INDEPENDENT AUDITORS' REPORT

The Trustee
Personal Touch Home Care Employee
Stock Ownership Plan:

Opinion

We have audited the accompanying financial statements of Personal Touch Home Care Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets in liquidation available for benefits as of December 31, 2025 and 2024 and the related statements of changes in net assets in liquidation available for benefits for the years then ended, and the related notes to financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets in liquidation available for benefits of Personal Touch Home Care Employee Stock Ownership Plan as of December 31, 2025 and 2024, and the changes in its net assets in liquidation available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Personal Touch Home Care Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter - Basis of Accounting

As discussed in note 9 to the financial statements, the governing body of the Plan approved a plan liquidation on March 5, 2024, and management determined liquidation is imminent. As a result, the Plan used the liquidation basis of accounting in presenting the 2025 and 2024 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

PERSONAL TOUCH HOME CARE
EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2025 and 2024 (in liquidation)

(1) Plan Description

The following description of the Personal Touch Home Care Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

(a) General

Personal Touch Home Care (the Company) adopted the Plan effective as of January 1, 2010 as a leveraged Employee Stock Ownership Plan (ESOP), and the Plan designed to comply with Section 4975(E)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was amended and restated effective January 1, 2016. On March 5, 2024, the Plan was amended based on the Company's desire to terminate the Plan (note 9).

(b) Eligibility

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after one year of service providing they worked at least 1,000 hours during such plan year. Participants who do not have at least 1,000 hours of service during such plan year and not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such a year. Employees covered by a collective bargaining agreement are generally not eligible to participate in the Plan. No individual shall become a participant after December 2023 (note 9).

(c) Contributions

The Company will make contributions to the Plan as determined by the Board of Directors. Any contributions to the Plan shall be allocated based on participant's compensation to all participant compensation. The contribution rate is discretionary, and can change from time to time. Participants do not make contributions to this Plan. No Company contributions will be made for the 2023 Plan year and thereafter (note 9).

(d) Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

(e) Voting Rights

Each participant is entitled to exercise voting attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

(1) Plan Description, Continued

(f) Participant Accounts and Forfeitures

Company's common stock released by the Trustee from the unallocated account and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year balance to all participants' beginning of the year account balances. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. There were no forfeitures for the years ended December 31, 2025 and 2024 as all participants are 100% vested as of January 1, 2023 (note 9).

(g) Vesting

Participants must have 1,000 hours of service during the year. Participants with less than 6 years of service since the Plans inception with the company will vest at a rate of 20% per year between year two and year six. If participants are partially non-vested in their benefits resulting from the Company's contributions and the participants have five consecutive years of "Break in Service", all the service the participants earned before the 5-year period no longer counts. Participants will be 100% vested upon their normal retirement age or upon death. Each participant as of January 1, 2023 that has not received a compete distribution of such vested balance in their accounts shall have 100% vested and nonforfeitable interest in such accounts, regardless of actual years of service (note 9).

(h) Put Option

Under Federal income tax regulations, the Company common stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Plan buy any shares of its stock distributed to participants for which there is no market. Company put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash. The Company redeemed all shares of common stock on March 5, 2024 (note 9).

(i) Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. The Company redeemed all shares of common stock on March 5, 2024 (note 9).

(j) Payment of Benefits

All distributions will be made in one lump sum payment in cash. Distributions are required to be made no later than April 1st following the year in which you reach 70½ or retire in accordance with Internal Revenue Service (IRS) regulations.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan have been prepared on the liquidation basis as of and for the years ended December 31, 2025 and 2024. A decision to terminate the Plan was made March 5, 2024, and liquidation is considered imminent. In connection with the termination, the Plan's primary asset, the Company's common stock was sold. The proceeds will be used to satisfy Plan liabilities and administrative expenses. The remaining net assets will be distribute to participants based on their vested account balances, in accordance with the Plan document and all applicable regulations, including ERISA and the IRC.

(b) Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

(c) Allocations

The financial statements of the Plan present the assets and liabilities and changes therein pertaining to the accounts of employees with rights in allocated stock. Shares were released from collateral and became allocated generally in the period in which the debt service was actually paid. All stock has been allocated as of December 31, 2020. The Company redeemed all shares of common stock on March 5, 2024 (note 9).

(d) Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Interest income is recorded on a trade-date basis. Net appreciation or depreciation includes gains and losses on investments bought and sold as well as held at the end of the year. The common shares of the Company were redeemed on March 5, 2024 for $3.55 per share (note 9). See note 3 for a discussion of the fair value measurements.

(e) Payments of Benefits

Benefits are recorded when they are paid out to participants.

(f) Subsequent Events

The management of the Plan has evaluated subsequent events through the date of the report which is the date the financial statements were available to be issued. Subsequent to year end, the indemnity escrow totaling $5,616,763 was received by the Plan. Additionally, the Internal Revenue Service issued a favorable opinion letter dated September 18, 2026 and the Plan adopted an amendment in October 2026.

(3) Fair Value Measurements

A framework has been established for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2025. On March 5, 2024, the Company redeemed all shares of common stock owned by the Plan for $33,000,000.

- Cash equivalents - Consists of a money market fund valued at cost, which approximates fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	Assets at Fair Value as of December 31, 2025			
	Level 1	Level 2	Level 3	Total
Cash equivalents	$ 22,567,727	-	-	22,567,727

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Cash equivalents	$ 21,479,440	-	-	21,479,440

(3) Fair Value Measurements, Continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(4) Tax Status

The IRS has determined that the Plan is qualified and the trust established under the Plan is tax exempt, under the appropriate sections of the IRC. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and the Plan and related trust.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not, wouldn't be sustained upon examination by the applicable authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset), or disclosures in the financial statements. The Plan is subject to routine audits by taxing jurisdictions.

(5) Employer Contributions and Company Dividends

There were no Company contributions or dividends for the years ended December 31, 2025 and 2024.

(6) Related Party and Party In Interest Transactions

The Plan invested in Company common stock which is a related party and party in interest transaction. On March 5, 2024, the Company redeemed all shares of common stock owned by the Plan (note 9). As described in note 7, the Company pays the Plan expenses. The Plan has a number of service providers, such providers are parties in interest under ERISA.

(7) Administration of Plan Assets

The Plan's assets are held by the Trustee of the Plan.

Plan contributions are held and managed by the Trustee, which invests cash received, interest and dividend income and makes distributions to participants. The Trustee also administered the payment of interest and principal on the loan, which was reimbursed to the Trustee through contributions as determined by the Plan.

Certain administrative functions are performed by an officer or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses of the Plan will be paid by the Company.

(8) Risks and Uncertainties

The Plan's investments are exposed to various risks such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows or other such techniques. Due to the level of risk associated with certain investments, and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets in liquidation available for benefits.

(9) Plan Termination

On March 5, 2024, the Plan was amended based on the Company's desire to terminate the Plan, contingent upon and effective with the closing of the redemption of all of the Company's common stock owned by the Plan, pursuant to the redemption agreement. The Personal Touch Home Care Employee Stock Ownership Trust (the Trust) shall continue until all funds have been distributed, transferred, or paid from the Trust. Following the redemption closing date, the Trust no longer will hold any shares of the Company common stock. Distributions to participants and beneficiaries will be made as soon as practicable following the redemption closing date; an initial distribution will be paid in a single lump sum of cash to each participant in an amount equal to approximately 85% of such participant's account balance as of the redemption closing date and as soon as practicable following the latter of (a) the receipt of a favorable determination letter from the IRS or (b) the receipt of contingent payments. A distribution will be paid in a single lump sum of cash to each participant in an amount equal to the remainder of each participant's account balance. No individual shall become a participant after December 31, 2023 and no Company contributions will be made to the Plan for the 2023 Plan year or thereafter. The proceeds of the redemption received by the Plan shall be allocated among participant's accounts in accordance with the applicable Plan agreement section. Each participant as of January 1, 2023 that has not received a complete distribution of such vested interest in their accounts shall have a 100% vested and nonforfeitable interest in such accounts, regardless of actual years of service.

(10) Indemnity Escrow

Pursuant to the stock purchase agreement, proceeds were deposited with an escrow agent as an indemnity escrow to secure certain representations, warranties, and indemnification obligations of the seller. The escrow amounting to $5,616,763 was released in December 2025 and deposited on February 6, 2026.

(11) Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net change in net assets in liquidation available for benefits per the financial statements to Schedule H of Form 5500 for the year ended December 31, 2024:
