INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
Koch Retiree Medical Plan

Opinion

We have audited the financial statements of Koch Retiree Medical Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits and statements of plan benefit obligations as of December 31, 2025 and 2024, the related statements of changes in net assets available for benefits and changes in plan benefit obligations for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and plan benefit obligations of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits and changes in plan benefit obligations for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1 Description of the Plan

The following description of the Koch Retiree Medical Plan (the Plan) provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan was created January 1, 2019 when certain benefits were spun off from the Koch Industries Employee Group Benefit Plan. The Plan provides retiree medical and dental benefits for a certain group of retirees, and is sponsored by Koch Companies, LLC (the Company) and any other companies affiliated with the Company which have expressly adopted the Plan for the benefit of all employees (and their dependents) who have elected to participate in the Plan. All plan benefits are self-insured.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

The Plan covers certain retirees that are eligible for the Koch Retiree Medical Plan and the United Gas Pipeline Retiree Medical and Dental Plan.

Contributions

The Plan is a contributory plan. Participant contributions are established to meet a targeted percentage of total estimated participant benefit claims.

The costs of post-retirement benefits are paid primarily by the participants. Certain participants who joined the Plan through an acquisition by the Company may be eligible for their retiree medical coverage to be partially subsidized by the Company. The subsidy provides a flat rate available for a maximum of three years and is based upon the participant's age at retirement and years of service.

Administration

The Plan is overseen by an administrative committee appointed by the Company. The administrative committee contracts third-party insurance companies, and administrative service organizations to administer the Plan.

2 Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect reported amounts of assets and liabilities, benefit obligations and changes therein, claims incurred but not reported, claims payable and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

2 Summary of Significant Account Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Claims Incurred But Not Reported

Claims incurred but not reported (IBNR) represent claims against the Plan which were currently being processed at year-end but not paid by the Plan until the subsequent year and an estimate of covered expenses incurred by participants which had not yet been received for processing. These amounts are estimated by the Plan's actuary in accordance with accepted actuarial principles based on claims data provided by the Plan's third-party claims administrators. These amounts are paid by the Plan only if claims are submitted and approved for payment. The accumulated plan benefit obligation includes a component for claims IBNR.

Payment of Benefits

Benefits are recorded as a reduction in net assets available for benefits when paid.

Administrative Expenses

Certain expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits.

Refunds

Refunds due from the Plan's pharmacy benefit manager were recorded when earned. Refunds due as of the financial statement date have been reported as a receivable, with the offset being netted against claims paid. Pharmacy refunds totaling $1,977 and $13,378 have been netted with claims paid in the accompanying statements of changes in net assets available for benefits for years ended December 31, 2025 and 2024, respectively.

Post-Retirement Benefit Obligation

Generally, post-retirement benefits include future benefits expected to be paid to or for a closed group of employees who retired on or before July 1, 1994, and certain grandfathered employees of an acquisition in 2004. These benefit obligations represent the actuarial present value of those estimated future benefits that are attributed by the terms of the Plan to participants' service rendered to the date of the financial statements, reduced by the actuarial present value of contributions expected to be received in the future from the respective participants.

The actuarial present value of the expected postretirement benefit obligation is determined by an actuary and is the amount that results from applying actuarial assumptions to historical claims-cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

2 Summary of Significant Accounting Policies (continued)

The following were significant actuarial assumptions used in the valuation as of December 31, 2025 and 2024:

Weighted-average discount rate:
2025: 4.45%
2024: 5.20%

Average retirement age:
8% at age 55-57, 10% at age 58-61, 20% at age 62-64, 30% at age 65-69, and 100% at age 70

Mortality:
Pri-2012 with no collar adjustment, projected with Scale MP-2021 back to 2012

Generally, the Company contributes a fixed amount based on age, service and Plan options selected. The participant contributes the balance of the cost, including future cost increases.

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation.

The Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the Act) applies to sponsors of retiree health care benefit plans that provide prescription drug benefits. The Act introduces a prescription drug benefit under Medicare (Medicare Part D) as well as a federal subsidy to sponsors of retiree health care benefit plans that provide a benefit that is at least actuarially equivalent to Medicare Part D. The Company has determined that it will not pursue the subsidy payment and, accordingly, the effects of the Medicare subsidy are not included in the postretirement benefit obligations. In any case, the Plan's benefit obligation and the changes in its benefit obligation would not reflect any amount associated with the Medicare subsidy because the Plan would not be directly entitled to the subsidy.

3 Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2025 and 2024.

Interest-bearing cash: Stated at cost, which approximates fair value.

December 31, 2025	**Level 1**	**Level 2**	**Level 3**	**Total**
Interest-bearing cash	**$ 1,812,645**	**$ -**	**$ -**	**$ 1,812,645**

December 31, 2024	**Level 1**	**Level 2**	**Level 3**	**Total**
Interest-bearing cash	**$ 1,884,342**	**$ -**	**$ -**	**$ 1,884,342**

4 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, trust assets will be applied to pay benefits until such assets are depleted. The Company is obligated to contribute any amounts necessary to pay accrued benefits under the Plan to the extent such benefits were payable prior to the date of termination.

5 Income Tax Status

The Trust established under the Plan to hold the Plan's assets is intended to qualify pursuant to Section 501(c)9 of the Internal Revenue Code (IRC), and, accordingly, the Trust's net investment income is exempt from income taxes. The Trust has obtained a favorable tax determination letter from the Internal Revenue Service (IRS), and the Company believes that the Trust, as amended, continues to qualify and to operate in accordance with applicable provisions of the IRC.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if it has taken an uncertain position that more likely than not would not be sustained upon examination by the IRC. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6 Related Party Transactions and Party-in-Interest Transactions

The Plan's investment is in an interest-bearing cash account managed by JPMorgan Chase Bank, N.A. (JPMorgan). JPMorgan is the custodian for the Plan and therefore, these transactions qualify as party-in-interest transactions. The Plan made direct payments to JPMorgan of $6,338 and $6,575 for the years ended December 31, 2025 and 2024, respectively.

7 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2025 and 2024 to the Form 5500:

December 31	**2025**	**2024**
Net assets available for benefits per the financial statements	**$ 1,819,589**	**$ 1,897,190**
Less:		
Claims payable and claims incurred but not reported	**(2,656)**	**(2,865)**
Net assets available for benefits per Form 5500	**$ 1,816,933**	**$ 1,894,325**

The following is a reconciliation of claims paid per the financial statements to the Form 5500 for the years ended December 31, 2025 and 2024:

Years Ended December 31	**2025**	**2024**
Claims paid per the financial statements	**$ 123,483**	**$ 96,278**
Claims payable and claims incurred but not reported prior year	**(2,865)**	**(1,068)**
Claims payable and claims incurred but not reported current year	**2,656**	**2,865**
Claims paid per the Form 5500	**$ 123,274**	**$ 98,075**

7 Reconciliation of Financial Statements to Form 5500 (continued)

Claims that have been processed and approved for payment at year-end, but not paid and claims incurred but not reported are not considered liabilities under generally accepted accounting principles and, therefore, are not presented as liabilities or claims paid in the accompanying financial statements but are recorded on the Form 5500 as a liability.

8 Risks and Uncertainties

The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates, health care inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

9 Subsequent Events

The plan administrator has evaluated subsequent events through October 13, 2026, the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
