INDEPENDENT AUDITOR'S REPORT

To the Plan Participants and Plan Administrator of
PPL Employee Stock Ownership Plan

Opinion

We have audited the financial statements of PPL Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. PLAN DESCRIPTION

The PPL Employee Stock Ownership Plan (the "Plan") was adopted effective January 1, 1975 to provide for employee stock ownership in PPL Corporation ("PPL"). The Plan is currently sponsored by PPL Services Corporation (the "Company"), an unregulated subsidiary of PPL. Amounts contributed to the Plan are used to purchase shares of PPL common stock ("Common Stock"). The following description of the Plan provides only general information. Participants should refer to the plan document for a more complete description of the Plan provisions.

Employees of participating PPL companies, as defined in the plan document, are eligible to participate in the Plan on the first day of the month following their date of hire. Effective January 1, 2015, the Plan was closed to newly-hired salaried employees.

The shares of Common Stock ("Shares") allocated to a participant's account may not exceed the maximum permitted by law. All Shares credited to a participant's account are 100% vested and nonforfeitable, but cannot be pledged as security by the participant. Each participant is entitled to exercise voting rights attributable to the shares attributed to his/her account. The Common Stock is held by Fidelity Management Trust Company (the "Trustee").

The Plan allows for dividends on Shares held to be reinvested in the Plan or paid in cash to participants. Under existing income tax laws, PPL is permitted to deduct the amount of those dividends for income tax purposes on its consolidated federal income tax return and to contribute the resulting tax savings (dividend-based contribution) to the Plan. The dividend-based contribution was made in Shares or in cash that was used to buy Shares. The dividend-based contribution was expressly conditioned upon the deductibility of the contribution for federal income tax purposes.

Participants may elect to withdraw Shares from their accounts that have been allocated with respect to a plan year ending at least 36 months prior to the end of the plan year in which the election is made. Participants who elect to withdraw Shares from their accounts may receive cash or Common Stock for the number of whole Shares and cash for any fractional Shares available for withdrawal, or may make a rollover to a qualified plan.

Participants who have attained age 55 and have completed ten years of participation in the Plan may elect to withdraw Shares or diversify the value of Shares held into other investment options under the Plan. For the first five years after meeting the requirement, participants may withdraw or diversify up to an aggregate of 25% of such Shares. In the sixth year, qualified participants may withdraw or diversify up to an aggregate of 50% of such Shares. Participants who elect to diversify may direct the Trustee to invest their eligible diversification amounts into various mutual funds and investments, which are similar to those provided through PPL's 401(k) savings plans.

Upon termination of service with a participating PPL company, participants are entitled to make a withdrawal and receive cash or Common Stock for the number of whole Shares and cash for any fractional Shares allocated to them, or may make a rollover to a qualified plan. Participants who terminate service with a participating PPL company and whose account balance exceeds, or

exceeded at the time of any prior distribution, $1,000, may defer distribution of the Shares in their account until April 1st of the calendar year following the year in which the participant attains age 73 for years 2023 and forward. If a participant wishes to withdraw prior to the age requirement, the entire account balance must be withdrawn.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The plan is designed to comply with section 4975(e)(7) and the regulations of the Internal Revenue Code of 1986, as amended (IRC).

Provisions of the plan regarding vesting, distributions and other matters are more fully described in the plan document and Summary Plan Description.

The Plan is administered by the Employee Benefit Plan Board (the "Plan Administrator"), which is composed of certain PPL officers and employees appointed by the Board of Directors of PPL.

Company contributions are held and managed by the Trustee, which invests securities and cash received, interest, and dividend income and makes distributions to participants. The Plan pays investment and certain administrative expenses directly.

Certain administrative functions of the Plan are performed by employees of the Company. No such employees receive compensation from the Plan.

Certain professional fees and administrative expenses incurred by the Plan are paid by the Company and are not included in these financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan’s valuation policies utilizing information provided by the investment advisors, Trustee and insurance companies. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation

(depreciation) includes the gains and losses on investments bought and sold as well as held during the year.

Distributions

Distributions to participants who terminate service for reasons other than retirement, disability or death are recorded in the period during which service is terminated unless such participants defer the distributions. Single sum distributions for active, retired, deceased, disabled and deferred terminated participants are recorded as distributed. Installment payments are recorded as distributed.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through June 10, 2026, the date the financial statements were available to be issued.

3. INTEREST IN PPL DEFINED CONTRIBUTION MASTER TRUST

PPL maintains the PPL Defined Contribution Master Trust (the "Master Trust") with the Trustee to pool the investments of its defined contribution benefit plans. The Blended Interest Rate Fund (the "Fund") is the only investment option of the Plan included in the Master Trust, and represented less than 1% of plan assets at December 31, 2025 and 2024. Therefore, no detailed disclosures related to the Master Trust have been presented in these financial statements. The Fund is structured as a synthetic investment contract and meets the fully benefit-responsive investment contract criteria to be measured at contract value. Contract value is the amount received by participants initiating transactions under the terms of the Plan. Contract value represents contributions made, plus earnings, less withdrawals and administrative expenses.

Investments directed by participants to the Fund within the Master Trust are combined with similar investments applicable to other plans participating in the Master Trust and invested in high-grade investment contracts issued by insurance companies and banks, as well as other high-quality debt obligations and short-term money market instruments. Wrapper contracts are purchased from another party, which are agreements that allow for the Fund to maintain a constant net asset value (“NAV”) and provide for participant transactions to be made at contract value. In a typical wrapper contract, the wrapper issuer agrees to pay the Fund the difference between the contract value and the market value of the covered assets if the market value becomes totally exhausted as a result of significant participant redemptions. Purchasing wrapper contracts is similar to buying insurance, in that the Fund pays a relatively small amount to protect against the relatively unlikely event of participant redemption of most of the shares of the Fund. The fair value of the wrapper contracts is determined using the replacement cost methodology that incorporates various inputs including the difference between the market for wrapper fees and the actual wrapper fees currently charged.

Wrapper contracts accrue interest using a formula called the "crediting rate." Wrapper contracts use the crediting rate formula to convert market value changes in the covered assets into income distributions in order to minimize the difference between the market and contract value of the covered assets over time. Using the crediting rate formula, an estimated future market value is calculated by compounding the Fund's current market value at the Fund's current yield

to maturity for a period equal to the Fund's duration. The crediting rate is the discount rate that equates estimated future market value with the Fund's current contract value. Crediting rates are reset monthly.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable. Management believes such inputs are predicated on the assumptions market participants would use to measure the asset at fair value.

The level assigned to a fair value measurement is based on the lowest level input that is significant to the fair value measurement in its entirety. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following tables summarize instruments measured at fair value on a recurring basis at December 31, 2025 and 2024:

	Fair Value Measurements at December 31, 2025			
	Total	**Level 1**	**Level 2**	**Level 3**
Common stock	$ 112,247	$ 112,247	$ —	$ —
Mutual funds	24	24	—	—
	112,271	$ 112,271	$ —	$ —
Common collective trust funds (a)	2,476			
	$ 114,747			

	Fair Value Measurements at December 31, 2024			
	Total	Level 1	Level 2	Level 3
Common stock	$ 111,452	$ 111,452	$ —	$ —
Mutual funds	21	21	—	—
	111,473	$ 111,473	$ —	$ —
Common collective trust funds (a)	2,086			
	$ 113,559			

(a) In accordance with accounting guidance certain investments that are measured at fair value using NAV, or its equivalent, practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

The fair value measurement of common stock, classified as Level 1, is based on its quoted market price in an active market.

The fair value measurements of mutual funds, classified as Level 1, are valued at the daily closing prices as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission (SEC). These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The fair value measurements of common collective trust funds are valued at the NAV of units of a bank collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. There are no unfunded commitments. Participant transactions (purchases and sales) may occur daily. If the Plan was to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business fashion.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different value measurement at the reporting date.

5. NONPARTICIPANT - DIRECTED INVESTMENTS

The Plan's investments in Common Stock at December 31 are as follows:

	2025	2024
Number of Shares	3,205,237	3,433,526
Cost	$ 63,686	$ 67,311
Fair Value	$ 112,247	$ 111,452

The fair value per share of Common Stock at December 31, 2025 and 2024 was $35.02 and $32.46.

The changes in nonparticipant-directed investments were as follows:

	Year Ended December 31, 2025
Dividends	$ 3,627
Net appreciation	8,994
Benefits paid to participants	(11,742)
Transfers to participant-directed investments	(84)
	$ 795

6. RELATED PARTY AND PARTY-IN INTEREST TRANSACTIONS

The Plan investments are primarily PPL Common Stock. Transactions involving Shares qualify as party-in-interest transactions under the provisions of ERISA. Total sales at market value related to PPL Common Stock for 2025 and 2024 were $10,514 and $14,430. In 2025 and 2024, Participants elected to purchase additional shares of stock using dividends received on their existing shares totaling $2,299 and $2,356.

No dividend-based contributions were made to the Plan for the year ended December 31, 2025.

Certain investments held in the Plan are shares of mutual funds managed by Fidelity Investments. Fidelity Investments is an affiliate of the Trustee and therefore, transactions in these investments qualify as party-in-interest transactions that are exempt from the prohibited transaction rules.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would receive distribution of their accounts.

8. TAX STATUS

The Plan obtained its latest determination letter dated May 13, 2014, in which the Internal Revenue Service (the "IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. RISK AND UNCERTAINTIES

The Plan investments consist primarily of PPL Common Stock in addition to various investment funds, which are exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with these investments and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

For additional information, Plan participants should refer to PPL’s periodic reports and other filings with the SEC with respect to PPL and its Common Stock, and the applicable prospectus with respect to each of the various available investment funds.

10. RECONCILIATION TO FORM 5500

For financial reporting purposes, the investment in the Master Trust related to fully benefit-responsive investment contracts is presented at contract value. However, this investment should be reported at fair value on the Form 5500.

The following is a reconciliation of the plan interest in the PPL Defined Contribution Master Trust per the financial statements to the Form 5500 at December 31:

	2025	2024
Plan interest in PPL Defined Contribution Master Trust per the Financial Statements	$ 855	$ 853
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	(22)	(46)
Plan interest in PPL Defined Contribution Master Trust per the Form 5500	$ 833	$ 807

The following is a reconciliation of Net Assets Available for Benefits per the financial statements to the Form 5500 at December 31:

	2025	2024
Net assets available for benefits per the financial statements	$ 115,606	$ 114,416
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	(22)	(46)
Net assets available for benefits per the Form 5500	$ 115,584	$ 114,370

The following reconciliation details the reporting differences from the Plan's financial statements to the Form 5500 for the Plan investment income from the Master Trust and the adjustment for fair value reporting of fully benefit-responsive contracts for the year ended December 31:

	2025
Investment income in Master Trust per the financial statements	$ 24
Adjustment from contract value to fair value for fully benefit-responsive investment contracts previous year	46
Adjustment from contract value to fair value for fully benefit-responsive investment contracts current year	(22)
Investment income in Master Trust per the Form 5500	$ 48

The following is a reconciliation of the change in net assets per the financial statements to the Form 5500 for the year ended December 31:

	2025
Increase in net assets per the financial statements	$ 1,190
Adjustment from contract value to fair value for fully benefit-responsive investment contracts previous year	46
Adjustment from contract value to fair value for fully benefit-responsive investment contracts current year	(22)
Increase in net assets per the Form 5500	$ 1,214

11. CONCLUDED LITIGATION

The Plan is involved in legal proceedings, claims and litigation in the ordinary course of business. The Plan cannot predict the outcome of such matters, or whether such matters may result in material liabilities, unless otherwise noted.

In January 2022, the law firm Schlichter, Bogard & Denton filed a proposed class action lawsuit against PPL in the United States District Court for the Eastern District of Pennsylvania on behalf of a group of current and former employees who participate in the Plan as well as the PPL Employee Savings Plan, PPL Deferred Savings Plan, and LG&E and KU Savings Plan. The lawsuit claims plan fiduciaries breached their duties by (1) failing to remove the allegedly underperforming Northern Trust Focus Funds as an investment option in the Plan as well as the PPL Employee Savings Plan, PPL Deferred Savings Plan, and the LG&E and KU Savings Plan and (2) selecting higher cost share classes when lower-cost share classes of the same investment option were available. The lawsuit also claims that PPL failed to monitor its appointed fiduciaries. PPL retained the law firm O'Melveny & Meyers. On January 14, 2025, the parties reached a settlement in the amount of $8.2 million, which received court approval August 4, 2025. No portion of the settlement was paid by the Plan.
