Independent Auditor's Report

To the Plan Administrator
The People-to-People Health
Foundation, Inc. Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the financial statements of The People-to-People Health Foundation, Inc. Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets and accumulated plan benefits as of December 12, 2025 (in liquidation) and December 31, 2024 (ongoing) and the related statements of changes in net assets (in liquidation) and changes in accumulated plan benefits (in liquidation) for the period from January 1, 2025 to December 12, 2025 and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of The People-to-People Health Foundation, Inc. Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 12, 2025 and December 31, 2024 and for the period from January 1, 2025 to December 12, 2025 stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter

As discussed in Note 8 to the financial statements, the plan sponsor of The People-to-People Health Foundation, Inc. Pension Plan terminated the Plan effective June 30, 2025. As a result, the Plan changed its basis of accounting for the period from January 1, 2025 to December 12, 2025 from the going concern basis of accounting used in presenting the 2024 financial statements to the liquidation basis of accounting. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audits* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of the ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

The supplemental schedule of reportable transactions (in liquidation) for the period from January 1, 2025 to December 12, 2025 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Plan Description

The following description of The People-to-People Health Foundation, Inc. Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Effective June 30, 2025, Project HOPE - The People-to-People Health Foundation, Inc. (the "Foundation") resolved to terminate the Plan. Accordingly, the descriptions below are provisions prior to termination. See Note 8 for additional information.

General

The Plan is a defined benefit plan covering certain full-time employees of the Foundation hired on or before October 31, 2007 who have attained the age of 21 and completed 1,000 hours of service. Employees hired after October 31, 2007 are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits

Eligible employees are entitled to normal annual pension benefits beginning at the participant’s normal retirement age of 65, and the Plan has provisions for early retirement at the age of 55, as well as specified death benefits, as described in the plan agreement. Benefits under the Plan are determined based upon years of credited service and average compensation (the highest five consecutive annual rates of compensation during the 10 plan years before the earlier of the date of the participant's retirement or December 31, 2009) and are payable in the form of a joint and survivor annuity. Effective December 31, 2009, no further years of credited service are accrued under the Plan. Plan participants who were not vested in their benefit as of December 31, 2009 will continue to receive service for plan vesting purposes for continued employment. Years of service after December 31, 2009 are counted toward eligibility for early retirement.

Individuals who terminate prior to eligibility for the Plan's early retirement benefit still qualify for a reduced vested benefit if they have accumulated at least 5 years of credited service.

The Plan was amended effective June 10, 2025 to allow for a voluntary lump-sum distribution window for deferred vested and active plan participants in connection with the plan termination further described in Note 8.

Death Benefits

In certain circumstances, if an active or terminated employee who has a vested interest in the Plan dies prior to their normal retirement age, the surviving spouse or designated beneficiary shall receive a survivor benefit, as defined in the Plan.

Contributions and Funding

Contributions are made by the Foundation in actuarially determined amounts. The Foundation’s policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA. No participant contributions are permitted.

Vesting

A participant is fully vested after five years of service.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company (Principal) and Empower Annuity Insurance Company (Empower) (formerly known as Prudential Retirement Insurance and Annuity Company) or their affiliates. Principal and Empower are the trustees of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

As discussed in Note 8 to the financial statements, the Foundation terminated the Plan effective June 30, 2025. As a result, the Plan changed its basis of accounting from the going concern basis to the liquidation basis of accounting.

Under the liquidation basis of accounting, assets are measured to reflect the estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process and liabilities are measured using the accrual basis of accounting and would include any expected costs of the disposal of assets and other costs expected to be incurred during the liquidation process.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value except as noted below. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

The guaranteed insurance contract is valued at contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Foundation.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments attributable, under the Plan's provisions, to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The present value of accumulated plan benefits is actuarially determined and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment due to death, disability, or retirement between the valuation date and the expected date of payment.

Benefits provided via annuity contracts are deducted from plan assets and from accumulated plan benefits.

The actuarial valuations are done as of the beginning of the next plan year. Therefore, the statement of accumulated plan benefits as of December 12, 2025 and December 31, 2024 is presented from information provided by the actuary as of January 1, 2026 and 2025, respectively. Had valuations been performed as of December 12, 2025 and December 31, 2024, there would be no material difference.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

Note 2 - Summary of Significant Accounting Policies (Continued)

The significant actuarial assumptions used in the valuation of the Plan at December 31, 2024 are summarized as follows:

Actuarial cost method	Projected unit credit
Discount rate	6.00 percent at December 31, 2024
Mortality basis	Pri-2012 base mortality table adjusted by the Principal 2024 mortality improvement scale for 2024

Annuity Contract

In March 2025, management discontinued its guaranteed insurance contract pursuant to the contract's termination provisions, and the related settlement proceeds were used to purchase an annuity contract covering the affected participants. In November 2025, the Plan purchased an annuity contract to settle the benefit obligations for all remaining plan participants. These contracts and related obligations are excluded from the Plan’s financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 13, 2026, which is the date the financial statements were available to be issued.

Note 3 - Certified Information

Principal and Empower (collectively, the "Trustees") hold the Plan's investments and execute all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of reportable transactions (in liquidation) are based solely on information certified by the Trustees.

Note 4 - Tax Status

The Plan uses a preapproved plan. The preapproved plan has received a favorable opinion letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds

Mutual funds are valued at quoted prices reported in active markets.

Pooled Separate Accounts

The pooled separate accounts are valued at net asset value per share or its equivalent of the funds, which is based on the fair value of the funds' net underlying net assets.

The following table presents information about the Plan's assets measured at fair value on a recurring basis at December 31, 2024:

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2024	
	Investments (at Fair Value)	Level 1
Mutual funds	$ 20,510,150	$ 20,510,150
Investments measured at NAV - Pooled separate accounts	3,492,538	
Total investments at fair value	$ 24,002,688	

There were no unfunded commitments or redemption restrictions on the investments described above.

Note 6 - Guaranteed Insurance Contract

In 1967, the Plan entered into a guaranteed insurance contract with Empower that is reported at contract value. Empower maintains the contributions in an allocated fund to which it adds interest at a rate determined annually, prior to the first date of each calendar year. Interest rates of 4.95 to 3.80 percent were guaranteed by Empower for the period from January 1, 2025 to March 15, 2025 and 4.20 to 3.50 percent for the year ended December 31, 2024. Empower credits a retirement annuity to each participant or other payee on the form of payment applicable to their retirement income coverage under the Plan, provided that the amount in the fund is not less than the minimum fund liability.

Effective March 15, 2025, the contract was terminated as an annuity contract was purchased, as further described in Note 7.

Note 7 - Annuity Contract Purchase

In March 2025 and November 2025, the Plan purchased annuity contracts from Empower and Delaware Life Insurance Company. Under the agreement, Empower assumed the obligation to pay future pension benefits, starting March 15, 2025, for current annuitants. Delaware Life Insurance Company assumed the obligation to pay future pension benefits, starting January 1, 2026, for current annuitants and vested participants. The purchase price of the annuity contracts was approximately $2,222,837 and $24,516,610, respectively, and is reported in the accompanying statement of changes in net assets (in liquidation) for the period from January 1, 2025 to December 12, 2025.

Note 8 - Plan Termination

Effective June 30, 2025, the Foundation elected to terminate the Plan. The Plan adopted the liquidation basis of accounting in 2025. Under the liquidation basis of accounting, assets are recorded at the amount expected to be collected, and liabilities are recorded at amounts expected to be paid during the course of liquidation.

Liquidation of assets through lump-sum distributions to participants and the purchase of annuity contracts occurred during 2025, with full liquidation completed on December 12, 2025.

SCHEDULE H, line 4j - SCHEDULE OF REPORTABLE TRANSACTIONS

Assumptions prescribed by law	
Mortality	Before benefit payment period IRS Prescribed Mortality – Optional Combined Table for Small Plans, male and female. During benefit payment period IRS Prescribed Mortality – Optional Combined Table for Small Plans, male and female.

Assumptions selected by actuary	
Inflation	2.40% increase per year. Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office and Survey of Professional Forecasters.
Asset return	6.50% for the current plan year. The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis.
Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.
Retirement	Active and inactive participants are assumed to retire at normal retirement age as defined in Plan provisions. This assumption is based on the results of recent experience analysis and anticipated future experience.
Disability	None. This plan does not offer a subsidized disability benefit; therefore, the disability assumption is built into the withdrawal assumption.
Marriage	75% married; husbands are 3 years older than wives. This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.
Withdrawal	2003 Society of Actuaries Small Plan Age Table multiplied by 1.20. We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.20 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.
Form of benefit	Participants are assumed to receive their benefits on the normal form at the assumed retirement age.

Retirement cost of living adjustment	2.40% per year Retirement cost of living adjustment should be consistent with the inflation assumption, not to exceed 3.00% as defined by the plan.
Methods prescribed by law	
Liability measure	Funding target is the present value of the benefits accrued on the valuation date. Included in funding target is the value of any missed required minimum distributions (defined in IRC §401(a)(9) and Treasury Regulation §1.401(a)(9)) equal to back payments with interest at 6.00%. Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of net plan expenses for the year.
Methods selected by plan sponsor	
Asset method	The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years. The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value. When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.
Segment rates	24-month average with no weighting to prior law basis. Use rates where December is the last month included in the average.
PBGC premium basis	Variable rate premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this alternative interest method for the 01/01/2018 plan year.

Methods elected by actuary

Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post-retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	Based on Pri-2012 total dataset base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2023).
Mortality base rates	Before benefit payment period Employee amount-weighted, male and female During benefit payment period Retiree amount-weighted, male and female The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The total dataset base rate table was selected based on information provided by the plan sponsor. Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Mortality improvement

Principal 2024 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2024
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2030/2030
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2024
COVID-19 or Excess load	None[1]

[1] Based on the sponsor's input, plan experience does not show a need for long-term excess death or COVID death load adjustments.

See Mortality documentation for rationale and additional information.

Interest rate used to value liabilities

6.00%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation and then converted to the geometric under lognormal distribution assumption.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note – expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Lines 6, 18, 31, 32 - Explanation of Short Plan Year
The People-to-People Health Foundation, Inc. Pension Plan
EIN 53-0242962 Plan No. 001

The plan year beginning 01/01/2025 reflects a short plan year ending on the termination date of 06/30/2025. The asset distribution date is 12/12/2025.

The annual cost is prorated for the period from 01/01/2025 to 06/30/2025. This short period is based on the plan termination date of 06/30/2025 and reflects the final IRS minimum contribution regulations. Quarterly contribution requirements have been adjusted to reflect the short period.

Schedule SB, Line 2a - Explanation of Assets
The People-to-People Health Foundation, Inc. Pension Plan
EIN 53-0242962 Plan No. 001

The market value of outside assets was used in line 2a instead of the book value which resulted in a difference of $62,525.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
The People-to-People Health Foundation, Inc. Pension Plan
EIN 53-0242962 Plan No. 001

Active participants are expected to retire at the plan's assumed retirement age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

(1) Age	(2) Expected Active Headcount	(3) Retirement Rate	(4) Expected Retirements (2) x (3)	(5) Weighted Age (1) x (4)

Schedule SB, Part V - Summary of Plan Provisions
The People-to-People Health Foundation, Inc. Pension Plan
EIN 53-0242962 Plan No. 001

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the restated plan signed 08/09/2024.

Plan eligibility	
Age	Attained age 21.
Service	One year of service in which at least 1,000 hours worked. Plan participation is frozen effective October 31, 2007.

Normal retirement benefit	
Age	The later of attained age 65 or the age on the date five years after the first day of the plan year in which entry occurred.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	The product of (a), (b), and (c) below: (a) 45% of average compensation not in excess of the integration level, plus 60% of average compensation in excess of integration level (b) Accrued benefit adjustment (c) Short service percentage Accrued benefits are frozen effective December 31, 2009.

Early retirement benefit	
Age	Attained age 55.
Service	Completed 10 years of vesting service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date reduced by 6 2/3% for each year up to five and 3 1/3% for each year between five and ten that the early retirement date precedes normal retirement date.

Late retirement benefit	
Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on late retirement date or accrued benefit on normal retirement date increased 5% per year to late retirement date.

Termination benefit	
Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Survivor annuity death benefit	
Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Dependent survivor annuity death benefit	
Eligibility	Qualified active participant who attained age 35 with 10 years of vesting service and survived by a spouse or dependent child.
Form	Monthly annuity payable to spouse or dependent child on the month after date of death.
Amount	In addition to survivor annuity death benefit an accrued benefit on date of death actuarially reduced, no less than $10 per month. Further reduction is applied by amount of survivor annuity death benefit payable above, no less than $0.

Definitions	
Average compensation	The monthly average of total pay received for the 5 consecutive years out of the 10 latest years before retirement date which gives the highest average.
Accrual and vesting service	Period of service expressed on the basis of one month equals 1/12th of a year. A partial month shall be counted as a complete month.
Accrued benefit adjustment	The quotient of (a) divided by (b): (a) The member's accrual service as of such date (b) The member's potential accrual service as of normal retirement date
Short service percentage	The quotient of (a) divided by (b): (a) The member's potential accrual service as of normal retirement date (b) 25

Integration level	A single amount in any given year equal to one-half of the monthly average of the social security taxable wage bases (in effect under section 230 of the social security act) for each year in the preceding 35-year period, for an individual that attains social security retirement age that year.
Cost of living adjustment	Benefit accrued up to December 1, 1998: Benefits are adjusted each May 1st of the year following the year of retirement by the lesser of the change in Consumer Price Index or 3% (not less than 0%), up to an overall increase of 150% of the original benefit. Benefit accrued after December 1, 1998: Benefits are adjusted each May 1st of the year following the year of retirement by the lesser of the changes in Social Security Cost of Living Percentage or 3% (not less than 0%), up to an overall increase of 150% of the original benefit.
Optional forms of benefit payments	The optional forms of benefit payments are: • Monthly annuity payable for life 10 years certain and life. • Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75 or 100. The optional form conversion basis is 6.00% interest and the 1983 GAM female mortality table for payments other than lump sums. The optional form conversion basis uses the applicable interest rate and applicable mortality table as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the second calendar month preceding the first day of the stability period which is the plan year.

Changes in principal eligibility or benefit provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

Significant event

The plan terminated effective 06/30/2025, and assets were distributed on 12/12/2025.
