INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Weill Cornell Medical College Tax
Deferred Annuity Plan
New York, New York

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Weill Cornell Medical College Tax Deferred Annuity Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years ended December 31, 2025 and 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. DESCRIPTION OF PLAN

The following description of Weill Cornell Medical College Tax Deferred Annuity Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

On July 1, 1989, Weill Cornell Medical College ("Plan Administrator" and the "Medical College") adopted the Plan for the benefit of employees of the Medical College. Employees may begin to make contributions to the Plan with their first paycheck or any time thereafter. All contributions are made by employees through Salary Reduction Agreements. The Plan is subject to the provisions of ERISA as described in Section 403(b) of the Internal Revenue Code ("Code").

The Plan assets are held by the Trustee, Teachers Insurance and Annuity Association – College Retirement Equities Fund ("TIAA-CREF"). TIAA-CREF maintains separate records with respect to participant contributions, including any earnings thereon credited to a participant's account.

Contributions

Participation in the Plan is voluntary and funded completely by employee contributions. Participant contributions to the Plan shall be made as directed under a Salary Reduction Agreement in which the participating employer will reduce the participant salary accordingly. Contributions are applied towards the purchase of an annuity or invested in custodial accounts as directed by the participants.

The Plan does not permit contributions in excess of the limits imposed by Code section 402(g) or Code section 415 for any year. The maximum amount that an employee can contribute to the Plan for 2025 and 2024 was $23,500 and $23,000, respectively. Participants who are age 50 or above by the end of the calendar year may also elect to make additional catch-up contributions for the year. The maximum catch-up contributions permitted in 2025 and 2024 was $7,500. Under the SECURE 2.0 Act, participants between the ages of 60 and 63 are permitted a higher "super catch-up" of $11,250. Distributions from other qualified plans may be rolled over into this Plan.

A participant may elect to stop contributions at any time with respect to compensation not currently available by providing written notice to the employer to terminate the Salary Reduction Agreement.

1. DESCRIPTION OF PLAN – CONTINUED

Participant Accounts

Each participant's account is credited with the participant's contribution. Income for the period including unrealized appreciation or depreciation in the value of securities is allocated based on the ratio of the participant's account balance to the total account balances of all participants in the same investment. The participant is then credited or charged with the percentage of earnings or losses. In addition, the participant account is also charged for the cost of administrative expenses that are directly attributable to each account or as determined by the Plan Administrator.

Vesting

All participants are fully vested in their account balance immediately upon entering the Plan.

Loans to Participants

Loans are available under the Plan and are administered by TIAA-CREF through the Teachers Insurance and Annuity Association of America ("TIAA") Group Supplemental Retirement Annuity ("GSRA") contract. Funds invested with TIAA-CREF may be transferred to the TIAA GSRA contract in order to obtain a loan. A participant may borrow up to 45% of their account balance with TIAA-CREF ranging from a minimum of $1,000 to $50,000 provided 110% of the loan value is secured by the TIAA Traditional Annuity Account balance. Repayment of the loan is made directly to TIAA on either a quarterly or monthly basis at a variable interest rate and may be repaid over a one to five year period, or up to ten years for loans used to acquire the participant's principal residence.

In general, if a participant stops making payments as required under the terms of the loan agreement, the loan will go into default at the end of the quarter following the quarter the loan payments stopped. The default results in a deemed distribution and generates a taxable event in which the default is reported as a distribution to the Internal Revenue Service ("IRS") on Form 1099-R.

While the Plan loans themselves are not considered Plan assets and are reportable only as a disclosure in the Plan's financial statements, the collateral related to the deemed distribution associated with a defaulted loan is reportable as a Plan asset.

1. DESCRIPTION OF PLAN – CONTINUED

Loans to Participants – Continued

Investments of $520,736 and $610,572, which were used to collateralize Plan loans, were reported in the Plan's financial statements and Form 5500 as of December 31, 2025 and 2024, respectively.

Plan loan balances outstanding from participants to TIAA were $933,645 and $1,554,942 as of December 31, 2025 and 2024, respectively.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate is set at 1% above the federal reserve prime rate. Principal and interest is paid ratably through monthly payroll deductions and may be repaid over a one (1) to five (5) years period or up to ten (10) years if the loan is for buying a primary residence. Participant loans are considered Plan assets and are reported as notes receivable in the statements of net assets available for benefits. Participant loan balances outstanding (including accrued interest) from participants amount to $8,569,056 and $6,486,008 as of December 31, 2025 and 2024, respectively.

Payment of Benefits

A participant may only withdraw money from the Plan at or after termination of employment from the Medical College, the attainment of age 59½, disability, or in the case of serious financial hardship.

Upon termination of employment from the Medical College, participants may elect to leave the account balance with TIAA-CREF, request a rollover to an Individual Retirement Account or subsequent employer, or request a fully taxable cash withdrawal.

If a participant should die prior to retirement, the full value of the Plan accounts will be payable to the designated beneficiary.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingencies at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are held by the Trustee and are stated at fair value (except for guaranteed investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note 4).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, and unrealized gains and losses incurred during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2025 and 2024.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Plan Expenses

Certain administrative expenses of the Plan are paid through revenue-sharing arrangements between the Plan's investment funds and the Plan's recordkeeper. Under these arrangements, a portion of the fees charged by certain investment funds is credited to the Plan and maintained in a revenue credit account. Amounts accumulated in the revenue credit account are used to pay eligible Plan administrative expenses in accordance with the Plan document and applicable DOL guidance.

For the year ended December 31, 2025, approximately $55,347 of revenue-sharing credits were applied toward the payment of Plan administrative expenses. Accordingly, administrative expenses were not reported in the accompanying Statement of Changes in Net Assets Available for Benefits.

At December 31, 2025, the balance of unapplied revenue-sharing credits available for future payment of Plan expenses was approximately $849,085 and is included in net assets available for benefits.

Risks and Uncertainties

The Plan invests in various types of investment securities, including variable annuities, a pooled separate account, fixed income annuities, and mutual funds. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the value of the participant account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Reclassifications

Prior year information has been reclassified where necessary to make it comparable with current year.

3. CERTIFIED FINANCIAL DATA

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2025 and 2024, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA-CREF (the trustee of the Plan). The following is a summary of the certified financial information.

Statements of Net Assets Available for Benefits	December 31, 2025	December 31, 2024
Investments at fair value	1,684,305,113	$ 1,412,059,012
Investments at contract value	214,490,028	195,696,535
Notes receivable from participants	8,569,056	6,486,008
Total	$ 1,907,364,197	$ 1,614,241,555

Total net investment return for the years ended December 31, 2025 and 2024 consisted of the following:

Statements of Changes in Net Assets Available for Benefits	December 31, 2025	December 31, 2024
Net appreciation in fair value of investments	$ 184,919,264	$ 124,753,472
Interest and dividend income	79,282,562	51,100,424
Total	$ 264,201,826	$ 175,853,896

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

4. FAIR VALUE MEASUREMENTS – CONTINUED

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Variable annuities: Shares of variable annuity contracts are valued at quoted market prices that represent the net asset value ("NAV") of shares held by the Plan at year end.

Pooled separate account: Unit value calculated based on the NAV of the underlying pool of securities. Pooled separate account is recorded at fair value with price readily determinable and observable at NASDAQ daily. The pooled separate account held by the Plan is deemed to be actively traded.

Guaranteed investment contracts: Reported at contract value, which closely approximates fair value. Fair value is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 5).

4. FAIR VALUE MEASUREMENTS – CONTINUED

Mutual funds: Shares of registered investment companies are valued at quoted market prices that represent the NAV of shares held by the Plan at year end. The mutual fund balance includes $6,636,239 of self-directed brokerage accounts.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

Transfers between levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

Changes in Fair Value of Level 3 Assets and Related Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2025 and 2024:

	TIAA Traditional Annuity	
	2025	**2024**
Balance at January 1,	$ 12,473,593	$ 12,947,261
Purchases	2,501,571	4,253,289
Sales	(4,749,317)	(5,312,971)
Investment return	478,960	586,014
Balance at December 31,	$ 10,704,807	$ 12,473,593
The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ (275,971)	$ (233,721)

Gains and losses (realized and unrealized) included in changes in net assets for the periods above were reported in net appreciation (depreciation) in fair value of investments in the statements of changes in net assets available for benefits.

4. FAIR VALUE MEASUREMENTS – CONTINUED

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following tables represent the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of December 31, 2025 and 2024, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value as of December 31, 2025	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Guaranteed Investment Contracts	$ 10,704,807	Discounted cash flow	Risk-adjusted discount rate applied	RA 3.55% - 6.5%	3.72%

Instrument	Fair Value as of December 31, 2024	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Guaranteed Investment Contracts	$ 12,473,593	Discounted cash flow	Risk-adjusted discount rate applied	RA 3.65% - 6.50%	3.67%

In estimating fair value of the investments in Level 3, the Retirement Plans Oversight Committee ("RPOC") may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, the RPOC may evaluate a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

TIAA Traditional non-benefit responsive investments are held in the Retirement Annuity ("RA") contract.

The Plan participates in traditional guaranteed investment contracts through the Traditional Annuity Fund, held by TIAA. There are no synthetic investments contracts held by the Plan as of December 31, 2025.

The key difference between a synthetic investment contract and a traditional investment contract is that the Plan owns the underlying assets of the synthetic investment contract. A synthetic investment contract includes a wrapper contract, which is an agreement for the wrap issuer, such as a bank or insurance company, to make payments to the Plan in certain circumstances.

The wrapper contract typically includes certain conditions and limitations on the underlying assets owned by the Plan. With traditional investment contracts, the Plan owns only the contract itself. Synthetic and traditional investment contracts are designed to accrue interest based on crediting rates established by the contract issuers.

5. GUARANTEED INVESTMENT CONTRACTS WITH INSURANCE COMPANIES

TIAA Traditional Annuity within Group Supplemental Retirement Annuity ("GSRA"), Supplemental Retirement Annuity ("SRA"), and Retirement Choice Plus ("RCP") contracts have no liquidity restrictions and are benefit responsive. The RA contract has liquidity restrictions and is non-benefit responsive. The RA contract does not allow lump-sum cash withdrawals and transfers must be spread over a period of ten annual installments. Contributions are used to purchase a guaranteed amount of future retirement benefits. The contract value of the TIAA Traditional Annuity Fund equals the accumulated cash contributions and interest credited to the contracts, less any withdrawals.

Investment contracts held by a defined contribution plan are required to be reported at fair value. For investment contracts that are fully-benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. These contracts are included in the financial statements at contract value, as reported to the Plan by TIAA. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments, at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the TIAA Traditional Benefit Responsive contract at December 31, 2025 and 2024 were $214,490,028 and $195,696,535, respectively.

The crediting interest rate is based on a formula agreed upon with the issuer (between 1% and 3%), and the potential for additional interest if declared by TIAA. Additional interest when declared remains in effect for the "declaration year," which begins each March 1. The additional interest is not guaranteed for future years.

5. GUARANTEED INVESTMENT CONTRACTS WITH INSURANCE COMPANIES – CONTINUED

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without the consent of the issuer.

The TIAA guaranteed investment contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Investment contracts that are not fully-benefit responsive are included in the financial statements at contract value which approximates fair value as reported by TIAA. TIAA has reported to the Plan that the TIAA Traditional Non Benefit Responsive contract value of $10,704,807 and $12,473,593 at December 31, 2025 and 2024, respectively, approximates fair value.

6. PLAN TERMINATION

While it is expected that the Plan will continue indefinitely, the Board of Trustees of Cornell University may terminate the Plan at any time by an instrument in writing, executed by an officer duly authorized to execute such instrument, provided however that if the Plan shall be terminated, each participant shall retain his or her rights to benefits already accrued. The Plan may be terminated by the Board of Trustees of Cornell University or by requests for such action by the Dean and Provost for Medical Affairs of the Medical College to the Board of Overseers of the Medical College and the Board of Trustees of Cornell University.

7. PARTY-IN-INTEREST TRANSACTIONS

All of the Plan's investments are managed by the Trustee, and therefore these transactions qualify as party-in-interest. The total fair value of investments managed by TIAA-CREF was $1,898,795,141 and $1,607,755,547 at December 31, 2025 and 2024, respectively.

8. TAX STATUS

The Plan has been designed to qualify for tax-exempt status under Section 403(b) of the Code. The terms of the Plan have been prepared to conform with the sample language provided by the IRS in Revenue Procedure 2007-71 or the draft Listing of Required Modification issued on April 4, 2009. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for plan participants under Section 403(b).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there were no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for the years prior to 2022.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2025 and 2024, to Form 5500:

	2025	2024
Net assets available for benefits per the financial statements	$ 1,907,364,197	$ 1,614,241,555
Participant loans deemed to be distributed	(387,495)	(255,628)
Net assets available for benefits per the Form 5500	$ 1,906,976,702	$ 1,613,985,927

10. SUBSEQUENT EVENTS

The Plan Administrator has evaluated subsequent events through September 18, 2026, the date the financial statements were available to be issued.
