Independent Auditor's Report

To the Plan Administrator
American Geophysical Union TDA

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of American Geophysical Union TDA (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements may have been affected by these conditions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements were available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, line 4i – Schedule of Assets (Held at End of Year) and Schedule H, line 4a – Schedule of Delinquent Participant Contributions are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Notes to Financial Statements

December 31, 2025 and 2024

Note 1 – Description of Plan

The following description of American Geophysical Union TDA (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General
The Plan is a 403(b) defined contribution plan established by American Geophysical Union (the Plan Sponsor, Plan Administrator and AGU), for the benefit of eligible employees of AGU. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as well as certain provisions of the federal income tax laws.

All employees of AGU are subject to the following eligibility requirements, as defined in accordance with the universal availability standards:

- Age: None
- Service: 0 months
- Status Exclusions:
    a. Employees who normally work less than 20 hours per week

Upon satisfying the eligibility requirements, employees may participate in the Plan immediately upon eligibility.

Contributions
The Plan is funded through employee elective deferrals. Each year, participants may elect to contribute a portion of their compensation, subject to certain maximum limitations imposed by Section 402(g) of the IRC. At the discretion of the Plan Administrator, participants may be permitted to deposit or "rollover" into the Plan distributions they have received from other plans and certain Individual Retirement Accounts (IRAs). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants who have 15 years of service or more may be eligible to make a special 403(b) catch-up contribution subject to certain limits.

The following contribution types are allowed by the Plan:

- Rollover contributions
- Elective deferrals
- Roth contributions, effective February 5, 2024
- Qualified Non Elective Contributions (QNEC) from the Plan Sponsor

The Plan has an automatic enrollment provision (2% salary deferral) whereby employees must elect out of the Plan if they do not wish to participate. The Plan does not include an automatic deferral increase feature.

Note 1 – Description of Plan (Continued)

Participant Accounts
Each participant's account is credited with the participant's contribution, and Plan earnings or losses and charged with an allocation of administrative expenses that are paid by the Plan. Allocations may be charged based on participant earnings, account balances, or specific participant transactions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately 100% vested in their elective deferrals including catch-up contributions, rollover contributions from other plans, QNEC contributions, and actual earnings thereon.

Investment Options
Upon enrollment in the Plan, a participant may direct the contributions made to the Plan, to any one or more of the investment funds determined at the discretion of the Plan Administrator and Plan Sponsor and in such multiples as the participant prescribes. A participant may change his or her investment direction with respect to future contributions or redirect the investment of his or her account balances.

Notes Receivable from Participants
Participants who are active employees may borrow against their vested account balances a minimum of $1,000 up to a maximum equal to the lesser of 50% of their vested account balance or $50,000. The loans, in the form of promissory notes, are secured by the balance in the participant's account, and bear interest at reasonable rates, which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably directly to TIAA and CREF and generally repaid within 5 years.

Plan Loans
Loans are issued directly from funds owned by Teachers Insurance and Annuity Association (TIAA) and the College Retirement Equities Fund (CREF), and not directly from a participant’s account. For all Plan loans, interest and principal is paid by the participant directly to TIAA and CREF. Plan loans are not considered investments of the Plan and therefore are not reported in the statements of net assets available for benefits. Adequate security is required, and a portion of the participant’s account balance is reserved, or held in collateral, to cover 110% of the outstanding loan in case of default. The interest rate is determined by TIAA and CREF and may be fixed or variable, and the initial rate is determined by the terms of the controlling contract, as is the rate adjustment details and frequency. The outstanding amount of plan loans as of December 31, 2025 and 2024 was $25,161 and $24,331, respectively. The interest rates on outstanding loans ranged from 4.0 to 6.64% at December 31, 2025 and 2024..

Note 1 – Description of Plan (Continued)

Benefits Paid to Participants
Upon termination of service, disability, or retirement, a participant is entitled to receive a distribution equal to the value of the participant's vested interest in his or her account. Distribution of a deceased participant's account will be made to the designated beneficiary.

The following types of distributions are also allowed by the Plan:

- Hardship
- In service
- Rollover source withdrawal at any time
- Purchase annuity contract with account balance
- Involuntary cash-outs
- Termination partial withdrawal

Plan Expenses
The Plan's expenses are paid by either the Plan or AGU, as provided by the plan document. Expenses paid directly by AGU are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment-related expenses are included in net appreciation (depreciation) in fair value of investments.

Termination of the Plan
Although it has not expressed any intent to do so, AGU has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would receive the value of their accounts. AGU will direct the distribution of the participant's account in a manner permitted by the Plan as soon as practicable.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates
The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 – Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition
Investments are reported at fair value (except for any fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments, including realized gains and losses on sales during the year and current changes in unrealized appreciation (depreciation) in the market value of investments held at year end, is presented in the statements of changes in net assets available for benefits.

Contributions
Contributions from Plan participants and employer contributions, if any, are recorded in the year in which the participant contributions are withheld from compensation.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make scheduled repayments and the Plan Administrator deems the participant note receivable to be in default, the participant note receivable balance is reduced and a benefit payment recorded.

Payment of Benefits
Benefits are recorded when paid.

Subsequent Events
Subsequent events were evaluated through October 14, 2026, which is the date the financial statements were available to be issued.

Note 3 – Certified Investments

Certain information summarized below related to the accompanying financial statements and ERISA-required supplemental schedules was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA and CREF, the insurance company of the plan, including on behalf of TIAA Trust, N.A. for mutual fund investments recordkept by TIAA and for which TIAA Trust, N.A. serves as the trustee.

	2025	2024
Investment values certified	$ 28,792,327	$ 24,914,781
Notes receivable from participants certified	$ 116,382	$ 43,368

	Year ended December 31, 2025	Year ended December 31, 2024
Investment income certified:		
Net appreciation in fair value of investments	$ 3,367,107	$ 2,400,270
Interest	$ 83,061	$ 86,438
Dividends	$ 694,734	$ 418,757
Interest income on notes receivable from participants certified	$ 6,503	$ 3,461

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 4 – Fair Value Measurements (Continued)

- Level 2: Inputs to the valuation methodology include:
    - Quoted prices for similar assets or liabilities in active markets;
    - Quoted prices for identical or similar assets or liabilities in inactive markets;
    - Inputs other than quoted prices that are observable for the asset or liability; and
    - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

    If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Mutual Funds
Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end based on quoted market prices.

Traditional Annuities
Certain TIAA Traditional Annuities are considered non-benefit fully responsive fixed annuity contracts. These TIAA Traditional Annuities guarantee principal and a specified interest rate, with the opportunity for additional amounts determined annually by TIAA's Board of Trustees. Certain restrictions limit participant access to funds based on the type of contract held. The fair values of the Traditional Annuities are estimated using the contract value. The contract values equal the accumulated cash contributions, interest credited to the contracts, and transfers, if any, less any withdrawals and transfers. These investments are not available for sale or transfer on any securities exchange and therefore, transactions in similar instruments are not observable. Upon a distributable event, the participant surrenders the future accumulation benefits in exchange for a cash payout based on the contract value, demonstrating the contract value can be monetized when a distributable event occurs.

Note 4 – Fair Value Measurements (Continued)

Variable Annuity Funds
Variable Annuity funds consist of TIAA and CREF accounts. The funds are SEC registrants under the Investment Company Act of 1940 as open-ended diversified management investment companies. Each fund determines its share price or NAV each day using market quotations or prices obtained from an independent pricing source to arrive at fair value, except for the Money Market account, which is valued at amortized cost. Accumulation units in these accounts are available for transaction at the closing accumulation unit value on any day the New York Stock Exchange is open for business. In an effort to reduce market timing and excessive trading, shareholders will be locked out of a fund for 90 days if a purchase, sale and repurchase value within that fund is made within a 60-day period, other than for the Money Market accounts.

Real Estate Pooled Separate Account
The TIAA Real Estate Account (REA) is a pooled separate account that invests mainly in real estate and real estate-related investments. The REA's value is principally derived from the market value of the underlying real estate holdings or other real estate related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. The REA sometimes holds securities as well. These are generally priced using values obtained from independent pricing sources. Unit values for the REA are calculated each day. Accumulation units in the REA are available for transaction at the closing accumulation unit value on any day the New York Stock Exchange is open for business. Transfers out of the REA are limited to one per calendar quarter. Although the underlying assets of the REA cannot be quickly sold and converted to liquid assets, the TIAA general account provides the REA with liquidity guarantee. The REA is valued using the net asset value (NAV) of units held by the Plan at year end. The NAV is determined by TIAA and CREF and is based upon the fair value of the underlying assets held by the fund.

Note 4 – Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	2025	2024
Level 1		
Mutual funds	$ 18,080,917	$ 15,174,758
Variable annuity contracts	8,182,157	7,264,711
Level 2		
Pooled separate accounts	439,595	443,469
Level 3		
Insurance company general accounts - non-benefit responsive	56,061	79,555
Total investments at fair value	$ 26,758,730	$ 22,962,493

There were no transfers into or out of Level 3 during the years ended December 31, 2025 and 2024. Additions from purchases were $51,199 and $70,540 for the years ended December 31, 2025 and 2024.

Note 5 – Fully Benefit-Responsive Investment Contracts

The Plan invests in fully benefit-responsive guaranteed investment contracts (GICs) with TIAA and CREF. These contracts meets the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

The following represents the disaggregation of investment contracts held by the Plan:

	2025	2024
Traditional investment contracts	$ 2,033,597	$ 1,952,288
Total Fully Benefit Responsive Investment Contracts	$ 2,033,597	$ 1,952,288

Note 5 – Fully Benefit-Responsive Investment Contracts (Continued)

The traditional investment contracts held by the Plan are guaranteed investment contracts. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established in a contract between the Plan and the contract issuer, which will not fall below 0%. The crediting rate is reviewed annually for resetting. Additional interest may be declared on an annual basis by TIAA.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code.
2. Premature termination of the contracts.
3. Amendments to the Plan documents (including complete or partial Plan termination or merger with another plan).
4. Changes to the Plan's prohibition on competing investment options.
5. Bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

Note 6 – Related Party Transactions and Transactions with Parties-in-Interest

A related party is any party who can control or significantly influence Plan management or operating policies. Parties-in-interest are defined under DOL regulations as any employees of the Plan, fiduciaries of the Plan, service providers to the Plan, the employer whose employees are covered by the Plan, and certain significant owners of the employer and their relatives. Service providers may include, but are not limited to, the custodian, trustee, third-party administrator (TPA), investment managers, investment advisors, legal counsel, and Plan auditor.

The Plan's investments include fixed and variable annuity contracts managed by TIAA and CREF. Due to the relationship between the Plan and TIAA and CREF, investment transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules of ERISA.

During the year ended December 31, 2025 and 2024, the Plan made direct payments of $45,841 and $39,536 to certain parties-in-interest for administration and investment advisory fees, as allowed by ERISA. The Plan Sponsor pays directly any other fees related to the operation of the Plan.

Fees incurred by the Plan for the investment management services are included in the net appreciation (depreciation) in fair value of the related investment, as they are paid using investment earnings rather than a direct payment.

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is, at least, reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8 – Tax Status

The Plan sponsor adopted a plan which received a favorable opinion letter dated April 29, 2025 which states that the Plan is designed in accordance with Section 403(b) of the Internal Revenue Code (IRC) and is, therefore, not subject to tax under present income tax law. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator has indicated that it will take the necessary steps, to bring the Plan’s operations into compliance with the IRC and therefore believes there are no matters that might adversely affect the Plan’s qualified status.

Note 8 – Tax Status (Continued)

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not, based on the technical merits, would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2025 there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Generally, the statute of limitations for the IRS to assess taxes on a plan expires three years from the due date of the return or the date on which it was filed, whichever is later.

Note 9 - Prior Period Information

Effective for plan years beginning on or after January 1, 2009, the Department of Labor has issued regulations that eliminated special limited reporting for Code section 403(b) plans. Prior to the 2009 plan year, the Plan was not required to file audited financial statements with its Federal Form 5500. As the Plan has been in existence since 1981, but was not previously audited, there is limited information available to support the historical balances within the Plan's financial statements. The employee files available for Management to use in verifying the completeness and accuracy of the Plan’s financial statements are not complete prior to January 1, 2009. Older information for current plan participants, including both current and former employees, is not available. Management has prepared these financial statements using all information available, but due to the lack of historical records, cannot determine that all accounts for periods prior to January 1, 2009 have been completely and accurately presented.
