INDEPENDENT AUDITOR'S REPORT

To the Participants and the Plan Administrator of the
Exelon Corporation Pension Plan for Bargaining Unit Employees

Opinion

We have audited the financial statements of the Exelon Corporation Pension Plan for Bargaining Unit Employees (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, information regarding the net assets available for benefits and accumulated plan benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits and changes in its accumulated plan benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

MITCHELL TITUS

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter – Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2025 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

MITCHELL TITUS

In our opinion, the information in the accompanying schedule is fairly stated, in material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Sources of Data and Other Information

Willis Towers Watson used asset data supplied by the trustee. Exelon Corporation and its third-party administrator furnished participant data as of January 1, 2025. Data were reviewed for reasonableness and consistency, but no audit was performed. Assumptions or estimates were made by the Willis Towers Watson actuaries when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Summary of Plan Provisions

Last updated and confirmed with Exelon on January 10, 2024 and reflect all plan provisions effective as of December 31, 2023.

Exelon Corporation Pension Plan for Bargaining Unit Employees (PPBU)

Effective date

The plan was amended and restated effective February 1, 2022.

Covered employees

Employees in the following category are covered:

- New employees hired on or after January 1, 2001 but before January 1, 2009 who are members of IBEW Local Union 15 and who elect to participate in this plan rather than in the Commonwealth Edison Company Service Annuity System.
- New employees, hired on or after January 1, 2009, who are members of the IBEW Local Union 15 only participate in the Exelon Corporation Pension Plan for Bargaining Unit Employees.

Current or former employees who were assigned to Constellation Energy Corporation and had their benefits transferred to a Constellation sponsored plan as of February 1, 2022 are not covered under the plan. Certain Local 15 participants with job bidding rights are eligible to have their pension eligibility transferred from Constellation to Exelon or vice versa and all service considered in determining their benefit.

Participation date

An employee who has completed three months of continuous employment becomes a participant as of the date of hire. Prior to October 1, 2008, participants were also required to elect to become a plan participant in this plan rather than a participant in the Commonwealth Edison Company Service Annuity System.

Compensation

Base rate of pay for each standard 40-hour workweek in effect at the beginning of each month, plus meter reader bonuses paid during the plan year, plus 401(k) or other Section 125 elective deferrals, plus nuclear license requalification bonuses; excluding overtime, annual and quarterly incentive payments, and certain reimbursements and allowances.

Normal Retirement Age

The later of (1) the participant's 62nd birthday; and (2) the fifth anniversary of plan participation.

Actuarial Equivalent

A benefit of equivalent value as defined in 417(e)(3) of the Internal Revenue Code for November of the plan year preceding the plan year of payment.

The divisor for the conversion is:

a. For balances accrued after September 30, 2008, an immediate life annuity factor
b. For balances accrued before October 1, 2008, the greater of:
    i. An immediate life annuity factor divided by 1.15; and
    ii. An age 65 life annuity factor.

Plan Interest Rate

Effective January 1, 2019, an amount equal to the greater of (1) 4% and (2) the third segment spot rate of interest on long-term investment grade corporate bonds, as provided for in the Internal Revenue Code Section 430(h)(2)(C)(iii) determined as of the single month of November of the year for which your cash balance account receives the investment credit.

For investment credits earned prior to January 1, 2019, the plan interest rate was the following:

For benefits accrued prior to January 1, 2010 (pre PPA plan change): an amount, not to be less than 4.00%, equal to the average of the rate of return on stocks, which is the annual percentage rate of return of the Standard & Poor's 500 Stock Index for the 12-month period ending on December 31 of the year credited, and the rate of return on bonds, which is the 30-year U.S. Treasury bond annual rate published by the Internal Revenue Service in November of the year credited.

For benefits accrued on or after January 1, 2010 (post PPA plan change): an amount, not to be less than 2.00%, equal to the third segment spot rate of interest on long-term investment grade corporate bonds, as provided for in the Internal Revenue Code Section 430(h)(2)(C)(iii) determined as of the single month of November of the year for which your cash balance account receives the investment credit (prior year if benefits commence)

35-39	7.0%
40-44	8.0%
45-49	9.0%
50+	10.0%

- Annual pay credits for individuals who were participating in the plan prior to January 1, 2009 are 5% up to age 24.
- Starting January 1, 2019, a Service-Based Additional Credit will be provided to participants who have a balance associated with pre-1/1/2010 accruals equal to a percentage of eligible compensation according to the table below:

Years of Vesting Service Earned Prior to PPA Conversion Date	Additional Annual Benefit Credit Percentage
< 5	0.50%
5-9	1.00%

Investment Credit

The interest that is earned on the account annually using the plan interest rate; interest is credited at the end of each plan year. If benefits commence, credits are prorated for the number of months in the current year prior to benefit commencement date.

Cash Balance Accounts

Begins at zero upon plan participation, with annual additions equal to the service credit plus investment credit.

Eligibility for Benefits

Normal Retirement

Retirement at normal retirement age.

Deferred vested

After completing 3 years of vesting service.

Death benefit

Death while participating (before or after meeting the vesting requirement).

SCHEDULE SB ATTACHMENTS

Monthly Benefits Paid Upon the Following Events

Normal Retirement	Monthly benefit that is the actuarial equivalent of the cash balance account.
Death benefit	Lump sum payment of cash balance account reduced by the actuarial equivalent of the statutory spouse's benefit (if not waived). If statutory spouse's benefit not waived, the spousal portion of the 50% J&S annuity is also paid, calculated as if the participant retired, elected the 50% J&S annuity form of payment, and died the next day.

Other Plan Provisions

Forms of payment	Benefits are paid in the form of a life annuity to unmarried participants or a 50% J&S annuity to married participants. The following optional forms are available (and require spousal consent, if married): life annuity, lump sum distribution, 75% J&S annuity, or 50% J&S annuity.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are not assumed for determining contributions.

Changes in Plan Provisions Since the Prior Valuation

There were no changes in plan provisions except to reflect changes in the Internal Revenue Code maximums on pay and benefits.

INDEPENDENT AUDITOR'S REPORT

To the Participants and the Plan Administrator of the
Exelon Corporation Pension Plan for Bargaining Unit Employees

Opinion

We have audited the financial statements of the Exelon Corporation Pension Plan for Bargaining Unit Employees (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, information regarding the net assets available for benefits and accumulated plan benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits and changes in its accumulated plan benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

MITCHELL TITUS

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter – Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2025 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

MITCHELL TITUS

In our opinion, the information in the accompanying schedule is fairly stated, in material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS

1. Plan Description

The following description of the Exelon Corporation Pension Plan for Bargaining Unit Employees (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Exelon Corporation ("Exelon" or the "Company") completed the spin-off of its generation business on February 1, 2022, creating Constellation Energy Corporation ("Constellation"), a new and separate publicly-traded company (the "Separation"). As a result of the Separation, a portion of the Plan was spun-off and transferred to the Constellation Cash Balance Pension Plan for Bargaining Unit Employees ("CPPBU"), sponsored by Constellation Energy Generation, LLC, a subsidiary of Constellation. Trust assets related to current and former employees who were assigned to Constellation were allocated to the CPPBU within the Master Trust. Constellation assets transferred in tranches to Constellation's newly established pension master trust and was completed by December 31, 2022.

The Plan is a non-contributory defined benefit pension plan that covers eligible employees represented by the International Brotherhood of Electrical Workers ("IBEW") Local Union 15 of subsidiaries of Exelon designated as participating in the Plan (each a "Participating Employer") who have completed three months of continuous service.

An eligible employee hired on or after January 1, 2001 and prior to January 1, 2009 was eligible to participate in the Plan if the employee made an election to participate in the time and manner established by the Plan Administrator (as defined below). An eligible employee hired on or after January 1, 2009 who has completed three continuous months of service shall automatically become a participant in the Plan as of the first day that the employee completes an hour of service.

Exelon is the sponsor of the Plan and, acting through the Exelon Corporation Benefit Plan Administrative Committee, the administrator of the Plan (the "Plan Administrator"). The Plan Administrator has general responsibility for the administration of the Plan and the determination of benefits payable under the Plan.

Participants generally are vested in their Plan benefits when they complete three years of vesting service with the Company (five years for participants who terminated employment prior to January 1, 2008). In general, vesting service is the aggregate of the periods during which a participant is employed by the Company or one of its affiliates.

For periods prior to October 1, 2008, a participant's notional cash balance account was credited with an annual benefit credit, as of the last day of each plan year during which the participant was an eligible employee, with an amount equal to 5.0% of base pay and meter reader bonuses for the year. For periods on and after October 1, 2008, a participant's notional account balance is credited with an annual benefit credit in the amount of the applicable percentage set forth in the following table, based on the participant's age as of the last day of the year for which the credit is made as follows; except that in no event shall the percentage be less than 5.0% for an eligible employee who was a participant on October 1, 2008:

Participant's Age	Percentage
Up to age 24	4.5%
25-29	5.0%
30-34	6.0%
35-39	7.0%
40-44	8.0%
45-49	9.0%
50 and greater	10.0%

A participant's account shall also be credited, as of the last day of the Plan year, whether or not such participant is an eligible employee, by a notional annual investment credit amount equal to the participant's account balance as of January 1 of that year, multiplied by the greater of 4.0% or the average of the following two percentages: (i) the applicable interest rate for determining lump-sum values specified in Section 417(e) of the Internal Revenue Code of 1986, as amended ("IRC"), for the month of November of the plan year; and (ii) the annual percentage rate of return of the Standard & Poor's 500 Stock Index for the 12-month period ending December 31 of such year. Effective January 1, 2010, the Plan was amended to change the annual rate of notional investment credit for post-2009 annual benefit credits to the greater of (i) 2% and (ii) the third segment spot rate of interest on long-term investment-grade corporate bonds, as provided in Section 430(h)(2)(C)(iii) of the IRC for the month of November of such year. The former notional annual investment credit rate remained in effect with respect to participants' pre-2008 notional account balances, through December 31, 2018.

Effective January 1, 2019, a participant's notional account is credited with an investment credit equal to the participant's account balance as of January 1 of that year multiplied by the greater of (i) 4.00% and (ii) the third segment spot rate of interest on long-term investment-grade corporate bonds, as provided in Section 430(h)(2)(C) of the IRC for the single month of November of such year. In addition, effective as of the plan year beginning January 1, 2019, participants hired before January 1, 2010 are credited with an additional annual benefit credit equal to 0.5% or 1.0% based on their completed years of vesting service as of December 31, 2009.

After a participant's employment is terminated from a Participating Employer, generally, a vested participant can elect to receive his or her benefit at any time in the form of a lump-sum payment, a single life annuity, or a joint and survivor annuity. The availability of a particular form of benefit and monthly annuity amounts will depend on the value of the participant's notional cash balance account and the participant's marital status and age at the time he or she begins receiving payments.

The Plan allows certain participants of the Plan to transfer to other pension plans sponsored by the Company as a result of rehire or promotion to management. Pursuant to the Separation, and a Memorandum of Agreement between IBEW Local Union 15 and Exelon and Constellation, the Plan also provides for the transfer of certain Local 15 members between the companies pursuant to the specific provisions in the Memorandum. When any of these transfers occur, the value of the accrued benefits previously earned is determined by the Plan's consulting actuary, Willis Towers Watson ("WTW"), and transferred to or from the Plan. See Note 10 for Plan transfers.

2. Summary of Significant Accounting Policies

General

The Plan follows the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of the Plan's interest in the Exelon Corporation Pension Master Retirement Trust ("Master Trust") is based on the beginning value of the Plan's interest in the Master Trust plus actual contributions, allocated net investment income (loss) and appreciation (depreciation) less actual distributions and allocated administrative expenses. The investments in the Master Trust are valued as described in Note 3.

Benefit Payments

Benefit payments to participants are recorded upon distribution. The Master Trust cannot be directed to use assets allocable to the Plan to provide benefits or satisfy benefit liabilities of any other plan.

Plan Expenses

Administrative expenses represent expenses that are specifically identifiable to the Plan, but are paid by the Master Trust. These expenses include Pension Benefit Guaranty Corporation ("PBGC") fees, audit fees and fees paid to third parties for services provided primarily consisting of investment advisor fees, management fees and administrative expenses.

All other administrative expenses of the Master Trust, which are not specifically identifiable to a plan, are allocated to the participating plans and included in the plans' interests in the net investment income (loss) and appreciation (depreciation) of the Master Trust.

Investment Income Recognition

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) includes the gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of the accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

3. Master Trust

Effective November 1, 2010, the Plan established a Master Trust Agreement with The Northern Trust Company ("Trustee") for the purpose of investing assets of the Plan and other pension plans sponsored by the Company. Plan assets were transferred to the Master Trust at that time. The Master Trust is comprised of Master Trust Investment Accounts ("MTIA") in which each participating pension plan has a varying interest. The net investment income (loss)

and administrative expenses of the Master Trust are allocated monthly to each of the participating pension plans based upon each plan's respective dollar ownership, giving consideration to the monthly plan-specific time-weighted activity within each MTIA held by the Master Trust.

The Master Trust net assets as of December 31, 2025 and 2024 and net investment income and appreciation (depreciation) for the year ended December 31, 2025 disclosed in the Notes to the Financial Statements are presented by MTIA. The remaining Master Trust disclosures in the Notes to the Financial Statements represent 100% of the Master Trust.

Fair Value Measurements

To increase consistency and comparability in fair value measurements, the FASB established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels as follows:

- Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities for which the Master Trust has the ability to liquidate as of the reporting date.

- Level 2 - inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data.

- Level 3 - unobservable inputs, such as internally developed pricing models or third-party valuations for the asset or liability due to little or no market activity for the asset or liability.

The valuation methods for each investment category are described below.

Interest-bearing cash. Investments with original maturities of three months or less when purchased, including certain short-term fixed-income securities and money market funds, are considered interest-bearing cash. The fair values are based on observable market prices and, therefore, have been categorized in Level 1 in the fair value hierarchy.

U.S. Government securities. U.S. Government securities are valued daily based on quoted prices in active markets. Investments in U.S. Treasury securities have been categorized as Level 1 because they trade in highly liquid and transparent markets. Investments in U.S. Government affiliates are based on evaluated prices that reflect observable market information, such as actual trade information of similar securities, adjusted for observable differences and are categorized as Level 2.

Preferred and other corporate debt instruments. For corporate debt instruments, the Trustee obtains multiple prices from pricing vendors whenever possible, which enables cross-provider validations in addition to checks for unusual daily movements. A primary price source is identified based on asset type, class or issue for each security. With respect to individually held corporate debt instruments, the Trustee monitors prices supplied by pricing services and may use a supplemental price source or change the primary price source of a given security if the portfolio managers challenge an assigned price and the Trustee determines that another price source is considered to be preferable. The Company has obtained an understanding of how these prices are derived, including the nature and observability of the inputs used in deriving such prices. Additionally, the Company selectively corroborates the fair values of securities by comparison to other market-based price sources. Corporate debt instruments are based on evaluated prices that reflect observable market information, such as actual trade information of similar securities, adjusted for observable differences and are categorized as Level 2. Certain private placement corporate debt instruments have been categorized as Level 3 because they are priced using significant unobservable inputs and are typically illiquid.

Preferred and common corporate stock. Preferred and common corporate stock held individually, including rights and warrants, are primarily traded on exchanges that contain only actively traded securities due to the volume trading requirements imposed by these exchanges. The Trustee obtains prices from pricing services, whose prices are generally obtained from direct feeds from market exchanges, which the Company is able to independently corroborate. The corporate stocks that are held directly by the Master Trust are valued based on quoted prices in active markets and

categorized as Level 1. Certain corporate stocks are categorized as Level 3 because they are not publicly traded and are priced using significant unobservable inputs.

Partnerships/joint venture interests. Partnerships and joint venture interests are primarily private equity or real estate funds. Private equity investments include those in limited partnerships that invest in operating companies that are not publicly traded on a stock exchange, such as leveraged buyouts, growth capital, venture capital, distressed investments and investments in natural resources. Private equity valuations are reported by the fund manager and are based on the valuation of the underlying investments, which include unobservable inputs such as cost, operating results, discounted future cash flows and market based comparable data. Real estate funds are funds with a direct investment in pools of real estate properties. These funds are reported by the fund manager and are generally based on independent appraisals of the underlying investments from sources with professional qualifications, typically using a combination of market comparables and discounted cash flows. These valuation inputs are unobservable. The fair value of private equity and real estate investments is generally determined using net asset value ("NAV") or its equivalent as a practical expedient, and therefore, these investments are not classified within the fair value hierarchy. Certain investments that are not eligible for the NAV practical expedient are classified as Level 3 within the fair value hierarchy because their valuations are based on significant unobservable inputs. The intention is to hold these funds for each fund's life and it is estimated that the underlying assets of the fund will be liquidated generally between eight and 10 years from the fund's inception date. The unfunded commitments of these investments in the Master Trust were $518 million and $594 million as of December 31, 2025 and 2024, respectively.

Real estate. Income-producing real estate funds are valued by the fund managers on a periodic basis. Fund values are based on the valuation of the underlying investments which may include inputs such as operating results, discounted future cash flows and market-based comparable data. The fair value of real estate funds is determined using NAV or its equivalent as a practical expedient, and therefore, these investments are not classified within the fair value hierarchy. These real estate investments are generally redeemable from the investment vehicle quarterly, with 30 to 90 days of notice.

Common/collective trust funds. Certain common/collective trust funds are maintained by investment companies, and fund investments are held in accordance with a stated set of fund objectives. For common/collective trust funds that are not publicly quoted, the fund administrators value the funds using the NAV per fund share, derived from the quoted prices in active markets of the underlying securities and are not classified within the fair value hierarchy. These investments typically can be redeemed monthly or more frequently, with 30 or less days of notice and without further restrictions.

Registered investment company securities. Registered investment company securities are maintained by investment companies, and fund investments are held in accordance with a stated set of fund objectives. The values of some of these funds are publicly quoted. For registered investment company securities that are publicly quoted, the funds are valued based on quoted prices in active markets and have been categorized as Level 1. For registered investment company securities which are not publicly quoted, the fund administrators value the funds using the NAV per fund share, derived from the quoted prices in active markets of the underlying securities and are not classified within the fair value hierarchy. These investments typically can be redeemed monthly or more frequently, with 30 or less days of notice and without further restrictions.

Funds held in insurance company general accounts. Funds held in insurance company general accounts are valued based on underlying investments held in separate account portfolios. The fund administrators value the funds using the NAV per fund share, derived from quoted prices in active markets of the underlying securities and are not classified within the fair value hierarchy. These investment balances are intended to be maintained and held until benefit guarantees are satisfied or the contracts are terminated.

Hedge funds. Hedge fund investments include those that employ a broad range of strategies to enhance returns and provide additional diversification. The fair value of hedge funds is determined using NAV or its equivalent as a practical expedient and, therefore, hedge funds are not classified within the fair value hierarchy. The Company has the ability to redeem these investments at NAV or its equivalent subject to certain restrictions, which may include a lock-up period or a gate. Redemption frequencies are typically monthly, quarterly, semi-annually and annually with redemption notice periods generally ranging between 30 and 90 days. The majority of the hedge fund investments were not in lock-up as of December 31, 2025 and 2024. Gate provisions typically range between 10% and 25% of either the fund's NAV or investor's ownership interest.

Pooled separate accounts. Pooled separate accounts primarily include investments in preferred and common corporate stocks. The fund administrators value the funds using the NAV per fund share, derived from quoted prices in active markets of the underlying securities and are not classified within the fair value hierarchy. These investment balances are intended to be maintained and held until benefit guarantees are satisfied or the contracts are terminated.

Other investments. Other investments include futures contracts, swap contracts, holdings in real estate investment trusts, state, municipal and foreign government fixed income securities and private credit investments. Futures contracts are valued daily based on quoted prices in active markets and trade in open markets, and have been categorized as Level 1. Real estate investment trusts are valued daily based on quoted prices in active markets and have been categorized as Level 1. State, municipal and foreign government fixed-income securities are valued daily using evaluated prices that reflect observable market information, such as actual trade information of similar securities, adjusted for observable differences and are categorized as Level 2. Derivative instruments other than futures contracts are valued based on external price data of comparable securities and have been categorized as Level 2. Private credit investments primarily consist of investments in private debt strategies. These investments are generally less liquid assets with an underlying term of three to five years and are intended to be held to maturity. The fair value of these investments is determined by the fund manager or administrator using a combination of valuation models including cost models, market models and income models and typically cannot be redeemed until maturity of the term loan. These valuation inputs are unobservable. Managed private credit fund investments are not classified within the fair value hierarchy because their fair value is determined using NAV or its equivalent as a practical expedient. The unfunded commitments of these investments in the Master Trust were $285 million and $322 million as of December 31, 2025 and 2024, respectively.

Additional Information Regarding Level 3 Fair Value Measurements

Because the Company relies on third party fund managers to develop the quantitative unobservable inputs without adjustment for the valuations of its Master Trust Level 3 investments, quantitative information about significant unobservable inputs used in valuing these investments is not readily available. This includes information regarding the sensitivity of the fair values to changes in the unobservable inputs. The Company gains an understanding of the fund managers' inputs and assumptions used in preparing the valuations and performs procedures to assess the reasonableness of the valuations. For a sample of Level 3 investments, the Company reviewed the investment managers' valuation techniques and obtained the most recent audited financial statements to confirm that an unqualified audit opinion was issued and the investments were valued at fair value.

The following tables present assets measured and recorded at fair value in the Master Trust's net assets on a recurring basis and their level within the fair value hierarchy as of December 31, 2025 and 2024:

(a) Represents cash settlements only.

Realized and unrealized gains and losses including those related to Level 3 assets are classified as net investment income and appreciation of the Master Trust for the year ended December 31, 2025. Unrealized gains and losses are related to assets still held as of December 31, 2025 and 2024, and are reported in the Master Trust net assets.

Derivative Financial Instruments

The Company has developed and implemented a liability hedging investment strategy for the Master Trust in order to reduce the volatility of the assets relative to the liabilities. The Company may continue to gradually increase the liability hedging portfolio as the funded status of its pension plans improves. The overall objective is to achieve attractive risk-adjusted returns that will balance the liquidity requirements of the plans' liabilities while striving to minimize the risk of significant losses. As part of the liability hedging investment strategy, the Master Trust invests in derivatives to manage the portfolio's interest rate duration. The risks of entering into derivatives contracts are discussed in Note 4.

The Master Trust does not designate any of the derivatives as a "hedge" in accordance with ASC 815, *Derivatives and Hedging*, and accordingly, the gains and losses on derivative instruments have been included in net appreciation in fair value of investments of the Master Trust.

The derivative instruments held by the Master Trust are described below.

Futures contracts. The Master Trust enters into futures contracts in the normal course of its investing activities to manage market risk associated with the Master Trust's investments, manage the portfolio's interest rate duration, and to achieve overall investment portfolio objectives. Futures contracts are classified as other investments.

Swap contracts. The Master Trust invests in interest rate, credit default, total return and swaptions swap contracts which are included in other investments. The Master Trust uses interest rate swap contracts to manage its exposure to interest rates and manage the portfolio's interest rate duration. Interest rate swap contracts entered into by the Master Trust typically represent the exchange by the Master Trust with a counterparty of a commitment to make variable rate and fixed rate payments with respect to a notional amount of principal.

Credit default swap contracts entered into by the Master Trust typically represent the exchange by the Master Trust with a counterparty of a commitment to provide a level of credit protection for a commitment to receive interest at a fixed rate based on the potential risk of default of the relevant underlying issuer.

Total return swap contracts entered into by the Master Trust allow the Master Trust to gain exposure and benefit from a reference asset without actually owning it.

Swaption contracts are entered into by the Master Trust to gain the right, not the obligation, to enter into a specified swap agreement with the issuer on a specified future date for an option premium.

Forward contracts. The Master Trust enters into forward contracts for nontrading purposes in order to reduce its exposure to fluctuations in foreign currency exchange on its portfolio holdings. The use of forward exchange contracts does not eliminate fluctuations in the underlying prices of the Master Trust's investment securities, but it establishes a rate of exchange that can be achieved in the future. Although forward exchange contracts limit the risk of loss due to a decline in the value of the hedged currency, they also limit any potential gain that might result should the value of the currency increase. Forward contracts are classified as other assets and other liabilities of the Master Trust.

Rights and warrants. The Master Trust enters into rights and warrants instruments in order to purchase additional shares of stock at a discounted price. Rights and warrants are classified as common corporate stock.

Derivative instruments of the Master Trust as of December 31, 2025, are summarized as follows:

(in thousands of dollars)	Notional Amount (a)	Assets	Liabilities	Unrealized Gain (Loss)
Futures contracts				
Cash and cash equivalents	$ 20,077	$ 20,077	$ (20,077)	$ —

Forward contracts	41,025	446	(421)	24
Total derivative instruments	$ 5,164,167	$ 264,643	$ (285,524)	$ (26,821)

(a) The notional amounts for these instruments provide a measure of the transaction volume outstanding as of the fiscal years ended and do not represent the amount of the Plan's exposure to credit or market loss.

4. Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in these risks in the near term could materially affect investment account balances reported in the Statements of Net Assets Available for Benefits and the amounts reported in the Statement of Changes in Net Assets Available for Benefits.

Plan contributions and the actuarial present value of accumulated plan benefits are calculated based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to amounts reported in the Statements of Accumulated Plan Benefits or Statement of Changes in Accumulated Plan Benefits.

The Master Trust invests in certain funds and engages some investment managers that may use derivative financial instruments, including futures, forward foreign exchange, swap contracts, rights and warrants to accomplish their investment strategies. The Master Trust also directly holds derivatives (see Note 3). Derivative instruments may be used to mitigate exposure to foreign exchange rate and interest rate fluctuations, manage the portfolio's interest rate duration and manage the investment mix in the portfolio. Risks of entering into derivatives include the risk of an illiquid market, the inability of a counterparty to perform, or unfavorable movement in foreign currency exchange rates, interest rates, or the underlying securities.

Some investment managers may engage in securities lending programs in which the funds lend securities to borrowers, with the objective of generating additional income. The borrowers of the fund securities deliver collateral to secure each loan in the form of cash, securities or letters of credit and are required to maintain the collateral at a level no less than 100% of the market value of the loaned securities. Cash collateral is invested in common/collective trust funds or collateral pools. Lenders of securities also face the risk that invested cash collateral may become impaired or that the interest paid on loans may exceed the amount earned on the invested collateral. The Master Trust's exposure is limited to the funds that lend securities.

5. Funding Policy

The Company considers various factors when making pension funding decisions, including actuarially determined minimum contribution requirements under ERISA, contributions required to avoid benefit restrictions and at-risk status as defined by the Pension Protection Act of 2006 (the "Act"), management of the pension obligation and regulatory implications. The Act requires the attainment of certain funding levels to avoid benefit restrictions (such as an inability to pay benefits or to accrue benefits prospectively), and at-risk status (which triggers higher minimum contribution requirements and participant notification). The Company's policy is to contribute at least the minimum contribution requirements under ERISA.

6. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic benefit payments under the Plan that are attributable to employees' service rendered to date and include benefits expected to be paid to present employees, retired or terminated employees and surviving spouses and other beneficiaries of deceased employees.

Actuarial Methods

The actuarial present values of accumulated plan benefits were determined by consulting actuary, WTW, in a valuation as of December 31, 2025 and 2024, and were the amounts that resulted from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts of interest) and the probability of payment (by means of decrements for death, disability, or retirement) between the date of the actuarial valuation and the expected date of payment. Actuarial assumptions used were consistent with provisions of the IRC funding requirements, the Act, and other financial statement and regulatory guidance.

The significant actuarial assumptions, which related to the accumulated plan benefits used in the valuation as of December 31, 2025 and 2024, were as follows:

As of December 31, 2025

Discount rate	7.00%
Mortality basis	The Pri-2012 Mortality Table projected with the MP-2021 improvement scale with ultimate mortality improvement rate converging to Proxy SSA mortality
Employee turnover	Rates varying by age and service
Earnings progression	Rates varying by age; Average rate of 3.75%
Retirement	Varying rates by age (ages between 55 and 70)
Social Security wage base	Rate of 3.50%
Investment crediting rate	Rate of 6.11%

As of December 31, 2024

Discount rate	7.00%
Mortality basis	The Pri-2012 Mortality Table projected with the MP-2021 improvement scale with ultimate mortality improvement rate converging to Proxy SSA mortality
Employee turnover	Rates varying by age and service
Earnings progression	Rates varying by age; Average rate of 3.75%
Retirement	Varying rates by age (ages between 55 and 70)
Social Security wage base	Rate of 3.50%
Investment crediting rate	Rate of 5.63%

7. Plan Termination

The Plan may be amended, modified or terminated by the Company at any time, subject to requirements set forth in ERISA and the applicable collective bargaining agreements. In the event of termination of the Plan, the assets of the Plan shall be apportioned as of the date of termination in the manner and order set forth in Section 4044 of ERISA.

To the extent provided by law, benefits under the Plan are guaranteed by the PBGC. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits, and certain disability and survivor pension benefits, subject to certain limitations, in the event of termination of the Plan. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to certain limitations. Increases in benefits due to Plan amendments will be guaranteed by the PBGC only at the greater of a rate of up to 20% for each year (up to a maximum of five years) the amendments have been in effect or $20 a month.

8. Income Tax Status

The Internal Revenue Service made a determination on January 12, 2021 that the Plan, as then designed, is a qualified pension plan under Section 401(a) of the IRC. The Master Trust is exempt from federal income taxes under the provisions of Section 501(a) of the IRC, except for certain investment income that is subject to state and federal

income tax as "unrelated business income." The Plan and Master Trust have been amended since receiving the determination letter. However, the Plan Administrator believes the Plan and its related trust remain in compliance with the applicable requirements of the IRC. Therefore, it is believed that the Plan, as amended, is qualified and the related Master Trust is tax-exempt as of the financial statement date.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain tax position that more-likely-than-not would not be sustained upon examination by the applicable authorities. The Company has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2025, there were no uncertain tax positions taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Related-Party Transactions

The Company provides certain administrative services, which includes administration, investment and accounting services to the Plan. For the year ended December 31, 2025, the Plan paid administrative fees of $0.2 million to the Company.

The Master Trust assets for the years ended December 31, 2025 and 2024 include investments in funds managed by the Trustee. Fees incurred by the Master Trust for the Trustee's investment management and custodial services amounted to $2.0 million for the year ended December 31, 2025.

The Master Trust held Baltimore Gas and Electric Company, a subsidiary of the Company, corporate debt that had a value of $0.8 million at December 31, 2025 and 2024. In addition, the Master Trust held Commonwealth Edison Company, a subsidiary of the Company, corporate debt that had a value of $0.8 million at December 31, 2025 and 2024.

These transactions qualify as exempt party-in-interest transactions, in accordance with ERISA. There have been no known non-exempt prohibited transactions with a party-in-interest.

10. Plan Transfers

During 2025, there were transfers totaling $0.3 million from the Plan to the Exelon Corporation Retirement Program and net transfers totaling $0.1 million from CPPBU to the Plan.

11. Reconciliation of Financial Statements to Form 5500

Benefits that have been processed and approved for payment at year end, but not paid are not considered liabilities under U.S. GAAP and, therefore, are not presented as liabilities or benefits paid in the accompanying financial statements, but are recorded as benefits payable on the Form 5500.

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

(in thousands of dollars)	December 31, 2025	December 31, 2024
Net assets available for benefits per the financial statements	$ 189,593	$ 152,640
Less: Benefits payable	245	526
Net assets available for benefits per Form 5500	$ 189,348	$ 152,114

The following is a reconciliation of the changes in net assets for benefit payments per the financial statements to the Form 5500:

(in thousands of dollars)	2025
Benefit payments per the financial statements	$ 1,735
Add: Benefits payable as of December 31, 2025	245
Less: Benefits payable as of December 31, 2024	526
Benefit payments per the Form 5500	$ 1,454

12. Subsequent Events

The Plan's management evaluated subsequent events through October 8, 2026, the date the financial statements were available to be issued, and determined that there were no subsequent events to be recognized or disclosed in the financial statements.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
