Employee Benefit Plan Audit Specialists

Independent Auditor's Report

To the Plan Administrator of the Lynker Corporation Employee Stock Ownership Plan:

Opinion

We have audited the financial statements of the Lynker Corporation Employee Stock Ownership Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets (deficit) available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets (deficit) available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets (deficit) available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

A. PLAN DESCRIPTION:

The following brief description of the Lynker Corporation Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for complete information.

General

Lynker Corporation (the “Company”) established the Lynker Corporation Employee Stock Ownership Plan (the “Plan”) effective as of December 16, 2021. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (“IRC”) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

On December 16, 2021, the Plan purchased 196,000 shares of the Company’s common stock with a loan of $12,000,000 (see Note E) and holds the common stock in a trust established under the Plan. That loan is due to be paid off on December 31, 2031. The stock was purchased at a price of $61.22 per share, for an aggregate purchase price of $12,000,000.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of 2025 and 2024, and for the year ended December 31, 2025, present separately the assets and liabilities and changes therein pertaining to

a. the accounts of employees with rights in allocated common stock (allocated), and

b. common stock not yet allocated to employees (unallocated).

Participation

Non-union employees of the Company are generally eligible to participate in the Plan upon the attainment of age 18 and may enter the Plan the last day of December or June of each plan year immediately following the completion of one year of service providing they worked at least 1,000 hours during the plan year.

Company Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan’s dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. The Company made a contribution to the Plan of $1,328,821 for the loan repayment for the plan year ended December 31, 2025. The Company may also make a discretionary contribution. For the year ended December 31, 2025, the Company made an additional discretionary contribution of $137,200. In order to share in the employer contributions, participants must be employed on the last day of the plan year and have completed a year of service during the plan year.

CARON BLETZER

Employee contributions are not permitted.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited, as of the last day of the year, with a proportionate allocation of (a) the Company's contributions, (b) forfeitures of terminated participants' non-vested accounts, and (c) plan earnings. Only those participants who are eligible employees of the Company as of the last day of the plan year, are employed on the last day of the plan year and have completed 1,000 hours of service during the plan year will receive an allocation. Allocations of contributions and forfeitures are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants become 100% vested in their accounts upon death, total and permanent disability, or attainment of retirement age. Otherwise, participants' interest in company contributions and earnings thereon vests as follows:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures

When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account represents a forfeiture, as defined by the Plan. Forfeitures may be used to pay plan expenses, to reduce employer contributions, or may be reallocated to participants. $158,487 was forfeited and reallocated to participants during 2025.

Payment of Benefits

No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary), or otherwise terminates employment with the Company. Distributions are made in cash. The amount to be distributed is based upon the immediately preceding valuation date.

CARON BLETZER

Under the provisions of the Plan, distributions to terminated participants will be available after 5 years of separation in substantially equal periodic payments. Individuals reaching normal retirement age may request a distribution.

Under the provisions of the Plan, the Company and the Plan have the right of first refusal to repurchase participant shares which have been distributed under the terms of the Plan.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account with respect to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all assets. Participants will be notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is permitted to vote any allocated shares for which timely instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Termination

The Plan was established with the intention that it will continue indefinitely. However, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. In the event of a plan termination all participants will become 100% vested in their account balances. Upon termination of the Plan, the Trustee is directed to pay all liabilities and expenses of the ESOP and to sell the shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

Put Option

Under federal income tax regulations, employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. Under the provisions of the Plan, the Plan shall not be required to distribute any accrued benefits related to Company stock acquired through leverage until the close of the plan year in which the note has been repaid in full. The put price is representative of the fair market value of the stock. The Company may choose to pay for the purchase over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

CARON BLETZER

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosures. Actual results may differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (“allocated”) and (b) stock not yet allocated to employees (“unallocated”), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

Investments are reported at fair value. See Note D for discussion of fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Operating Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has paid the majority of the operating expenses for the Plan. Expenses that are paid by the Company are excluded from these financial statements.

CARON BLETZER

Payment of Benefits

Benefits are recorded when paid.

Contributions

Company contributions are calculated and recorded based on plan compensation paid during the year.

C. INVESTMENTS:

The Plan's investments, at December 31, are presented in the following table:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Number of Shares	78,279	117,721	58,673	137,327
Cost	$ 4,792,592	$ 7,207,408	$ 3,592,224	$ 8,407,776
Fair Value	$ 4,886,958	$ 7,349,322	$ 3,468,165	$ 8,117,395

D. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

CARON BLETZER

Following is a description of the valuation methodologies used by the Plan. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Lynker Corporation common stock: Valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, weighted average cost of capital, growth rate, discount for lack of marketability and market comparables. As of December 31, 2025 and 2024, the fair value per share was $62.43 and $59.11, respectively.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2025			
Description:	Total	Level 1	Level 2	Level 3
Lynker Corporation common stock	$ 12,236,280	$ -	$ -	$ 12,236,280
Total investments in the fair value hierarchy	$ 12,236,280	$ -	$ -	$ 12,236,280

	2024			
Description:	Total	Level 1	Level 2	Level 3
Lynker Corporation common stock	$ 11,585,560	$ -	$ -	$ 11,585,560
Total investments in the fair value hierarchy	$ 11,585,560	$ -	$ -	$ 11,585,560

The Lynker Corporation common stock held by the Plan is reported at fair value based upon an independent appraisal. The appraisal was based upon a combination of the market and income valuation techniques consistent with prior years as illustrated in the following tables:

	2025		
Instrument	Fair Value	Principal Valuation Technique	Unobservable Input(s)
Lynker Corporation common stock	$ 12,236,280	Income	Weighted average cost of capital
			Projections
			Growth rate
			Discount for lack of marketability
		Market	Selected range of market value
			Selected EBITDA multiple

CARON BLETZER

	2024		
Instrument	Fair Value	Principal Valuation Technique	Unobservable Input(s)
Lynker Corporation common stock	$ 11,585,560	Income	Weighted average cost of capital Projections Growth rate Discount for lack of marketability
		Market	Selected range of market value Selected EBITDA multiple

Purchases and sales of the Plan's level 3 investments during the year ending December 31, 2025, were $0. There were no transfers into or out of level 3 investments during the year.

The valuation process involves the selection of an appraiser. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

E. NOTE PAYABLE:

In 2021, the Plan entered into a $12,000,000 loan agreement with the Company. The proceeds of the note were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 19,606 shares being released and allocated for the plan year ended December 31, 2025.

The agreement provides for the loan to be repaid over 10 years with an annual payment of $1,329,976. Additional payments made in 2022 reduced the loan payment amount for 2023. The Plan prepaid the annual loan payment for 2025 resulting in an interest payment of $167,577. As of December 31, 2025 and 2024, the outstanding balance of this note was $7,469,413 and $8,630,657, respectively.

CARON BLETZER

The note payable related to the purchase of Company stock on December 31, 2025 and 2024 is as follows:

	2025	2024
Note Payable - Lynker Corporation		
Interest fixed at 1.90%		
Due December 31, 2031; Secured by unallocated		
Lynker Corporation common stock	$ 7,469,413	$ 8,630,657
Total note payable	$ 7,469,413	$ 8,630,657

While the Company reserves the right to change the amounts and the timing of contributions to the Plan, the scheduled amortization of this Plan's loan for the next five years are as follows:

Years Ending December 31,	Amount
2026	$ 1,182,389
2027	1,210,523
2028	1,233,522
2029	1,256,960
Thereafter	2,586,019
Total	$ 7,469,413

F. TAX STATUS:

The Internal Revenue Service (“IRS”) has determined and informed the sponsor of the pre-approved plan document adopted by the Company by a letter dated June 30, 2020 that the pre-approved plan document is designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

G. ADMINISTRATION OF PLAN ASSETS:

The Plan’s assets, which consist principally of shares of the Company’s common stock, are held by the trustee and has indebtedness guaranteed by the Company.

Prudent Fiduciary Services is the trustee of the Plan. Company contributions are held and managed by the Trustee, which invests cash received and interest and dividend income and makes distributions to participants. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

H. RELATED-PARTY & PARTY IN INTEREST TRANSACTIONS:

Section 3(14) of ERISA defines a party in interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related party and party in interest transactions.

I. RISKS AND UNCERTAINTIES:

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Market risks include global events which could impact the value of investment securities. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets (deficit) available for benefits.

J. SUBSEQUENT EVENTS:

The Plan has evaluated subsequent events through October 5, 2026, the date these financial statements were available for issuance.

K. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:

The following is a reconciliation of net assets available for benefits on the financial statements to the Form 5500 as of December 31:

	2025	2024
Net assets available for benefits on the financial statements	$ 4,771,565	$ 2,955,143
Cash not on the Form 5500	(210)	(240)
Net assets available for benefits on the Form 5500	$ 4,771,355	$ 2,954,903

The following is a reconciliation of contributions on the financial statements to the Form 5500 for the year ended December 31, 2025:
