INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
AGA Institute Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of AGA Institute Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our

opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Information Required by ERISA

The supplemental information noted in the table of contents, as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary

information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental information, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental information that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental information, we evaluated whether the supplemental information, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental information, other than the information in the supplemental information that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental information related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

(the Employer, Company or Plan Sponsor), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution, participant-directed 403(b) thrift plan covering substantially all employees of the Company. Established in 1992, the Plan enables the Company's employees to accumulate long-term savings for their retirement while benefiting from favorable tax treatment on their current salaries. The Plan's Retirement Committee is responsible for the overall oversight of the Plan. The Plan's Investment Committee determines the Plan's investment offerings and monitors investment performance. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility and Participation

There is no minimum age requirement to participate in the Plan, and eligible employees are permitted to make elective salary deferrals immediately upon hire. Employees must complete six months of service to be eligible to receive Company contributions. Non-resident aliens and students are excluded from participation in the Plan.

For standard participation, employees who normally work less than 20 hours per week are excluded from making elective deferral contributions. However, effective for plan years beginning after December 31, 2024, pursuant to the SECURE 2.0 Act of 2022 (SECURE 2.0 Act), the Plan permits Long-Term, Part-Time (LTPT) employees to make elective deferral contributions. A LTPT employee is defined as an employee who has attained age 21 and completed at least 500 hours of service in each of two consecutive 12-month periods, with hours tracked beginning January 1, 2023. LTPT employees are eligible to make elective deferrals only and are excluded from receiving Company contributions.

Plan Amendments

Effective January 2, 2025, the Plan adopted the discretionary participant self-certification provisions for hardship withdrawals under Section 312 of the SECURE 2.0 Act.

Effective August 15, 2025, the Plan executed an "Intent to Amend" to permit the following optional provisions of the SECURE 2.0 Act:

- Federally Declared Disaster Loans
- Federally Declared Disaster Withdrawals
- 403(b) Hardship Withdrawals

- Emergency Expense Withdrawals
- Domestic Abuse Withdrawals

The Plan is in operational compliance with the requirements of other laws and regulations. Formal amendments will be adopted by the prescribed deadlines.

Contributions

Each year, participants may contribute up to the maximum limit established by the Internal Revenue Code (IRC) on a pre-tax or after-tax basis and may change their elective deferrals at any time. Participants who have attained 15 years of service or age 50 before the end of the plan year are eligible to make catch-up contributions. Effective January 1, 2025, additional catch-up contributions for employees who have attained ages 60-63 are permitted. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

The Company makes a qualified non-elective contribution of 7% of all eligible employees' compensation for the plan year. Company contributions totaled $750,918 for the year ended December 31, 2025.

Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, (b) Plan earnings, and (c) administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in all contributions, plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loan repayment term shall not be longer than five years, unless the loan is for the purchase of a principal residence, in which case the term of the loan will be similar to that from a commercial lending institution. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with commercial

lending rates at the time of the loan. Effective August 8, 2024, the Plan was amended to reduce the number of participant loans outstanding and participant loans taken in any 12-month period from three to two. Principal and interest are paid ratably through monthly payroll deductions.

Plan Loans

Prior to January 1, 2022, participants could borrow directly from Teachers Insurance Annuity Association of America (TIAA), an issuer of the Plan, using a portion of their Plan account as security for the loan. The minimum loan was $1,000 and could be up to the lesser of $50,000 or 45% of the participant's account balance. The loans were not withdrawn from the participants' account balances but were instead paid from the general funds of TIAA and secured by each participant's vested account balance. Plan loans outstanding as of December 31, 2025 and 2024, totaled $34,005 and $32,357, respectively, which includes principal and accumulated interest. There are three remaining plan loans as of December 31, 2025, that bear interest at rates ranging from 4.49% to 6.53%. The interest rates are subject to adjustment based on the terms of the controlling contract, throughout the term of the loan. These loans were deemed distributed by TIAA in a prior plan year. The Plan Administrator has concluded that plan loans are not Plan assets. Accordingly, these loan balances are excluded from the statements of net assets available for benefits. Effective January 1, 2022, TIAA no longer issues plan loans. Existing plan loans will continue under the original terms unless a participant chooses to convert their plan loan to a participant loan.

Plan Loan Default Fund

During the years ended December 31, 2025 and 2024, there were no loans withdrawn by TIAA from participant account balances due to loans in default. The Plan Loan Default Fund (PLDF) is used to report the Plan assets activity related to the collateral for TIAA plan loans considered to be in default. The funds are placed in the PLDF account and remain invested in the TIAA traditional annuity, which is reported at contract value. The funds remain in the Plan until a termination event occurs, at which time the funds are used to repay the loan. At December 31, 2025 and 2024, the PLDF totaled $34,005 and $32,357, respectively, and is included in investments at contract value in the statements of net assets available for benefits.

Payment of Benefits

The Plan permits withdrawals when a participant terminates employment, reaches retirement age, or becomes disabled or deceased. In-service withdrawals are also permitted for certain financial hardships, when a participant attains age 59½, or from prior rollovers into the Plan. Benefits are payable in lump-sum payments, installments, or annuity contracts.

Forfeited Accounts

There are no forfeitures under the current Plan structure since all amount vest immediately.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the custodian and insurance carriers. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year, and indirect investment expenses.

Contributions

Contributions from Plan participants are recorded in the year in which the employee contributions are withheld from compensation. The non-elective Company contributions are recorded when the related participant compensation is paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued and unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, and a distributable event has occurred, the participant loan balance is reduced, and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants and payment of benefits are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2026, the date the financial statements were available to be issued. See Note 12.

3. INVESTMENTS

The Plan's investments are held by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal Trust Company), TIAA, and College Retirement Equities Fund (CREF). Principal Trust Company serves as the Plan's custodian. Participants direct employer and employee contributions to the investment options available from Principal Trust Company and may change their elected investment options/allocations at any time. Although TIAA and CREF are still the insurance carriers of certain Plan assets issued through annuity contracts, participants no longer direct contributions to TIAA and CREF investment options.

Principal Life Insurance Company (Principal Life) and TIAA maintain an individual account for each participant. Contributions made on a participant's behalf under the Plan are directly allocated to that participant's account and are invested, based on the individual's direction, in various mutual funds, variable annuities, a pooled separate account, and/or guaranteed investment contracts.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board, Accounting Standards Codification 820, *Fair Value Measurements and Disclosures*, are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 or 2024.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Variable annuities: Variable annuities (or CREF funds) are valued at daily accumulation unit value published on NASDAQ but are not traded on this exchange. The value is derived using market quotations or prices from independent pricing sources that may employ various pricing methods to value the investments, including matrix pricing. The value of the unit holder's investment rises and falls with the return of the underlying assets in the account. Accumulation units are available for transactions at the closing unit value on any day the New York Stock Exchange (NYSE) is open for business, with certain frequency restrictions.

Pooled separate account: The pooled separate account, which consists of TIAA Real Estate, is valued at daily accumulation unit value published on NASDAQ but is not traded on this exchange. The value is principally derived from the market value of the underlying real estate holdings and other real

estate related investments using external appraisals. On occasion, the fund holds liquid fixed-income investments valued using quoted prices in active markets. The value of the unit holder's investment rises and falls with the return of the underlying assets in the account. Accumulation units are available for transactions at the closing unit value on any day the NYSE is open for business, with certain frequency restrictions.

Guaranteed investment contract: The Plan's non-benefit responsive investment contract is measured at contract value, which approximates fair value. Contract value equals accumulated cash contributions, interest credited to the Plan's contracts, and transfers, if any, less withdrawals and transfers, if any. This determination is based on TIAA's credit ratings and yields during 2025 and 2024 being comparable to similar alternative investments and the interest rate, which resets annually, being comparable to a 10-year treasury bond rate. Significant changes in these assumptions could result in a material difference between contract value and fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025 and 2024.

Investments at fair value as of December 31, 2025:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 36,686,552	$ -	$ -	$ 36,686,552
Variable annuities	-	2,646,992	-	2,646,992

5. FULLY BENEFIT-RESPONSIVE GUARANTEED INVESTMENT CONTRACTS

The Plan has a traditional fully benefit-responsive guaranteed investment contract with TIAA (TIAA traditional annuity). A traditional investment contract is an arrangement in which the Plan owns only the contract itself, rather than the investments that underlie the contract. TIAA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The PLDF discussed in Note 1 is invested in the TIAA traditional annuity and is also fully benefit-responsive.

The Plan also has a fixed income fund (FIF) fully benefit-responsive guaranteed investment contract with Principal Life. Principal Life commingles the assets of the FIF with other assets in its general account. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal at a specified interest rate that is guaranteed to the Plan.

The above contracts are fully benefit-responsive and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by TIAA and Principal Life, represents contributions made under the contracts, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

There are no reserves against contract value for credit risk of the contract issuers or otherwise. The contract value of the TIAA traditional annuity, including the PLDF, at December 31, 2025 and 2024, was $189,753 and $181,979. The crediting interest rate is based on a formula agreed upon with the

issuer, but it may not be less than 3%. The contract value of the FIF at December 31, 2025 and 2024, was $109,514 and $102,671. The crediting interest rate is based on a formula agreed upon with the issuer. The crediting interest rate may not be less than 0.15% or greater than 3%.

The Plan's ability to receive amounts due in accordance with the fully benefit-responsive contracts is dependent on the third-party issuers' abilities to meet their financial obligations. The issuers' abilities to meet their contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuers or participants. Such events include:

1) The Plan's failure to qualify under Section 403(b) of the IRC or failure of the trust to be tax-exempt under section 501(a) of the IRC;
2) Premature termination of the contracts;
3) Plan termination or merger;
4) Changes to the Plan's prohibition on competing investment options; and/or
5) Bankruptcy of the Company or other Company events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

In addition, certain events allow the issuers to terminate the contracts with the Plan and settle at an amount different from contract value. Examples of such events include:

1) An uncured violation of the Plan's investment guidelines;
2) A breach of material obligations under the contracts;
3) A material misrepresentation; and/or
4) A material amendment to the agreements without the consent of the issuers.

The Plan Administrator does not believe that any events that would limit the Plan's ability to transact at contract value with the issuers and/or participants are probable of occurring.

Investment contracts that are not fully benefit-responsive are included in the financial statements at fair value as reported by TIAA. TIAA concludes that fair value approximates contract value for the TIAA annuity investments at December 31, 2025 and 2024.

6. INFORMATION CERTIFIED BY QUALIFIED INSTITUTIONS

Certain information summarized below related to the accompanying financial statements and ERISA-required supplemental information was obtained by Plan management and agreed to or derived from information certified as complete and accurate by Principal Trust Company and TIAA and CREF:

- Investments and notes receivable from participants balances included in the statements of net assets available for benefits at December 31, 2025 and 2024, and in the notes to the financial statements.

- Investment income and interest income on notes receivable from participants included in the statement of changes in net assets available for benefits for the year ended December 31, 2025, and in the notes to the financial statements.

- Information included in the accompanying schedule of assets (held at end of year).

7. RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

A related party is any party who can control or significantly influence Plan management or operating policies. Parties in interest are defined under Department of Labor regulations as any employees of the Plan, fiduciaries of the Plan, service providers to the Plan, the employer whose employees are covered by the Plan, and certain significant owners of the employer and their relatives. Service providers may include, but are not limited to, the custodian, trustee, third-party administrator (TPA), investment managers, investment advisors, legal counsel, and Plan auditor.

During the year ended December 31, 2025, the Plan made direct payments totaling $91,031 to certain parties in interest for administration and investment advisory fees, as allowed by ERISA. The Plan Sponsor pays directly any other fees related to the operation of the Plan.

The Plan issues loans to participants, which are secured by the participants' account balances. These transactions qualify as party in interest transactions.

Certain administrative functions of the Plan are performed by management or employees of the Company. No member of management or employee receives compensation from the Plan.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would remain 100% vested in their entire account balance and the assets would be allocated among participating employees and beneficiaries in proportion to their respective account balances.

9. TAX STATUS

The Plan has been designed to qualify under Section 403(b) of the IRC and is required to operate in conformity with the IRC to maintain the tax-exempt status for Plan participants under Section 403(b). The Plan has adopted a prototype non-standardized 403(b) plan provided by Principal Life. The IRS determined and informed Principal Life, by a favorable opinion letter dated March 31, 2017, that the form of the prototype plan, as then designed, was in compliance with applicable provisions of the IRC. The Plan has been amended since Principal Life received the opinion letter; however, the Plan Administrator believes that the Plan is currently designed and being operated in accordance with the applicable requirements of Section 403(b) of the IRC and, therefore, believes that the Plan is qualified, and the related accounts are tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances, and the amounts reported in the statements of net assets available for benefits.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2025 and 2024:

	2025	2024
Net assets available for benefits per the financial statements	$ 40,428,366	$ 34,576,817
Other reconciling items	83	73
Net assets available for benefits per Form 5500	$ 40,428,449	$ 34,576,890

The following is a reconciliation of the increase in net assets available for benefits per the financial statements to net income per Form 5500 for the year ended December 31, 2025:

	2025
Net increase in net assets available for benefits per the financial statements	$ 5,851,549
Other reconciling items	10
Net income per Form 5500	$ 5,851,559

12. SUBSEQUENT EVENTS

Effective April 1, 2026, the Plan was amended to reduce the number of participant loans allowed and participant loans taken in any 12-month period from two to one.

The SECURE 2.0 Act was signed into law on December 29, 2022, and includes mandatory and optional provisions with varying effective dates in 2026 and later. Plan management is evaluating these provisions and will update the Plan's governance and operations.
