The Retirement Plan Administrative Committee of
Golden Gate University Retirement Plan

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Golden Gate University Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Golden Gate Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Golden Gate University Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Golden Gate University Retirement Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Golden Gate University Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Golden Gate University Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 – Description of Plan

The following description of the Golden Gate University Retirement Plan (the Plan), provides only general information. Participants should refer to the Plan agreement, as amended, for a more complete description of Plan provisions.

General – The Plan is a 403(b) defined contribution retirement plan that was established on September 1, 1963, and restated effective January 1, 2009, and February 1, 2011. The Plan is sponsored by Golden Gate University (GGU), a California nonprofit corporation, to provide benefits to eligible employees as defined in the plan document. The Plan is a combination annuity contract plan and custodial-account plan. The Plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code (IRC) and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

GGU contracted with State Street Bank & Trust Company (State Street) and Transamerica Financial Life Insurance Company (Transamerica) to act as the custodians and third-party administrators for the Plan. New contributions to the Plan are limited to State Street and Transamerica. Assets held by the other custodians, the Variable Annuity Life Insurance Company (VALIC), the Teachers Insurance and Annuity Association and College Retirement Equities Fund (TIAA and CREF), the Prudential Insurance Company of America (Prudential), and Empower Trust Company (Empower), can remain, but no additional contributions are allowed to be made by participants. Participants may elect to transfer all or a portion of their account balances with the other custodians to State Street and Transamerica.

Eligibility – All employees, except for student employees and employees who are scheduled to work less than 1,000 hours in a Plan year, are eligible to make elective deferrals and to receive employer matching contributions on the first day of the month following their date of employment.

Contributions

Participant contributions – Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants may also elect to make Roth contributions utilizing after-tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer match contributions – The Plan's employer matching contributions adhere to a fixed, tiered formula:

Employee Elective Deferral Rate	Employer Matching Rate
1%	3%
2%	4%
3%	5%
4%	6%
5% or more	7%

Contributions are subject to regulatory limitations.

Participant accounts – Each participant's account is credited with the participant's elective deferral contributions, the participant's qualified rollover contributions, the employer matching contributions, and plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan.

Vesting – Participants are vested immediately in their contributions, employer contributions, plus actual earnings thereon.

Notes receivable from participants – Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are issued by the Plan and secured by the balance in the participant's account. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence. Under the terms of the Plan agreement, Plan loans will bear a reasonable rate of interest determined by the Plan administrator. Principal and interest payments are made directly to the custodian with whom the participant is enrolled. As of December 31, 2025, the rates of interest on outstanding loans ranged from 5.50% to 9.50% with various maturities through March 2033.

In addition to participant loans, there are plan loans held by TIAA that are not considered part of the Plan assets. Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The maximum loan term is five years, unless the loan is used to purchase a primary residence. The loans are secured by 110% of the loan value in the participant's account and loan payments are made directly to TIAA. The interest rate on such loans is determined by TIAA.

As of December 31, 2025, the rates of interest on outstanding loans with TIAA ranged from 5.05% to 5.77% with various maturities through December 2015. The loans themselves are not reported assets of the Plan. The total loan collateral included in Plan assets was $34,542 and $32,869 at December 31, 2025 and 2024, respectively.

Participants may take new loans from their account balances as held by State Street and Transamerica. Account balances held by other custodians, VALIC, TIAA, and Prudential are not available for new participant or plan loans.

Payment of benefits – On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount, installment payments, or an annuity equal to the value of the participant's vested interest in his or her account. The Plan allows for automatic distributions of terminated participants' account balances of $7,000 or less.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with GAAP requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation – The investments are reported at fair value and contract value. The Plan's custodians certify the contract value of certain investment contracts and the fair market value of all other investments. If available, quoted market prices are used to value investments.

The TIAA Traditional Annuity Account (fully benefit-responsive contract), the Prudential Guaranteed Interest Account, the VALIC Fixed Account Plus, and the VALIC Short-Term Fixed Account are stated at contract value, and all other investments are stated at fair value as certified by the Plan's custodians.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Contract value is the relevant measurement for assets invested in fully benefit-responsive investment contracts (FBRIC) because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan agreement.

Payment of benefits – Benefits are recorded when paid.

Expenses – Certain administrative functions are performed by officers or employees of GGU. No such officer or employee receives compensation from the Plan. General Plan administrative expenses may be paid by the Plan or directly by GGU. Investment management, distribution, and loan transaction fees are paid by the plan participants.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date, but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits, but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 8, 2026, which is the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1), and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2025 and 2024.

Registered investment companies (mutual funds) – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV), and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.

Non-benefit-responsive investment contract – Certain investments in TIAA Traditional Annuity Contract are non-benefit responsive contracts and are reported at fair value. As these investments are contract-based, observable prices for identical or similar investments do not exist, and accordingly, these investments are valued using unobservable inputs (Level 3). The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, is guaranteed by TIAA's claims-paying ability. Under TIAA Traditional Annuity contracts, the minimum guaranteed interest rate during the accumulation phase is generally 3%, but between 1% and 3% for some contracts, and is 2.5% during the payout phase. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Together, the guaranteed minimum and additional amounts make up the crediting interest rate.

TIAA is contractually obligated to repay the principal and a minimum interest rate that is guaranteed to the Plan.

Pooled separate accounts and guaranteed separate account – The fair value of accumulation units held by the Plan in the pooled separate accounts (PSA) and guaranteed separate account are based on each account's daily NAV practical expedient, which is considered by plan management to be the best approximation of fair value. The PSAs are not exchange-traded. Data for NAV practical expedient is available daily to plan administrators and client investors and provides sufficient corroborative evidence to ascertain the relationship between each funds NAV practical expedient and the values of individual underlying holdings.

The Plan holds the following:

TIAA Real Estate Account – Underlying holdings are primarily valued using independent appraisals and independent pricing sources. The unit value of the fund is calculated daily and available to plan administrators and client investors on the TIAA website. There are no unfunded commitments from participants in the Plan who invest in this account.

Prudential PSA – Underlying holdings are primarily valued using independent appraisals and independent pricing sources. The unit value of the fund is calculated daily and available to plan administrators and client investors on the Prudential website. There are no unfunded commitments from participants in the Plan who invest in this account.

Transamerica NYL Guaranteed Interest Account – Underlying holdings are primarily valued using independent appraisals and independent pricing sources. The unit value of the fund is calculated annually and available to plan administrators and client investors on the Transamerica website. There are no unfunded commitments from participants in the Plan who invest in this account.

The NAV practical expedient is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV of a PSA is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables disclose the fair value hierarchy of the Plan's assets by level as of December 31, 2025 and 2024:

	Fair Value Measurement at December 31, 2025			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 74,059,614	$ -	$ -	$ 74,059,614
Non-benefit-responsive investment contract	-	-	5,940,887	5,940,887
Total assets in the fair value hierarchy	$ 74,059,614	$ -	$ 5,940,887	80,000,501
Investments measured at NAV (practical expedient)				5,134,025
Investments, at fair value				$ 85,134,526

	Fair Value Measurement at December 31, 2024			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 71,109,422	$ -	$ -	$ 71,109,422
Non-benefit-responsive investment contract	-	-	6,007,012	6,007,012
Total assets in the fair value hierarchy	$ 71,109,422	$ -	$ 6,007,012	77,116,434
Investments measured at NAV (practical expedient)				5,272,161
Investments, at fair value				$ 82,388,595

The following table summarizes certain changes in the fair value of the Plan's Level 3 investments for the year ended December 31, 2025:

	TIAA Traditional Non-Benefit-Responsive Annuity Contract
Purchases	$ 259,334
Issuances	(323,938)

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

The plan administrator evaluates the significance of transfers between levels based upon the nature of the financial instrument, and size of the transfer relative to total net assets available for benefits.

Quantitative information about significant unobservable inputs used in Level 3 fair value measurements

The following table presents the Plan's Level 3 investments, the valuation techniques used to measure the fair value of those instruments as of December 31, 2025 and 2024, and the significant unobservable inputs and ranges of values for those inputs:

Name	Fair Value December 31, 2025	Fair Value December 31, 2024	Valuation Technique	Unobservable Inputs	Range of Input Values (Weighted-Avg)
TIAA traditional non-benefit-responsive annuity contract	$ 5,940,887	$ 6,007,012	Discounted cash flow	Risk-adjusted discount rate	3.00%−5.00%

Fair value of investments that calculate NAV

The following table provides additional information for investments in certain entities that calculate NAV per share (or its equivalent):

	Fair Value, December 31, 2025	Fair Value, December 31, 2024	Redemption Frequency	Redemption Notice Period	Redemption Restrictions
NYL Guaranteed Interest Account	$ 2,998,052	$ 2,993,428	Daily	N/A	None
Prudential Pooled Separate Accounts	1,849,833	1,927,890	Daily	N/A	None
TIAA Real Estate Pooled Separate Account	286,140	350,843	Daily	N/A	None
	$ 5,134,025	$ 5,272,161			

Note 4 – Guaranteed Investment Contract

The Plan holds FBRICs with TIAA, Prudential, and VALIC, and the Plan also has non-benefit-responsive investment contracts with TIAA, which maintains the contributions in a general account. Each account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed by the Plan. The crediting interest rate is based on a formula established by the contract issuer with a range of 1% to 3%. The crediting rate is reviewed on a quarterly basis for resetting. The FBRICs do not permit the insurance company to terminate the agreements prior to the scheduled maturity dates.

The contracts that meet the FBRIC criteria are presented at contract value, and those that are non-benefit-responsive are presented at fair value. Contract value is the relevant measure for FBRICs because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by the custodians, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan administrator is not aware of reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations, which may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, and (5) premature termination of the contract. No events are probable of occurring that might limit the Plan's ability to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

Note 5 – Tax Status

The Plan document is a volume submitter 403(b) defined contribution plan that received a favorable opinion letter from the Internal Revenue Service dated March 31, 2017, which stated that the plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the statements of net assets available for benefits.

Note 7 – Certified Investment Information

The following information related to investments was obtained by management and agreed and derived from information certified as complete and accurate by State Street, Transamerica, TIAA and CREF, Prudential, Empower, and VALIC, qualified institutions:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2025 and 2024.

- Net appreciation in fair value of investments, dividends, and interest, and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2025.

- Investments reflected on the schedule of assets (held at end of year).

Note 8 – Party-In-Interest Transactions

The Plan paid expenses related to the Plan's operations and investment management to various service providers. Certain plan investments are managed by the Plan custodians, State Street, Transamerica, TIAA and CREF, Prudential, and VALIC, and therefore, transactions with these entities qualify as exempt party-in-interest transactions.

Note 9 – Plan Termination

Although it has not expressed any intent to do so, GGU has the right to terminate the Plan and discontinue its contributions at any time, subject to the provisions of ERISA.

Note 10 – Reconciliation of Financial Statements to Form 5500

The Form 5500 has certain items that differ from amounts shown on the accompanying financial statements. These differences relate to classification only and have no effect upon net assets available for benefits for either period.
