INDEPENDENT AUDITORS' REPORT

To the Benefits Committee of Okuma America Corporation and Participants of the Okuma America Corporation Pension Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the financial statements of Okuma America Corporation Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with generally accepted accounting principles in the United States of America ("GAAP").
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with generally accepted auditing standards in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters - Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) and schedule of reportable transactions as of and for the year ended December 31, 2025 (the "ERISA-required supplemental schedules") are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the ERISA-required supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the ERISA-required supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the ERISA-required supplemental schedules, we evaluated whether the ERISA-required supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the ERISA-required supplemental schedules, other than the information in the ERISA-required supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the ERISA-required supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. DESCRIPTION OF PLAN

The following description of the Okuma America Corporation Pension Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a cash balance defined benefit pension plan providing retirement, disability, and death benefits to all eligible employees. The plan sponsor is Okuma America Corporation (the "Employer") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan covers all employees of the Employer who are at least age 21, have completed 1,000 hours of service in the 12-month period beginning on their date of hire (or rehire) or during any later plan year. Non-eligible employees include those who are independent contractors, contract workers, individuals working on special assignment, leased employees, employees whose employment is governed by a collective bargaining agreement that does not provide for coverage under the Plan, and nonresident aliens with no U.S. income.

The Plan is administered by the Employer's Benefits Committee (the "Committee"). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Participant Accounts - Under the Plan's provisions, amounts are credited by the Employer to the participants' hypothetical accounts. The accounts are allocated compensation and interest credits at the end of every plan year. The compensation credits are allocated based on a percentage of the participants' certified compensation as defined in the plan document for the plan year. The applicable percentage is 3% or 8% and is based on the participants' age plus years of credited service, as defined in the plan document, at the end of each plan year. Age and credited service are determined in whole years at the end of the plan year.

Interest is credited annually to participants' hypothetical accounts based on the yield for 7-year Treasury Constant Maturities for the preceding November, with an associated margin of 25 basis points. The Plan has a 3.00% floor on annual interest credits. Interest was credited at a rate of 4.78% and 4.24% as of January 1, 2025 and 2024, respectively.

Funding Policy - The Plan's funding policy is for the Employer to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2025 and 2024, the Employer made no contributions to the Plan. The Employer's contributions for 2025 and 2024 met or exceeded the minimum funding requirements of ERISA.

Pension Benefits - Benefits are determined based on the participant's hypothetical account balance. Plan participants are eligible for their plan benefits after terminating employment with vested rights. Participants become vested in the Plan upon completion of three years of continuous service or attainment of the normal retirement age (65). If employees terminate before rendering three years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Employer's contributions. Upon termination of employment, participants have the option of receiving their vested benefit in various forms of joint and survivor annuities. Participants may elect to defer payment of their benefit until a later date (if the value of the vested benefit is greater than $1,000). Participants eligible for a special transition benefit from the prior final average pay formula design will have their final benefits determined at the time they elect to begin receiving payments from the plan. Any adjustment for the special transition benefit calculation is automatically determined and communicated to participants.

Death and Disability Benefits - If an active employee dies, a death benefit equal to the value of the employee's accumulated pension benefit is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the equivalent normal retirement benefit they have accumulated as of the time they become disabled. The Plan does not provide for any disability benefits other than those payable upon termination of employment.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements have been prepared on the accrual basis of accounting.

Use of Accounting Estimates - The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. The Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and Mid Atlantic Trust Company, the custodian of the Plan. See Note 4 for disclosure of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - The Plan's expenses are paid either by the Plan or the Employer, as provided by the plan document. Expenses that are paid directly by the Employer are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events - Management has evaluated subsequent events through October 13, 2026, which is the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE CUSTODIAN

The following is a summary of the Plan's asset information as of December 31, 2025 and 2024, and for the years then ended, included in the financial statements and supplemental schedules, that was prepared by, or derived from, information prepared by the Custodian and furnished to management. Management has obtained certifications from the Custodian that such information is complete and accurate as of and for the years ended December 31, 2025 and 2024.

	2025	2024
Assets:		
Noninterest-bearing cash	$ 188,070	$ 444,074
Mutual funds	$ 24,902,667	$ 23,359,036
Collective trust funds	$ 1,319,129	$ 1,243,093
Income:		
Net appreciation in fair value of investments	$ 2,391,653	$ 2,034,050
Interest and dividend income	$ 620,084	$ 642,870

4. FAIR VALUE MEASUREMENTS

GAAP provides the framework for measuring fair value by utilizing a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under GAAP are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used as of December 31, 2025 and 2024.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the Custodian, is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Benefits Committee believes the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 24,902,667	$ -	$ -	$ 24,902,667
Total investments in the fair value hierarchy	$ 24,902,667	$ -	$ -	24,902,667
Investments measured at NAV, as a practical expedient				1,319,129
Investments, at fair value				$ 26,221,796

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 23,359,036	$ -	$ -	$ 23,359,036
Total investments in the fair value hierarchy	$ 23,359,036	$ -	$ -	23,359,036
Investment measured at NAV, as a practical expedient				1,243,093
Investments, at fair value				$ 24,602,129

Fair Value of Investments in Entities that Use NAV as a Practical Expedient

The following table summarizes investments measured at fair value based on NAV per share as a practical expedient as of December 31, 2025 and 2024:

December 31, 2025	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Collective trust fund – Mid Cap	$1,319,129	None	Daily	None

December 31, 2024	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Collective trust fund – Mid Cap	$1,243,093	None	Daily	None

5. RELATED-PARTY AND PARTY IN INTEREST TRANSACTIONS

Certain administrative fees related to the administration of the Plan were paid by the Plan. Certain other third party administrator fees were paid by the Employer on behalf of the Plan. These transactions qualify as exempt party in interest transactions.

6. PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations.
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

7. TAX STATUS

The Internal Revenue Service has determined and informed the Employer by a letter dated September 30, 2013 that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, management and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits of any tax periods in progress.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

9. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2025. Had the valuation been performed as of December 31, 2024, there would be no material differences.

The significant actuarial assumptions used in the valuations as of December 31, 2024 were:

Discount rate	6.00%
Mortality	Pri-2012 Total Dataset Amount-Weighted Mortality projected with Scale MP-2021 with separate rates for employees, retirees, and contingent survivors.
Expected long-term return on assets	6.00%
Weighted average retirement age	65

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The total actuarial present value of accumulated plan benefits as of December 31, 2024, was as follows:

Vested benefits:	
Participants currently receiving benefits	$ 6,814,367
Other participants	12,031,829
Total vested benefits	18,846,196
Nonvested benefits	113,528
Total actuarial present value of accumulated plan benefits	$ 18,959,724

The changes in the actuarial present value of accumulated plan benefits during the year ended December 31, 2024 was as follows:

Actuarial present value of accumulated plan benefits as of beginning of year	$ 19,183,692
Increase (decrease) attributable to:	
Change in actuarial assumptions	(719,348)
Benefits accumulated	473,662
Increase for interest due to decrease in discount period	1,118,595
Benefits paid	(1,096,877)
Net change	(223,968)
Actuarial present value of accumulated plan benefits as of end of year	$ 18,959,724

Appendix B
Statement of Actuarial Assumptions and Methods

Minimum Funding Annual Interest Rates

24-month segment rates averaged through the end of August 2024 and published in September 2024 (as prescribed by IRC 430) and adjusted to reflect ARPA:

- Segment 1 (0 – 5 years) 5.07%
- Segment 2 (5 to 20 years) 5.31%
- Segment 3 (more than 20 years) 5.50%
- Effective Interest Rate 5.33%

Maximum Deductible Annual Interest Rates

24-month segment rates averaged through the end of August 2024 and published in September 2024 (as prescribed by IRC 430) as follows:

- Segment 1 (0 – 5 years) 5.07%
- Segment 2 (5 to 20 years) 5.33%
- Segment 3 (more than 20 years) 5.36%
- Effective Interest Rate 5.31%

Annual Expected Return on Assets

Interest Rate for developing Actuarial Value of Assets; limited to third segment rate of 5.59% 6.00%

Rationale: Based on a review of historical returns on various asset categories held by the plan as well as information provided by the plan's investment advisor for the 2024-2025 fiscal year.

PBGC and LDROM Annual Interest Rates

24-month segment rates averaged through the end of August 2024 and published in September 2024 using the Alternative Method (as prescribed by IRC 430) as follows:

- Segment 1 (0 – 5 years) 5.07%
- Segment 2 (5 to 20 years) 5.33%
- Segment 3 (more than 20 years) 5.36%
- Effective Interest Rate 5.31%

Salary Scale

Future salaries are projected at 4%.

Rationale: Based on experience study conducted in 2025 using census data from January 1, 2019 through January 1, 2025 and discussed with plan sponsor on expected future salary increases.

Appendix B (Continued)

Mortality

Mortality as provided in IRS Notice 2024-42, male and female, with different rates for annuitants and nonannuitants (as prescribed by IRC 430).

Cash Balance Crediting Rate

4.54%

Rationale: Based on current yields of 7-year Treasury Constant Maturities for the preceding November plus 0.25%.

Rates of Retirement

Actives are assumed to retire based on age as follows:

Age	Rate
55-61	5%
62	20
63-64	5
65-69	20
70+	100

Rationale: Based on experience study conducted in 2025 using census data from January 1, 2019 through January 1, 2025.

Weighted Average Retirement Age is 65. This is the average retirement age for someone eligible to retire at all ages using the assumed retirement rates and no other decrements.

Rates of Disability

None

Rates of Turnover

Society of Actuaries 2003 Table for small plans with the rates for three or more years of service adjusted by 85%. Based on age and length of service as follows:

	Completed Years of Service			
Age	0	1	2	3
25	19.8%	18.1%	16.5%	16.58%
35	19.8	18.1	16.5	10.29
45	19.8	18.1	16.5	6.21
55	19.8	18.1	16.5	3.57

Rationale: Population is too small to use current plan experience. Based on most recent study from the Society of Actuaries on turnover rates.

Assumptions Made In Valuing Spouse's Benefit

Eighty-five percent of the male and fifty percent of the female employees included in the valuation are assumed to be married. These percentages are used as the probabilities that survivor benefits will be payable due to preretirement deaths. The wife is assumed to be three years younger than the husband.

Appendix B (Continued)

Optional Form Election	All employees are assumed to elect the life annuity for the traditional benefit and a lump sum for the cash balance portion of the benefit.
Annual Increases to Maximum Benefits and Plan Comp. Limits	0.00%
Provision for Expenses	The expected administrative (i.e., non-investment) expenses that will be paid from plan assets, which were assumed to equal actual expenses during the prior year plus PBGC premiums for the current year, were included in the Target Normal Cost for minimum contribution purposes.
Fiscal Year	The 12-month period ending each March 31.
Standing Elections	The plan sponsor has not signed an election that provides for the automatic use of the Carryover and/or Prefunding Balance, if necessary, at the end of the plan year to meet the minimum funding requirement and has not signed an election to add excess contributions to the Prefunding Balance.
At-Risk Assumptions	Since there are not more than 500 participants participating in defined benefit pension plans of the employer's controlled group, at-risk liabilities have not been valued.
Asset Method	Funding: Market Value of Assets plus interest adjusted accrued but unpaid contributions as of the valuation date plus an adjustment to defer full recognition of investment losses and gains over a two-year period. The investment (gain)/loss for every year equals the market value at the beginning of the year projected to the end of the year using the interest rate above, but no greater than the third segment rate for the plan year, minus the end of the year actual market value. The actuarial value of assets will be no less than 90% and no more than 110% of the market value (including interest-adjusted accrued but unpaid contributions). Note that due to the regulatory constraint on the interest rate, a characteristic of this asset valuation method is that, over time, it may be more likely to produce an actuarial value of assets that is less than the market value of assets.

Appendix B (Continued)

Funding Method

Pure Unit Credit

The actuarial liabilities shown in this report are determined using software purchased from an outside vendor which was developed for this purpose. Certain information is entered into this model in order to generate the liabilities. These inputs include economic and non-economic assumptions, plan provisions, and census information. We rely on the coding within the software to value the liabilities using the actuarial methods and assumptions selected. Both the input to and the output from the model is checked for accuracy and reviewed for reasonableness.

Employees Valued

Only participants as of the valuation date were valued.

Changes in Assumptions and Methods since the Last Actuarial Valuation

The segmented interest rates used for determining the funding target were 4.75%, 4.87% and 5.59%. These rates were updated to the rates required for the current plan year and also reflect ARPA. The mortality table for the funding target was changed as required under PPA '06.

The cash balance interest crediting rate was 4.78% last year.

The salary scale assumption was updated from 3% for age 45 and older.

The rates of retirement were updated from:

Age	Rate
55-59	5%
60-64	10
65+	100

Justification for Changes in Actuarial Assumptions

Assumption changes, other than those relating to mandated funding target interest rates and mortality tables, were made to better anticipate future experience and to comply with ASOP 35. We believe the plan does not need IRS approval for these changes because the aggregate underfunding for PBGC premium purposes within the Controlled Group for this plan year, excluding overfunding, does not exceed $50,000,000.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 22 – Description of Weighted Average Retirement Age
Okuma America Corporation Pension Plan
January 1, 2025 Valuation
EIN/PN: 11-2670887 / 001

Rates of Retirement

Actives are assumed to retire based on age as follows:

Age	Rate
55-61	5%
62	20
63-64	5
65-69	20
70+	100

Rationale: Based on experience study conducted in 2025 using census data from January 1, 2019 through January 1, 2025.

Weighted Average Retirement Age is 65. This is the average retirement age for someone eligible to retire at all ages using the assumed retirement rates and no other decrements.

Appendix A
Summary of Principal Plan Provisions

Plan Sponsor	Okuma America Corporation
EIN/PN	11-2670887/001
Effective Date	April 1, 1984. Amended and restated effective January 1, 2012, as last amended and signed on January 19, 2023 effective January 1, 2022.
Plan Year	The 12-month period beginning each April 1 until 1995. Short Plan Year April 1, 1995 – December 31, 1995. Thereafter the 12-month period beginning January 1.
Participation	Each employee becomes a participant on the January 1 or July 1 coincident with or next following attainment of age 21 and completion of one Year of Service. Prior to the Plan Year change, entry dates were April 1 and October 1.
Earnings	W-2 compensation, including deferrals to 401(k) or Section 125 plans, as limited by IRC Section 401(a)(17).
Final Average Earnings	The average of earnings over the 60 complete consecutive calendar months of the final 120 months of employment which produce the highest average.
Social Security Covered Compensation	Covered Compensation means the average of the Social Security Maximum Taxable Wage Bases for the 35-year period ending with the year in which Social Security Retirement Age is attained. Social Security Retirement Age is 65 for employees born before 1938, 67 for those born after 1954, and 66 for those born in between.
Continuous Service	An employee's aggregate number of years and days of employment with no service counted before April 1, 1980.
Year of Service	A Plan Year in which 1,000 hours of service are completed.
Cash Balance Account	A hypothetical account that starts at zero on January 1, 2003. Each year the account balance is increased with interest based on the yield on 7-year Treasury Constant Maturities for the preceding November plus 0.25%, with a 3% floor on the interest credits. Also, 3% of the participant's compensation for the year is credited to the account at the end of each year. For participants for whom the sum of their age and service, as of their next birthday and employment anniversary, respectively, next following December 31, 2002, equals or exceeds 60, the 3% above is replaced with 8%.

Appendix A (Continued)

Accrued Benefit

The sum of (a) and (b) below:

(a) A monthly life annuity equal to 1.10% of Final Average Earnings plus 0.65% of Final Average Earnings in excess of Social Security Covered Compensation multiplied by the number of years of Continuous Service up to 30. This piece of the benefit is frozen as of December 31, 2002.

(b) Starting January 1, 2003, the annuitized accumulated cash balance account projected to age 65.

Normal Retirement Benefit

Eligibility:

Age 65.

Monthly Benefit:

The Accrued Benefit.

Early Retirement Benefit

Eligibility:

Age 55 and 5 years of Continuous Service.

Monthly Benefit:

The entire Accrued Benefit is reduced 5/9% for each of the first 60 months and 5/18% for each additional month by which commencement precedes the Normal Retirement Date.

However, if terminated after 55 and 10 years of continuous Service, the Accrued Benefit, starting at age 65, or starting immediately but reduced by 5% for each year retirement precedes age 62, and the reduction for the excess portion of the benefit is 5/9% for each of the first 60 months and 5/18% for each additional month by which commencement precedes the Normal Retirement Date.

Termination Benefit

Eligibility:

Upon termination of employment prior to retirement but after completion of at least three years of Continuous Service, a participant is 100% vested.

Appendix A (Continued)

Termination Benefit (Continued)

Monthly Benefit:

The accrued benefit commencing in full at age 65, or in a reduced amount, as early as age 55 with at least 5 years of Continuous Service. The cash balance portion of the benefit is payable as a lump sum.

If terminated after age 55 and 10 years of Continuous Service, the frozen final average pay portion of the benefit is reduced as described under Early Retirement Benefit. Otherwise, the entire benefit is reduced 5/9% for each of the first 60 months and 5/18% for each additional month by which commencement precedes the Normal Retirement Date.

Death Benefit

Eligibility:

If a vested active or former employee dies after having been married for one year, his surviving spouse shall receive a monthly benefit for life commencing at the time the employee would have been eligible for retirement.

Monthly Benefit:

A monthly benefit for life commencing at the time the participant would have been eligible for retirement. The benefit is equal to 50% of the benefit vested on the date of death, adjusted as appropriate for early commencement and the 50% Joint and Survivor Annuity form of payment.

Optional Forms

Single Life Annuity – This form provides monthly payments during the participant's lifetime.

Joint & Survivor 50%, 66 2/3%, 75% and 100% Annuity – This form provides reduced monthly payments during the participant's lifetime with monthly payments to the surviving spouse after the participant's death equal to 50%, 66 2/3%, 75% and 100%, respectively, of the amount paid during the participant's lifetime. The payments are the Actuarial Equivalent Value of the Life Annuity Form of Benefit.

Life Annuity with 120 payments guaranteed – This form provides reduced monthly payment during the participant's lifetime with 120 payments guaranteed to the participant's beneficiary. The payments are the Actuarial Equivalent Value of the Life Annuity Form of Benefit.

Level Social Security – This form provides monthly benefits for life, with higher benefits paid prior to the receipt of Social Security benefits.

Appendix A (Continued)

Optional Forms (Continued)	A lump sum option is available with respect to the cash balance portion of the benefit. The conversion factors for optional forms are based on the 1994 GAR Table as defined in Rev. Rul. 2001-62 and 6% interest. Conversion of cash balances to annuity forms are based on the "Applicable Mortality Table" and the "Applicable Interest Rate."
Maximum Benefit Limit	The Internal Revenue Code Section 415 Maximum Benefit payable as a life annuity at Social Security Normal Retirement Age.
Plan Compensation Limit	The Section 401(a)(17) Maximum Compensation that can be recognized for benefit calculation purposes.
Changes in Plan Provisions	The automatic changes, if any, in the plan compensation limit and maximum benefit limit were recognized as amendments for funding purposes.

Schedule SB, Line 24- Change in Non-Prescribed Actuarial Assumptions
Okuma America Corporation Pension Plan
January 1, 2025 Valuation
EIN/PN: 11-2670887 / 001

Justification for Changes in Actuarial Assumptions

Assumption changes, other than those relating to mandated funding target interest rates and mortality tables, were made to better anticipate future experience and to comply with ASOP 35. We believe the plan does not need IRS approval for these changes because the aggregate underfunding for PBGC premium purposes within the Controlled Group for this plan year, excluding overfunding, does not exceed $50,000,000.
