Report of Independent Auditors

To the Administrator of Johnson & Johnson Group Health Benefits Plan for Certain Union Represented Employees

Opinion

We have audited the accompanying financial statements of Johnson & Johnson Group Health Benefits Plan for Certain Union Represented Employees (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for plan benefits and of plan benefit obligations as of December 31, 2025 and 2024, and the related statements of changes in net assets available for plan benefits and of changes in plan benefit obligations for the year ended December 31, 2025, including the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for plan benefits and plan benefit obligations of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for plan benefits and changes in its plan benefit obligations for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

1. The Plan, Contributions and Benefits

The Johnson & Johnson Group Health Benefits Plan for Certain Union Represented Employees (the "Plan") is a contributory welfare benefit plan which provides health benefits (hospital, surgical, major medical, prescription, dental and vision) to certain union retirees/disabled employees of Johnson & Johnson and its affiliated companies (the "Company"). Effective January 1, 2018, all of the active Unions collectively bargained to be part of the Johnson & Johnson Health & Welfare Plan (formerly the Johnson & Johnson Medical Benefits Plan for Salaried Employees). As such, all employee contributions and claim payments for the active Union population are no longer deposited/funded via the Johnson & Johnson Voluntary Employee Benefit Association Hourly Group Medical and Dental Trust (the "Trust" or the "Master Trust"). Transactions in the Trust are executed by the trustee. From January 1, 2025 through September 30, 2025 the trustee was State Street Bank and Trust Company ("State Street"). Effective October 1, 2025, the trustee is Northern Trust Company ("Northern Trust"). Both State Street and Northern Trust are referred to as the "Trustee".

Certain Union Retirees/Disabled Employees include:

- Production & Maintenance Retirees/Disabled Employees of Ethicon, San Angelo, Texas; involving UTW, AFL-CIO, Local 514T (active Union)
- Wage Retirees/Disabled Employees of Ethicon, Somerville, New Jersey; involving ACTWU Local 630 (active Union)
- Hourly Retirees/Disabled Employees of DePuy Orthopedics, Warsaw, Indiana; involving ACTWU, AFL-CIO Local 809 (active Union)
- Retirees/Disabled Employees of various Unions who no longer have active employees at Johnson & Johnson.

The Plan is subject to the provisions of ERISA, as amended. The Company's contributions are determined based on the anticipated level of claims. Retiree contributions represent amounts received from former employees or inactive employees to continue coverage. Retirees' contributions constituted 8.8% and 9.5% of the total estimated cost for postretirement benefits provided as of December 31, 2025 and December 31, 2024, respectively.

The Plan is administered by the Pension & Benefits Committee (the "Plan Administrator") of Johnson & Johnson.

Participants should refer to the Plan document for a more complete description of the Plan's provisions and benefits.

Vesting
In connection with establishing IRC Section 401(h) accounts, Participants employed by the Company and its affiliates as of the date of any Qualified Future Transfer (a transfer used to fund retiree benefits for more than a one-year period) or whose employment ended within the one-year period ending on the date of the Qualified Future Transfer, are 100% vested in their Plan benefits.

401(h) Account
The Johnson & Johnson Retirement Plan for Union Represented Employees ("the Retirement Plan") has established a separate account in accordance with Section 401(h) of the Internal Revenue Code ("IRC") for the purpose of paying for health benefits or coverage to eligible retirees

as defined in the Plan. Qualified Future Transfers of excess pension assets satisfying the requirements of IRC Section 420 have been made to these accounts to provide health benefits for retirees and their eligible dependents.

The Retirement Plan's investments in the IRC Section 401(h) accounts may not be used for, or diverted to, any purpose other than providing for the payment of health benefits for retirees and their eligible dependents as specified when the account was established. All assets transferred to an IRC Section 401(h) account in a Qualified Future Transfer of excess pension plan assets (and any income allocable thereto) that are not used during the applicable Transfer Period (the period during which the transferred assets may be used to pay for retiree benefits) must be transferred out of the account.

The following is the IRC Section 401(h) account:

2025 Retiree Health Benefits Account – Established to provide health benefits by funding a portion of the postretirement obligation for retirees and their eligible dependents. On December 16, 2025, a Qualified Future Transfer was made into this IRC Section 401(h) account in the amount of $4,500,000. The Transfer Period ends on December 31, 2026.

2024 Retiree Health Benefits Account – Established to provide health benefits by funding a portion of the postretirement obligation for retirees and their eligible dependents. On December 18, 2024, a Qualified Future Transfer was made into this IRC Section 401(h) account in the amount of $10,500,000. The Transfer Period ends on December 31, 2025.

The related obligations for health benefits are included in the Plan's obligations in the Statements of Plan's Benefits Obligations and are not reported as obligations in the financial statements of the Retirement Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with generally accepted accounting principles in the United States of America (U.S. GAAP).

Company and Retiree Contribution Receivables

These amounts represent employee and employer contributions withheld by the Company but not yet remitted to the Trust.

Investment Valuation and Income Recognition of the Trust

The investment in the Trust represents the Plan's share of assets owned by the Trust. The Plan is the sole beneficiary of the Trust.

The Trust invests in assets such as temporary investments (cash and short-term investments). The Plan's balance is reported in units of participation, which allows for immediate transfer in and out of the Trust. The purchase or redemption price of the units is determined by the Trustee, based on the current fair value of the underlying investments. The Trust's net asset value for a single unit is computed by adding the value of the investments, cash and other assets, and subtracting liabilities, then dividing the result by the number of units outstanding.

For investments in the Trust, purchases and sales of securities are recorded on a trade-date basis. Gains and losses on the sale of investment securities are determined on the average cost method.

Dividend income is recorded on the ex-dividend date. Interest income and administrative expenses are recorded on an accrual basis.

The net investment income reflected in the Statement of Changes in Net Assets Available for Plan Benefits includes interest income, dividend income, net gains or losses realized upon disposition of investments and the net change in unrealized appreciation or depreciation of investments.

Postretirement Benefit Obligation
The postretirement benefit obligation represents the actuarial present value of those estimated future benefits that are attributed to employee service rendered to December 31, 2025 and 2024. Postretirement benefits include future benefits expected to be paid to or for (1) currently retired or terminated employees and their beneficiaries and dependents, and (2) active employees and their beneficiaries and dependents after retirement from service with the Company. Prior to an active employee's full eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributed to that employee's service rendered to the valuation date. The Plan's postretirement benefit obligations will be funded by Company contributions to the Plan.

The actuarial present value of the expected postretirement benefit obligation is determined by an actuary and is the amount that results from applying actuarial assumptions to historical claims-cost data to estimate future annual incurred claims cost per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The Plan's postretirement benefit obligation does not reflect an amount associated with the Medicare subsidy allowed under the Medicare Prescription Drug Improvement and Modernization Act of 2003 because the Plan is not directly entitled to the Medicare subsidy. The Company has included the effects of the Medicare subsidy in measuring its postretirement benefit obligation; therefore, the Plan's postretirement benefit obligation differs from that of the Company.

Health care cost trends are projected at annual rates, for participants Pre-65, grading from 8.0% Medical / Rx to 4.0% Medical / Rx by the year 2050, Post-65 (non-Medicare Advantage) grading from 8.0% Medical / Rx to 4.0%, by the year 2050, and Medicare Advantage grading from 14.6% Medical/Rx to 8.0% by the year 2028, with trend increase in 2029 grading from 12.0% Medical/Rx to 4.0% by the year 2050. The effect of a 1% annual increase in these assumed cost trend rates would increase the postretirement benefit obligation as of December 31, 2025 and 2024, by approximately $7,174,593 and $11,274,637, respectively.

The following were the other significant assumptions used in the valuations as of December 31, 2025 and 2024:

- Weighted-average discount rate 5.50% - 2025; 5.66% - 2024
- Average retirement age: Assumed to occur at stratified rates between ages 55 and 71
- Mortality: The Pri-2012 mortality table with separate annuitant and non-annuitant rates, and with generational mortality improvements based on the Mercer developed Scale MMP-2021 for both the December 31, 2025 and December 31, 2024 valuations.

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in

determining the actuarial present value of the postretirement benefit obligation.

Other Plan Benefits
Health claims incurred by retired participants but not reported at year end are included in the postretirement benefit obligations in the Statement of Plan Benefit Obligations.

Use of Estimates
The preparation of financial statements in accordance with U.S. GAAP require the Company to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties
The actuarial present value of benefit obligations are reported based on certain assumptions pertaining to interest rates, inflation rates, employee compensation and demographics. Due to the changing nature of these assumptions, it is possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

The Trust can invest in any combination of stocks, bonds, fixed income securities, Common Collective Trusts ("CCTs"), and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is possible that changes in risks in the near term could materially affect the amounts reported in the Statements of Net Assets Available for Plan Benefits and the Statement of Changes in Net Assets Available for Plan Benefits.

Payment of Benefits
Benefit payments are recorded upon distribution.

3. Johnson & Johnson Voluntary Employee Benefit Association Hourly Group Medical and Dental Trust

Fair Value Measurements
The Plan's valuation methodologies were applied to all of the Trust's investments carried at fair value. Fair value is based upon quoted market prices, where available. If listed prices or quotes are not available, fair value is based upon models that primarily use, as inputs, market-based or independently sourced market parameters, including yield curves, interest rates, volatilities, equity or debt prices, foreign exchange rates and credit curves.

While the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Valuation Hierarchy
FASB Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – Quoted prices in active markets for identical assets and liabilities.
- Level 2 – Significant other observable inputs.
- Level 3 – Significant unobservable inputs.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for the investments measured at fair value:

- Short-term investment funds – The assets are generally comprised of quoted short-term instruments which are valued at the closing price or the amount held on deposit by the custodian bank where quoted prices are available in an active market and are classified as Level 1. Other investments are through investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of outstanding shares. The NAV is a quoted price in a market that is not active and classified as Level 2. If NAV is quoted in an active market, the investment would be classified as Level 1.

Trust Investments Measured at Fair Value
The Trust has short-term investment funds that are all classified as Level 2.

The following table presents the net assets of the Trust as of December 31, 2025 and 2024. The Plan is the sole beneficiary of the Trust and represents 100% of the assets:

	Trust	
	2025	2024
Description		
Short-term investment funds	$ 913,741	$ 1,858,160
Other assets and (liabilities), net	-	-
Receivables	4,661	6,335
Net investment in Trust	$ 918,402	$ 1,864,495

The following table presents the changes in net assets for the Trust for the year ended December 31, 2025:

	2025
Interest & Dividends	$ 85,320
Total net investment income	85,320

4. Administrative Expenses

Administrative costs incurred by the Plan were for processing claims by independent service providers, custodian, Trustee, investment advisor and management fees and actuarial and accounting services. The Company pays all other administrative costs other than those specified above.

5. Tax Status

The Trust obtained its latest determination letter on June 30, 1989 from the Internal Revenue Service ("IRS"). The Company believes that the Trust, as amended, continues to qualify and to operate as designed in compliance with the applicable requirements of the Internal Revenue Code ("IRC").

U.S. GAAP require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Company has concluded that as of December 31, 2025 and 2024, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code ("IRC") and, accordingly, the Trust's net investment income is exempt from income taxes, other than unrelated business income tax (UBIT), if any.

Pursuant to certain provisions of the IRC and state tax statutes, a portion of the income generated by the Trust may be subject to UBIT due to the pre-funding of the Trust by the Plan Sponsor.

6. General Termination Priorities

Although it has not expressed any intention to do so, the Company has the right under the Plan to modify the benefits provided to, and contributions required of, participants, to discontinue its contributions at any time, and to terminate the Plan subject to the provisions set forth in ERISA. In the event of termination of the Plan, remaining assets would be distributed among its participants or their beneficiaries in the order and manner prescribed by ERISA. No assets of the Plan may revert to the Company or be used for purposes other than for the exclusive benefit of the Plan's participants.

7. Related Party Transactions

Through September 30, 2025, State Street managed the Plan's entire investment in the State Street Institutional Treasury Money Market Fund and therefore these transactions qualify as party-in-interest transactions as State Street was the Trustee.

The total market value of investments in the State Street Institutional Treasury Money Market Fund was $0 and $1,858,160 as of December 31, 2025 and 2024, respectively.

Following the change of Trustee, the Plan's entire investment is in the Northern Trust Common Short Term Investment Fund and therefore these transactions qualify as party-in-interest transactions as Northern Trust is the Trustee effective October 1, 2025.

The total market value of investments in the Northern Trust Common Short Term Investment Fund was $913,741 and $0 as of December 31, 2025 and 2024, respectively.

8. 401 (h) Account

A portion of the Plan's obligations are funded through contributions to the Retirement Plan in accordance with IRC Section 401 (h). The following table presents the components of the net assets available for such obligations and the related changes in net assets available.

	December 31 2025	December 31 2024
2024 Retiree Health Benefits Account		
Investments at fair value:		
Short-Term investment funds	-	4,200,000

The 401(h) account held an investment in a short-term investment fund as of December 31, 2025 and 2024. The investment is held through an investment vehicle valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in a market that is not active and classified as Level 2.

10. Subsequent Events

In October 2025, the Company announced its intention to separate the Company's Orthopedics business. The Company is targeting completion of the planned separation in 18 to 24 months after initial announcement. The Company is exploring multiple paths to effect the planned separation, with no decision at this time. The planned separation may not be completed on the terms or timeline currently contemplated, if at all, and may not achieve the expected results. The impacts of this decision are not yet known, but are being closely monitored through 2026.

The Plan has assessed subsequent events through August 13, 2026, the date the financial statements were available to be issued and has determined that no other items require disclosure.
