-up contributions. Safe harbor matching contributions totaled $643,613 for 2025. The Company did not make additional discretionary matching contributions for 2025.

Participant Accounts

Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment options at any time throughout the year. Each participant's account is credited with the participant's contribution and allocations of the Company's matching contribution, plan earnings (losses), and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000, up to a maximum of $50,000, or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear an interest rate which is determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions as determined by the pay frequency of the participants.

Note 1. Description of Plan (Continued)

Payment of Benefits

Distributions from the Plan's assets are made upon the participant's death, disability, retirement, termination of service, or other circumstances as described in the Plan Document. Upon termination, a participant whose vested account balance does not exceed $1,000 valued at the time of the distribution will receive an immediate lump-sum payment. A participant whose vested account balance exceeds $1,000 valued at the time of distribution may defer the payment of benefits until April 1 of the calendar year following the calendar year during which the participant attains 73. Fully vested participants who have attained age 59½ and who have not separated from service may obtain distributions of their account balance. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan.

Vesting

Participants are immediately vested in their contributions and the Company's safe harbor contributions, which began effective January 1, 2021, plus actual earnings thereon. Participants become vested in the Company's matching discretionary contributions received prior to January 1, 2021 and the earnings thereon based on the following vesting schedule:

Years of Service	% Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or More	100%

Forfeitures

When certain terminations of participation in the Plan occur, the non-vested portion of the participant's account, as defined by the Plan, represent a forfeiture. Forfeitures may be used to reduce employer contributions or to pay allowable plan expenses, as outlined in the Plan Document. During the year ended December 31, 2025, no forfeitures were used to reduce employer contributions. At December 31, 2025 and 2024, forfeited non-vested accounts totaled $25,283 and $12,084, respectively.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination or partial plan termination, participants will become fully vested in their accounts.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

Tax Status

The Plan has adopted a preapproved plan document that has received an opinion letter from the Internal Revenue Service (IRS) dated June 30, 2020, stating that the form of the preapproved plan document was in compliance with applicable requirements of the IRC. The Plan Administrator believes the Plan is designed, and is being operated, in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America (U.S. GAAP) require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results may differ from those estimates.

Note 2. Summary of Significant Accounting Policies (Continued)

Contributions
Contributions from plan participants and matching contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Certain expenses incurred for maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are charged directly to the participant's account and are included in administrative expenses.

Note 3. Information Certified by Voya Institutional Trust Company (Voya)

The following is a summary of the Plan's asset information as of December 31, 2025 and 2024, and for the year ended December 31, 2025, included throughout the Plan's financial statements and ERISA-required supplemental schedules, obtained by management and agreed to or derived from information certified by Voya, a qualified institution:

	2025	2024
Investments at Fair Value		
Pooled Separate Accounts	**$ 8,443,771**	$ 6,674,861
Investments at Contract Value		
Insurance Company General Account	**$ 587,033**	$ 453,902
Notes Receivable from Participants	**$ 360,333**	$ 183,789

The trustee also certified to the completeness and accuracy of $1,186,614 of net appreciation in value of investments, $7,184 of interest and dividend income from the aforementioned assets, and $19,387 of interest income on notes receivable from participants for the year ended December 31, 2025.

The *Fair Value Measurement* Topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Note 4. Fair Value Measurements

The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024:

Pooled Separate Accounts: Valued at the market value of the underlying mutual funds adjusted for the Plan's participation units in the pooled accounts.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	Fair Value Investments at December 31, 2025			
	Level 1	**Level 2**	**Level 3**	**Total**
Total Assets in the Fair Value Hierarchy	**$ -**	**$ -**	**$ -**	**$ -**
Investments Measured at Net Asset Value (a)				**8,443,771**
Investments at Fair Value				**$ 8,443,771**

	Fair Value Investments at December 31, 2024			
	Level 1	Level 2	Level 3	Total
Total Assets in the Fair Value Hierarchy	$ -	$ -	$ -	$ -
Investments Measured at Net Asset Value (a)				6,674,861
Investments at Fair Value				$ 6,674,861

a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value (NAV) per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Investments Measured Using NAV per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2025 and 2024. There are no participant redemption restrictions for these investments.

Note 4. Fair Value Measurements (Continued)

Investments Measured Using NAV per Share Practical Expedient (Continued)

(a) This category primarily consists of a diversified portfolio of stocks that has capital appreciation as its primary goal, with little or no payouts. Portfolio companies would mainly consist of companies with above-average growth in earnings that reinvest their earnings into expansion, acquisition, and/or research and development.

(b) This category includes funds seeking various returns of capital appreciation and current income. The funds invest primarily in equity and fixed income funds, with the allocations varying by each investment's individual strategy.

(c) This category primarily holds funds that are deemed to be undervalued in price and that are likely to pay dividends.

(d) This category includes funds constructed to match or track the components of a market index, such as the Standard & Poor's 500 Index. An index fund is said to provide broad market exposure, low operating expenses, and low portfolio turnover.

(e) These securities are issued by governments and corporations. These investments typically generate regular interest payments, and investor's principal is returned along with any accrued interest. Its goal is to preserve capital and manage volatility.

(f) This category automatically resets the asset mix of stocks, bonds, and cash equivalents in its portfolio according to a selected time frame that is appropriate for a particular investor.

(g) This category preserves capital and provides relatively stable returns consistent with its low risk profile.

Note 5. Investment Contract with Voya

During the years ended December 31, 2025 and 2024, the Plan allowed participants to invest in a traditional annuity contract in which the invested funds are held in an insurance company general account which supports insurance and annuity obligations. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

As described in Note 2, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported in the Plan, represents contributions made under the contract, plus earnings less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The investment contract has a guarantee that the interest rate will not go below a floor rate. Such interest rate is reviewed on a quarterly basis for resetting. The fair value of the investment contract at December 31, 2025 and 2024 was $587,033 and $453,902, respectively.

Note 5. Investment Contract with Voya (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options; (3) bankruptcy of the Plan Sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that significantly affect the Plan's normal operations; (4) the failure of the Plan to qualify under 401(a) of the IRC or the failure of the trust to be tax exempt under Section 501(a) of the IRC; or (5) premature termination of the contract.

The Plan Administrator believes that no events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer, and that also would limit the ability of the Plan to transact at contract value with the participants.

Note 6. Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 at December 31, 2025:

Net Assets Available for Benefits, per the Financial Statements	$	9,449,689

Net Increase in Net Assets Available for Benefits, per 5500	$	2,079,829

Note 7. Risks and Uncertainties

The Plan invests in various investments as directed by participants. The underlying investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8. Related-Party and Party-in-Interest Transactions

Certain plan investments are managed by Voya. Voya is the Plan's trustee as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $18,822 for the year ended December 31, 2025.

Note 9. Prohibited Transactions

During 2025, 2024, and 2023, the Company inadvertently failed to deposit $276,692, $220,804, and $437,571, respectively, of participant deferrals within the required time frame as stated by the United States DOL Regulations. The Company is in the process of calculating lost earnings for these late remittances and intends to deposit these lost earnings into the affected participants accounts to correct this failure in 2026. The Company intends to file Form 5330 and pay the applicable excise tax to the IRS. The correction, and any applicable excise taxes, will be made from the Company's assets and not from assets of the Plan.

Note 10. Compliance Testing

As of the date of the report, the Plan Administrator has not completed the compliance testing for the Plan years 2024 and 2025. The results of this testing could require corrections to the Plan's contributions. The Plan Administrator does not believe that any corrections as a result of the compliance testing will be material to the financial statements.

Note 11. Subsequent Events

The Plan Administrator has evaluated subsequent events through the date that the financial statements were available to be issued, October 11, 2026, and determined that no events occurred that require disclosure. No subsequent events occurring after this date have been evaluated for inclusion in these financial statements.
