Pension Committee
McLaughlin Body Company Hourly Employees Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of McLaughlin Body Company Hourly Employees Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2025, the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other

ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2025, and the Schedule of Reportable Transactions for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2024 Financial Statements

Predecessor auditors performed an audit of the 2024 financial statements of the Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the Plan that were certified by a qualified institution. Their report dated September 22, 2025 indicated that (a) the amounts and disclosures in the 2024 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2024 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2024 supplemental schedules, other than the information in the 2024 supplemental schedules that agreed to or is derived from the certified investment information, was presented, in all material respects, in conformity with the Department of Labor's Rules and

Regulations for Reporting and Disclosure under ERISA; and the information in the 2024 supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1 - Description of Plan

The following description of the McLaughlin Body Company Hourly Employees Pension Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined benefit pension plan covering eligible employees of McLaughlin Body Company (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company's Pension Committee is responsible for oversight of the Plan. The Pension Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Plan Freeze

Any employee, who was compensated on a hourly basis through December 31, 2007, was eligible to become a participant of the Plan at the time of employment with the Company. Effective January 1, 2008, the Plan was amended to change eligibility requirements to only include employees compensated on an hourly basis who were also members of a unit of employees covered by a collective bargaining agreement. Effective November 28, 2010, the Plan was amended so that any employees hired or rehired after that date are not eligible for the Plan.

Additionally, the Plan was amended effective January 1, 2020 to freeze all future benefit accruals under the Plan. As a result of the freeze, only compensation and years of credited service earned through December 31, 2019 were taken into consideration in the calculation of a participant's accrued benefit. A participant's accrued benefit will not increase after December 31, 2019.

Funding Policy

The Company pays the entire costs of providing benefits. The Company's funding policy is to make annual contributions to the Plan in amounts required to fund benefits and comply with ERISA minimum funding requirements. During 2025, the Company made contributions of $ 299,888. The Plan met the minimum funding requirements of ERISA as of December 31, 2025 and 2024.

Although it has not expressed any intention to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions set forth in ERISA.

Pension Benefits

Retirement benefits are computed using an amount per year of service, as specified in the most recent collective bargaining contract. Upon retirement at the normal retirement age of 65, participants will receive their vested benefit in form of a monthly annuity. The Plan permits early retirement starting at ages 55 to 64 at a reduced rate.

If the present value of a participant's accrued vested benefit is $ 5,000 or less, the benefit shall be paid in a lump sum as directed by the participant. If the participant's accrued vested benefit is greater than $ 1,000 and less than or equal to $ 5,000, and the participant does not provide distribution direction, the balance will be rolled over to an individual retirement account selected by the Pension Committee. If the balance is $ 1,000 or less, the Pension Committee may choose to rollover the amount to an individual retirement account as provided above, or make cash payment of such amount, subject to any required withholdings.

Death and Disability Benefits

In the event of a participant's death, the surviving spouse is entitled to receive a monthly benefit as defined by the Plan. In the event of total and permanent disability, the Plan provides for disability retirement benefits after 10 years of credited service. Payments begin three months after the first day of the month following retirement. Disability payments are computed on the same basis as a normal pension and benefits are not reduced due to payment before age 65.

Vesting

The vesting period for retirement benefits was five years with the benefits payable at age 65. All participants are currently 100% vested due to the Plan being frozen to new participants and benefit accruals.

2 - Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of Plan assets available for benefits and the actuarial present value of accumulated plan benefits as of the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisor and the custodian. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on a set amount per year of an employee's credited service as of the benefit information date. Benefits payable under all circumstances – retirement, death, disability, and termination of

employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary from USI Consulting Group and is that amount that results from applying actuarial assumptions to adjust accumulated plan benefits to reflect the time value of money (through discount for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 31, 2025 and 2024 were: (a) life expectancy of participants (the Pri-2012 Blue Collar Mortality Table) for the years ended December 31, 2025 and 2024 projected forward generationally with mortality improvement scale MP-2021, (b) retirement age (graded rates of retirement from ages 55 to 70 or immediate retirement for participants currently eligible for normal retirement), and (c) investment return. The December 31, 2025 and 2024 valuations included assumed average annual rates of return of 5.50% and 6.00%, respectively. The foregoing assumptions were based on the presumption the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2026 and 2025. Had the valuations been performed as of December 31, there would be no material differences.

Administrative Expenses

The Plan's expenses are either paid by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with general administration of the Plan, such as fees paid to the Pension Benefit Guaranty Corporation (PBGC), actuaries, accountants, consultants or plan custodians, that are paid by the Plan are recorded as deductions on the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Subsequent Events

Subsequent events have been evaluated by management of the Plan through the date of the independent auditor's report, which is the date the financial statements were available to be issued.

3 - Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits to former employees or to their beneficiaries who are receiving benefits on the date of termination.

2. Other vested benefits insured by the PBGC, a U.S. governmental agency, up to the applicable limitations (discussed below).

3. All other vested benefits (that is, vested benefits not insured by the PBGC).

4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, a statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit the PBGC guarantees. For plan terminations occurring during 2025 that ceiling is $ 7,432 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination, whichever comes later. For younger annuitants, or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

4 - Accumulated Plan Benefits

The entire balance of the present value of accumulated benefits at December 31, 2025 and 2024 represents benefit accumulations since the Plan's inception on January 1, 1966. The liabilities of the Plan have been determined on a plan continuation basis as specified for financial reporting by Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 960 *Accounting and Reporting by Defined Benefit Pension Plans*. The Accumulated Plan Benefits are shown below:

	December 31,	
	2025	2024
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	$ 13,516,405	$ 13,140,642
Other participants	5,630,129	6,428,431
Total	19,146,534	19,569,073
Nonvested benefits	45,308	50,238
Total actuarial present value of accumulated plan benefits	$ 19,191,842	$ 19,619,311

5 - Changes in Accumulated Plan Benefits

The change in the present value of accumulated plan benefits is shown below:

Actuarial present value of accumulated plan benefits at January 1, 2025	$	19,619,311

6 - Certified Investment Information

The following is a summary of the Plan's asset information as of December 31, 2025 and 2024, and for the year ended December 31, 2025, included throughout the Plan's financial statements and ERISA-required supplemental schedules, obtained by management and agreed to or derived from information certified as complete and accurate by Principal Life Insurance Company and Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company (collectively, Principal), qualified institutions:

	2025	2024
Investments, at fair value	$ 19,541,126	$ 19,240,471

Principal also certified to the completeness and accuracy of $ 984,080 of net appreciation in fair value of investments and $ 852,504 of interest and dividends related to the aforementioned plan assets for the year ended December 31, 2025.

7 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

	If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: Valued at market value less operating expenses accrued and not deducted. If there is no readily available market, then the account's value is the fair value of the underlying investments held in such separate account as determined by Principal using generally accepted accounting practices and applicable law. The Plan's separate account market value at any given date is equal to the Plan's units of participation multiplied by the unit value for the rate level for each class at the beginning of the evaluation period which is net asset value (NAV).

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025 and 2024:

	Assets at Fair Value as of December 31, 2025			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 18,232,400	$ -	$ -	$ 18,232,400
Total assets in the fair value hierarchy	18,232,400	-	-	18,232,400
Investments measured at net asset value[(a]	-	-	-	1,308,726
Total assets at fair value	$ 18,232,400	$ -	$ -	$ 19,541,126

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 16,321,178	$ -	$ -	$ 16,321,178
Total assets in the fair value hierarchy	16,321,178	-	-	16,321,178
Investments measured at net asset value[(a]	-	-	-	2,919,293
Total assets at fair value	$ 16,321,178	$ -	$ -	$ 19,240,471

[a] In accordance with Subtopic 820-10, certain investments that are measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

8 - Investments Measured Using the Net Asset Value Per Share Practical Expedient

The following table summarizes investments measured at fair value based on net asset value (NAV) per share as of December 31, 2025 and 2024, respectively:

Investment	Fair Value December 31, 2025	Fair Value December 31, 2024	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	$ 1,308,726	$ 2,919,293	None	Daily	None

9 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated August 8, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's Tax Counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10 - Related-Party and Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds and pooled separate accounts managed by Principal. Principal is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The Plan also paid fees to Principal for plan operation and USI Consulting Group for actuarial services which also qualify as party-in-interest transactions. Fees paid by the Plan to parties-in-interest for services for the Plan for the year ended December 31, 2025 were $ 186,837.

11 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term

and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

SUMMARY OF ACTUARIAL METHODS AND ASSUMPTIONS

COST METHOD

In accordance with PPA, the annual cost is equal to the target normal cost plus the shortfall amortization charge minus any prefunding and carryover balances.

Unit Credit method. The normal cost is the sum of the individual normal costs for active participants. The normal cost for an individual is the present value, as of the valuation date, of the participant's retirement, death, and withdrawal benefits which he is expected to accrue during the current plan year.

The actuarial accrued liability is the sum of the individual present values, for all participants, of the benefits accrued, based on service to the valuation date.

The actuarial liabilities shown in this report are determined using software purchased from an outside vendor which was developed for this purpose. Certain information is entered into this model in order to generate the liabilities specific to your pension plan. These inputs include economic and non-economic assumptions, plan provisions and census information. We rely on the coding within the software to value the liabilities using the actuarial methods and assumptions selected. Both the input to and the output from the model is checked for accuracy and reviewed for reasonableness.

ACTUARIAL ASSUMPTIONS

Interest Rates

Without Adjusted Interest Rates under Interest Rate Stabilization:
Liabilities are valued using the three segment rates based on the 24-month average of the corporate bond yield curve published by the Secretary of the Treasury for the applicable month of September 2024.

With Adjusted Interest Rates under Interest Rate Stabilization:
The interest rates are the adjusted 24-month segment rates using 25-year average segment rate corridors of 95% to 105% per Interest Rate Stabilization.

PBGC Premiums and LDROM:
The Plan Sponsor is using the Standard Method to determine the Variable Rate Premium.

Additional Assumptions

Credit Balances – Excess contributions plus interest for the 2024 plan year in the amount of $0 were elected to be added to the prefunding balance. The voluntary reduction of the funding standard carryover balance was $0. The voluntary reduction of the prefunding balance was $0.

RATIONALE FOR ASSUMPTIONS

1. Prescribed Assumptions: The Interest Rates and Mortality Assumptions are prescribed by the IRS and/or Plan Sponsor elections.
2. The Retirement, Withdrawal, and Disability Assumptions were chosen based on industry experience.
3. The Expected Return on Plan Assets assumption was chosen based on discussion with the Plan Sponsor and on expected future experience.

In our opinion, the assumptions selected are not expected to have a significant bias. That is, the results shown should not be overly optimistic or pessimistic.

SUMMARY OF ACTUARIAL METHODS AND ASSUMPTIONS
(continued)

ASSET VALUATION

The actuarial value of plan assets is developed as the 3-year average of the plan assets based on the market value of assets as of the valuation date and the "adjusted value" of market assets for each of the two immediately preceding valuation dates. The adjusted value of assets at each preceding valuation date is equal to the market value of assets on such valuation date plus the net cash flow amount (including expected earnings on investments) for each following year up to the current valuation date. In this way, one third of the investment gain or loss over the preceding twelve months is recognized in plan assets immediately, and the other two thirds is deferred. Valuation assets are further limited to a 10% corridor around market value.

Expected Return on Assets – 6.00%

Valuation expected return on assets is mandated by PPA. The expected return for the actuarial value of assets, as well as the expected return on the market value of assets for ASC 960 and ASC 715 purposes is determined based on the assumption described below.

The return reflects the anticipated gross long-term rate of return on plan assets based on the Plan's current and expected future asset portfolio, as supported by the Plan's investment manager.
This reflects consideration of the following factors:

- Current yields of fixed income securities (government and corporate)
- Forecasts of inflation, GDP growth, and total returns for each asset class
- Historical and current investment data
- Historical plan performance
- Investment policy
- Effect of reinvestment
- Investment volatility
- Investment manager performance
- Investment and other administrative expenses paid from plan assets

PLAN SPONSOR ELECTIONS

The plan sponsor continues to use the default 3-segment yield curve with a four month lookback.

Effective with the January 1st, 2023 valuation, the plan sponsor has elected to use the Actuarial Value of Assets method.

Effective in 2023, the plan sponsor elected to use the Standard method to value liabilities for the variable premium calculation. This election may be changed at least five years after the election date. Please contact your actuary for further analysis.

ATTRIBUTION PARAMETERS

Attribution parameters determine how growth in the benefit formula is allocated to years of service.

Because the plan is frozen, there is no further attribution; all benefits are included in the accrued liability as of the valuation date.

ACCRUED AND VESTED BENEFITS

Vested benefits are based on the Plan Document vesting schedule based on years of service. Please refer to the Summary of Plan Provisions section of this report for requirements for particular benefits.

SUMMARY OF PLAN PROVISIONS

Effective Date	1/1/1966
Plan Year	01/01-12/31
Eligibility	
Requirements	Prior to January 1, 2008, any employee compensated on an hourly basis will be eligible to become a participant upon the later of January 1, 1984 or the date of commencement of employment with the employer. Effective January 1, 2008, any employee who is compensated on an hourly basis and is covered by a collective bargaining agreement will be eligible to become a participant upon the date of commencement of employment with the employer. Effective November 28, 2010, any employee hired after this date will not be eligible to participate in the plan.
Normal Retirement Date	First day of the month coinciding with or next following age 65 and the fifth anniversary of the date of participation.
Normal Retirement Benefit	
Benefit Formula	$36.50/month times years of credited service for terminations on or after December 1, 2013. Accruals were frozen effective January 1, 2020.
Maximum Annual Benefit	$280,000 for 2025 as adjusted per IRC Sec. 415 for retirement age other than social security retirement age and annuity form
Normal Form of Benefit	Life Annuity if single, 50% J&S if married
Optional Forms of Benefit	Life Annuity; 50%, 75%, and 100% Joint and Survivor Lump Sum if present value of Accrued Benefit is $5,000 or less
Optional Forms Conversion	50% J&S: 90% of Life Annuity +/- 0.5% for each year contingent pensioner is older/younger than the retiree 75% J&S: 86% of Life Annuity +/-0.6% for each year contingent pensioner is older/younger than the retiree 100% J&S: 82% of Life Annuity +/-0.8% for each year contingent pensioner is older/younger than the retiree The value of the options above cannot be less than 50% or greater than 98% of the Life Annuity.

SUMMARY OF PLAN PROVISIONS (continued)

Accrued Benefit	The normal retirement benefit based on the multiplier in effect on a participant's termination date and credited service to date
Early Retirement Benefit	Minimum Age: 55 Minimum Service: 10 Years Benefit Amount: Accrued benefit, reduced by 4.8% per year that benefit commencement precedes age 65.
Vested Termination Benefit	Upon termination after 5 years of service, the accrued benefit, reduced by 4.8% per year that benefit commencement precedes age 65
Disability Benefit	Minimum Service: 10 Years Benefit Amount: Computed on the same basis as the normal retirement benefit, considering service to the employee's date of disability retirement. Benefit commences three months after the first day of the month following disability retirement.
Death Benefit Before Age 55	Minimum Service: 5 Years Benefit Amount: A reduced 50% Joint and Survivor annuity, computed on the same basis as an early retirement benefit. Benefit is deferred until the participant would have attained age 55, although a further reduced amount may be payable earlier.
Death Benefit After Age 55	Minimum Service: 5 Years Benefit Amount: Such eligible participant may elect to be covered by a 50% joint and survivor pension in the case of death before retirement. The coverage charge is ½% of the accrued benefit otherwise payable at retirement for each year the death benefit coverage is in effect. If coverage is elected, the benefit is payable on the first day of the month following the participant's death.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
