INDEPENDENT AUDITORS' REPORT

To the Plan Administrator, Participants and Beneficiaries
of the Mini-Circuits Lab Profit Sharing Plan

Opinion

We have audited the financial statements of Mini-Circuits Lab Profit Sharing Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025, and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025, and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

"EisnerAmper" is the brand name under which EisnerAmper LLP and Eisner Advisory Group LLC and its subsidiary entities provide professional services. EisnerAmper LLP and Eisner Advisory Group LLC are independently owned firms that practice in an alternative practice structure in accordance with the AICPA Code of Professional Conduct and applicable law, regulations and professional standards. EisnerAmper LLP is a licensed CPA firm that provides attest services, and Eisner Advisory Group LLC and its subsidiary entities provide tax and business consulting services. Eisner Advisory Group LLC and its subsidiary entities are not licensed CPA firms.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including the form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Plan Information

The Mini-Circuits Lab Profit Sharing Plan is a defined contribution profit sharing plan covering eligible employees of Scientific Components Corporation, and Mini-Circuits Missouri, Inc. (the "Employer"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974. The custodian of the Plan is Charles Schwab & Co., Inc., and the recordkeeper is National Pension Consultants, LLC.

The following information provides only general information about the Plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Eligibility - Employees are eligible after completing one year of service (minimum of 1,000 hours) and having attained the age of twenty-one years.

Contributions - Each plan year the Board of Directors of the Employer may elect to make a discretionary contribution to the Plan. To be eligible for discretionary contributions, a participant must work 1,000 hours in the given Plan year and be employed on the last day of the Plan year. The Employer elected to make a contribution of 3% of eligible participants compensation, subject to statutory limitations for the year ended December 31, 2025. The Employer directs the investment of Employer contributions.

Forfeitures - Terminated participants nonvested accounts may be used to reduce the Employer's contribution or pay Plan expenses. During the year ended December, 31, 2025, forfeitures of $16,311 from 2025 were used to reduce employer contributions and $0 were used to pay plan expenses. Forfeited nonvested accounts at December 31, 2025 and 2024 was $15,513 and $0, respectively.

Participant accounts - Each participant's account is credited with an allocation of the Employer's contribution and Plan earnings and may be charged with an allocation of administrative expenses, if any. Allocations are based on participant's earnings, account balances or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting of participants accounts – The provisions of the Plan provide for the normal vesting of participants accounts as follows:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3 – 6	Annual increments of 20% until fully vested

On termination of service due to death or disability, a participant becomes 100% vested in their account.

2. Payment of Benefits

All amounts held in a participant's account, be payable in a lump sum on termination of services due to death, normal disability or normal retirement at age 65. For termination of service due to other reasons, participants with a vested interest in their account balance of $10,000 or greater will receive the value of the vested interest in their account upon the earlier of death, disability or reaching normal retirement age. Participants with a vested interest in their account balance of less than $10,000 may receive the value of the vested interest in their account in a lump-sum payment upon the valuation date following termination of employment.

3. Termination of the Plan

The Plan is intended to be permanent, but may be terminated by the Board of Directors of the Employer. In the event the Employer terminates the Plan, all participants account balances at the time of the Plan's termination become fully vested.

4. Summary of Significant Accounting Policies

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with generally accepted accounting principles. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

Investments may be made in securities or property, as determined by a trustee.

For purposes of reporting in the statements of net assets available for benefits and changes in net assets available for benefits, the Plan considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. Cash and cash equivalents include cash held in demand deposit accounts and short-term investments that are readily convertible to known amounts of cash and present an insignificant risk of changes in value due to changes in interest rates.

The Plan maintains cash balances with financial institutions which, at times, may exceed federally insured limits. Management believes the credit risk related to these deposits is minimal.

Money market funds held as part of the Plan's investment portfolio are classified as investments and reported at fair value. Accordingly, such funds are not included in cash and cash equivalents.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) in the value of investments includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Benefits are recorded when paid.

5. Fair Value Measurements

The Plan carries its investments at fair value. The Plan defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and sets out a fair value hierarchy. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are summarized as follows:

Level 1 - Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Plan can access. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment. Level 1 investments of the Plan as of December 31, 2025 and 2024 consist of mutual funds which are valued at the daily closing price as reported by the fund and are registered with the Securities and Exchange Commission, and cash and cash equivalents consisting of money market funds and an interest-bearing cash account, which are valued at cost, which approximates fair value.

Level 2 - Valuations based on quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable, either directly or indirectly, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement that reflect the assumptions that market participants would use.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined by the lowest level input that is significant to the fair value measurement. Although the degree of judgment exercised by the Plan in determining fair value is greatest for investments categorized in Level 3, the inputs or methodology used for valuing investments are not necessarily an indication of the risk associated with those investments.

The following tables present information about the Plan's assets measured as fair value as of December 31, 2025 and 2024:

	Investments at Fair Value as of December 31, 2025			
	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	$ 187,880	$ -	$ -	$ 187,880
Mutual Funds	24,668,905	-	-	24,668,905
Total investments at fair value	$ 24,856,785	$ -	$ -	$ 24,856,785

	Investments at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	$ 200,548	$ -	$ -	$ 200,548
Mutual Funds	22,373,506	-	-	22,373,506
Total investments at fair value	$ 22,574,054	$ -	$ -	$ 22,574,054

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

6. Tax Status

The Plan has adopted a Prototype Non-standardized Pre-Approved Profit Sharing Plan sponsored by Fair, Fitzgerald & Hershaft, P.C. On June 30, 2020 the Internal Revenue Service ("IRS") stated in an opinion letter that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code ("IRC") and therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2025, there are no uncertain positions taken or expected to be taken by the Plan that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

7. Related Party and Party-In-Interest Transactions

Certain administrative functions are performed by the officers and employees of the Employer (who may also be participants in the Plan) at no cost to the Plan. These transactions are not deemed prohibited party-in-interest transactions because they are covered by statutory or administrative exemptions from the Internal Revenue Code and ERISA's rules on prohibited transactions.

Substantially all administrative expenses of the Plan are paid by the Employer. Fees paid by the Plan, principally to its investment advisor, amount to $11,417 for the year ended December 31, 2025.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amounts reported in the statements of net assets available for benefits.

Volatility in the financial markets may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2025 may not necessarily be indicative of amounts that could be realized in a current market exchange.

9. Mutual Fund Fees

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

10. Subsequent Events

The Plan has evaluated subsequent events and transactions for potential recognition or disclosure through October 09, 2026, the date the financial statements were available to be issued.
